COSMOPOLITANISM A MOVE- MENT.

The Cosmopolitan Club had its first open meeting Saturday night. About two hundred persons from Lansing and the college were present. Besides other addresses and songs given by the local members, Mr. Kiyoshi Inui, a graduate of Michigan University, and lecturer on the subject of "Universal Peace," the "New Japan," etc., presented a message that will long be remembered by those who heard it. Mr. Inui is an eloquent and interesting speaker, and a firm believer in universal peace.

The national organization of Cosmopolitan clubs, of which the local organization experts appear to be a member, has for its motto, "Above all Nations is Humanity." Cosmopolitanism has been defined as democracy writ large. As exemplified by the spirit Saturday evening, it stands for more democracy in its broadest sense. It stands for universal brotherhood.

There is a group of nations represented in our local organization. It is composed of four Japanese, four Americans, two Jews, one Mexican, one Russian, one Indian, one Chinese, one Egyptian, and one Roumanian.

The program of the evening was as follows:

Opening Address by President—"Above All Nations is Humanity," Mexican National Hymn—Mexican Students.

The Political Situation in Russia—Cohan.

Jewish Song—Ellman (Other Jewish Students).

The Culture of Egypt—Osman Abdul Rasis.

"East vs. West"—Inui.

ELECTRICAL SHOW THIS WEEK.

The annual electrical show occurs this week, March 14th, 1910. The exhibition, which begins at six o'clock in the afternoon, and lasts until nine o'clock in the evening, is the second annual electrical show, and considerable interest is being manifested.

The object of these shows is educational. There is nothing to sell, but the department of electrical engineering cooperates with the manufacturers in showing various applications of electricity to industrial purposes. The show is carried on mainly by the students of the department. An important part of each show is an exhibition of the various types of illuminants, the applications of electricity to industrial purposes, and some uses of high tension electricity.

HORTICULTURAL CLUB.

Last Wednesday evening a large number gathered to greet their old friend, Mr. J. G. France, who graduated last June. Mr. Pratt was always an active member of the club, and at one time its president. He took the civil service examination, and after graduation, went to California to assist Uncle Sam with experiments on fruiting in the warm climate.

The first two months were working on lemons. He showed the club some photographs of the lemon industry, one of them being a panorama of the largest lemon ranch in California, consisting of 350 acres. It also contains some English walnut plantings.

The first of September he went to Lodi, Cala, where he worked entirely on the Tokay grape. More grapes are shipped from here than from any other place in California. The work of the government there consists of experiments on the packing of grapes so that they will reach eastern markets with the least amount of decay. The government plant at Lodi is so well managed that they can be sent anywhere in the United States at a minimum cost, and reaches eastern markets with the least amount of decay.

The exhibition each day begins at one o'clock, and the show is carried on mainly by the students of the department. An important part of each show is an exhibition of the various types of illuminants, the applications of electricity to industrial purposes. The show is carried on mainly by the students of the department. An important part of each show is an exhibition of the various types of illuminants, the applications of electricity to industrial purposes, and some uses of high tension electricity.

ALUMNI.

Geo. A. Farr, '10, is a lawyer and banker at Grand Haven, Mich. He is the senior member of the law firm of Farr & Farr.

P. N. Felker, '11, is president of the General Printing Company of St. Louis, Mo. His address is 1107 Morgan street, St. Louis.

C. L. Bonis, '11, is principal of the State Normal at West Virginia.

Emmer O. Luth, '12, is a farmer and fruit grower at Old Mission, Mich. He has been a farmers' institute lecturer since 1909.

H. E. Emmens, '10, resides at 286 W. Warren Ave., Detroit. He is a member of the editorial staff of the Standard Dictionary.

L. C. Carpenter, '90, is professor of civil and irrigation engineering and director of the experiment station at Fort Collins, Colo. He is a member of the American Geographical Society.

Byron S. Palmer, '11, is traveling salesman and secretary of the Board of Education and a member of the alumni meeting. Mr. Emmens is employed in raising money for a large commercial company in Indianapolis.

H. B. Cannon, '98, was in attendance at the Round-up Institute last year. He lives at Rochester, Mich.

Paul Thayer, '12, is a fruit grower at Benton Harbor, Mich. He attended the Round-up Institute last year.

With the C. P. Reynolds, with the '02, is editor of the Prairie Farmer. In one of his editorials of recent date he gives some new information on the subject of high prices.

A. R. Alger, '01, is in the department of civil engineering at the University of Illinois at Chicago. Geo. P. Boonstra, '06, is at the same place in the department of Theoretical and Applied Mechanics.

F. H. Valentine, '08, is with the Cleveland Crane and Engineering Co., at Cleveland, Ohio. W. J. Baunbridge, '08, and H. W. Harrison, '99, are employed with the Lake Shore R. R., at Cleveland.
of 1911, by which the members indicated the date of the one thousand and five hundredth anniversary of the union of the colors, maroon and blue, are not well adapted to decorate dancing." The hit of the program, however, was a local production, "The Spinning Wheel," from southern Iowa, being especially well decorated with palm leaves and flowers. Palms and flowers were used elaborately in providing the twelve musical numbers, each of which was presented by a different section of the orchestra. "The Spinning Wheel" was produced by lattice-like partitions, the back of which was a large picture of an ancient Greek city, surmounted with a Grecian pillar, surmounted with a mortar insignia, "M. A. C., 1911," and a favor dance in which the dance programs were tossed out to the "actors" who then swelled the music by their drum beats so that the band room was fairly flooded with sound waves.

The grand march was a very pretty feature. At the end of the march, in which ninety-seven couples took part, the following led the way, forming the living numbers, "1911." President Clifford W. McKibbin of the Class of '06, and Miss Rachel S. Fairbanks of Detroit, Vice-president Miss Elizabeth Frazier of Buffalo, N. Y., and former E. Danielson of Chicago, Miss Alice B. M. N. Y., W. W. Shanor of Pittsburgh, Penn., and Miss Loina Lea of Flint, Edward C. Lindley, of Detroit, Miss Helen Clair, and Miss Ella Yearn of St. Clair. The dance programs were elaborately arranged with the ideas of building the senior class from six to twelve places at the table in ten minutes. The orchestra, instead of being played from above, was played on the stage, and was raised above the level of the dance floor in the rear. A large room was a very beautiful landscape, gave the orchestra a very pretty appearance. There was an abundance of splendid room can be had, no show will be limited, but will be free to enlarge and elaborate, on anything ever given here before. The following are parts definitely known: Eclectics—police court; Auroreans—wild west saloon; Delphic—police court; Eclectic romp; Delphic—police court; Eclectic—police court. These are only part of the many attractions that will go to help furnish amusement for the big parade of the coming carnival. Much has been done in the way of arrangements for the big day which will be, without exception, the greatest day for genuine fun for the students that M. A. C. have ever had the pleasure to enjoy.

The coming carnival.

A large committee, representing every society on the campus, also the independents, has been completely set up and four sessions in preparation of the coming carnival. Much has been done in the way of arrangements for the big day which will be, without exception, the greatest day for genuine fun for the students that M. A. C. have ever had the pleasure to enjoy.

The weather bureau.

The weather bureau which is being completed on the campus east of the administration building, will commence operations in a few days with Mr. J. A. Frey, Sr., and Mr. H. C. Schoen, 3rd of the weather bureau of the State University, to take charge of the weather bureau in the future. The instrument room will be in charge of Mr. Schoen, and the weather bureau will be in charge of Mr. Frey. The weather bureau is said to be a real high dive, from the roof and the weather bureau will be in charge of an important and growing department.

V. M. SHOESMITH, Head of New Department.

Prof. Vernon M. Shoesmith, whose picture is given herewith, is the latest addition to the faculty. His position is that of Professor of Farm Crops, and he assumed charge of this work Feb. 19th. Mr. Shoesmith was born at Leslie, Ingham County, Michigan, was reared on a farm, and graduated from Leslie high school. He entered M. A. C. in the fall of 1897, and was graduated in 1899. After graduation he accepted a posi-
When You Buy a Cloth Suit, Wash Suit, Coat or Cape this Spring be Sure to Look for the "Garment Label with the Big Reputation" and you'll look for all that is high ideal in Man-Tailored garments for women.

These garments are famed for their perfect fit—remember this: The Fit stays. No finer fitting suits can be made.

We are showing many splendid new styles on our popular Cloth and Suit floor this season.

Easy-buying-prices have been placed on all our Ladies Suits, that preach an eloquent sermon on money-saving opportunities for you.

THE F. N. ARBAUGH COMPANY

We are now in position to show you the most complete line of Ladies' and Gentlemen's Fall and Winter Furnishings ever shown in this city. Nothing but latest and best find place here. Student patronage solicited.

ELGIN MIFLIN

Chester A. Griffin, with ’90, is studying osteopathy at Kirksville, Mo.

Commissioner Ely will address the Foresters' club at the coming meeting.

In the office of the English department are a corvette overcoat and a derby hat that were left there by some student. They have been there for some weeks. The owner should call, prove property and take away at once.

The section of agriculture of the Michigan Academy of Science, which has been held at the college for several years, will meet in College Hall April 15, Prof. H. J. Eustace is vice president of the section and Prof. Geo. D. Shaver is acting secretary and treasurer.

The department of bacteriology and hygiene is making an effort to get before the farmers and live stock breeders of the state, the need of attention toward the subject of Tuberculosis among cattle. Dr. Marshall will treat the subject this week by demonstrations and lectures to those attending the one week dairy course. Monday and Tuesday of next week will be devoted to the actual testing of animals.

OUR HERD OF HOGS.

The college herd consists of two hundred head, representing six breeds of the state, and all having their ancestry and pedigrees of great promise.

The breeding stock has been bred and raised here, but some has been purchased.

The Yorkshires have at their head a young hog of great promise in Lake Park Standard 113,851, purchased from by C. D. Woodbury, Lansing, Mich. A few of the most famous of Berkshire breed, bred by C. D. Woodbury, Lansing, Mich.

The Bershires have as their leader Star Master Baron Duke 12,528, grandson of Masterpiece 7,700,000, and closely related to Premier Long fellow 68,000, Baron Duke 50th, Lord Premier 50,001, Queen Per fiction 69,451, and many more of the most famous of Berkshire breeding, bred by C. D. Woodbury, Lansing, Mich.

The matrons with him are Michigan Belle 224 118,703, Windsor Mail 107,177, College Maid 24 121,466, Hullup Fawn Mina 115,722, and several gilt s, all of great promise and the most approved breeding.

The Poland China herd at present is a little low and consists of a sire, Enchantment, of Okemos, 135,285, and three sows of good type and development.

But, purchased of E. N. Ball, of Ann Arbor is at the head of the Tamworth's, and with him are four matrons of excellent type and superb development. Belmont Girl, purchased of Stanley Manning and weighing, is ordinary flesh, 700 pounds. Besides these there are several gilts, promising to be something very good.

The Duroc Jersey herd leader is Bill Boy 80887, a young hog purchased recently of J. H. Langhart. The matrons are of good quality and excellent development and good mothers. College Ann 597,51, College Mary Ann 50,100, and College Mary Ann 36, 547,14, with several bred gilts.

These, with some of their produce now on feed, and a few Chester Whites constitute the herd which is used exclusively for college room and experimental work.

The lots and pens cover about six acres of ground. "The pig- gery" is a large roomy building, containing 18 pens, each with a concrete runway outside. It is equipped with a large feed room, having a set of scales, water hydrant, feed bins, etc.

Chas. Sherer is the herdsman in charge.

A COMPLETELY SHAKESPEAREAN MAGAZINE.

Probably the first completely Shakespearean magazine ever printed will be brought forth this year by one of the higher English classes. It will be Shakespearean from cover to cover, even to the advertisements and illustrations. It is also probable that one issue will be the only one attempted, but the editorial staff promises that this one effort will be unique and interesting. The present plan will mean the appearance of this literary oddity about the last of the present term.

The idea was presented to the class by Roscoe Gilmore Stott, of the English department, and was enthusiastically accepted. Mr. Stott's constant work for the magazines brought about the idea and the class will test its skill. The position of Editor-in-chief was the gift of the members, and Harry L. Baker was elected. His associates are Floyd Giles and Miss Ivy Wilson. Others on the staff are: Z. C. Goddard, advertising manager; J. F. Campbell, business manager; George Harris Collingwood, art editor; current events department, Miss Helen Dodge; humorous department, Miss Elizabeth Frazier; athletic department, E. F. Hock, and G. W. Dewey, dramatic editor.

But the editors will not attempt to make the magazine, no more than would the staff of a popular monthly or weekly. The entire class will have a definite part, and only "available matter" will be used, each member being free to submit whatever he may desire. There may be some "special orders" for those particularly interested in one definite line.

The magazine project is entirely apart from the regular work of the class, but from the recreation-room it will be possible to take much that will be of help in the writing-up of the periodical. It is the hope of all concerned that they are not creating a novelty but something genuinely worth while in the study of the world's greatest dramatist.
