THE ALCHEMA GAME.

Following the meet, Saturday, was the most exciting ball game of the season. Both teams were admitted to speak on the athletic teams, and Alma filled bases upon two different occasions. Patterson, by giving his bases on base, the runners playing up on wild pitches, gave the rooting sections attacks of heart trouble. He would fill the bases, then proceed to strike out or put out the batters and close the inning. Alma's run in the fifth was made when, with the bases full, the batter was hit by a pitched ball, thus allowing the runners to score. Patterson was given splendid support by the home team playing an exciting game, but not to all the hurlers standing. In the weights, Campbell put the shot 41 ft. 10 in., breaking the college record, but this record will not stand, as he did not leave all the hurdlers standing. In the hurdles, the game was called at the beginning of the 7th, as our Alma friends were obliged to catch a train.

The summary:

Batteries-Pattison, Te Roller, Danielson, Sholes, Davis, Turner, Donaldson; Patterson. 8; Patterson. 6; Bases on balls—Danielson, 4; Donaldson, 3; Patterson, 6; Strike outs—Donaldson, 1; Danielson, 3; Patterson, 3; sacrifices—Danielson, 1; Donaldson, 3; Patterson, 6; Double plays—Donaldson, 1; Patterson. 6; stolen bases—Donaldson, 4; Patterson, 6.

To the College Man:

We solicit your patronage, and offer for your inspection a carefully selected line of the latest furnishings. We make a study of your wants and have the goods you are looking for.

ELVIN MIFFLIN

The instructors have organized a baseball team and chosen Mr. Kempter manager.

The river road from the farm bridge to the athletic bridge will be, when completed, one of the prettiest drives about the college.

Mr. Shelby Race, 50th, and wife, are spending six weeks in Parkin, Ark., where Mr. Race has been sent by the Louisiana Wheelarrow Works in the interests of the company.

The Eunomians held a very enjoyable picnic at Pine Lake Saturday afternoon. Prof. and Mrs. Reed and Prof. and Mrs. Wilson acting as patrons. Dancing was made a prominent part of the afternoon festivities.

Paul L. Keiffer, who left college recently for Eagle Ford, Tex., writes an interesting letter concerning his work there. He is with the S. W. States Portland Cement Co., five miles from Dallas, Tex. The company have two 1000 H. P. engines, and are installing another.

The laboratory is not all that could be desired, but he hopes the comet will fix it. Mr. Keiffer's work consists of running the Ca. O. on the mix each hour on each bin of rock and on the choker. The raw material is gotten out and loaded on cars with a steam shovel. The water contains alkali, the weather is somewhat variable, and, while Mr. Keiffer enjoys his work, he believes that there are other places he would rather live—Michigan, for instance.

Mr. Hensel, Prof. Gunson, L. C. Carey won first place, W. S. Fields second, and O. F. Edwards third. Mr. Hensel, Prof. Gunson and Mr. Leffler kindly acted as judges.

Mr. A. S. Robinson has just built new cement walks on his properties near the street car line on the N. Lansing road.

Mr. A. C. Bird, who has been dangerously ill at his home in East Lansing, is reported to have passed a comfortable night and was resting very well this morning. The family and friends are very much encouraged with the progress made during the last 36 hours.

The Military Hop in the Armory Saturday evening, was one of the prettiest ever given at M. A. C. About 75 couples danced to the music by Fisher's orchestra. Several new features were introduced, including the comet dance. A number of guests from out of town were present to enjoy the festivities. The patrons of the evening were Dean and Mrs. R. S. Shaw, Dean and Mrs. G. S. Hisell, and Prof. and Mrs. F. S. Kedzie.

C. V. Hinman, ’78, of Belleair, Mich., visited M. A. C. one day last week.

L. A. McGillivray, ’10, left M. A. C. about two weeks ago, and is with his brother in Winnipeg.

Mr. A. S. Robinson has just built new cement walks on his properties near the street car line on the N. Lansing road.

Mr. F. A. Spragg, of the department of agronomy, spent two days at Clare the past week, putting in some co-operative experiments.

Mr. and Mrs. Allen of Collegeville have left for Saugatuck, where they will look after their summer hotel. Mr. Allen will probably return and remain until the close of the term.

The foundation walls of the new church at East Lansing are now completed, and the board of trustees hope to be able to let the contract for the rest of the building before the first of June. The building complete and furnished will cost $15,000. The trustees need about $3,000 at this time, that the work may go on.

E. G. Hoffman, ’10, has received the appointment of Lieutenant in the Philippine Constabulary, and sails on June 18, for the islands, to take up his duties there.

Secretary Hayes has resigned his position with our Y. M. C. A., and will be employed on a ranch in Montana during the coming summer. His place will not be filled for the present, the members of the association having decided to take care of the work themselves.

Dr. Rahn compared German high schools with those of America at chapel Wednesday morning. The high school teacher is ranked the same and receives the same salary as that of a judge. A doctor's degree does not qualify one for the position of a high school teacher.

Prof. Shoesmith goes to Saginaw soon to look after co-operative experiments at this place. Experiments will also be tried out on the farm of J. H. Skinner, ’01, near Cooper. A number of varieties of corn are planted at the college, and then samples of the same need tried out in various parts of the state to determine its adaptability to different localities.

Among the young women for the purpose of arousing enthusiasm among the young women for the Y. W. C. A., were in the form of miniature diplo-

mas, tied with the 1910 colors of blue and gray.

The first toast was to the seniors, which brought them hearty applause. The second was performed by the three under classes which Muriel Twiggs responded. The third toast was the one to which Mae Parmalee of 1911, a botanist, spoke.
