No. 1.

IMPORTANT MEETINGS CONDUCTED BY ALUMNI AT RECENT TRIENNIAL.

The first business meeting of the 17th Annual Triennial of the M. A. C. Alumni Association was called together by President C. B. Collingwood, at 9 a.m., in the chemical building. The minutes of the preceding meeting were read by Alumni Secretary W. O. Hedrick, and printed in the Record. The report of Mr. Hedrick, as treasurer of the association, was also read and approved.

Mr. Bolte, representing the Chicago Alumni Association, expressed the desire of that association to change the constitution and by-laws so as to include an executive board, to be composed of one duly elected representative from each local association, together with the executive officers of the parent association, and possibly two or three other members connected with the College. This board should have legislative powers, so that they could act for the Association during the intervals of the triennial meetings.

It was moved and carried that a committee be appointed to go into the details of this plan.

Before the committee retired, President Cook made a motion that the Association should have a permanent alumni secretary.

A motion was made and carried that an alumni secretary be secured. The Chair then appointed J. W. Beal, K. L. Smoland, Baker, A. B. Cook, E. C. Lindenmann, and W. A. Taylor as a committee to consider the changes in the constitution and by-laws.

While the committee was deliberating upon the suggestions made by Mr. Bolte, Dean Davenport, Mr. Garfield, Mr. Beaudoin, Mr. Prudden, Mr. Monroe, and several others stated their opinions on the various propositions submitted.

The report of the committee on constitutional changes was then made. The first two clauses of this report were adopted upon motion of Mr. Bolte.

Moved and carried that the consideration of the remainder of the report be deferred until the afternoon meeting.

Motion made and carried that a committee on nominations be appointed: President Collingwood appointed the following committee: A. B. Goodwin, F. S. Kodzie, and E. C. Lindenmann.

A motion was made and carried that a committee on resolutions be appointed: President Collingwood appointed as this committee: J. P. Finley, Chas. Garfield, and Miss Helen N. Hubert.

The meeting then adjourned until the afternoon.

The second meeting was called together in the afternoon by President Collingwood. The following report of the committee on constitutional changes was made by Mr. Bolte, and adopted:

The executive officers of the Association are hereby directed to present the changes made in the constitution and by-laws at the next meeting of the M. A. C. Records, and to conduct a mail vote upon the by-laws.

Should the votes upon the by-laws comprise a majority of the total votes cast, said constitution and by-laws shall be adopted, and the executive officers shall thereupon incorporate this Association under the laws of the state of Michigan.

It was moved and seconded that the officers of the Association be: President, Vice-President, and Treasurer.

There should also be an executive board, composed of one member duly elected by each of the recognized local M. A. C. associations; three members elected at large by members of the parent association, who do not belong to a local association, who, together with the elective executive officers of the parent association, shall comprise the executive board.

The Executive Board is hereby authorized to accept from the State Board of Agriculture a publication known as the M. A. C. Record, provided such acceptance does not entail expense or liability to the Association, and provided that the State Board of Agriculture agrees to the following conditions: (1) The officers of the Association shall have access to all material and information contained in the Record. (2) The Board of Directors shall receive the Record for publication as soon as possible after its publication. (3) The subscribers to the Record shall be the members of the College. (4) The officers of the Association shall have the right to publish the Record in any form they may desire.

The Record will endeavor to give each one of its subscribers the news of the College in a new way. Considerable space will be devoted to the doings of former students, alumni notes, and things of interest to these whose active participation in college affairs is past.

The RECORD WILL BE THE ONLY OFFICIAL ASSOCIATION PUBLICATION. The Helicad, published by college students, for college students, will devote its attention to the undergraduate side of college life, and the Record will be alone in its field.

If the M. A. C. Record is to be a success it is hoped it will be, it must have the immediate and unfailing support of every alumnus and former student of Michigan.

The first thing to do is to subscribe for the Record.

Let's get things started early. Send in ONE DOLLAR for one year's subscription to the official organ of your association.

ANNOUNCEMENT.

The M. A. C. Record is now the property of the M. A. C. Association, and will be conducted by the Alumni Secretary, Mr. George C. Sheffield, of the class of 1912.

Its policy will be directed in the interests of all former students of M. A. C., and will be controlled by the M. A. C. Association instead of the faculty of the College, as in former years.

As will be seen by the Minutes of the Alumni Association Business Meeting, presented in another column, the membership of the new Association has been considerably broadened. Every former student of the M. A. C. who left in good standing with at least 20 credits is now eligible to membership in the M. A. C. Association.

The policy of the Record from now on will be to strengthen the bonds of friendship between all former students and the College.

The Record will endeavor to give each one of its subscribers the news of the College in a new way. Considerable space will be devoted to the doings of former students, alumni notes, and things of interest to these whose active participation in college affairs is past.

The RECORD WILL BE THE ONLY OFFICIAL ASSOCIATION PUBLICATION. The Helicad, published by college students, for college students, will devote its attention to the undergraduate side of college life, and the Record will be alone in its field.

If the M. A. C. Record is to be a success it is hoped it will be, it must have the immediate and unfailing support of every alumnus and former student of Michigan.

The first thing to do is to subscribe for the Record.

Let's get things started early. Send in ONE DOLLAR for one year's subscription to the official organ of your association.

ALUMNI.

Ransom H. McDowell was killed by being struck by a passenger train in Reno, Nevada, on the evening of August 18.

He was well known among the younger students of the college, being foreman of the farm after his graduation, later accepting a position as Farm Superintendent at Purdue, and going from there to a similar position at the State Agricultural College of Colorado.

In 1874, he was offered the position of Professor of Agriculture at the University of Nevada, and though he left the University some years since, he has always remained a resident of Reno.

ATTENDANCE.

Cass E. Herrington, with the above class, and counsel for the Colorado Fuel and Iron Co., has been elected president of the foremost club in the Rocky Mountain region—The Denver Club.

L. G. Carpenter is the expert for Colorado, in a case brought by Wyoming against the former state, in matters involving water rights on the Laramie River, and is in a favorable position.

W. W. Remington, besides being principal of the East Side Latin School, Denver, is secretary of the Colorado Teachers' Association, a large and active body, whose great influence is largely due to Mr. Remington.

Mrs. L. G. Carpenter spent several months during the spring visiting in Michigan and neighboring states.

Alberl H. Voight, 963 Westlake Ave., Los Angeles, Calif., was a college visitor at commencement time. Mr. Voight is well known in furniture circles on the Pacific coast, and is regarded among members of that fraternity as one of the most critical buyers in the country. A diploma received from him tells of the untimely death of a former M. A. C. man, J. A. Reid. Mr. Reid, formerly with the class of '91, was run down by a street car in Los Angeles and died as a result of the injuries received.

Invitations have been issued for the marriage of Miss Maud Marian, of Warsaw, N. Y., to Mr. Willard Freeman Hopkins, of Buffalo. The ceremony took place Sept. 21.

Mr. Hopkins will be remembered as having been with the class of '89, although he is a city graduate. He left the college to enter the banking business, in which he has been eminently successful, having risen to the position of second vice-president of one of Buffalo's leading banks.

TUESDAY, SEPTEMBER 30, 1913.

AFTER 18 years of successful service, Dr. John Ellis, President and members of the faculty of the Michigan Agricultural College, at the meetings held during the Triennial, and now comes forth from a new source.

All things considered, the history of the great body of men and women who have received part or all of their training at the Michigan Agricultural College, has been handed down by the new M. A. C. Association is submitted to former students of the college, and more particularly to the present students. We say approval, because it seems better to us. We also want to add that as it will be at all times during the year. If there are good, honest criticisms, we wish there too.

THAT the time has come when the Alumni and former students of M. A. C. could be of inestimable value to the College, was the consensus of opinion at the Triennial Celebration last June.

That these former students, the great body of men and women who have received part or all of their training at the Michigan Agricultural College, have something to say with affairs pertaining to the College and to each other, in order that they may continue in good standing with at least 20 credits.

The men who were responsible for the new order of things we believe, in the future of this new organization, and hope in a short time to feel the impetus added by new surroundings at the wheel.

THE PERMANENT SECRETARY.

Followings are the minutes of the meeting held by the members of the Alumni Board during the past summer, at which the matter of selecting a permanent secretary for the M. A. C. Association was taken up:

"Motion made and carried that the call of three be approved and take charge of the matter of selecting an alumni secretary. Chair appointed Heidrick, Anderson and Benits.

"Motion made and carried that J. R. McColl and Heidrick act as a committee on by-laws.

"In motion, meeting adjourned."

W. O. Hendrix, Secretary.

A. T. Cartland, '97, of Dowagiac, was elected to the position of secretary by an overwhelming vote, during the recent meeting of the Methodist church held at Cassville, Michigan.

IMPORTANT MEETINGS CONDUCTED BY ALUMNI AT RECENT TRIENNIAL.

(Continued from page 1)

to pay to the Association not less than $50 per month to partially defray the cost of publishing the said RECORD, and does, furthermore, provide the Association with the suitable office space with the usual appurtenances, and without cost to the Association.

The Executive Board shall employ a permanent paid secretary, who shall be an alumnus or alumnice of the College, and who shall edit the said M. A. C. RECORD and fulfill any other duties required of this office by the Executive Board or the constitution.

The by-laws shall be so drawn as to permit members of the Executive Board to cast their ballots by mail on any questions brought before the Board, and shall furthermore provide that the entire membership of the Association may vote by mail on all questions properly come before it; the questions, nominations for office, and proper ballots be printed in the M. A. C. RECORD and sent to each member of the Association. It shall also be provided that any action by either the elective officers of the Executive Board shall be presented to the entire membership of the Association for ratification or recall upon the presentation to any of the executive officers of the Association of a petition signed by not less than 15 per cent. of the entire membership of the Association.

It was then moved and supported that the membership of the organization shall include matriculants in good standing, who have attained 20 regular college credits, or the equivalent thereof. An amendment was then suggested that the short course students, and those who only satisfied college a short time, be known as associate members.

Therefore, it was moved that the membership of the Association shall include as associate members those who have attended at least one year of the regular college course. This motion was put to vote, but was lost. Twenty-three were in favor of it, while twenty-two opposed it. Accordingly the original motion (that the membership of the organization shall include matriculants, in good standing, who have attained 20 regular college credits, or the equivalent thereof) was carried.

The report of the committee on nominations was then adopted, and is as follows: J. R. McColl, '97, elected president; George C. Monroe, '91, vice-president; W. K. Prater, '98, treasurer, and three general executive officers, A. Crosby Byander, Mrs. Eilis W. Kuney, and Chase W. Taylor.

H. E. Heidrick, Secretary.

CASE AGAINST COOK FAILS IN CALIFORNIA.

(Continued from page 1)

time over baseless and petty wrangling. At the conclusion of the hearing, the Judge ruled as follows:

"If the head of a department surround himself with good men, who individually accomplish good work, even though not working under direct orders from the department head, it seems to me that the man who made the appointment is entitled to the credit for the work done.

"It seems ridiculous to me that there should be two factions of horticulturists in California," said Gov. Johnson. "It has been bang, bang, against. Dr. Cook ever since the case come to me several times, very fretted at the criticism, which has been well founded. The interesting part develops in the fact that Prof. Cook has done such good work in the face of constant criticism, and the patients felt called upon to admit it.

At the close of the hearing, both sides held the view that the battle was not yet finished, but that the battle was not yet finished, but that the battle was going to press larger than any previous year shows, even when the short season failed in such a way.

Advices given out by the registrar's office indicate that a total of 100 students and 2000 others have been in offices within the last month. Last year the enrollment, including short course men, was not up to the same mark.

It had been feared by the management of the college at large, and by the engineering department in particular, that the legislative unemployment of last spring would materially decrease the registration in the mechanical courses. The contrary has proved to be the case, however, and those courses show an appreciable increase over any other year.

With the increase in available funds, a growing in enthusiastic attendance, and the prospect of new buildings in the near future, the prospects for a bigger and better M. A. C. College, and the President and M. A. C. A. have reason to look ahead to higher and even greater than before in popular favor. The figures covering the various departments will be available for the next issue of the RECORD, and will show where the increases are greatest.
The M. A. C. RECORD.

TREASURER'S REPORT OF TRIENNIAL FINANCES.

After setting up all accounts and paying all the bills incident to the recent Triennial Reunion, W. O. Herdick, who played the role of acting treasurer of the Alumni Association, reached the belief that he had broken all records and made a crumpled mess of precedent. He managed to count even, without so much as a postage stamp left unpaid for.

The following statement shows briefly the receipts and expenditures incident to the best triennial reunion ever held at M. A. C.

STATEMENT OF REUNION DAY RECEIPTS AND EXPENDITURES.

Receipts.

June 25, 1913.

Balance on hand ........................................... $1.00
Received from sale of 356 membership tickets at $5.00 each........ 1,780.00
Received from sale of 4 bull tickets at $5.00 each.................. 20.00

Total receipts ............................................. $1,861.00

Expenditures.

To E. M. Higgs for Alumni Luncheon ................................ $363.00
To Geo. Willard, printing constitutional amendment engravings .... 72.75
To Michigan Agricultural College for lumber and labor .......... 5.65
To Geo. Willard, luncheon programs, literary exercises programs, and badges ........................................... 4.15
To College Dray and Grocery Co., supplies ......................... 2.85
To E. S. King "play" expenses ..................................... 27.10
To Riley & Gray, insurance premiums ............................ 16.00
To the Lyric Orchestra ........................................ 24.00
To Woman's Society People's Church, supplies .................... 7.50
To labor employed by reception committee ....................... 12.56
To David Peppard, three days' labor at $17.50 ...... 52.50
To A. L. Margolla, three days' labor at $17.50 ............ 52.50
To J. L. Cower, Dairy and Commission against diseased meats and unclean conditions in many lines ........... 10.14
To J. W. Weston, labor ........................................ 20.00
To L. E. Taylor, ball and banquet tickets ......................... 2.50
To labor employed in baggage checking ........................... 5.25
To Club Boarding Association, supplies .......................... 1.10
To Griswold Bros., piano rent ................................... 3.50
To J. E. Maynard Co., program plates .......................... 6.80
To Luther Baker, ribbons for badges ............................. 4.50
To two telephone long distance payments ......................... 2.22

Total disbursements ........................................ 877.60

Net balance .................................................. $983.40

THE BOARD OF DIRECTORS.

According to the present organization of the M. A. C. Association, the affairs of the parent association are to be governed by a board of directors composed of the most active officers sitting with a recognized representative from each local organization. In the case of the board, at this time, as is follows:

Executive Officers:

J. R. McColl, Detroit, President; Geo. C. Mountj, South Haven, Vice president; W. K. Prudden, Lansing, Treasurer.

Members at Large:

A. C. Anderson, East Lansing; Mrs. Theresa B. Runney, Green- ville; C. C. Taylor, Louisville, Ky.

Representatives of Local Associations:

Western New York and Washington, D.C., associations have not as yet appointed representatives.

M. A. C. ON JOB AT STATE FAIR.

The closeness of the Michigan Agricultural College to the progressive farmers of the state, through the medium of extension work, was well shown by the interest taken in the exhibits conducted by several of the member departments at the State Fair recently held in Detroit.

While all sorts of exhibitions, mechanical, mechanical and other- wise, had their own contingent of admirers, it was plainly evident that the people who showed an interest in the educational booths conducted by the College were prompted by something besides mere curiosity.

The farmer had a ready eye for the exhibits of neighboring counties, quick to mark the many fine points. More than this, however, he had a profound respect for the exhibits of the College, which could teach him how to equal or exceed his neighbor's results.

More than a few took advantage of the opportunity to form themselves of the newest and most important discoveries in various lines.

In the Agricultural Building the farmers of the state had a chance to meet Mr. Sprague, the field agent, and learn from the displays of grains, soils, and fertilizers what they wanted to know. The walls of the booth were hung with different kinds of grains, with descriptive notes attached, while on tables were more grains, with samples of approved fertilizers, and a quantity of literature which promised a greater amount of detailed information. A great deal of education was given by the contrast between grains grown under good and bad conditions. The value of the exhibits was undeniable, and should seemingly have been of greater prominence by the men who had charge of the space assignments.

The educational worth of such exhibits was sufficiently shown by the interest of the visitors.

A short distance away, in the horticultural building, a similar ex- hibit along horticultural lines was being conducted by Mr. O. K. White, '93, who is employed in the extension work as a field agent.

Here those interested in producing better fruit for Michigan's use to see for themselves the appearance of diseases limits taken from fruit trees, compare them with healthy limits, and learn how to mix and apply the various treatments for insects and fungus growths detrimental to fruit trees.

They were shown fruit infested with the San Jose scale, beside of which stood a tray filled with fine looking fruit which had been sprayed.

Full and complete appliances designed to lessen the labor of harvesting fruits were also displayed, as well as practical illustrations of the right and wrong way to prune trees.

Adjoining the horticultural corner was a small booth conducted by the bacteriological department.

Most of the attention here was directed toward improving upon visitors the importance of the hog cholera scour, the tuberculin treatment, and the needle forming bacteria for enriching the soil.

The work of this department probably made an unusual impression at this time, owing to the strenuous campaign which has been carried on in the soil for the past season, giving the public a glimpse of the results of the work of the State Dairy Commission.

Oceana county took first place in the county fruit displays. Much of the credit for this is due to the work of Geo. A. Hawley, who had charge of the exhibit. Mr. Hawley was a member of '92, and is now engaged in the nursery business at Hart, Mich.

Another M. A. C. man also took a place. R. J. Coryell, '94, has charge of the exhibit from Oakland Co.

H. W. Norton, Jr., '93, of Howell, Mich., was at the fair with a good sized herd of Holstein cattle. He received a first prize on one of his cows.

R. C. Potts, '96, was a State Fair visitor. His residence is at Stillwater, Okla., where he will be glad to hear from any of his old friends.

C. H. Chilton, '12, was at the fair representing the milk depart- ment of the Detroit Board of Health. Chilton has been connected with the Board of Health for some time. His address is 274 Chandler Ave., Detroit.

Ralph J. Carr, '08, spent a day at the fair grounds. He is one of the large M. A. C. colony at Washington, D.C., being employed in the Department of Animal Husbandry.

C. L. Rose, '11, met some of his old friends while looking over the displays of Michigan's best.

'95:

Maurice G. Kains is associate editor of the American Agriculturist, New York City.

J. H. Johnson is head of the Colorado Blue Print Co., and is located in Denver.

ELGIN MIFFLIN.
STRONG TEAM FINE SCHEDULE MAKES M. A. C. ROOTERS GLAD.

According to all precedent, lawful or otherwise, it is now time to come forward with the prediction that the prospects for M. A. C. on the gridiron appear brighter than ever before. This may be taken as the annual statement, and given what credit it deserves. The accuracy of the statement can then be checked by the results at the end of the season.

The above prediction is based on actual observations, and to the student body, always critical of the new men, there is a naive hope ahead for this year’s football team.

Coach Macklin gathered his men about that for the first practice on the home field last Wednesday night. By far the largest first squad ever seen here was out, there being some forty-old men, veterans and aspirants out in togs. Macklin’s customary anxiety was hánded several degrees, as he put the men through the light preliminary work-outs.

To begin with, Macklin has five of last year’s veterans as a nucleus about which to form a winning machine. The Giffords, tackle and captain, Gauthier, the whirlwind quarterback who came to the front so sensational way at the close of last season, Julian, husky fullback. Blake Miller, one of the most sensational ends in western football last year, and McCurley, a young giant who takes up a goodly space in the line. These men are all stars, and in addition have the instinct of team play.

The above mentioned veterans and some eight or nine of the old scrubs put in a week of preliminary practice at Pine Lake prior to the opening of school. This was the first time in the history of M. A. C. athletics that so much work had been attempted, but if results are to count for much in the future it goes without saying that the Pine Lake idea will become a feature of every training season. The men returned to the campus in time to register, and to all outward appearances seemed to be in the best of condition. The workouts at Pine Lake were made possible largely through the generosity of Mr. C. P. Downey, of Lansing, who kindly donated the use of his cottage and the services of a first class caterer.

The workouts the first day or two after school had opened were devoted largely to limbering up the muscles grown stiff during vacation, running down under pants, starting, and passing and catching the ball. With a day allotted to this sort of work, where Coach Macklin and Assistant Coach Courtwright took the men over, the more strenuous programs will be the order.

Far and away the best schedule of any that has ever been prepared is presented to the team of 1913. Longing up above the rest of the layout are games with Michigan, Wisconsin, and South Dakota. If there has been any doubt as to the position of M. A. C. in western athletic circles, the presence of Wisconsin and Michigan on the gridiron program should be sufficient to quiet all doubt. If the
