THE JUNIOR HOP.
The J hop is over. The great social event of the year, the event which was worked forward to in anticipation or back upon with pleasant memories was held by the Class of '10 at the Masonic Temple at Lansing, Friday evening, Feb. 12. From all sides comes the statement that this was the closing of a season of entertainment, completeness of detail, the exactness and harmony with which the organization of the evening was arranged, was genuine pleasure, the last must be acknowledged the acme of excellence ever attained in a J hop at M. A. C.

The guests, including an unusual number from out of town, gathered at the temple at 4 o'clock in the afternoon, and an informal reception was held until 5 o'clock, when the six-course banquet was served by the ladies of the Class of '10. Four Father in the banquet rooms. The dinner hall was simply but artistically decorated with red and white bunting, palm sprays, and potted plants. The guests were seated at fourteen rectangular tables and the diners were scattered in various places through the hall. President T. A. Jordan was toastmaster and the following toast was given by him:

"The Trip of Japan?" Mr. G. A. Barcroft; "Book of Psalms," Mr. Robert F. Hotaling; "Flag of Argoes," Miss Welmina Bates; and "Revelations," Mr. L. George Johnson.

Dancing began at 5 o'clock and continued until 1:30 a.m. The hall was a bower of bunting, greenery, and picturesque decorations rarely ever equalled in elaborations and beauty. Over the arch of the stage were crepe paper in various colors, which spelled "M. A. C." and the class numerals, "1910." These lights were turned on and off in accordance with the music, and all the guests were present.

The evening was divided into twelve booths, where pillows, college pennants, and easy chairs were arranged for the comfort of the dancers during intermissions. At the west end, a red lighthouse stood and near it, a spotlight was thrown up by the two lighthouses turned on by the natural end of the hall. Punch was served from a prettily decorated alcove in the southwest corner of the hall.

The grand march which was written for the occasion by Charles Drew, '10, was led by President T. A. Jordan, Miss Hazel Beard, '08, Miss Bessie Allen, Vice President, and Mr. Howard Walker, with '10. At the end the seventy-three couples formed the number 10.

Several special dances were a feature of the evening, Finzel's orchestra having a variety of charming music at its command. Among the dances were the "Strand," "Blue Points" and "Rose," the latter a feature dance which was especially well received as well as several songs by Mr. Harvey Willison including the Alona Mater song.

The invited patrons were Pres. and Mrs. W. H. Wallace, of Saginaw, and Mrs. C. L. Brewer, Prof. and Mrs. H. K. Volder, Prof. and Mrs. W. F. Uhl, of Lansing, and Dean Maud Gilchrist.

The usual appointments at the rooms of the pleasure enjoying Juniors were carried on, but most were wise enough to spend the return trip in the dancers' bower of bunting, greenery, and the value of human lives, the party was without incident to mar its success.

STATE CONVENTION NAMES CANDIDATES.

At the republican state convention at Grand Rapids last Friday evening, W. H. Wallace, of Saginaw, and J. B. Carpenter, of Grand Rapids, for four years, and W. L. Carpenter, of Detroit, and W. J. Oberdorffer, of Stephens' Field, were re-elected by the Juniors. The committee of the present board the candidates who were re-elected are all members of the present board.

If the candidates nominated are elected on the ballot selection the new board this spring is brought about by the provisions of the new constitution. Formerly the board was apportioned by the governor and originally consisted of six members. Under the new provisions of the Constitution, the governor may be represen­ted. The new constitution provides for six members without stipulating as to location.

Aaron P. Bliss, of Saginaw, whose term expired this year, and Thomas F. Marston, of Bay City, whose term under the old regime would have expired in 1911, were not candidates for re-nomination.

Among those present were: John C. Monroe, '97, and H. W. Prudden, '02. "Lincoln Centenary.

"Lincoln and the Soldier," was unable to present, but Dr. Beal gave a few reminiscences of the time, a few incidents connected with the assassination. At that time he was a student at Harvard, as was also R. C. McKinley, son of the president. He also mentioned a few facts concerning the life and works of Chas. Darwin, whose birth was commemorated with Lincoln.

Rev. F. W. Corbett of the East Lansing church delivered the invocation and pronounced the benediction, and the music which consisted of patriotic songs was led by the M. A. C. chorus.

The services were called for one o'clock in order that Congressman McKinley might reach Grand Rapids in time to address the Lincoln club at the banquet that evening.

MICHIGAN SATURDAY AFTERNOON.

UNIVERSITY BASKET BALL TEAM PLAYS HERE.

The University of Michigan basketball team plays here Saturday afternoon. This is a change from the usual arrangement, whereby teams play evening games when they play in the local floor.

Many changes have been made in the Michigan line-up since M. A. C. defeated them early in the season. They have several fast men in the lineup and ought to give the locals a scrappy game, as they have been playing good basketball all season. Several of the best teams of the state have been defeated by the University players and the game will rank well up among the best.

Preceding the big game, the semi-final championship games played. The Seniors played the Juniors; the Sophs played the Freshmen. The first preliminary will begin promptly at 3:30 and the "varsity" game will be called at 4:15.

THE CHICAGO BANQUET.

The Thirteenth Annual Banquet of the Chicago M. A. C. Alumni Association was held at the Lakeside restaurant, corner of Clark and Adams street, Saturday evening, Jan. 29. The weather was exceedingly unpropitious for the event, a blinding snow storm raged all day, greatly interfering with traveling on both steam and electric cars.

Dr. Beal had been invited to represent the college, and though he left Lansing early in the day, it was late in the afternoon before the train reached Valparaiso, Ind. He realized it would be impossible to reach Chicago in time for the banquet, and decided to return home by the same train, reaching Lansing late the following day. His not being able to be present was a disappointment to the older graduates, who looked forward with some pleasure to renewing acquaintances with their old teacher.
many of whom if not compelled to drop out for one or more years to earn money to continue their college course, have been men of small means. One of the great sources of pride of the institution is that it has been the making of the poor boy, and in our present period of prosperity we must not forget that along this line lies a great opportunity. Any assistance then that may be given to a needy and deserving student can but enhance the reputation of the institution which has made it possible for a large class of very limited means to secure a college education.

Another feature which is being worked out by the appreciative alumni of some institutions is the founding of a hospital fund for the relief of poor students falling ill or who meet with accidents while in college. Under the M. A. C. Hospital system, these expenses are very low yet often a few weeks illness means the loss of a year's work to a student who must pay his own expenses. In some institutions these funds are loaned the same as out of the regular relief fund. In others, the fund is in the form of an endowment the interest of which might be erected and at the same time many valuable students might be assisted who will look back with reverence to the class whose generosity assisted him in completing his college course.

STUDENT ELECTION.

But little interest was shown in the student election Saturday, the total number of votes being something less than 300 as against nearly 450 last year. There was little little rivalry for the classes. G. G. Johnson was chosen football manager, H. H. Harrison baseball manager, G. H. Allen football, A. L. Campbell basketball manager, and R. A. Turner tennis manager. As members of the board of control the seniors elected C. J. Oviatt and G. A. Bignell; the juniors, P. G. McIntosh and B. E. True; the sophomores, H. L. Baker and D. D. Wood, and the freshmen, L. C. Exelby and J. E. F. Capon.

C. T. Taylor was elected Editor in chief of the student paper; J. O. Linton, Business Manager; R. P. Holdsworth, Associate Editor in Chief and Johnie Johnson, Assistant Business Manager.

The following is the vote cast for team managers and officers of student organizations:

Football Manager—G. G. Johnson 102.

Assistant Business Manager.—Johnie Johnson 113. C. E. Waterman 69. L. T. Barrett 58.

During the week end following the junior hop Miss Marckhan, of Alma, and Miss Geedles, of Chelsen, were entertained at the Eclectic House.

The stereopticon lecture by Chas. W. Ward, scheduled for last Tuesday evening, and the presentation postponed, will be given in the chapel this evening.

J. A. Waldron, C. D. Mason and A. L. Campbell of the college freshman class were put through the public initiation incident to their election to the Alpha Zeta Chi fraternity yesterday. Their duties consisted in acting as sentinels at the doors of the president's and secretary's offices, shoveling snow from the walks, etc. The ritualistic ceremonies will be administered tonight.

An illustrated lecture on Yellowstone Park will be given at the chapel Friday evening at 7:30 for the benefit of the college and community by Mrs. Eila Kedzie, Mrs. Kedzie gave the lecture before the East Lansing Flaming club last week and was asked to repeat it for the benefit of the public. During last summer Mrs. Kedzie spent some time at the park and speaks from actual observation.

Nos. of unusual brilliancy will be used.

"OLD WELLS"

Boys Dormitory. Burned Feb. 11, 1906. It contained rooms for 151 students, two small boardroom suites, and two suites of society rooms.

"NEW WELLS"

Standing on the site of "Old Wells." It contains rooms for 198 students, a boarding club to accommodate 30 students, and six suites of society rooms.

ABOUT THE CAMPUS

The next preliminaries for the Ypsilanti debate will be held Feb. 10.

The annual banquet of the New England Alumni Association will be held at Boston March 5. President Snyder will represent the college.

C. A. Ross, ’11, who recently received a preliminary appointment to West Point, and who took the examination at Columbus last month received a telegram Thursday to report at West Point, March 2.

Notre Dame basketball team defeated Detroit A. C. team Tuesday night, but were defeated by the Buffalo Club at Buffalo the following night. During the game Stancel had his ankle sprained, and was forced to retire.

A good likeness of Coach Brewer, with an article praising his work as basketball referee, appeared in Monday morning’s Free Press. Detroit teams consider Mr. Brewer as the best referee in the state, and selected him to officiate in the D. A. C.-Detroit “Y” game, which was played last night.

On Saturday afternoon Mr. and Mrs. C. C. Wood, of East Lansing, entertained the Sororion literary society with a delightful valentine party. After playing original games appropriate to the day, the guests were served with dainty refreshments in the heart-beckoned dining room, where every one received a fortune full of rosy promise for the future.

Instructor Baurknight is ill at his home east of the college.

A student’s trunk awaits its owner at the office of Christman & Co. at the new Agricultural Building.

Suggestions for naming the student paper should be handed in to the editor-elect early this week.

The first issue will appear about March 1.

Mr. P. M. Chamberlain (M. A. C. ’88), now with the Jones Underfeed Stoker Co., of Chicago, will speak at the engineering society meeting tonight on the Combustion of Fuel.

Princeton Alumni raised $145,000 to meet the anticipated deficit in the general funds of the university for last year. The estimated deficit was $145,000, which the alumni more than made good.

The electrical department has recently received from the Detroit Edison Co., of Detroit, a present of nine electric meters of various types for use in the laboratories. This present was made at the instigation of Mr. E. J. Gannison, ’92.

“Resolved, That co-education should be abolished from M. A. C.” was the subject of a debate given at the Eclectic Society, meeting Saturday night. The positive side was upheld by Mr. Hubert Pratt, ably assisted by Mr. G. G. Cover, but it was lost to the negative, composed of Mr. Lee Boyd and Mr. Carl Gay.

The creamery and poultry short course students were entertained at the home of Dean and Mrs. Shaw last Thursday evening.

One hundred fifty two students were dropped from Cornell University for last year. The estimated deficiency was $145,000, which the alumni more than made good.

The winter session of the Michigan Horticultural Society will be held at Lapeer, March 2 and 3. Programs may be had by addressing C. E. Bassett, secretary, Fennville, Mich.

The college this year for the first time will have a representation at the State Women’s Oratorical Contest, which will be held at Kalamazoo, March 5 in conjunction with the Michigan Oratorical Association contest.

Miss Shirley Gardner ’09 has been selected. There was no preliminary contest as aspirants for oratorical honors are few among the co-eds.

Arrangements have been made for a series of short talks of special interest to the short course men which will be given in the chapel Friday afternoon beginning at 2 p.m. Secretary Brown will speak on the Relation of the Farmer to the Law. Mr. Blisdel will speak on What to Read and How to Read, and Mr. Collingwood will give an oration appropriate to the day. There will be special music. While the program is specially designed for short course men a cordial invitation is extended to the college community.

Dr. Warren C. Cotter has left, by the terms of his will, $5,000 to Harvard university.

Lost—Small gold watch, on or about the campus; probably in the engineering building. Finder please leave at library.

C. R. Collingwood will speak at the horticultural club Wednesday evening on “Fifty Years of Experiment Station Work.”

Director Baird has again made good at the L. of M. by securing from Minnesota a contract for a football game next season. This will be the first game with that university since the fall of 1903 and practically means the end of the boycott of Michigan by the western conference.

An article appearing in the Detroit papers and largely copied throughout the state to the effect that Notre Dame played a professional, one Daniels under the name of Vaughn in the basketball games both here and at Detroit last week proves without foundation. According to Director Brewer the statement is a mixture of truth and falsehood. Daniels is a Notre Dame base ball player who had the charge of professionalism preferred against him. He does not, however, play basket ball. On the other hand, Vaughn is a freshman, a foot ball, basket ball and track star but does not play base ball. The defeat of the M. A. C. and Detroit Y. teams was fair in every way.
THE M. A. C. RECORD.

THE TECHNICAL CLUBS

Brief Reviews of the Meetings

ENGINEERING SOCIETY.

Mr. Nelson of Grand Rapids, and a member of the class of '96, spoke last week on the subject of logical surveys. He explained how the lay of the land affects the water supply and the disposal of sewerage, ending with a description of the Septic Tank which will soon be required by law to be used in all cities.

Mr. Chamberlain, class of '88, of Chicago, will give an illustrated lecture tonight on the combustion of fuel.

HORTICULTURAL CLUB.

"Morphology of the Pome and Drupes," by Mr. Postiff, and "Prices of a score of grains," by Mr. C. B. Smith, constituted the preliminary talks at the meeting of the Horticultural Club.

Dr. C. E. Marshall delivered an address on the relation of the agricultural and scientific investigations. The speaker emphasized the fact that since every individual has a limited sphere of usefulness, it is in the agricultural world that numerous farmers will not consider recent scientific developments. Whether the farmer is a scientist depends in a measure upon his definition of science. Huxley's masterful definition that science is nothing more than the application of common sense to every day routine undoubtedly includes the farmer within its scope.

Having shown that a farmer should by all means consider himself a scientist and work accordingly, Dr. Marshall defined the classes of farmers and gave them today.

1. Art farmers, or those who have a grasp of underlying principles and make them a basis for the necessary work for his bachelor degree.

2. Scientific farmers, or those who patronize us, and students will take pains to patronize those who patronize us.

DEFEATED BY DETROIT "Y."

The Varsity team met defeat Thursday night at the hands of Detroit with the score of 25-18. The game was played under A. A. U. rules, and satisfactory results were obtained.
