NEW INSTRUCTORS.

BOTANY.
Ruth Florence Allen, Ph. D., instructor in botany, comes to M. A. C. from the University of Wisconsin, where she has been teaching assistant since her graduation in 1905. She was granted her doctor's degree from Wisconsin in October, 1909.

Bertha E. Thompson, A. B., instructor in botany, holds a life certificate from the State Normal at Ypsilanti, and was granted her A. B. from our State University, where she specialized in botany. Miss Thompson has taught successfully in the schools of Battle Creek and Minneapolis, Minn.

CIVIL ENGINEERING.
Andrew M. Ockerblad, B. S., instructor in civil engineering, is a graduate of the University of Vermont, 1910, with the degree of B. S. His home is at Burlington, Vt.

H. E. Marsh, B. S., instructor in civil engineering, graduated from M. A. C. with the degree of B. S., in 1908, and during the past year has been with our physics department. He is this fall transferred from said department to civil engineering.

DR. ERNST A. BENESSE
Professor of Botany.

Dr. Ernst A. Bessey, elected to fill the position made vacant by Dr. Deal, is a graduate of the classical course of the University of Nebraska, and in 1901 was granted the degree of Ph. D. from the University of Munich in Germany. In 1902 he was sent abroad, and traveled extensively for the department in Europe, Central Asia and Northern Africa.

In 1905 Dr. Bessey resigned his position with the department of agriculture to accept the professorship of botany and bacteriology, in Louisiana State University, at Baton Rouge, from which place he comes to us. Dr. Bessey is a son of C. E. Bessey, '85, of Nebraska.

AN EMPLOYMENT AGENCY.

The Michigan Agricultural College has, since its establishment, encouraged and drawn to it students who maintain themselves while in college by their own individual efforts. The college desires to continue this policy.

The recent rapid growth of the institution has made it impossible for the college to furnish labor to every student in attendance or even to those who desire it. Therefore a students' employment agency has been organized with the idea that some persons living near at hand might be so situated as to profitably use the services of many of our self-supporting students if the employers could be brought together.

While the time of our students is very largely taken up with their necessary studies and work in the laboratories, many of them have time to work for their self-support. Of the kinds of work which our students can and are willing to do, the following is a partial list:

- General farm work, husking corn, digging potatoes, pruning fruit trees, spraying for insects, grafting, fence building, etc.
- Shop men and machinehands can be furnished.

Many householders in the city need extra labor for various occasions. Our students are available for all kinds of such work. They can clean rugs, take up carpets, handle furniture and be otherwise of general help.

When you want labor, drop a card to Mr. R. E. Lores, East Lansing, or call Automatic 'phone 170 Bell 759.

The management of this employment agency is without cost to the student or patron.

W. H. FRENCH, F. S. KENZIE, Committees.

The above mentioned agency will, we feel sure, meet a long felt want. While many students desiring work in the past have been able to secure it, and while departments have succeeded, at times, in securing much needed help, lack of system which this agency will no doubt supply has caused annoyance to both employers and employed.

Mr. Lores is the right man in the right place, and it is hoped that all personal or departmental work which can be done by our students will be registered with him.

[Ed.]

NEW FACULTY MEMBERS

DR. RICHARD P. LYMAN
Dean of Veterinary Department.

Dr. Richard P. Lyman, of Kansas City, Mo., is to have charge of the veterinary division of M. A. C. the coming year. Dr. Lyman is a graduate of the Massachusetts Agricultural College, 1891, and from 1892 to 1895 practiced veterinary medicine in Harvard, Conn., for some time, and has held a chair in the Kansas City Veterinary College the past three years.

Dr. Lyman's work here will be to build up the veterinary department, which will be made a four-year course on the same basis as the other courses offered by the college. Dr. Lyman and family will occupy the house on Albright road owned by Prof. Sawyer.

Many holders of the city need extra labor for various occasions. Our students are available for all kinds of such work. They can clean rugs, take up carpets, handle furniture and be otherwise of general help.

When you want labor, drop a card to Mr. R. E. Lores, East Lansing, or call Automatic 'phone 170 Bell 759.

The management of this employment agency is without cost to the student or patron.

W. H. FRENCH, F. S. KENZIE, Committees.

The above mentioned agency will, we feel sure, meet a long felt want. While many students desiring work in the past have been able to secure it, and while departments have succeeded, at times, in securing much needed help, lack of system which this agency will no doubt supply has caused annoyance to both employers and employed.

Mr. Lores is the right man in the right place, and it is hoped that all personal or departmental work which can be done by our students will be registered with him.

[Ed.]
The M. A. C. RECORD.

TUESDAY, SEPT. 28, 1910.

Everybody takes hands with everybody else.

To the new students.—Determine to win out. Stay by your course of study. Join the Y. M. or Y. W. C. A., the Athletic Association, and enjoy good wholesome fun as well as study. "If you want to live in a good neighborhood, be a good neighbor" applies with equal force to college life. You are certainly welcome to M. A. C., and we have a right to expect that you will help to maintain the present high standard of the greatest college in America.

O. L. Student, make the new ones welcome. Help them get settled. It takes but a moment and a word or two to make those who are here for the first time feel they are welcome. It will do them good, gain a friend for yourself, and M. A. C. will surely be benefited.

The marriage of Frank S. Carpenter, '02, and Miss Chloe Good-

en prepared for rental boxes, and you will be placed on the north side of the room, all of which will not doubt be taken by students shortly after college opens. There is also room for 200 more boxes as soon as the demand warrants their installation.

Four business windows will be located on the west side of the room, and within easy reach of the postmaster's desk. In the southeast corner will be a room where the sorting bins are located. This room will furnish a place where the experiment station bulletin and other bulky material can be stored, and offer a better advantage than before. The arrangement of lobbies and entrances throughout the new building will assist in affording the greatest possible conveniences.

The old building, used as post office since 1902, will be used by the Co-operative Book Store and as a warehouse. Limit. Holly will occupy two of the rooms on the second floor of the postoffice building, and the remaining rooms will be for rent.

MINISTERS' CONFERENCE.

The conference of rural ministers, held at M. A. C., July 12-16, was a success from every viewpoint. Over sixty persons were registered, and seemed to enjoy every moment of the four or five days here. Pre. K. L. R. B. H., of Mac-

achens Agricultural College, and Rev. Chas. O. Bemis, of Pennsyl- vania, were the speakers. "Rural Progress" was the keynote of the entire conference.

An open conference was held each day from 11 to 12, in which all took part. In addition, members of the faculty spoke on various topics each day at 10:30, while the afternoons were given to the sub- jects of horticulture and poultry raising. The large class was taken out to the gardens, orchards and vineyard, where the members might be shown the proper methods of tillage, pruning, etc., and much interest was shown along all lines of this work.

In poultry, Mr. Kempster's lectures were supplemented by practical demonstrations, and this, too, proved a live topic, as Mr. K. was an expert busy answering questions for some time after each lecture.

As a proof of the fact that the conference was a success, it may be stated that resolutions were drawn up, in which the members voiced their hearty appreciation of the entertainment and instruction received at M. A. C., urging an or- dinary and a permanent semi-annual conference might be held at M. A. C. during the summer of 1911.

W. H. Hartman, with our en- gineering department the past year, is now with the Western Electric Co. of Chicago.

THE NEW POSTOFFICE.

Work has been pushed rapidly all summer on the new postoffice, and before long Postmaster Rose-

The marriage of Frank S. Car-

and Miss Chloe Good-

THE M. A. C. RECORD.

PUBLISHED EVERY TUESDAY DURING THE COLLEGE YEAR. EDITED BY THE STUDENTS OF THE AGRICULTURAL COLLEGE.

M. A. FRANCIS, MANAGING EDITOR

SUBSCRIPTIONS—50 CENTS PER YEAR.

A student of the Agricultural College may, if desirous of continuing the college magazine, send a subscription order, with 50 cents in cash, to Mr. O. Moxey Order, draft or Registered Letter. Do not send stamps. Address all communications and advertising orders to DR. DANDENO RESIGNS.

Dr. James B. Dandeno, for the past eight years assistant professor of botany at M. A. C., has resigned to accept a position in another college.

Dr. Dandeno's old home was at Guelph, near the college, in which he was employed during the summer of the past year. His residence on College Heights has been purchased by Mr. Westfield.

R. S. Newton, '05, was a college visitor last week. Mr. Newton is draftsmen for the General Electric Co., of Schenectady, N. Y.

Miss Rosencrans entertained one afternoon during vacation in honor of Mrs. Jennie Whitmore Woodard, formerly Miss Jennie Toward, of the class of 1896.

S. F. Edwards, '93, professor of horticulture in Guelph, Ont., with his wife and little daughter, visited the home of Mrs. Edwards' parents last week, while Guelph was looking fine, and states that Guelph is "an all right place" in which to live.

Miss Snyder and Mrs. J. F. Baker entertained one afternoon recently, in honor of Mrs. Proudf, before her departure for Amsterdam, N. Y., which is to be her future home. The hostesses were assisted by Mrs. R. K. Baker and Mrs. Luther Baker.

Mr. James L. Morse, instructor in physical culture, is a graduate of the Illinois University, and has had three years of teaching in the Central High school.

Mr. V. F. Taylor is a graduate of Western College, Missouri, and has his master's degree from Northwestern University. He is a graduate of Illinois high schools and two years in Central Wesleyan College.

Miss Grace L. Souder, instructor in forestry, is a Yale graduate, and has had considerable experience in the forests of the country, which she has shared with her juniors in Roscommon for a time during the summer.

HOME ECONOMICS.

Miss Agnes Hunt, B. S., professor of domestic science, is a graduate of the Illinois State Normal College, and has been an assistant in the laboratory of Dr. Gridley. She was also Director of Home Economics in the new American College at Honolulu for a time.

Miss Grace E. Stevens, B. S., instructor in domestic science, is also a graduate of the University of Illinois, and acted as laboratory assistant in 1906, and has also had some experience in public school work.

Miss Grace Louise Scott, instructor in modern languages and English, is a graduate of Olivet College, class of 1908. Miss Scott has studied music under Mrs. B. H. Robinson, and has had some experience in teaching music privately.

Miss Florence Chapman, instructor in physical culture, is a graduate of the Central Wesleyan College, and has taught in the Mandarin High school.

Miss Florence Chapman, instructor in physical culture, is a graduate of the Central Wesleyan College, and has taught in the Mandarin High school.
Theo. Kessler is the newly elected steward of Club B.

Gas mains have been extended west on faculty row during the summer.

The road between the college and city limits has been greatly improved recently, by the application of a coat of fine gravel.

Prof. Baker has been taking a trip through the west, with the idea of better acquainting himself with forestry conditions in the country. Mrs. Baker accompanied him.

Several decaying trees on the campus have been treated, during the summer.

Several decaying portions were thoroughly scraped and cleaned, and Portland cement used forfilling. The results will be watched with interest.

Mr. H. L. Curtis, former instructor in physics at M. A. C., made college friends a visit early in the summer. Mr. Curtis, who is employed in research work at Washington, D. C., has been improving his time in study, and was granted his doctor's degree by the U. of M. last June.

Mrs. Cameron will have charge of Club C during the coming year.

Dr. Howard Edwards, president of Rhode Island Agricultural College, spent a few hours at M. A. C. on July 28.

Floyd Botzum, our state dairy and food chemist, has been spending a part of the summer at the university.

Instructors Hargrave, of the department of chemistry, and Laycock, of the department of physics, spent the summer in study at our state university.

Mr. C. E. Walter, for so long a college photographer, has sold his property on Michigan Ave. to Mr. Kendall, who has transferred his shoe repairing business to the same, and will also put in a stock of shoes.

Mr. George B. Claycomb, a student during the past year, and Miss Nina Carter were married on July 13, 1910, at Ann Arbor. At home after Oct. 1, in Geneseo, Ill., where Mr. Claycomb has a position in the city schools.

Mr. Beal left about Sept. 1 for Washington, D. C., where he will have charge of the 4th, 5th, and 6th grades in our public schools this year.

What is M. A. C.'s loss is Amherst's gain. Dr. Beal, as well as with Mr. Baker and family, to their new home. The best wishes are extended to Mr. Beal and family for their future happiness.

Mrs. Bogue recently, with readings from the college photographer, has sold her property on Michigan Ave. to Mr. Kendall, who has transferred his shoe repairing business to the same, and will also put in a stock of shoes.

ATHLETICS

The prospects for football this season, while not as bright as in 1909, are still more promising than those for last year, practically every '08 man was back, and in consequence the team was the strongest perhaps in the history of the college.

Of last year's squad who will be back are Exley, Cortright, F. Comstock, Stone, Patterson, and Hill,—all monogram winners last season. Of last year's subs, reporting are Montfort, Ballard, Horst, Riblet, Williams, Sanford, and M'Dermid.

Of new material there promises to be an abundance, and of a good quality, while there is still good material among the old men who will be back.

An all-freshman team will be organized at the opening of the term, who will have a regular coach to handle them, and who will have a schedule of games.

The changes in rules will affect the game considerably, and the first part of the season will be something of an experiment. However, the game promises to be more novel and exciting for both players and spectators than ever before.

It is expected, also, that the changes made will lessen the danger of injury to a large extent.

Practice began Monday, and the opening game between the varsity and scrubs will be played Oct. 1. The first college game above the average will be played with Detroit College Oct. 6. The schedule is the most attractive ever offered, the date with Detroit being perhaps the greatest drawing card. For the first time we have been able to schedule a home game on Thanksgiving. Following is the schedule as arranged at present:

October 6—Detroit College at East Lansing.
October 8—Alma at East Lansing.
October 15—Michigan at Ann Arbor.
October 22—Lake Forest at East Lansing.
October 29—Notre Dame at East Lansing.
November 5—Marietta at Millikin.
November 19—Olivet at Olivet.
November 24—Wabash at East Lansing.

Mr. Fred C. Kennedy, of Ann Arbor, former end at M. A. C., made college friends a hurried visit Aug. 19, 20.

Prof. J. D. Towar returned to M. A. C. in July, and has taken upon the management of the old home, steady, south of the college. His many friends are glad to welcome him back once more.

Mr. Albert G. Clark, superintendent of the Wallingburg Sugar Co., recently went on a special tour in the manufacturing section, to attend the mid-summer meeting at San Francisco. While there he was an attendant of the soda factory at Hamilton, Cal., and George Woodruff, superintendent of the factory at Logan, Utah. Mr. Clark will be remembered as among our first instructors in beet sugar chemistry.

ELMA H. SMITH.

The college community were shocked to learn of the death of Miss Elma Smith, at the age of 22 years. At the close of last year Mr. Brody secured a position with the Experiment Station, where he has been at work during the summer, but which he found to be in failing health took steps at once for recovery. He was very much gratified by the progress he was making until about one week before his death, when he failed rapidly. He leaves a father and two brothers, Mr. and Mrs. C. G. Clark, who graduated in '05, and Clarence, both of whom reside at Three Rivers.

Mr. Brody was an industrious, ambitious young man, and his general disposition won for him many friends at M. A. C. The Commercial Instructor, a Three Rivers paper, has the following to say: "We can but feebly express the gratitude felt towards his many friends in East Lansing, especially his landlady and room mate, for their loving care and strenuous exertions for his recovery." The Record extends heartfelt sympathy to those who mourn.

JAMES S. BRODY.

James S. Brody, of the class of 1912, died at the home of Mr. and Mrs. Hammond, on the Delta, Aug. 26, at the age of 22 years. Of last year's subs, reporting are Montfort, Ballard, Horst, Riblet, Williams, Sanford, and M'Dermid.

New College Clothes for Young Ladies.
Wool and Silk Dresses.
Suit Coats. Suits.
New Curtains and Rugs.

SIMON'S DRY GOODS CO.

DIRECTION

LANSING BUSINESS AND PROFESSIONAL MEN.

THE RECORD extends heartfelt sympathy to those who mourn.
