WAUBASH VS. M. A. C. SATURDAY, OCT. 16.

THE COMING EVENT OF THE YEAR.

The appearance of Waubash on the gridiron across the river marks the moment long looked forward to by the students, alumni and friends of the college. October 16th is anticipated as the day of excitement, and all the old "war horses" are expected.

Each of the two previous games have been played on the home field and have been of intense interest. Last year, it was won from the visitors on a forward pass from the 25-yard line, winning for us six points, the only score made during the game.

Within 30 hours after the sale of seats opened 3,000 had been disposed of, and no more could be bought. Several members of the faculty and a few students who had been late in deciding whether or not they would attend were disappointed when they finally concluded to go. Some of the literary societies took whole blocks of seats and will do so again this year.

Mr. Brewer is already in receipt of letters from alumni and friends from Chicago and other distant cities, who desire to be in the yard line, winning for us 6 points, the most liberal rates that have ever been charged by the College Athletic Bureau. The band led the college company. The people of the city of Saginaw have shown themselves to be extremely good entertainers. They have lived up the evening with some self as a critic.

"The Destruction of Our Natural Resources," and E. P. Wandel read their friends at an eleven o'clock "Agriculture in the Schools" is the that the people of the "Golden State.

Mr. R. S. Brown, '93, is in the department of agriculture at the agricultural experiment station, Davis, California. He is enjoying the work and is enthusiastic over the possibilities of the "Golden State.

Philip V. Goldenmith, Michigan Agricultural College, '07, has resigned his position as assistant chem- 1909. The local headquarters of the Association will hold its session in the city of Saginaw, Oct. 25-27, 1909. The local headquarters of the Association will be in the Hotel Jerome, Grand Rapids. E. Superintendent C. Warriner is local committee, and all inquiries regarding accommodations should be addressed to him.

The meeting of this Association is made a State Teachers' Institute by appointment of the Superintendent of Public Instruction, and therefore all teachers are entitled to their time for attendance, also to receive their regular compensation for such time.

The evening session of the association will begin at 7:30 p.m. Oct. 25, and Dr. Henry S. Voorhorst, Acting President of the College for the Advancement of Teaching, will deliver the principal address. The citizens of Saginaw will tender an entertainment to the teachers by the Robertson Play- ers. The first entertainment will be given at 3:30 p.m. on Thursday, and the division of the entertainment at eight o'clock the evening.

The following speakers for the general sessions have been secured: Friday afternoon addresses will be given by Professor W. H. Mace, of Syracuse University, Professor Earl Barnes, University Extension Lecturer of Philadelphia. On Friday evening addresses will be given by Dean Eugene Davenport, of the University of Illinois, and Rabbi Emile G. Hirsch, of Chicago. On Saturday morning President John Finley, of the College of the City of New York, will give the closing address of the association.

Friday afternoon will be given over to the meetings of the above sections of the State Association. Eminent speakers have been secured for all of these sessions. Several of the general session speakers will address section meetings as follows: Professor Mace, the general section; Professor Barnes, the primary and kindergarten sections; Dean Davenport, the rural section; and Mrs. M. F. Johnson, president of the Art Association, will address the high school section. On Fri- day evening before the lectures, the Association will be tendered an organ recital by the auditorium.

All railroads have granted reduced rates as follows: For the lower peninsula one and one-half miles, with sailing dates, Oct. 25, 26, 27, 28 and return November 17. For all points in the upper peninsula the same rate of one and one-half fare is given, and the tickets are sold one day earlier and have a return limit not later than these are the most liberal rates that have ever been given to the teachers of the state. The people of the valley of Saginaw have shown themselves to be extremely good entertainers. They are determined to see that the teachers may come, and we hope to tax their hospitality to the utmost.

WALTER H. FRENCH, Pres.
Chairman of the Isthmian Canal Commission, on "Engineering and Construction Features of the Panama Canal." The paper was presented by the author's son, Lieut. G. R. Goethals, U. S. A., who has been trained in the construction of the canal. The paper deals at length with the Gatun dam, the locks and the Culebra cut, and gives statistics of performance and details of difficulties encountered. Lantern slides were used as the means of presentation. As a special compliment to the author, as well as recognition of the value of the paper, it will be published in full in the Proceedings of the Association (each section is granted space for one paper).

"The National Transcontinental Railroad," by Mr. Duncan McPherson, was read by the Secretary. The railway will eventually be part of the Grand Trunk system. The eastern division, from Montreal, N. S., to Winnipeg, Man., is being constructed by the government and will be connected to the Grand Trunk Pacific Ry. The latter corporation is constructing the line from Winnipeg to Prince Rupert, B. C. On the extension of the line, the maximum curve is 6, and maximum grade 0.54 per cent, and the line is free from curves.

The transmission line will be of aluminum, supported on steel towers. The estimated cost of the undertaking is $65,000,000, of which 20,000,000 will be in connection with the power-generating plant, and 15,000,000 will be for the transmission line. The available head is 45 ft. The generator units are of 3,000 H. P. capacity each, and 3500 H. P. will be installed at present. The transmission line will have a length of 6,000 miles, which will be stepped up to 60,000 volts. The power-generating plant will be direct-connected to the transmission line.

Lt. Col. W. P. Anderson, chief engineer of the department of transportation, presented a paper on "The Isthmian Canal." The paper was pre

duced by the author, as well as recognition of the importance of the paper, it will be published in full in the Proceedings of the Association (each section is granted space for one paper).

"The Development of the Grain Industry of Western Canada and its Future Possibilities," by paper by Mr. G. H. Haworth and "The Grain Handling" by Mr. W. B. Lamiguin, opened the eyes of the audience to the vast magnitude and grandeur of the grain business in Manitoba and the other western provinces. The industry is in a continual surge even with the support of the United States, and the extent of unshipped and processed grain is overwhelming. In 1908, the three provinces of Montana, Saskatchewan, and Alberta produced 10,000,000 bushels of wheat, 188,000,000 bushels of oats, and 24,000,000 bushels of barley. The Grand Trunk system is being extended to the west, and the railway is being extended to the west.

Mr. G. Harcourt and "Grain Handling" by Mr. J. B. Porter, of McGill University, made a preliminary investigation of the grain business in the western provinces. The industry is rather remarkable when the present per capita takings, is evidence of the city's enterprise and faith in its future, which is rather remarkable when the present per capita takings, is evidence of the city's enterprise and faith in its future, which is rather remarkable when the present per capita takings, is evidence of the city's enterprise and faith in its future, which is rather remarkable when the present per capita takings, is evidence of the city's enterprise and faith in its future, which is rather remarkable when the present per capita takings, is evidence of the city's enterprise and faith in its future, which is rather remarkable when the present per capita
A CONSTANT STREAM OF NEW THINGS
CHARMING, EVERY ONE OF THEM

We started this fall with an even more extensive showing than ever before. As you glance over hundreds of styles you will quickly see that the tendency toward closer fitting garments and coat dress effects; also that the dominant feature in everything is the Moyen-Age Effect—the neatest, oddest, most attractive style introduced to years. Colors were never prettier, and there are enough fashionable shades for everyone to find a becoming one. There seems to be almost a passion for all tones of Violet, from the deepest purple to the softest shades of Lavender. Raisin is good; Catawba Blue, Black and Grey.

CAMERON & ARBAUGH COMPANY

We are now in position to show you the most complete line of Ladies’ and Gentlemen’s Fall and Winter Furnishings ever shown in this city. Nothing but latest and best find place here. Student patronage solicited.

ELGIN M. FFLIN

The Auroraum society will hold their fall term party Oct. 23 in the armory. Eads and Co-eds at the Scrubey reception Friday evening, 9 to 10, in the armory. Better than ever.—The reception Friday evening, in the armory. Remember the date,—Oct. 15.

Found.—An Alpha Phi pin. Lost call at Prof. Marshall’s office. May have same by identifying same. Lost.—A bunch of keys, probably up town. Finder return to James A. Walbron or secretary’s office.

The Misses Gertrude Allen and Myse Bennett, of Grand Rapids, spent Saturday and Sunday with college friends. The Chrestomathean Club of the First Presbyterian church will give a reception to the students of the M. A. C. Friday evening; Oct. 15.

The Union Literary society will give their annual fall term party in the armory. A number of out of town guests are expected. Mary Allen, too, visited with college friends over the week end. Miss Allen has a position in the office. She took off her hat and sat down in happy content. "There was a young lady named Fitch who heard a loud snapping, at which she took off her hat and found that her rat had fallen asleep at the switch!"

J. J. Flanagan in a recent New York contest, threw the 16-pound hammer 180 feet, breaking his former world’s record by 5 feet. Flanagan was one of the Olympic stars in London during the summer of 1908.

Froment is constructing a $2,000 addition to her schoolhouse; manual and industrial work will be cared for in the light and well-fitted basement. Supt. A. R. Shigley and 14 assistants constitute the corps. A handsome announcement for 1909-10 appears with the educational clause of the "Ordinance of 1787" printed on its fly-leaf.

By close observation around the campus, the days of savagery are evidently not over, for last Sunday two well-known young ladies at the hospital, were seen splitting, or trying to split some wood. If this were the time of the lance and vistor, such things would not happen, but owing to the higher education of the age, the women think that they must have exercise and so perform the labor of the Pinte squaws. The young men of Lithibal Hall should see to it that our coeds are not to perform such menial labor hereafter.—Nevada Student Record.

"There was a young lady named Fitch who heard a loud snapping, at which she took off her hat. And found that her rat had fallen asleep at the switch!"

MARK TWAIN ON THE MOVE.

When Mark Twain was a young and struggling newspaper writer in San Francisco a lady of his acquaintance saw him one day with a cigar-box under his arm, looking in a shop window.

"Mr. Clemens," she said, "I always see you with a cigar-box under your arm. I am afraid you are not too rich."" It isn’t that," said Mark. "I’m moving again."—Woman’s Home Companion.

New Fall Separate Skirts
Over three hundred New Fall and Winter Skirts for your inspection—Voiles, Prisoners, and Fancy Mixtures.

PRICES, $5.00 to $15.00

ABOUT THE CAMPUS

THOMAS JEFFERSON ON PRIMARY EDUCATION.

In these days of widespread discussion of proposed changes in school courses, the purposes of elementary education as stated by Mr. Jefferson, will be of interest.

1. To give to every citizen the information he needs for the transaction of his own business.

2. To enable him to calculate for himself, and to express and preserve his ideas, his contracts and accounts in writing.

3. To improve, by reading, his morals and faculties.

4. To understand his duties to his neighbors and country, and to discharge with competence, the functions confided to him by either.

5. To know his rights; to exercise with order and justice those he retains; to choose with discretion the fiduciary of those he delegates; and to notice their conduct with diligence, with candor and judgment.

6. And, in general, to observe with intelligence and faithfulness all the social relations under which he shall be placed.

The demand for vocational training which is now so insistent, is strictly in accordance with the first object stated, interpreting it in the light of present day conditions.

When one looks on the glorious exhibits of fruits, grains and vegetable's displayed in the country and district fairs of pine belt Michigan, he sees a great rich future for the state.

A TOUGH HEAD.

Dinah, crying bitterly, was coming down the street with her feet bandaged.

"Why, what on earth is the matter?" she was asked. "How did you hurt your feet, Dinah?"

"Dat good fo' nothin’ nigger snuffle done hit me on de haid wif a club while I was standin’ on de hard stone pavement."—Every-body's.
The summary of the game is as follows:

The game was very fast football through hard shocks and were repeatedly injured, but these only added to the savagery of their playing.

At the end of the game the score was 20 and 5 minutes.

The decision of the game was characterized by more strength and fancy defensive work game.

The final score was 27 to 0.

M. A. C. Wins Both Games of the Week.

The summary:

Detroit College, Detroit, M. A. C., Kellner, Cosgrove, L. E. Shedd, Stone

Cortright—Q. Patterson, Hill, Davis—R. E.

Pattison, Hill, Davis—R. G

J. F. Campbell, Shedd, Stone—L. E.
