LAKE FOREST.

And now the cry is "on to Lake Forest." The football team from the above institution will be free on next Saturday for the third home game of the season. They are one of the strong college teams, and will be a test of the champion ship of the college league, which league is made up of all the colleges outside the western conference. It will, without doubt, be one of the best games on the home ground this season.

The game will probably be called at 2:30 p.m., although this is not definitely settled. Best Kennedy, who used to coach Oliver's teams, is in charge of the Lake Forest boys. Many of our former players will remember Best Kennedy and Oliver, when M. A. C. was one of the six intercollegiate colleges.

FARMERS' CLUB.

The first meeting of the club was held Tuesday evening, Oct. 11, the seniors having charge of the same. The subject for discussion was Methods of Irrigation. Mr. H. Knochel spoke of the work of irrigation as supervised by the general government, including surveys, building of gates, falls, etc., and Mr. Chas. Frey discussed the actual application of water to the land by the individual owner. Pres. Sha m. gave an interesting account of a trip to Wyoming, taken during the past summer.

Mr. Brewer was called for and stated that, if the above institution will be here for their only touchdown, the team would be the winner. The coaches were not sure of their ability to win, but did not doubt the support of every M. A. C. football lover.

The various girls were practical, songs sung and with Prof. Myers as operator about 25 lantern slides were used. These consisted of the various songs and yeasts, pictures of the squid, and team in action, etc.

What is the matter with Brewer, he's a brick," seemed to be the most popular song.

One of the best shown was, that taken of the Alma-M. A. C. game by Le Clear and donated for this occasion. Fat Scriber acted as yell master but introduced a new man who showed splendid ability along this line and one who would help at the big game. Enthusiasm ran high and many were the pops to "go just this once."

FORESTRY.

The regular meeting of the Forestry club was held in the entomology lecture room. "The success of the meeting was attributed to the kindness of G. C. Branch and Prof. Pettit. Mr. Branch showed nearly too good stereoscopic views of Yellowstone National Park, and gave an excellent description of each one. P. P. Holdsworth then discussed the work of the summer school at Higgins Lake, after which the club adjourned to the dairy building, where the Rosomom choir furnished music and all participated in the refreshments.

Exceptional good programs have been prepared by the club for the winter and a special invitation is given to freshmen and sophomores to be in attendance at every meeting.

M. A. C. FOOTBALL SQUAD.

M. A. C. scores on Michigan.

In one of the greatest and best played games seen at Ann Arbor for a long time, M. A. C. was given the small side of a score - 3-0. An announcement of the game, and between 2,000 and 2,000 of the number were on M. A. C. bleachers. This number included students and their friends from surrounding country, and about 500 from Detroit. The day was ideal for the trip, and most of the students who went took the train in the Farm Lane at 2:05, accompanied by the band and the cheer leaders.

During the first few minutes of the game the maize and blue had a slight advantage in the contest, but M. A. C. then settled to business and played one of the greatest games, showing team work, far superior to that of their opponents, whose individual playing was fast, but, as a team, showed lack of organization. Had it not been for the severe penalties handed M. A. C., Michigan would have been the loser in Saturday's contest by a very decided margin.

The University count came in the fast few moments of play, and again it was penalties which gave it to them. With only one to five yards to gain, M. A. C. held them for five downs and the roosters went wild. Then Conklin dropped back as for a place kick, and M. A. C. shifted accordingly, when Green took the ball and went over the line for their only touchdown. The line up:

M. A. C. Michigan.
McWilliams - C. Bogdon
Lanear - E. W. Conklin
Pingle - R. O. Balwin
Babbitt - L. O. Bennett
Campbell - L. E. Wells
Montfort - R. E. R. H. Green
Riblet - P. W. McMillan
Curtright - L. H. Magidson
Stone - L. K. Owen
Evely - Q. McMillan
Kingsby - R. R. G. Hansell

NOTES ON THE GAME.

Excelsly went into the game with great spirit, and put up one of the finest games ever played anywhere by anyone. The punt blocking by Campbell was a feature, and was directly responsible for the score by M. A. C. Nearly 1,000 persons accompanied the team from Lansing and the college.

The whole team, although outweighted 25 to 30 pounds to the man, played good ball every minute. Michigan did not.

It was a big game, and one that the Michiganians will not forget right away. It will do them good, if anything, because it is the second time within the last two weeks that the importance of better organization has been brought home to the maize in a much stronger manner than the coaches ever accomplished before.

As for M. A. C., it was a big game, and one that the coaches will not forget right away. It was a good game, and one that the Michiganians will not forget right away. It will do them good, if anything, because it is the second time within the last two weeks that the importance of better organization has been brought home to the maize in a much stronger manner than the coaches ever accomplished before.
and horticultural students will separate at the beginning of the junior year as before.
