ATTEND CHAPEL.

The chapel exercises this spring term are proving very interesting, and should be more largely attended. Some very instructive talks are given by members of the faculty on travels made or places of interest visited. Announcements of subject and speakers are posted on various bulletin boards, and it is hoped that both students and faculty will take time to read them. If this is done you will surely find subjects in which you are interested, and of which you will want to know more.

During the past week Pres. Sneyer spoke on "Blarney Castle"; Prof. French on "Conservation" and "The Three R's"; and Prof. Baker on Thursday and Friday gave a most interesting account of his trip to Nicaragua. Monday morning Mr. Leffler spoke on the "English House of Commons in Session." This (Tuesday) morning Dr. Kahn began a series of talks on "Education in Germany." Below is given a list of subjects and speakers for the week, and in next week's issue will be given a schedule for the week following:

May 17—Dr. Rahn, Primary Education.
May 18—Dr. Rahn, High School Education.
May 19—Dr. Rahn, Universities.
May 20—Prof. Ryder, Mt. Vernon as it is Today.
May 21—Mr. Leffler, Oddities and Contracts in European Rail-
way Travel.
May 24—Prof. Bissell, A Trip to Honolulu.

MISS JESSIE LYDIE HOPKINS.

Soloist at the May Festival, May 27th.

DELPHIC MAY PARTY.

Apple blossoms suggest May time, and with May-time comes Spring's festive pleasures. At the Delphic May party, which was held in the assembly room of the new Agricultural building on the evening of May 14th, the May-time spirit was made manifest by apple blossoms, which were seen everywhere, from those on the hand-tinted veils of the programs to the more fragrant type which made an inviting boose of the refreshment room, — a place discovered during the intermission and frequently sought thereafter.

Favors in the form of miniature Delphic pennants were presented in one of the feature dances, while in other's Halley's Comet obligingly came near enough to throw a melody over the merry throng.

The out-of-town guests were Misses Helen Philcox, Bessie Babcock and Lilian Cole, of Mason. The pleasure of the evening was enhanced by the agreeable patronage of Prof. and Mrs. Clark and Lient, and Mrs. Holly.

BAND DANCE.

The band dance will be given in the armory Friday evening, June 3. The band intends to make this one of the most enjoyable parties of the year. A large orchestra of 10 to 12 pieces will play the waltzes, and the band will furnish inspiration for the two steps. This makes the best possible combination for dance music, so everyone who attends will be assured of a program of delightful numbers.

Following the plan of last year, on account of the small floor space, the sale of tickets will be limited to 350, so get your tickets early.

Always sign your name when contributing matter for the Rec-

ALUMNI.

Judge Collingwood is to deliver the memorial address in Lansing this year.

Mr. W. H. Clemons, '56, a member of the school board of Durand, was here one day the past week looking for teachers for the coming year. Mr. Clemons states that the class of '56 had the reputation of being the only one from which Dr. Beal was always compelled to retire as the trainer does from the lion's cage—facing the enemy.

Dr. V. J. Willey, a graduate of the university faculty, had the treatment at the Oak Grove sanitary, near Flint. It is thought that his mind has been broken through a nervous break down, but physicians are of the opinion that he will recover, but not for a time. Dr. Willey was for two years in charge of the X-ray laboratory at the university, and since graduation has had charge of the laboratory of the Mayo hospital at Rochester.

C. H. Alvord, of the above class, is to receive his degree of M. Agriculturist at the university in June. Mr. Alvord is professor of agriculture at College Station, Tex.

George Fuller, of the above class, is in charge of the designating department of the Olds branch of the General Motors Co., Lansing.

Chas. E. Havens, with above class, is in the technical department of the Hudson Motor Car Co., Detroit.

With '07.

C. E. Parsons, '57,'05, has been studying medicine in Detroit since graduation. Mr. Parsons spent six years in China as a missionary, and on his return to the state last fall completed a trip round the world, going by way of San Francisco and returning through New York.

On May 11, at 12:30, occurred the marriage of Miss Ben Bennett, '05, to Mr. Harry A. French, of Chicago, at the home of the bride's parents on Walnut street. Rev. W. C. Hicks, of the Episcopal church, performed the ceremony, and only the immediate relatives of the young people were present. The bride was a graduate with the class of '05, and the groom was also a student at M. A. C. Mr. and Mrs. French will be at home at 2127 So. Ridgeway St., Chicago, '06.

Earl W. Kerrick is assistant superintendent of the Alamosa M. & Co. at Hillsdale, Mich., which company is engaged in the manufacture of gasoline engines. The Alamosa M. & Co.'s address is 72 Reading Ave.
SEVERAL classes among our graduates have awakened to the matter of organization, and elected officers. This will certainly be very helpful in arranging for the coming Triennial next month, and also give opportunity, through the secretary of each class, to secure information of any member. The university alumni, it is understood, follow this plan, and are thus able, through the secretary, to keep in touch with the whole class. It is hoped that we shall hear from a large number of alumni, and that organizations have been effected. Let us know the name of your university, class and secretary as soon as they are elected. The Record is at your service if it can aid you in any way. The following is a report of '92, of which R. L. Butterfield is president, and W. E. Hedden is vice-president. The class was elected in '97, with L. E. Parsons, Grand Blanc, president, and J. C. Button, Farmington, secretary.

UNION MEETING.
The union meeting, Sunday evening, was very fortunate in being addressed by Professor Ryder on the subject of "Goals." The world goals," said he, "implies struggle and obstacles which we in this life of contest have to deal with." Prof. Ryder brought his message home to his officers, to be sure that organizations have been effected. Let us know the name of your university and secretary, if you are elected. The Record is at your service if it can aid you in any way. The following is a report of '92, of which R. L. Butterfield is president, and W. E. Hedden is vice-president. The class was elected in '97, with L. E. Parsons, Grand Blanc, president, and J. C. Button, Farmington, secretary.

TENNIS TOURNAMENT.
Saturday, May 14, M. A. C. tennis teams defeated Grand Rapids, Jenks, Port Huron. Time, 1:00 p.m. Classes were excused and everyone turned out to see the drills. The slant was ideal for the work, just cool enough to be comfortable. The inspecting officer was Capt. Harry Harris, but inspector Carl Wagner, of Port Huron, witnessed the inspection, as the chairman of the athletic committee. Everything passed off pleasantly, the work of the boys being complimentary from every hand.

ATHLETICS.

Rains did excellent work at third, preventing a run by Syracuse in the sixth. Bosch pitched a good game as the first part of the double. Again, his pitching was not in condition physically to do the best work. He was succeeded by Petterson in the eighth, who proceeded to strike out three in a row. Visitors. While M. A. C. was out, two errors did make, coupled with hard hitting by the visitors, for a time when it counted most for their opponents. The game ended 5 to 1. Hits—Off Bosch, 5; off Thomas, 3. Struck out by Thomas, 9; by Petterson, 3. Umpire—Stephenson.

FIFTH INTERSCHOLASTIC.
The fifth interscholastic meet has been a great success, with the best herd yet, both in point of attendance and in the records made. Rohler, the "home running" team, won first in each of the three weight events, breaking the world's interscholastic record in the shot put by throwing the weight 51 ft., 63 in. He also broke the 1909 record in the discus throw by 19 ft. 8 in., the former being held by Quinn, of Saginaw, Michigan.

The annual inspection of the M. A. C. cadets was held Monday at 10:00 a.m. Classes were excused and everyone turned out to see the drills. The slant was ideal for the work, just cool enough to be comfortable. The inspecting officer was Capt. Harry Harris, but inspector Carl Wagner, of Port Huron, witnessed the inspection, as the chairman of the athletic committee. Everything passed off pleasantly, the work of the boys being complimentary from every hand.
When You Buy a Cloth Suit, Wash Suit, Coat or Cape this Spring be Sure to Look for “The Garment Label with The Big Reputation” and you'll look for all that is high ideal in Men-Tailored garments for women.

These garments are famed for their perfect fit—remember this: The Fit stays. No finer fitting suits can be made. We are showing many splendid new styles on our popular Cloth and Suit floor this season.

Easy-buying-prices have been placed on all our Ladies Suits, that preach an eloquent sermon on money-saving opportunities for you.

THE F. N. ARBAUGH COMPANY

To the College Man:

We solicit your patronage, and offer for your inspection a carefully selected line of the latest furnishings. We make a study of your wants and have the goods you are looking for.

ABOUT THE CAMPUS

Miss Norma Vedder, '20, is engaged to teach mathematics in the North Adams public schools, visited college friends Friday.

Mr. George Churchill, janitor at the chemical laboratory, was with his wife at Ann Arbor, the past week, where she has undergone a serious operation.

Miss Edith McDermott, the first representative from the college met all teams Friday afternoon and Saturday, and escorted our visitors to headquarters in the armory.

Prof. King was unable to meet his classes the past week on account of sickness. Mrs. King was also ill with rheumatism for several days. Harry Brown, ’09, visited his mother and brother, G. A. Brown over Sunday. Mr. Brown is a chemist with the Michigan Carbon Co., of Detroit.

On next Saturday will occur the regular triangular meet with Alma and Olivet colleges on the home ground. There will also be a base-ball game between Alma and M.A.C.

F. O. Foster, ’02, of Boise, Idaho, stopped at M. A. C. Sunday evening on his way home. He was accompanied by her two children.

Mr. O. K. White, who was home a day or two the past week, states that the prospects are good for an apple crop throughout the state, the frosts having done very little damage.

A Sunday school picnic is to be held at one o'clock Saturday, May 21, on the grounds called the "Hog's Back," one-half mile north of the corner store. Some confection will be furnished for those who care to ride, and will leave the store at about 12:30 M. This picnic is the final outcome of a contest in the Sunday school between the red and the blue. Those who are on the red side are to be entertained at dinner and otherwise by "the blues."

All members of the church congregation are invited to come with their baskets and enjoy the afternoon.

J. G. France, '11, received a visit from his father and brother of Co­loma, the past week.

Lewis Christensen, '08, who is with a sugar company at Brownsville, Texas, was a college visitor last week.

A. C. Bird, state dairy and food commissioner, has been seriously ill at his home in East Lansing, hav­ing been threatened with pleuro­pneumonia. He is still unable to be at his office.

A rousing mass meeting was held in the armory Wednesday night, at which time the matter of entertain­ing the high school students who were here for the sports was dis­cussed. Deans Bassell and Shaw and Coach Brewer gave short talks. The band furnished excellent music.

Messrs. C. S. Lord, E. K. Love­lace and O. F. Edwards are reported as doing exceptionally good work in assaying, in fact the results of their work establishes a record in that line for the class, and are such as would satisfy men of much greater experience. The boys have reason to feel proud of the work accomplished.

The trophies given in connec­tion with the intercollegiate meet were very nicely displayed in the office of Director Brewer last week. Beautiful silver cups were given to those schools winning first and sec­ond place (in number of points) and cups about seven in. in height were presented to winners of the relays in both class A and class B.

Roswell Carr, '08, teacher at North Adams public schools, visited college friends Friday.

Fred Cryzler, a hort. student, has rented one acre of ground of Prof. Minson, and is putting out straw­berries.

Mr. George Churchill, janitor at the chemical laboratory, was with his wife at Ann Arbor, the past week, where she has undergone a serious operation.

B. Clyde. Miss Vedder has already completed her college work.

For individual winners in Satur­day's contest both were presented.

For first place the trophy was gold, while second and third drew silver and bronze, respectively. Winner of fourth place was given a ribbon trophy.

Mr. Thomas W. Mason, instruc­tor in chemistry at M. A. C last year, is now in charge of the depart­ment of chemistry at St. Olaf Col­lege, at Northfield, Minn. Mr. Ma­son expects to visit M. A. C about June 8. Mrs. Mason, who is with her parents in Charlotte, was former­ly Ruth Carrell, '08.

Miss Edith McDermott, the first representative from the college met all teams Friday afternoon and Saturday, and escorted our visitors to headquarters in the armory.

Prof. King was unable to meet his classes the past week on account of sickness. Mrs. King was also ill with rheumatism for several days. Harry Brown, ’09, visited his mother and brother, G. A. Brown over Sunday. Mr. Brown is a chemist with the Michigan Carbon Co., of Detroit.
