SACRED CONCERT.

The sacred concert given on Sunday afternoon in the college armory was an occasion of great merit. The band, under the direction of Prof. A. J. Clark, showed the effect of fine training, and though some of the men were absent because of illness the parts were all taken very satisfactorily. Among the numbers deserving especial mention for their excellent rendition are the march from "The Prophet" and the Bach number "Ein Maerchen." Mr. DeGraff's work on the violin and Mr. Hallock's baritone solo (the latter taking the place of Mr. Johnson on the program) were marvels of excellence, Mr. Colborne's band at their best again.

The concert will be held all day Saturday and Sunday afternoon in the college armory. The band will be under the direction of Professor Clark.

INTERCOLLEGIAL.

INTERSOCIETY MEETING AND MATCH.

Last Saturday afternoon, May 7, Delphic and Forensic societies had a baseball match, scores being 36 to 17, favoring Delphic. The game seems like a foot ball score, but it was not a foot ball game. In the evening the Forensics invited the Delphics and enjoyed the evening playing games.

Feronian.

The members of the Feronian Literary Society were entertained Friday night at a dancing party by Sophie Dodge at her home, North St., Lansing.

The addresses were interspersed with excellent music.

No. 31.

ALUMNI.

"88. Prof. W. M. Munson is very ill in a sanitarium at Clifton Springs, N. Y., according to reports, quite serious and his im­mediate family are with him. Mr. Munson has been connected with both the New York and Maine Agricultural Colleges, but at present is Professor of Horticulture in the West Virginia College.

Dr. J. W. Riggerick, Freeport, of the above class writes as follows: "Dear Editor: Lillian Esther, now six weeks old, is anxious to know all about the M. A. C. Please send me about fifty cents to gratify her wishes."

H. S. Knollod, Traverse City, is busy making contracts for fruit and vegetables for the coming season. He is secretary and general manager for the Traverse City Canning Co.

E. F. Smith is draftsman in the chief engineer's office of the Rock Island Ry., Chicago. His private address is 1336 Government Building.

An interesting letter from E. J. Wilcox:

South Haven, Mich., April 24, 1910.

Dear Mr. Franklin Dodge:

As you may know, I was manager of a farm in Iowa until last winter, when father's health gave out and was obliged, or felt it my duty, to cease home farming, and I am now working the home farm of Mr. and Mrs. Franklin Dodge, kindly acted as patrons. Time, 7:30 p.m.:

place, chapel.

Sincerely yours,
E. I. Wilcox.

NEW SPRAYING COMPOUND.

A law passed by the last legislatures requires dealers in insecticides to submit an analysis of a sample label in order to obtain a permit for their sale. A large number of manifestly fraudulent compounds are being sold under the names of Bordeaux mixture and Paris Green, in many cases containing ingredients which are not as stated on the label.

The test shows that it is composed of 85 per cent. hydrated lime, 7½ per cent. white arsenic, and 75 per cent. verdigris, which gives to the compound a color somewhat resembling Bordeaux mixture.

The price at which it is sold would be many times its actual value. White arsenic costs about one-tenth as much as Paris green and copper sulphate, which is entirely lacking, costs about four times as much as the green in the home made mixture.

A good purchase of spraying compound should refuse to a sample containing ingredients which do not have upon each package a guaranteed analysis which gives the percentage of the essential ingredients. If purchasers purchase small quantities and in packages not labeled always insist upon seeing the label upon the original package.

Mr. and Mrs. Franklin Dodge kindly acted as patrons.

TUESDAY, MAY 10, 1910.

Miss Lucy Stout, sp. 'oo, visited friend College. met on the Angell grounds and was favorably impression. noted on the campus.

Mr. Mr. Frank Anderson, M. Y. C., is a frequent visitor teaching in the Traverse City high school.

The Scruby Club will meet this week. The home of Mr. and Mrs. C. C. Wood, instead of Friday evening.

Grund has been broken for Miss Kendall's new house on the Angell addition, and if weather conditions are favorable, the work will be pushed rapidly. Mr. Ayers is the contractor.

I do not believe in jokes, and if I did I could not practice the theory because I take very little, and inconsequent spontaneous inspirations.—Dr. Gillies, to the veterinary students.

In the tennis meet at Olivet, held April 30, M. A. C. won 2 doubles and lost in the singles. The catalogues are now being distributed by Miss Kedzie and Miss Armer, and by Tate and Inouye, Japanese students, and by students, accompanied by the players.

The preliminary inter-society relay Friday night places the following in the finals: Colombians, Ticas, Delphics and Hesperians. Ten of the sophomore entered teams, and there was an unusual amount of enthusiasm and excitement. The finals will be run during the Syracuse game Friday.

Dean Bissell reports a very pleasant time on the recent trip with the engineering students. Among the Chicago alumni who were on this occasion were the following: W. E. Jordan, '09, with the American Bridge Co.; J. A. Poole and N. Praeker, '06, with the Western Electric Co.; A. S. Armstrong, '05, of Bates & Rogers Construction Co., whom we mentioned recently; G. H. Stephen, '95, with the U. S. Gypsum Co.; E. P. Brown, '95, City Water Works Department; A. L. Sobey, '99, with W. H. Zimmerman Engineering Co.; P. M. Chamberlain, '88, a consulting engineer; Fred. P. B. Woodworth, '86, of Lewis Institute.

In Milwaukee the boys visited James R. Pelly, with '06, who is at present teaching botany in the Western Iron Stores of that city.

ATHLETICS

M. A. C.—UNIVERSITY 4.

A fine game was played with the University on Saturday last. Aside from the run made by the U. of M., boys in the fourth, the whole inter-collegiate excitement was centered in the first inning. Both teams settled down to real work after that first, and did some excellent base stealing. Patton did himself proud and pitched a splendid game and was well supported by the third baseman of the team. A. C. secured six hits off Smith, against five for the University, and with a little more luck, or a different set of errors against their opponents' three.

Following is the summary:

M. A. C. 2—University 0.

FIRST INNING—M. A. C. at bat: 1. No student entering from another college shall be classed as regular. The total number of regular baseball games shall not exceed sixteen. A game with any outside team to which admission is charged shall be closed as a single game. The total absence from recitations for the sport shall not exceed three days. The number of regular basketball games shall not exceed six. (Continued on page 4.)
The Lansing League team lost to M. A. C. Wednesday afternoon by the score of 8 to 2.

Mrs. Horace Norton, of Howell, spent Saturday and Sunday with her daughter, Louise. The Tau Beta Pi held an open meeting in the Physics lecture room on the evening of May 5.

The drawing department is planning to decorate the walls of the office with the work done by the various classes.

Prof. Eustace made a trip to Traverse City and vicinity the past week. He states that aside from sour cherries the fruit has escaped damage from frosts.

Three of the present juniors were given the preliminary initiation into the Alpha Zeta yesterday and their "smuts" afforded much amusement. The fortunes were Knapp, Langdon and True.

Miss MacDonald of the Domestic Science Department entertained the following friends on Saturday of last week: Mr. and Mrs. E. P. Cook and daughter, and Miss Lou and Miss Franc Markham, all of Ann Arbor.

The Fruit Belt, Grand Rapids, recently offered prizes to horticulture students for the best landscape plan for a city lot, and also for the best fruit farm plan. These prizes have just been awarded, Mr. B. E. Keith receiving one and Mr. E. H. Brown one. The award was $5.00 in each case.

Mrs. Wilson is in Ithaca, N. Y., for a ten days visit.

While out yet a certainty the band dance, similar to the one given last year, will probably be given May 26.

Prof. Wilson and Instructor Rollker attended the Ann Arbor baseball game Saturday, making the trip in the auto.

Capt. P. C. Harris, of Washington, D. C., is to be the inspecting officer this spring. Monday, May 16, is the day appointed for such inspection.

The first Regimental Review and parade on Thursday evening of last week was witnessed by a large number of college people and called forth much favorable comment.

R. A. Mordaugh has been obliged to drop his college work for the present, and return to his home at Croswell. He was taken ill at the beginning of the term, and later was obliged to care for his father, who was also ill for some time. He hopes to resume his work next year.

Prof. McReynolds, of Defiance College, Defiance, Ohio, and Mr. M. M. Stophlet, college architect, were at the college on Wednesday of last week to inspect certain details of our dormitory system. They were accompanied by H. C. Baker, with '07, of Toledo, Ohio.

Mr. Baker has recently opened an office at 723 Nasby Building, in the above city, and is specializing in heating and ventilating, water works and power plant works.

Mr. W. A. Wentworth, of Ames, Iowa, has taken up his work with our experiment station as research assistant.

Prof. Snyder attended the banquet in Detroit a Saturday evening, given in honor of Dr. James B. Angell, president emeritus of the University of Michigan.

Lucy Fowler has been obliged to drop her work for this term on account of illness, and has returned to her home near Fremont. She expects to continue her work next year.

The officers for the Hesperian Literary Society for the spring term are:

Pres.—P. G. McKenna.
Vice Pres.—C. S. Roe.
Sec.—D. M. King.
Treas.—B. O. Wilhall.
Registrar.—R. E. Minogue.

An experiment with soils is being carried on at present in which several departments are interested. For this experiment 144 galvanized pots, each two feet in diameter by four deep, are being used. These are sunk into the ground and filled with soil, much of which is from the farm at Grayling; the peat will also be used to some extent. The idea is to get as natural a soil as possible as a starting point. These pots will afford the various departments an opportunity to work out in a more practical way the experiments already started in the laboratory. It is in fact the carrying one step farther of laboratory work.

The M. A. C. RECORD.

When You Buy a Cloth Suit, Wash Suit, Coat or Cape this Spring be Sure to Look for "The Garment Label with The Big Reputation" and you'll look for all that is high ideal in Man-Tailored garments for women.

These garments are famed for their perfect fit—remember this: The Fit stays. No liner fitting suits can be made.

We are showing many splendid new styles on our popular Cloak and Suit floor this season.

Easy-buying-prices have been placed on all our Ladies Suits, that preach an eloquent sermon on money-saving opportunities for you.

The State Board of Agriculture meets at the college next week Wednesday.

A new departure has recently been made in the instruction in drawing which is proving very popular with the students. The attempt has been to make the elementary work more practical from the very beginning. The student is taught the construction of the simple picture from the elementary work in drawing, after which he is expected to go out and sketch the object itself.

At a meeting of the local alumni on last Thursday evening it was decided that the alumni dinner should take place at noon on June 22, and that the fortieth anniversary of Dr. Beal's connection with the college should be suitably observed. A fee of fifty cents per member will be charged in order to meet the general expenses. A committee was appointed to look after the alumni program, of which the secretary of the alumni association is to be chairman.

Miss Mane Kerr has given up her position at Urbana, Ill. Experimental Station and has taken up land at a place called Belmont, Mont. These are some new agricultural lands that have been opened up on the Belmont and Northern Railway fifty miles north of the city of Billings. There are three other young women who have also taken land at this place. Miss Kerr was for a number of years employed in the office of Professor of Agriculture at M. A. C.
