THE GREATEST GAME EVER PLAYED HERE.

Before the largest and most enthusiastic crowd that ever filed into the athletic field, the great Marquette University football team was outplayed and beaten 10-0, last Saturday. Soon after noon the throng, consisting of alumni and friends from all over the State, of gaily bedecked autos and ladies from Lansing, as well as our own cheering students, began wending their way toward the field, until by the time the game was called every seat in the big bleachers and grandstand was filled with a cheering, yelling mob.

The Marquette team was the first to appear. Soon the M. A. C. team came in view and was thundered the greatest ovation ever accorded an M. A. C. team. After a few moments of snappy practice, Reference Robbins called together Capt. McKenna and Capt. Manning for the choice of goals. The Marquette captain won and chose the south goal, giving his team the advantage of the slight breeze.

Capt. McKenna kicked off and during the first twenty minutes neither side seemed to have an advantage. Each seemed to be trying out the other, playing it safe and watching for a weakness. The ball was kept in Marquette's territory throughout, mainly by the use of the outside kick, the ball being recovered no less than three times during this half. After fighting on practically even terms, the first score came suddenly. Cornwell caught a short kick and ran back to the 35-yard line, two plays took it to the 20-yard line when J. F. Campbell took the ball and through an opening made by Shield, Lansing (Continued on page 4.)

COOK TELLS OF TRIP.

Owing to a lack of proper advertising the chapel on Monday morning was not filled to its greatest capacity to listen to Dr. Frederick A. Cook's account of his trip to the pole. The talk was appropriately preluded by an introduction by Dr. Blasstell.

Dr. Cook may have easily proved an alibi, nevertheless his short speech was repeated for the benefit of those who had misunderstood the evidence and no one doubts now but that Dr. Cook really made the trip. After the repetition Dr. Blasstell, who was in charge of the meeting, pressed the lever, took off the horn and placed the record into a large envelope to be returned to Grinnell Bros, while the crowd was leaving the room.

THE IDLERS.

The college girls' club known as the Idlers entertained their friends Saturday evening in the drawing room and hall of the engineering building. Several out-of-town guests were present. Dancing was the order of the evening.

The room previously arranged as a visiting room proved very inadequate owing to the larger attendance than was anticipated and was cleared for dancing. This too soon became too small and the long hallway was waxed and made commodious.

Music was furnished by one of the college orchestras, while Dean and Mrs. Bisell and Professor and Mrs. Wilson acted as chaperones.

SATURDAY.

The Forensic Society entertained their friends with an 8 o'clock dancing party in the assembly hall of the new agricultural building last Saturday evening. There were 55 couples present and each reported a very enjoyable evening. Prof. and Mrs. Halligan and Mr. and Mrs. G. I. Grev acted as chaperones. Katherine Bright and Edith Golden served punch during the evening.

ENTOMOLOGIST WANTED.

The United States Civil Service Commission announces an examination on December 15, 1909, to secure eligible to make certification to fill a vacancy in the position of entomologist in the bureau of science, Manilla, Philippine Islands.

The salary of this position is $1,000 per annum, but there is opportunity for promotion for a qualified person through vacancies brought about by resignation in higher positions. There will be ample time for investigation work in this position. Those persons in the bureau of science who have done research work have, in the past advanced quite rapidly. This appears to be an excellent opportunity for an entomologist who desires to make a name for himself and to publish interesting results. The bureau of science states that it desires a person with thorough entomological and zoological training, who is ambitious to do research work and who will be interested in tropical problems.

Any one desiring further information concerning this position will call on Prof. Pettit.

Mrs. Ray S. Moore, of Lansing, will sing in chapel Friday.

SOME OLD SPIRIT ARRIVED SATURDAY.

About five hundred alumni arrived here Saturday morning from various cities to see the M. A. C. play the greatest game in her history. In Grand Rapids the spirit ran highest, a special train arriving from there carrying about one hundred and fifty loyal routs. The excursion was organized by Mr. John F. Nellist, an old graduate from the college and now a civil engineer in that city. It was intended that they should come for the De Paul game, but this was postponed so that they might witness what promised to be a most snappy contest. It is needless to say that their hopes were gratified. The team left Grand Rapids about 8 o'clock and arrived here at 10:10 a.m. During the trip some old college experiences were discussed and some of the old time songs were indulged in, led by Mr. Nellist. After the crowd had left the train at the Pere Marquette station, the train was placed on the siding back of Wells hall. As a special train had been sent to Grand Rapids in the early part of the week, most of the alumni sat together on the north end of the west bleachers. They joined heartily in the songs and yells led by Carl Chapman, the old M. A. C. cheer leader. After the game it was a happy crowd and a somewhat noisy one that boarded the special at five o'clock and went back to Grand Rapids. The train reached home at 7 o'clock and a large party went directly to the Pontiac hotel where a little jollification was held in honor of the game.

W. W. Harris, Rochester, is a dealer in lumber at Allen, Mich.

FOOTBALL ELOQUENCE.

The Great Speech of Mr. Ade, Yale '07, to the Yale Football Team Just Before the Princeton Game in 1897.

The welfare of the game demands that the three great universities shall set high and strong standards by playing in the spirit of true gentlemen in word and deed. This spirit will become the best feature, the highest standard of the game, each eleven outstanding in other than trying to be great and honorable.

You are deserving of all praise both for practically defeating Harvard and for maintaining this spirit and standard throughout that glorious game of last Saturday.

Of course, you will maintain to-day.

The immortal words from Thucydides: "Each of the players ought to be in every player's heart, to grow threabor with his old canvas jacket and his memories of heroic deeds on the gridiron:—

Come wealth or want.

Come good or ill.

Let young and old accept their part.

And bear it with an honest heart.

Who misses or who wins the prize.

For every man is true but you.

If you fall or if you rise

Do or die like heroes and gentle men.

and may the God of battles crown the blue with victory.

HORTICULTURAL CLUB.

Although there was a large mass meeting the previous evening, still thirty three came out to the Hort. Club to hear Prof. Pettit, who gave a very interesting talk on "Colored Photography." This has been the goal of photographers for many years. Several processes have been invented which were more or less successful, but the only real success has been that of M. W. Luce & Sons, of Philadelphia. Their process, however, is incomplete, in that we cannot print on the line face. This is opposite to transparencies and lantern slides.

The theory can be briefly stated as follows: The Lomographic plates have a great many small color screens, made by staining starch paper with these screens in the rays of light in such a way as to give the natural colors after the plate is developed. Prof. Pettit has made quite a study of this phase of photography, and illustrated the talk with colored lantern slides of his own make, among which were the Library of Congress, the Yerkes Observatory, terraced gardens, autumn foliage and portraits. This process promises to be of great importance to the future horticulturists in preserving the natural colors of fruits, flowers and foliage.

At the close of the talk, an interesting collection of sub-tropical fruits was exhibited. These were collected around New Orleans by Mr. C. A. Reed of '07, who is a pecan specialist of the U. S. Department of Agriculture.

With '09.

Albert Thorne Swift, '09, is general manager of a large lumber company in Osaka, N. C. He has made a great success of the work so far, having made a great increase in the number of cars. Although he is here at present he is in rather poor health.

C. B. Waldron, '07, is professor of horticulture at the North Dakota Agricultural College. He went to that college in 1896.

G. C. Cramball, '07, is practicing medicine in St. Louis, Mo., and is a member of the faculty of the University. His address is 3053 Olive St.

With '08.

P. W. Neelson, '06, is with the Nickel Plate R. R. in the office of the engineer of grade elimination. He is working on the million and a half dollars grade elimination through Cleveland.

With '05.

Walter L. Hart is manager of the McAlen Nursery Co., McAlen, Texas.

S. B. Lilly, W. E. Piper and D. Moorman, all of '07, are instructing in civil engineering at Cornell University. Mr. Lilly has a daughter, born Aug. 23.

Ray L. Pennell, '07, has changed his address from South Haven to New Smyrna, Florida, care Alba Court.

B. B. Cise, '07, is with the Armour Co. at Birmingham, Ala., and Neal C. Perry, '07, is pianist in the Grand theatre in Mississipi, Mont. He spent the summer in this northern part of the state.

With '05.

R. V. Perrault is at Knightsstown, Ind., where he is on the engineering staff of the P. C. C. & St. L. R. R. in connection with double track work.

H. C. Sherman is drafting for the Macg Mfg. Co., Detroit.

G. W. Norton is drafting for the Central Engineering Co., Detroit.

J. D. Charlton is doing millwrighting in Astoria, Oregon.

A. L. Snyder is teaching in Wilbur, Wash. at the North Dakota State University.

With '05.

H. H. Harrison, '05, has spent the summer at Darrin inspecting sewer construction. He is at present at Athens, Mich.
We are now in position to show you the most complete line of
Ladie’ and Gentlemen’s
Fall and Winter Furnishings
ever shown in this city.

THE GREATEST GAME EVER
PLAYED HERE.

We are satisfied that it was our greatest game ever played in Michigan, and was witnessed by the most brilliant assemblage ever at the college. Lansing turned out a huge crowd of the best people; the ladies were beautifully gowned and filled with the enthusiasm of a typical football crowd. The scene, at the time of the first touchdown, was inspiring as the crowds arose and remained standing for several minutes, cheering and waving green and white roosters. The M. A. C. team, man for man, put up a wonderful exhibition of high class football. Marquette was outgamed, outfought and outplayed throughout. M. A. C. was much more powerful, but M. A. C. by her brilliant team work, gameness and aggressive playing, kept the powerful Marquette team on the defensive. A large share of the credit for the victory should be given to M. A. C.’s great line. From end to end they outplayed their opponents; constantly outmaneuvering them and opening up huge gaps for the man with the ball to go through. Moore, A. L. Campbell and Lemen formed a veritable stone wall in the center, protecting their back fenders and repelling all attacks at their position. Sherid at right tackle, by his handling of Hooskey, their big 210 pound right guard and opening up the big hole through which A. F. Campbell made the first touchdown and repeated long gains, was the principal factor in the offensive work of the team. The ends, Stone and Pattison performed brilliantly covering Captain McKenna’s long kicks perfectly; following the ball true and fast; and successfully defending their position against the attack of Marquette’s powerful backs. Cortright gave the best ex-

bition of quarter back work he has ever displayed; handling the ball quickly and fast, running back punts in excellent shape and directing the play of the team with good judgment. Barnett and Exelby gave a splendid exhibitions of defensive play, backing up the line with good judgment and also making substantial gains whenever called upon.

To Capt. McKenna, however, belongs the lion’s share of credit and glory. His splendid kicking, wonderful individual work in the center, protecting their back fenders and repelling all attacks at their position. Sherid at right tackle, by his handling of Hooskey, their big 210 pound right guard and opening up the big hole through which A. F. Campbell made the first touchdown and repeated long gains, was the principal factor in the offensive work of the team. The ends, Stone and Pattison performed brilliantly covering Captain McKenna’s long kicks perfectly; following the ball true and fast; and successfully defending their position against the attack of Marquette’s powerful backs. CROSS COUNTRY.

The annual fall cross country run was held last Saturday forenoon and was the largest in numbers of any fall run yet held. Twenty-eight men started, which promises well for the long distance season next spring. E. C. Sanford won in the good time of 16 min. 27 sec., Chamberlin being second. The regulation cross country jersey was given these two; white ribbons were given the first six to finish. The order of the first twelve to finish was: 1, E. C. Sanford; 2, R. G. Chamberlin; 3, K. W. Fasholt; 4, C. W. Holmes; 5, Martin Begeman; 6, K. Tabor; 7, F. H. Oldt; 8, C. V. Holmes; 9, Martin Martin; 10, B. E. Mooney; 11, M. Chamberlin being second. The finish was: 1, E. C. Sanford; 2, Ewing; 10, B. E. Mooney; 11, M. Chamberlin being second. The Westveld; 12, R. E. Duddles.

"Thine the fault, not mine," I cried,
"Mine, not thine, the fault," I said
With great crowds on every hand
And Fate arose and clasped my
