M. A. C. Closes Season

Visitors Outclassed at Every Point

Score—M. A. C. 62, Olivet 0.

M. A. C. closed the football season Saturday by administering a 62 to 0 defeat to Olivet. The visitors were outclassed in every respect and showed very little real knowledge of the game under present rules.

Olivet supporters were given a jolt on Friday night when President Lancaster and his officers decided that it would be unwise for his students to come to Lansing for the game. Although a special train had been arranged for and 300 rooters were ready to accompany the team, only 60 persons including the team were ready to support the team. The band, which led the coon and co-ed contingent occupied the center section of the west bleacher, and the co-ed contingent occupied the center section of the west bleacher, and when they were presented to the goal could be kicked. The committee having in charge of push ball games, one between faculty and seniors, and the other between two classes. Dinner will be served in the various clubs at about two o'clock, and the afternoon will be open for visiting, recreation, etc.

The evening entertainment as arranged by the committee has been cancelled by request of our students, who had made other plans and preferred that the evening be left open.

HorT. Club.

Although "Froats" is a rather cold subject for a tall, especially in the dark, Mr. D. A. Seeley, our weather prophet, has a long line of preventative of damage. They may be guarded against by covers to prevent radiation, by flooding, by spraying, by dry heating with petroleum or coal, and by smudging with moist sawdust, brush or manure. Petroleum makes the trees and fruit sooty. Coal is better.

The ordinary means of forecasting frosts are by absence of clouds, dry air, little wind and low temperature. Low ground is most susceptible because of imperfect air drainage. Plowed ground is not so subject to frosts as grassy or weedy ground. Long nights add to the danger.

Mr. Seeley will give some stereoptican views at the club later, when the apparatus is in working order and not "blowing fuses."

Jeffers and Chenango apples were handed out.

Thanksgiving Entertain-ment.

The committee having in charge the entertainment for Thanksgiving Day have laid out a program which will be enjoyed by all. During the morning some athletic entertainment has been provided, which includes the class game, Rugby, and a couple of push ball games, one between faculty and seniors, and the other between two classes. Dinner will be served in the various clubs at about two o'clock, and the afternoon will be open for visiting, recreation, etc.

The evening entertainment as arranged by the committee has been cancelled by request of our students, who had made other plans and preferred that the evening be left open.

Alumni

A. H. Case, '92 m, writes from Philadelphia, where he is located temporarily putting in an electrical plant. He expects to return to San Francisco in the spring.

W. C. Owen, with '05, is planning to enter the University of California the coming year for a four-year course in medicine. His present residence address is 2428 Rustie St., Berkeley, Calif.

C. E. Morvin, '06, civil, who has for some time been with the Bates & Rogers Construction Co., in Montana, has been compelled through illness to return to the east. He is employed by the D. U. R. in Detroit in the reorganized engineering department, and has a large amount of work mapped out for the coming season. His address is 1553 Helen Ave. He states that Hayden and G. A. Morley, with '05, are with the same company.

J. L. Shaw '03, is with the Forsyth Brothers, Chicago, as draughtsman. His home address is 43 W. Goethe st. and 48 W. Goethe st. and 1033 University Ave. He states that W. F. Jordan, '06, is with the American Bridge Co. during the summer, and is now with William A. Bach, consulting engineer, Chicago, whose business offices are in the People's Gas Building. His residence is at 2257 S. Sawyer Ave. He states that W. F. Jordan, '06, and his brother Tom '10, both in the employ of the American Bridge Co., are living at the same residence as himself.

Third, resolve to look for causes of thankfulness. "Seek, and ye shall find," is a principle as well as a promise. Look for trouble, sin, shame, ashes, broken dishes, you will find them. Look for God's good gifts, good people, apples, you will find them. Look for God's goodness today; only so will you come to see life in its fulness.

MATHER DANIEL BARLOW.

OUR ILLINOIS VISITORS.

Dean Eugene Davenport, of Illinois, accompanied by six of his friends, spent Saturday at M. A. C., arriving at 7:15 in the morning, and leaving via M. C. Ry. at 2 p.m. Prof. J. E. Latch, a member of the board of trustees and dean of the farm, and Prof. J. E. Snodgrass, a member of the board of trustees and chairman of the Illinois Seed Corn Breeders Association, also were present.

Dean Davenport is a pleasant visitor, and his talk on the Illinois Seed Corn Breeders Association was well carried out and was of much interest to the inquirers. The "goose-quill pen" was presented to the director of the Illinois Seed Corn Breeders Association, and was received with pleasure.

Dean Davenport is a pleasant speaker, and his talk is a happy omen. The "goose-quill pen" was presented to the director of the Illinois Seed Corn Breeders Association, and was received with pleasure.

The department of drawing and design have ready for distribution all drawings of students made previous to this year. Students are asked to call for same before the holiday vacation.

J. H. Farrar, special student in landscape gardening at M. A. C., '08-'09, will, on Dec. 1, take charge of the city parks of La Crosse, Wis., as superintendent. He will work in the redesigning and planning of the drives and grounds in the city parks.

John A. Jensen, a former special student in horticulture, formerly with Mr. Upham at the estate of Mr. A. Phelps Wyman, landscape architect, who has been during the past season working on the estate in Missouri, the latch string would always be out, for the purpose of showing visitors what is going on. The guests were Elizabeth Snyder, Helen Eichele and Alice Jeffery. The cooks were Margaret Kelz, Winifred Felton and Edna Chamberlain. The guests were Mrs. J. L. Snyder and Mr. Thomas Gansson. The menu follows:

Seeds of Michigan Weeds

The debate Thursday night was one of the best yet. There was no general debate. The question was: "Resolved, that the United States should not fortify the Panama Canal." was the subject in hand. C. C. Jones debated the affirmative and L. W. Scriber upheld the negative.

The Delta club have arranged for the use of the armory on Thursday evenings, where they will engage in "physical culture stunts." This is not only for the benefit of the club members, but for all members of the teaching force. Those participating will have use of the bath house. First meeting will be held Thursday, Dec. 1.

The preliminary debates will be held on Tuesday, Wednesday and Thursday, Nov. 29, 30 and Dec. 1. Thirty-eight men have signified their intention to take part in these debates. They will be held in three groups each giving a constructive argument. All will be heard by the same judges, and 12 of the 38 speakers will be chosen for the second preliminary.

The military on Saturday evening was enjoyed by about 100 couples, who danced to the music of Fischer's orchestra. A number of attractive novelties were introduced during the evening. At the head of the drill an arch was formed with sabres, through which the guests passed. Director and Mrs. Brewer and Prof. and Mrs. H. J. Eustace were patrons. The guests were Lieut. and Mrs. G. M. Holley, Dean G. W. Bisell and Sargent Cross.

Mr. Richard Hopkins, instructor in mathematics and civil engineering in 1904-1905 was at M. A. C. a day or two the past week. Mr. Hopkins is now engaged in construction work at Troy, N. Y.

A committee of the People's Church will be at the new church building from two to four o'clock on Sunday afternoon, providing the weather is agreeable, for the purpose of showing visitors what is going on. Students are especially invited to visit the building at this time.

The last senior dinner, for the term of section 1, was given Friday night. The hostesses were Elizabeth Snyder, Helen Eichele and Alice Jeffery. The cooks were Margaret Kelz, Winifred Felton and Edna Chamberlain.
RUGBY.

Following the final class championship football game, Thursday, there will be played an exhibition game of English Rugby by two picked teams. This is the game which has been adopted by Leland Stanford University and by a number of other colleges on the Pacific Coast, to replace the present American football. California and Washington all have Rugby teams playing a regular schedule, the same as in other sports. Cambridge and Oxford, in the east, play each year, and it is not unusual to have an attendance of 75,000 at these games. They always draw large crowds. The game will be both interesting and instructive. It will be played on the athletic field and will be called perhaps at 10 or 12 o'clock.

DRAMATIC CLUB.

The club is busy preparing for the play "Esmeralda" which is to be given this fall term. It is hoped to present another during the winter term. The parts for Esmeralda as assigned by Prof. King are as follows:

Mr. Elbert Rogers...Glenn Franco
Mlle. Lydia Rogers...Miss Winona Fenton
Miss Emma Rogers...Margaret Kehele
Dave Hardly...G. Dimmick
Mr. Estabrook...W. Shanor
Miss Edith McDonald...Miss E. B. Caldwell
Mr. Jack Desmond...Mr. James
Mlle. Kate Desmond...Miss Leoos Lee
Margaret De Mone...Sim Langdon
George Drew...Elmer Hechal
Sophia...Miss Stated Robin.

Coach Yost of the U. of M. places fullback Exelby on the all western team, and Mr. Yost should speak to the People's Senate Chamber, Lansing, December 4th.

The Eighteenth Annual Meeting of the Michigan State Association of Farmer's Clubs will be held a Thanksgiving party in the Church congregation at 11 o'clock, having exchanged pulpits with Rev. Goldsmith.

The Delphic Literary Society held a Thanksgiving in the Agricultural Building on Saturday evening. Flags and pennants were the decorations for both corridors and dance hall. Turkeys and pumpkins figured prominently in the novelties. Forty couples enjoyed the evening. The patrons were Dr. and Mrs. Lyman and Prof. and Mrs. Wilson.

For the short course in creamery management to be given this winter Mr. Simon Hagadorn, who has been here for the past two years, will assist in the work. Mr. Hagadorn is an especially good butter-maker, and is perhaps the best man in the work of "watering" in the state.

Mr. Charles Dean, who was an instructor in the short course work last year, will act as instructor in cheesemaking during the coming winter. The cheese course will be given this year in connection with the creamery course, during the first four weeks of the same. The first year's course will be an eight weeks course instead of six as before.

W. M. FORBUSH, Derrico, one of the editors of The Wyalusing, spoke to the People's Church congregation at 11 o'clock, having exchanged pulpits with Rev. Goldsmith.
