BASKET BALL.

M. A. C. WINS "STATE CHAMPIONSHIP." 214.

By defeating the strong Detroit Y. M. C. A. team, 51 to 41, on their floor, M. A. C. established her undisputed right to the state championship on March 4. The home team had an exceptionally strong schedule of 15 games; has won every home contest, and lost but three—Wisconsin, Wabash and Northwestern—of the outside games, and those by very small margins.

The results of both teams were splendid, and the baskets secured were all well earned. Detroit Y. M. C. A. played especially for the first half; M. A. C.'s team work being much more snappy, and the passing more clever. The first half ended 14 to 8 for M. A. C.

In the second half the "Y" boys were 23 to 24 stronger and played a better all-round game. They were unable, however, to overcome the big lead and M. A. C. was the victor. Every man of the home team played a star game, and it was the team, not any one individual, that won the championship.

The results of the season are as follows:

Tames Oppos M. A. C.

Mt. Pleasant 19 72
Armour 39 59
Northwestern 27 79
Alma 14 53
Wabash 32 56
Rosehill 31 95
Hope 41 49
Armour 54 14
Albion 23 60
Winona 34 78
Alma 15 57
Hope 36 42
Iroquois-Y 17 20

Total 389 551

NORTHERN M. A. C. ASSOCIATION.

At a recent meeting, held at the home of Mr. and Mrs. C. F. Herrmann, of Minneapolis, the organization of the above named association was formed.

Those who were present at this first meeting were: William T. Lounsbury, '03, and wife; Charles F. Herrmann, '97, and wife; Mrs. Kinney (Ainora Alexander, '03, and husband), '08; Miss Ada Robinson; H. B. Tilden, '05; C. C. Cavanagh, '07, and wife; M. J. Dorsev, '06, and Miss Bessie Benisv, '05.

The officers of this new association are: C. F. Herrmann for President; M. J. Dorsev, vice-president; Bessie Benisv, secretary. The Association is not on a set program, but a roving good time had, and everybody became acquainted with every one, until, as Miss Benisv writes: "We hope to double the number at the next meeting, and shall be glad to receive any of the seniors of "M. A. C.""]

Miss Benisv's address is 2130 Carter ave., St. Anthony Park, St. Paul, Minn.

M. A. C. AT THE N. E. A.

M. A. C. was well represented at the convention of the Department of Superintendence of the National Education Association, held at St. Louis, Feb. 26-29, by six graduates and one former student.

Three of these were principals of state normal schools—C. L. Benisv, '15, of the West Virginia State Normal, at Athens, Charles McKeeny, '91, of the Wisconsin State Normal, at Milwaukee, and D. W. S. McCollough, '92, of the Northwestern State Normal, at Kalamazoo.

Of the class of '93, there were E. E. McElroy, formerly superintendent of schools at Coldwater, but now state agent for the American Book Company, with headquarters at St. Paul, Minn., and D. J. Craig, of the U. S. Department of Agriculture.

W. C. Bagley, '95 director of the School of Education of the University of Michigan, was a prominent delegate at the General Assembly of the National Society for the Study of Education, and gave a presidential address.

The youngest and most charming graduate was Miss Paulina E. Raven, '95, who is at the head of the home economics department of the Missouri State Normal School, at Warrensburg.

MID-WINTER CONCERT.

The third mid-winter concert will be given in the armory on Friday evening at 8 o'clock. The chorus consists of twelve voices, and will be assisted by the boys' glee club, the girls' glee club, and the following soloists: Mrs. Roy Moore, soprano; Margaret Gilroy, contralto; Mrs. J. W. Stephens, contralto; Mr. J. W. Stephens, tenor; Mrs. Ray Hamilton, tenor; Prof. R. H. Huston, baritone; Mr. J. L. Morse, baritone; Miss Louise Freyhofer, accompanist; Miss Lenna Bassett, accompanist; Mr. Bruch Hartsch, accompanist; Mr. Fred Killeen, conductor.

The price of admission is but twenty-five cents, and it is sincerely hoped that all college people and East Lansing folk generally will turn out to this concert. It will, without doubt, be one of the very best entertainments of its kind ever given in the Armory, and the time and money will be well spent.

The chorus of 140 voices has been training all year, and are in excellent voice, while the soloists are all of the very best.

Mark the date on your calendar for the concert—Friday, March 15, at 8 o'clock, in the college armory, and plan to bring your friends with you.

Mr. and Mrs. H. E. Young, of Chicago, announce the birth of a son, Robert McCollough, on March 1. Mr. Young is editor of the Pacific Review, and Mrs. Young was formerly Aibel McCormick, with '03.

M. A. C. AT PURDUE.

The M. A. C. alumni and their wives, who are located at Purdue University, were entertained at dinner recently by Prof. and Mrs. Charles Troop. Those present were: Prof. W. C. Latta, '75; and wife; Prof. G. Woodson, '74, and wife; J. G. Boyce, '88, and wife; W. R. Wright, '92, and wife; Prof. J. T. Troop, '75, and wife; and Miss Lovina Merick, with '03.

It is a large jump from '75 to '08, and the branch was not as large as that one which met at Chicago recently, but the same old college spirit pervaded, and all enjoyed a very pleasant evening.

THE BAND AT MASON.

The band, 28 men strong, went to Mason last Tuesday evening, via the M. U. R. G., to give a concert, and the antics of the Mason high school. Rayner opera house was well filled with an enthusiastic audience, and the excellent program given by the band was heartily appreciated.

The band was ably assisted during the evening by Professor E. S. King as reader, and by the Auroran Quartette. After the performance, the band was brought direct to the campus in a special car, leaving Mason at 10.15 and arriving at the college at 11.30. About the middle of April the band is to appear in St. Johns in a concert, and other trips of a similar nature are being arranged for by Mr. E. C. Kiefer, the manager.

Not only are these trips good advertising for our alma mater, but they furnish good experience for the band men, and stimulate interest in the band work.

THE CUSTER MONUMENT.

The library is in receipt of a handsome volume in which is tabulated the complete program of the ceremonies attending the unveiling of the equestrian statue to Major General George Armstrong Custer, of the State of Michigan, and formally dedicated at Monroe, Mich., June 4, 1917.

The appropriation of $25,000 for this work was made possible by an act of the legislature in the spring of 1907. Mrs. Custer was the consultant advisor of the commission, and with her own hands unveiled the statue, after being escorted to the platform by Pres. Wm. Howard Taft.

The volume is beautifully bound, and contains some 120 pages. There is a great likeness of each of the many noted personages to have a part in the program—Pres. Taft, ex-President Warren, Senator Smith, Mrs. Custer and others.

The book is the gift of Gen. James H. Kidd, of Ionia, who, himself written the most interesting historical sketch of the famous Custer, and to whom is due the honor of this valuable additional to our library.

ALUMNI.

ED. RECORD: Your threat to discontinue the Record is just received, and I enclose a little which I hope will induce you to continue sending it. I would not be without it for the world.

Tell the boys that Blissi (Miss) is the best place on the map. I have been here fifteen years, and I know Jim Suttles, of '06, and Charley Garfield, of '07, with their families, are here with me this winter, and as both of them owe me for dinners of such oysters and shrimp as you northern fellows considerivol, they are both bound to vacate for anything I may say. Sabre! Have just received a letter from Tubbins of '73, who says: "Give my best regards to Sutlerie and Garfield, and tell them my only daughter is now on her way back from the Philippines, with our money in view so you see the boys of '07-'08 are getting on." Yours—same as all other M. A. C. boys,

TREACY, '95.

The Detroit Journal of Feb. 24, contains an appreciation of the Higgens School, of Detroit, of which William Lightbody, '89, is principal, and with which he has been identified for 20 years. Mr. Lightbody laid the corner stone of the beautiful high school building 14 years ago. Ample play grounds, a saloon building transformed into a gymnasium, and excellent library facilities have all combined to make this one of the leading schools of its kind in the country. The good fellowship of principal, teachers and pupils is evident on every hand. Lightbody work in this school, he has had 50 different grade teachers under his direction, and has won special merit in the educational associations of the state, and for eight years was a member of the board of examiners for Wayne county teachers.

Lowell B. Judson, a graduate of '03, and former Lansing man, died at Albany, N. Y., on March 7, following an operation for appendicitis. Mr. Judson graduated from Harvard with the class of '01. He was particularly drawn to horticultural work, however, and entered M. A. C. to specialize in this subject. After graduating, he accepted a position at the Idaho Agricultural College, and later was elected to the position of assistant professor of horticulture at Cornell University. He left this position but recently to develop a farm near Kinderhook, where he was taken ill, and where the internment was completed.

The news of his untimely death comes as a shock to both his relatives in Lansing and to his college friends. He was a man of exceptional ability, and with a great future.
**BEET SUGAR COURSE.**

The course in beet sugar chemistry is proving a most popular one, and the attendance is far beyond what had been anticipated. It was thought that perhaps 12 or 15 men could be interested, but, as a result of a very small amount of advertising, 46 earnest, enthusiastic men are enrolled for this work.

Mr. H. I. Goodbody of Crosswell, and Mr. Marshall Allen, 85, of the Alma factory, have been successful in this work. The work is open only to men with some practical experience, and this experience ranges from one to twenty campaigns. The different experiments of the various stations are being taken up and discussed, and the processes, losses, yields, etc., are some of the practical subjects in hand.

Following is a list of those who have entered for the four-weeks' course:

Baker, Claude L., Oswego.
Bauer, Victor, St. Louis.
Belbas, Harmon, Alma.
Bow, Everett, St. Louis.
Braun, E. J., Saginaw.
Braungusman, R., Crosswell.
Burwell, E. L., Charlesville.
Calvin, O. G., W. Bay City.
Chien, M. J., Bay City.
Cook, Walter, Saginaw.
Cromwell, C., W., Midland.
Ferris, O. W., St. Louis.
Fooker, O. Alma.
Gaines, F. C., Alma.
Hassel, B. E., Crosswell.
Horn, Ernst, Caro.
Klaudt, J. L., Oswego.
Klines, F. O., St. Louis.
Knuston, J. O., Holland.
Lockwood, G. V., Alma.
Loewy, L. A. St. Louis.
Malor, Raymond, Midland.
Manning, C. S., Saginaw.
Manser, J., H. Oswego.
Mason, M. L., Saginaw.
Mark, P. H., Saginaw.
Mastinick, W., Bay City.
Myers, P., Battle Creek.
Neering, T. J., Escanaba.
Panbuary, O. A., Oswego.
Patton, H. S., Lansing.
Porter, Sidney W., Bay City.
Price, Frank, Holland.
Rector, H. L., Saginaw.
Schlecker, Paul, Caro.
Simpson, Wm., Escanaba.
Skeen, C. J., Saginaw.
Smith, F. O., Oswego.
Snell, Thos., C., Saginaw.
Spalding, P. L., Oswego.
Sprigg, J. A., Saginaw.
Van Gilbert, J., Bay City.
Wells, C. O., Midland.
Welch, H. A., Bay City.
White, Geo. W., St. Louis.

**HORT. CLUB.**

L. J. Michael, '07, corn expert of the province of Bessaribia, Russia, was introduced to the Hort. club on Wednesday evening by Dean Haskell, of the engineering department. He was called to Russia two years ago, and since that time has had interesting experiences.

While they were busiest to the work that he was to take up, yet the people of Bessaribia treated him with the greatest courtesy upon his arrival. His success, so far, in the breeding of corn has been such that in the year of 1913 he has a tract of 500 acres with which to carry on his work, and in 1912 this will be increased to 2,000 acres.

The climate of Bessaribia is somewhat the same as Michigan, and they grow many of our fruits and grain crops. The people are mostly Russians, Jews, French, and Bulgarians. The upper classes are highly educated, while the lower classes are illiterate, but live happily.

Mr. Michael thinks that, with the introduction of American machinery and American methods, Russia is bound to improve rapidly along agricultural lines.

**NEW LATHES.**

The engineering shops have just started the manufacture of six 14-inch engine lathes, which will be a part of the repair equipment of the machine shop. A conservative valuation of these lathes is $6,000.

The order for the manufacture of these lathes, together with the making of the various other types of equipment with which our machine shop is equipped, has occupied its time. After, all students in this shop will at all times work on parts which will be used, on a particular machine, in the upper some other definite purpose. As far as possible the making of "ex- cellent pieces" will be held to be a part of the work from the other shops as soon as possible.

**RIFLE CLUB.**

M. A. C. Wins its Sixth Victory in Eight Matches.

Our team boosted its high score to 98 last week, defeating Michigan by 52. F. Gifford, a freshman engineer, again shot his way to the top of the team, with a total of 138. The other professors were: Clark, K. S., 135; Scrumlin, H. W., 135; MacDonald, J. A., 139; and Hecob, F. E., 137.

Gifford last week made 187, tying the season for the highest score of the College team during the present series.

Iowa still leads the league, with eight straight victories. Minnesota is second, with seven victories and one defeat; M. A. C. being a close third.

The local peace contest will be held at the elected time of the meeting for the college on the day, the contest will be held early next term.

Pres. Snyder is in St. Louis, Mo., this week, in attendance at the meetings of the Religious Education Association. He gives an address today before the association upon the subject: "The Training of Religious Leaders for Church Work in Rural Communities."

Prof. King's class in steam engines and boiler inspection visited the power plants of the Michigan Power Co., and the city electric pumping stations on Friday afternoon of last week. Every feature of the plants, from the coal pile to the boiler cars and operators, was given detail attention.

On Wednesday night of this week, Hon. Lawton T. Hemans, of Mount Clemens, will speak before the engineering students, on the relation of the telegraph companies to the people. They meet on Wednesday night on public utilities from the standpoint of the manager of one of the big Chicago or New York companies, who will be arranged for from time to time.

W. B. Stoum, of Grand Ledge, visited his brother-in-law, Prof. Newman, Thursday of last week.
The Tau Beta Pi gave a dancing party in the assembly room of the Agricultural Building Friday evening.

At a recent faculty meeting a committee was appointed to look into the advisability of establishing a course in arts and sciences at M. A. C.

Prof. W. G. Hedrick was in Boston last week, where he attended the big alumni meeting on Friday, March 8.

The drawing department is contemplating an exhibit of Japanese prints in the near future, and in connection with the exhibit it is planned to have a lecture on Japanese arts and customs by a competent authority.

The class in works management visited the plant of the Michigan Screw Co., on Homner Street, Lansing, on Saturday morning, and spent a profitable time in the study of automatic machines and special tools as used in the manufacture of parts in great quantity. The study of the construction, operation, and product of the great variety of intricate machines which are found in this excellently well equipped shop absorbed the attention of the students who were privileged to take this trip. That the couple of hours spent at the plant were profitable could not be doubted by any who could have seen the interest displayed by the class.

P. J. Richards, of last year's class, is now assistant superintendent of the Flint Gas Co.

Instructor Fogle, of the department of farm mechanics, has purchased a farm of Handy Bros., 214 miles north of M. A. C., and has moved his household effects from Sunnfield to that place.

The Mill of athletic elections are held on Saturday of this week. In connection with athletics the assistant managers and board of control will be elected. The editors, business managers, etc., of the student paper will be selected at this time duties to begin with the spring term.

Under the direction of Prof. Myron A. Cobb, '08, the second annual Farmers' School was held at the Mt. Pleasant normal March 4-8. M. A. C. was represented on the program by Sup't Ralph Hudson, who spoke on horses; Prof. Anderson on dairying; Field Agent White on fruit; Instructor Linton on general poultry subjects, and Mr. Hoopingarner on farm crops.

Chairman C. L. Glasgow, of the Railroad Commission, gave a very interesting talk before the engineering students on Wednesday evening. He spoke of the financial condition of the P. M. road in particular. The two cent fare proposition is not held in very high regard by Mr. Glasgow, as it affected only the roads which were able to keep even at three cents. Prof. Anderson, of the railroad commission, said the speaker, is to prevent discrimination in rates of public utilities.

R. C. Allis, '11, is with the Grand Trunk Pacific Railway, with headquarters at Edmonton, Alta.

Dr. Ruth Allen has returned from Surgeon Bay, Wis., where she has attended her father during his illness and death.

Announcement is made of the coming marriage (March 11) of Mr. Elmore Dale, '10, Lansing, and Miss Edith May Gunn, of Holt.

H. H. Musselman, of the farm mechanics department, Instructor Fischer, of the English department, and Miss Rademacher, of the biotechnological department, are all serving time in the college hospital.

Remember the local option address by H. R. Pattengill in the People's church, Sunday evening, March 17. Mr. Pattengill knows the subject thoroughly, and has been engaged during the winter lecturing all over the county. He will have something of interest for all.

On Saturday night, March 16, in the Detroit Light Guard armory, will be held the second annual Michigan championship indoor athletic meet. This meet is held under the auspices of the Detroit Y. M. C. A., and will be attended by a number of State athletic teams. M. A. C. will, in all probability, be represented by the following men: Geib and Rosen in the mile; Geib, Rosen and Brown in the half mile; Lord in the high jump; Day in the shot put, and Beatty in the pole vault.

The annual Etruscan price is to be offered again this year. Further detailed notice will be given next week.

J. Shoat Welles, '09, and wife were visiting the latter's parents and their many college friends the past week.

The students in electrical engineering made a test, Saturday morning, of the Novo Engineering Works in Lansing.

A one-week farmers' course was held March 4 to 8 at Osage, under the auspices of the agricultural department in the high school. Prof. Anderson, Mr. White and Mr. Baldwin were among the speakers. R. G. Crane has charge of the work at Osage.

Fifteen members of the Sigma Delta Chi fraternity (journalists) of the University of Michigan came out from Lansing Monday morning in automobiles and visited the various departments at M. A. C. This fraternity, of which Gov. Osborn is an honorary member, is composed of students who are particularly interested and engaged in journalism at Michigan, or those who are taking a course in that subject. The young men were the guests of Governor and Mrs. Osborn at their home at dinner Monday evening, and while in Lansing visited the various places of interest, including the Industrial School and School for the Blind. They were pleased, and many were greatly surprised at the size of the campus and buildings and extensive equipment.
Everybody reads THE STATE JOURNAL BECAUSE
It completely covers the field of local news, politics, and the world of sports. Because its telegraph and correspondence service enable it to give its readers the latest general news of the day in advance of any other newspaper coming into Lansing.
Have THE STATE JOURNAL delivered to your home by carrier.

U. S. FOREST SERVICE.
In the field program of the U. S. Forest Service for January, 1912, the names of the following M. A. C. men appear:
E. R. Holmes, 105 assistant, Appalachian Assignment, Washington, D. C.
John C. Decamp, 10, forest assistant, Kanikus Nat. For., Portland, Wash.
F. H. Dougler, sp. with 12 assistant forest ranger, Medicine Bow, Nat. For., Laramie, Wyo.
Albert Fralick, 11, assistant forest ranger, Michigan Nat. For., Anisba, Mich.
C. M. Graeger, 17, assistant forest ranger, Appalachian Assignment, Washington, D. C.
W. A. Homan, 58, assistant forest ranger, Michigan Nat. For., Laramie, Wyo.
Huber C. Gilson, 11, forest assistant, Big Horn Nat. For., Sheridan, Wyo.
Bruce Hoffman, 10, forest assistant, Chugach Nat. For., Ketchikan, Alaska.
C. W. Hopkin, 58, assistant forest ranger, Appalachian Assignment, Washington, D. C.
Georges Kiefer, 58, assistant forest ranger, Ozark Nat. For., Harrison, Ark.
C. W. McKibbin, 11, forest assistant, Apache Nat. For., Springerville, Arizona.
Vincent McKibbin, sp. with 12 assistant forest ranger, Olympic Nat. For., Olympia, Wash.
J. A. Milwych, 109, forest assistant, Special Silvicultural Work, San Francisco, Calif.
Geo. C. Morbook, 55, forest assistant, Ozark Nat. For., Harrison, Ark.
More Stood, sp. with 159, Super, Kootenai Nat. For., Libby, Mont.
R. V. Tanner, 99, assistant forest ranger, Kootenai Nat. For., Libby, Mont.
Reese W. Taylor, 59, forest assistant, Columbia Nat. For., St. Anthony, Idaho.
H. Halsi Wales, 11, forest assistant, Dalt Nat. For., Mogulena, N. Mex.
Roy S. Wheeler, 110, forest assistant, Hayden Nat. For., Encampment, Wyo.
Wm. E. White, 10, forest assistant, Crater Nat. For., Medford, Oregon.
H. R. Wilson, 56, forest assistant, Columbia Nat. For., Portland, Oregon.
D. D. Wood, 21, forest assistant, Roosevelt Nat. For., Steamboat Springs, Colo.

William Hoykwey, formerly with the Chalmers Motor Co. of Detroit, called on college friends the past week, when on his way to Pasadena, Cal.
The School for the Blind have inaugurated a poultry course, and Mr. Limnir has been engaged upon to start a series of lectures at that school pertaining to this subject, beginning this week. A number of senior students will be called upon from time to time to give talks before the students of that institution.
