The M. A. C. RECORD.

MICHIGAN STATE AGRICULTURAL COLLEGE.

VOL. 16.

LANING, MICHIGAN, TUESDAY, OCTOBER 11, 1910.

ANNOUNCEMENTS.

Dr. Lyman's family arrived on Saturday last.

An informal reception was given at the Women's Building Saturday evening for the new teachers.

The News and Comment Class, conducted by Rev. Goldsmith, is proving to be very popular and helpful. The class is held on Monday evenings.

Reports coming into the headquarters of the National Dairy Show Annin., indicate a wide spread inter est in the show, which began Thursday, October 20, in the Chicago Coliseum. These reports are coming from leading dairymen, state officials, and the traveling fraternity and indicate a large attendance.

Instructor Kemper took his class the R. F. Hall Lumber Co. plant Thursday forenoon where they were looking up the subject of material for poultry house construction. This is made a part of the instruction work, and Mr. Hall was able to give the class an idea of the kind and cost of material used in the construction of such buildings.

A lodge party was given by Miss Brown, who expects to be one of the missionaries to go to China next Fall.

Chorus class, 7 p.m.

Chapel, Dr. Bessey.

Chapel meetings.

HORT. TRIP.

The junior and senior students specializing in horticulture to the number of 27 left the laboratory Saturday morning at 7 o'clock to make their annual visit to the large apple orchard on the old Smith farm one mile north of Pine Lake. The trip was made in two large busses, supplemented by Mr. Gardiner's auto.

Arriving at the orchard a study was made of the several varieties of apples and the diseases and insects. A life history of the oyster shell scale was explained by Mr. P. M. Welden, Lansing, speaker, in which consisted of winemakers toasted at the campfire, rolls and coffee, an invention of the orchard was main.

This orchard is one of about 35 acres, and is of historic interest from the fact that it is on the farm owned by the father-in-law of L. H. Bailey, and parts of the orchard were set by Mr. Bailey himself many years ago. The orchard was neglected for many years, but this season is in the hands of a company that are endeavoring to improve it. The efforts made were of especial interest to the students.

The return trip was started at 12:30, that those who desired to do so might witness the football game gone with Kline. Every one voted the trip a most delightful as well as instructive one.

The work in domestic art for senior women this term is an application of this week's work in fine hand sewing, and consists in the making of a party gown. Some of these are very simple, while others are somewhat elaborate. A certain amount of time is required in class work, but the members are free to spend more than this if they desire.

MME. LANGENDORFF

Madam Langendorff, who will sing here Oct. 19th is without question the greatest soloist that has ever appeared at this institution, and in the opinion of one of the most popular far concert singers in the country today, ranking with Novello, Gadski, Farrar, etc.

Last year Madam Langendorff sang at the famous festivals at Baden and Portoroz, and was received with wild enthusiasm. During the past few days we have received very flattering newspaper clippings from Berlin and other large cities abroad where she has been singing the past summer.

Ordinarily Madam Langendorff commands a price far in excess of what we would be able to pay, but owing to the fact that the lecture bureau have her engaged for a long series of concerts, they were able to send her here at a reduced price. Every student should take advantage of this opportunity to hear one of the really great soloists. The board of directors of the Liberal Arts Union need the support of every student in college in their endeavor to make the entertainment course an annual affair and to place it on a sure foundation. The course this year is the best that has ever been offered and every number is excellent.

M. A. C. RECORD.

SEATTLE, WASHINGTON, Oct. 11th.

Dear Sir:

I was away a long time since I received a copy of the Record and I am getting rather hungry for the latest accepted a position as assistant professor of engineering in Swarthmore College, Pa.

Mr. D. T. Moring, one of the Central office men in the U. S. Weather Bureau at Washington, was at the college recently to confer with Mr. Seeley concerning his need of certain instruments for a class on Weather-coming to visit me on a fine line of these instruments, Mr. Moring stated that for the work in hand we have one of the finest and best equipped buildings in the country. Besides Mr. Seeley, who has charge of the local service, the M. A. C. men are at work: W. S. Palmer, of Wymoming, C. F. Schneider, of Grand Rapids, and J. D. Kimball, observer at Richmond, Va. With the establishment of the Bureau at M. A. C. it is quite likely that more of our graduates may be attracted to this work.

A. L. Snyder who taught last year in Wilbur, Wash., is now with the Bates & Rogers Construction Co., at Avery, Idaho.

R. C. Carr is now connected with the Bureau of Animal Industry as Junior Animal Husbandman in animal breeding investigations at Washington, D. C. His address is No. 7-2914 Eleventh St., N. W.

Mr. Lyons seems to be enjoying the life of a soldier.

of danger. The visitors were prac­
tically all veteran players while M.
A.C.'s line up was much the same as
that in Thursday's game, except
Davis and Pringle who went in
and guarded. Drew also replaced
Hill at half near the close of the
game. A mass meeting will be held
Wednesday evening when plans
will be perfected for the game with
the university on October 23rd.
It is planned to reach Ann Arbor
just before noon, leaving that place
for the return show after the game.
One fare ($1.50) will be charged
for the round trip, and admission
to the game will be $1.00. A ho­
notion will be saved for M. A. C.
or so that they may all be in
a bunch. The prospects are cer­
tainly very uncertain. Their men
are veterans while many of our
players who won the first game :
indicated that they were up against
the home goal in danger and the

May have help from some former
loyal M. A. C. men when it comes to
routing.

The M. A. C. RECORD.

ATHLETICS

M. A. C., 35—DETROIT, 0.

Five touch downs with a goal for
each, one goal from field and a

Some of the features of the game
were as follows: Hill kicked two
goals from the field; McWilliams
blocked a punt on the visitors goal
line and forced there to a
Montfort intercepted a forward pass,
broke away from the tackler and
secured a touch down; Stone
received two forward passes for
big gains and Montfort took one.

For an early season game the
one on Thursday was very satis­
factory. Only two of last year's
regulars—Campbell and Stone—
were put in and Stone was taken
out later. In addition, the heavy
rules had left the field in bad con­
dition and the ball was at times very
hard to handle. Following are the
players who won the first game:

C.—McWilliams, L. G.—Horst,
Culver, R. G.—Kurtz, Campbell,
Sanford, L. T.—F. Campbell,
R. T.—Baldwin, L. E.—Stone,
Bebe!, R. E.—Leonardson, Q. B.—Rib­
et, C. all the time, for at no time was
the home goal in danger and the

Bone.

M. A. C. won the second foot­
touchdown by the season by

Aime has plenty of weight this season, and is playing
excellent ball. Hurl, our former
guard Y. M. C. A. secretary, was
with the visitors, and with Ashby
acted as an official. While M. A. C.'s
playing was erratic at times, a
thorough understanding of the
new rules of the game would have caused
less criticism on the part of our root­
ers. The fact that M. A. C. at
times to work a good play simply
indicated that they were up against
men better informed than that
that the work was not well executed.

One of M. A. C.'s touchdowns
came in the first quarter made by
Hill who also kicked goal.

The second touch down in the
third quarter also came as an easy
goal when followed with an easy
goal. One of the features of the
game was the play of F. Campbell.
His playing was on the order of
"Babe Krazt" of former years who
snowed me through my
attended announcements of college happenings
for the following week. The fact
that many would plan to attend one
or more of such meetings if the
dates were given each week, has led to
this arrangement and we trust it
may be of use to all. We shall be
glad to have from students or de­
garments of any sort which they desire to bring before
the college people. We shall in­
clude references of various club
spokesmen, Sunday services, Y. M.
and Y. W. C. A. meetings and an­
nouncements of college happenings.
Athletics will come in for
notice as will the parties so far as
they can be learned. Any help
given to make this "Bulletin Board"
complete will be greatly ap­
preciated.

FROM NEBRASKA.

My dear Friend: I thank you for
the Record which I received
yesterday. It reminded me that
I must subscribe for it immediately if
I am to miss none of the news
during the present year.
I have begun my second year in
the chair of German and French at
Grand Island College. Our attend­
ance records of various classes
were poor last year. It is
was at this time last year. My
work continues pleasant.
I have been back three or four
thrice of me sometimes. I still
greatly enjoy them through my
and my memories of the Record.
Years cordially,
Geo. L. Stevens,
Grand Island, Neb.

Grand Island College.

Mr. F. H. Slover of Bay City,
visited Bay City and again met
Edward Slover, a day or two the past week.

LARGE LINE OF FINEST FURS

ABOUT THE CAMPUS

W. L. Gardner, who took the freshman work of the engineering course in 1905-06, has again entered college to continue his work.

Miss Margaret Dupee writes from Chicago of the death of her father on Saturday, October 2, of an acute attack of pneumonia. Miss Dupee was instructor in botany during the past year.

The young ladies at the Women's Building find recreation in playing field hockey these fine October days. A field is staked in front of the building, the game being played much the same as that of ice hockey.

On Saturday the football team goes to Ann Arbor for a game. A special train will be run and it is expected a large number of students and college people will take in this trip. A mass meeting will be held on Wednesday evening, at which time the final arrangements will be announced.

The forestry department has received numerous specimens of western woods for work in wood technology, which will be of great benefit. Among the specimens are typical pieces of pine, pinon, one of the nut pines of Arizona and New Mexico. This is of a very slow growth and scraggly in appearance. It is the chief fuel wood of the south-west, and sells in Albuquerque, N. Mex., for $3.50 per cord of 14-in. wood. It is used locally for fence posts, but is not at all durable. Specimens also have been received of eastern yellow pine, which is the commercial timber tree of the Rocky Mountain region.

Miss Grace L. Scott, instructor in music, entertained her mother over Sunday, Oct. 10.

H. H. Douglas, '10, of Northville high school, spent Saturday and Sunday with college friends.

Prof. Jeffery has ten seniors in agricultural 9 a.m. (soil physics), the largest number ever entered for this work.

Mr. J. C. Patridge, for two years instructor in English at M. A. C., has a very pleasant position in Belcourt college, Belmont, Cal.

The contract for the 1911 calendar has been awarded to the Manu Engraving Co. of Chicago. They will be something pretty fine and an opportunity will be given each to secure one.

Clarence Clippert, who has been employed in the laboratory of the experiment station chemists, was quite badly burned one day last week and was taken to the hospital where he could be properly cared for.

Mr. W. H. Neal, one of the U. S. Experiment Station inspectors, was at the college a day or two the past week. There are three or four of these inspectors who make annual tours of inspection to the various experimental stations in the U. S.

The first Debating Club of the term was attended by about thirty persons and plenty of enthusiasm. There is a new lease of life promised to the club, and if we are given a chance at Ypsilanti this year we shall surely come off victorious.

M. Putterman, '15, was called to his home in Detroit last week on account of the serious illness of a sister.

Low - Mouth piece for bass horn. Finder please return to Prof. Clark or to the office of the Military Dept.

Chas. N. Mason, '93, visited college friends a day or two the past week while on his way East from Birmingham.

Remember the date of October 19. One of the greatest musical treats ever offered at M. A. C. You cannot afford to miss it.

Mrs. C. B. Collingwood gave a reception to the Michigan Agricultural College Women's Club at her home, Sunset Lane, yesterday evening.

Mr. K. B. Boyce, who has been spending his vacation at his home near Big Rapids, called on his brother, A. G. Boyce, '12, last week. When here Mr. Boyce was on his way back to Washington where he is employed in the Patent office.

Mr. K. B. Boyce, who has been spending his vacation at his home near Big Rapids, called on his brother, A. G. Boyce, '12, last week. When here Mr. Boyce was on his way back to Washington where he is employed in the Patent office.

At the Michigan State Teachers Association held in Bay City Oct. 27-28, the alumni and friends of M. A. C. will hold a banquet on Friday evening at 5:30 o'clock in the parlors of the First Congregational church. It is hoped that all alumni who are teaching, and all others who can possibly do so will attend. All who can do so should notify Prof. W. H. French, chairman of the committee on arrangements, at once. Address Prof. French at E. Lansing.

Prof. French visited R. G. Hooper, '99, teacher of agriculture at Osage, last week and reports very favorably on the work Mr. H. is doing.

Prof. French addressed the Western Michigan Schoolmaster's Round Table at Kalamazoo, Friday evening on the subject of industrial education.

Several new hot beds have been constructed immediately south of the cold storage plant. The walls are built of cement, so will be practically indestructible.

Miss Mary Mead of Jamestown, N. Y., who has been spending the summer with her niece Mrs. Hague, returned to her New York home Friday of last week.

Announcements have been received of the marriage of Miss Arvillia Coonse, sp. '04-'05, to Mr. Richard Perry White at her home in Pontiac. Mr. and Mrs. White are at home in Cedarville, Mich.

Miss Anna Brown, national secretary of the Student Volunteer Movement, spent Sunday at M. A. C. Miss Brown is a graduate of Wellesley College, and headquarters are in New York City.

The Forestry club have elected the following officers: J. F. Campbell, chief forester; Albert Frutig, associate forester; Arthur Boyce, chief of records and accounts; J. L. Cortite, chief ranger; H. B. Collingwood, member of executive committee. The club meets each alternate Tuesday. Meeting tonight.
