DIRECTORY

Lansing Business and Professional Men

The names in this Directory, as well as those of all our other advertisers, are of reliable parties. We hope the faculty and students will patronize those who patronize us.

A. M. EMERY
120 Washington Ave. S.
Books, Fine Stationery, Engraved Calling Cards, Fountain Pens, Pictures, Frames. Fine Framing a Specialty.

CROTTY BROS.
205 No. Washington Ave.
Stationery, Books, Bibles, Fountain Pens, Diaries for 1915, I. F. Note Books.

BLUEAU & ZIEBERT

LOUIS BECK COMPANY
115 No. Washington Ave.
Correct Clothes, Up-to-date Hats and Caps.

H. H. LARNED
CHINA, GLASS AND LAMPS
105 Washington Ave. S.

J. E. STOFFER, D. D. S.
Office 305-5 City National Bank Bldg.
Automatic Phone 296, Bell Phone 61.

NORTON'S HARDWARE
General Hardware, Tinware, Graniteware, Cutlery, Stoves, Etc.

MRS. O. T. CASE
Manufacturing all styles of Hair Goods to order, and Hair Goods Shop. Old switches enlarged, colored and renovated to look as good as new.

DR. OSCAR H. BRUEGEL
Cor. Michigan Ave. and Grand River Ave., East Lansing.
Hours: 7 to 8:30 a.m., 2 to 4 and 7 to 8 p.m. Sundays, 12 to 1 and 5 to 8 p.m. Citizens' phone 3451.

DR. H. W. LANDON
East Lansing, Mich.
Office hours: 7 to 8:30 a.m., 1 to 3 and 7 to 8 p.m. Sundays, 12 to 1 p.m. Citizens' phone 4285.

DR. J. S. OWEN
Eye, Ear, Nose and Throat
15 W. Allegan St., Lansing.

ALLEN & KE KLEINE PRINTING CO.
128-130 Ionia St. west
Printing, Typewriters, Adding Machines, Office Supplies, Programs, Engraved Cards, Filing Cabinets, Sectional Book Cases.

CAPITOL ELECTRIC SUPPLY CO.
Electric Supplies of All Kinds
Latest Improvements in Reading Lamps, Tungsten Lamps, Shades, etc. Motors and Generators.

PAGELSEN & SPENCER
PATENTS, PATENT LAW, TRADEMARKS
1107 Capitol Ave., Detroit, Michigan

KUMBOSS! KUMBOSS! KUMBOSS!
KUMBOSS HOLSTEIN FARM, Howell, Michigan
J. G. Hays, Proprietor.
Every time you feed your cows you advertise my farm!

GOODELL, ZELIN G. (Forestry, M. A. C., '11)
INSURANCE AND BONDS OF EVERY KIND
If you haven't insured your salary, better see or write Goodell about a good proposition.

ORNAMENTAL NURSERY
We specialize in all kinds of hardy stock for landscape effects. Do your planting now. No amateur prices low.

R. J. CORYELL, Jr., RALPH L. CORYELL, Jr.
Birmingham, Mich.

BETTER PAINT—DIRECT TO YOU
WEST CHEMICAL & PAINT CO., Southport, Mich.
R. J. WEST, O. B. W.

Invitations, Programs, Cards, Announcements
Personal Stationery
Engraved or Printed

Always a selection of the latest styles and the newest features conforming to correct social usage.

Orders sent in by mail receive our most careful attention.

Robert Smith Printing Co.
Lansing, Michigan
A NEED OF M. A. C. AS SEEN FROM THE SEATS OF THE MIGHTY.

OSBORN'S REMARKS.

"Why doesn't Ferris explain, for instance, the appropriation for an auditorium building for the Agricultural college. The college asked me for $125,000 for this building. I found they had a fine armory, which repeated investigation showed me never was nearly filled. I vetoed it. Two years later, while Ferris was governor, the college asked for $150,000 for that same building, $25,000 more than they asked me, and they got it. Let him explain that at tonight's meeting here at Ionia."

FERRIS' ANSWER.

"Yes, he vetoed a bill for an auditorium for the college, and I did not. If he knew half as much about the needs of a large educational institution as he thinks he does he would know that an auditorium is a very essential part of its equipment. He might have learned that by consulting educators. The college armory is unsuited for purposes of an auditorium. In the first place, a college auditorium is used several times a week. The armory at the Agricultural College, of course, has no seats, and every time it is used the chairs have to be brought in and then removed when the building is to be used for armory purposes. There are other reasons why it is unsuitable for an auditorium.

"I signed the bill giving them $150,000 for an auditorium building. Does he think that because it is a farmer's college any old kind of a substitute should be good enough for their lecture courses and concerts, and other all-educational functions. If he does he has a right to his opinion, but I think differently."

"Arthur Hill gave the University a fine auditorium building. No one offered the Agricultural College a gift of an auditorium, so I helped them get it. I'm glad I did, and I don't think the intelligent people of Michigan condemn me for doing so."—Detroit News-Tribune, Oct. 21st.

Minnie Baab, '13, is teaching domestic science and art in the high school at Iron Mountain.

Roy M. Hamilton, '14, is survey assistant with the U. S. Reclamation Service at Camp 2, Cameo, Col.

Penn. State game, Nov. 13th.

OMICRON NU.

The Omicron Nu is a national honorary home economics sorority, comparable to the Alpha Zeta for the ags. and the Tau Beta Phi for the engineers. It was started at M. A. C. in the spring of 1912, after much correspondence with other honorary societies, in an endeavor to find one that would satisfy the need of this department. It was found that there was none such in existence, so the Omicron Nu sprung up to fill this demand. The name chosen means "to manage a home," and surely no better title could be selected. That this new society is a popular one, not only here but with other institutions, is shown by the fact that there are now chapters of it at Purdue, Ames, Albany, Madison and Urbana. Nebraska has applied for a chapter and several other institutions have made inquiry.

The sorority is honorary to the same extent that these fraternities are honorary. None but juniors and seniors are elected, the number depending upon the number already in. This fall term the following eleven seniors have been honored: Mae Hamilton, of Flint; Jane Todd, of Birmingham; Sadie Anderson, of Kennedy, N. Y.; Arda Strong, of Homer; Edna Frazier, of Bryan, Ohio; Bernice Beckwith, of East Lansing; Hazel Cook, of Montgomery; Mary Baldwin, of East Lansing; Marlon Leonard, of Chicago; Ethel Claflin, of Lansing, and Alice Crafts, of Grass Lake. Miss Himmeline, Instructor, was chosen as honorary member. The initiation occurred last Friday night after which an enjoyable dinner was partaken of at the Wildwood.

IMPORTANT MEETINGS IN WASHINGTON.

There will be held next month at Washington, between the 10th and 15th, three very important meetings, of nation wide significance. The American Association for the Advancement of Agricultural Teaching will hold its meeting at the New Willard Hotel on the afternoon of the 10th. The meeting of the Land Grant Colleges Engineering Association will convene the 11th, 12th, 13th and 14th, and also the meeting of the Association of Agricultural Colleges and Experiment Stations. A good many M. A. C. people are planning on attending at least one of these several meetings, and there will be a remarkable opportunity for a "get-together" of the M. A. C. spirit.
THE M. A. C. RECORD

THE ALUMNI DIRECTORY AGAIN.

It is desirable to call your attention again to the alumni directory, the publishing of which this office has undertaken this year. Everybody wishes it to be entirely complete and, in order to be so, we must have every change that has been made in your title or your business since the last directory was published in 1910. If you haven’t sent in your change, do it now. And if you make a change any time between the publishing of these directories it ought to be listed at the alumni office. Here is where the college authorities expect to find the addresses of the alumni. Just at the opening of school this fall an alumni of some two years’ standing was wanted for a very good position. His address was not to be had, consequently some one else was recommended for the job. And again we ask your co-operation in regard to those whom we have lost track of. These addresses will appear from time to time in the Record and if you can supply the correct one or know of some one who might be able to, just drop us a card.

AN APPRECIATION.

We desire to express our appreciation at this time for the improvements and additions to the equipment of the alumni office that have been made possible by the State Board and the authorities at the college. A telephone has been installed that adds to the convenience of the work, the little office room has been completed, an appropriation has been made which will enable the secretary to assist in several alumni organizations throughout the state and also make possible the attendance at the National Association of Alumni Secretaries to be held in New York City next month. All in all, we feel very well treated, to date.

E. C. Fowler, ’07, is Michigan sales manager for the Red Wing Milling Co., and is living at 1917 Michigan Ave., Lansing.

EXCERPTS FROM DEAN SUMNER’S ADDRESS.

Dean W. T. Sumner, of Chicago, gave the first lecture of the Liberal Arts course last Tuesday night on “Some Aspects of Social and Civic Progress.” The following are some statements taken from the address:

“There are three million abnormal people in the U. S. that cost the country two hundred million dollars yearly.”

“Seven states have passed legislation regarding the medical examination of all persons expecting to marry, and in 16 states legislation is pending; 3,600 clergymen have refused to marry without the health certificate.”

“In one ward inspected in Chicago there were 263 vicious influences for the children and only 22 constructive agencies. The thing to do is not to take the child off the street but make the street clean.”

“Any municipality that recognizes the social evil by segregating it thereby becomes a party to it.”

“In Chicago better people are being interested in politics by the opening of school houses to political meetings, thereby making a better meeting place.”

“The average person would be more lonely in a city than in a forest.”

ALUMNI NOTES.

W. S. Cockroft, ’14, is teaching manual training and physics at Nora, Minn.

Harriet Gardner, ’13, is professor of household economics at Lincoln College, Lincoln, Neb.

T. D. Hinebauch, ’85, assistant state veterinarian of North Dakota, sends in his renewal. He is located at Tower City.

Announcement has been received of the marriage of H. R. Parish, ’85, to Miss Lottie Hughes, of Allen, Mich., on October 22d.

T. F. Millspaugh, ’82, was here for the big game, and in commenting on it strikes a mighty fine chord, we believe. He says: “Tis better to lose when you deserve to win than win when you deserve to lose.”

The following girls were back for the game in addition to the ones mentioned last week: Agnes True, with ’16, teaching in Armada; Agnes Stover, ’14; Clara Waldron, ’13; Gladys Graham, ’13, teaching at Ithaca; Ethel McKillop, ’13, teaching in Detroit; May Turney, ’12; Durand; Hazel Powell, ’13, Toledo; Laura Crane, ’13, Saginaw; Belle Alger, ’13, Flint; Almyra Lewis, ’13, Holland; Muriel Smith, ’14; Fern Liverance, ’13; Marguerite Leehouts, with ’15; Mrs. Ward Shedd (Alta Gatechel, ’13); Mrs. Eleanor Hock (Mabel Robinson, ’12); Marion Sly, Frances Kirk, Marguerite Pratt, Jessie Whitney, all of ’14; Ann Holland, with ’15; Iodie Smith, ’13.
THE PENN. STATE GAME.

A letter has been received from M. G. Kains, '95, professor of horticulture at Penn. State College, in regard to the M. A. C. game there. He wishes that every M. A. C. man who plans to be at State College November 13th would write him at once so that he can make reservations for the bunch all together. Kains wishes it also announced that he will be at the Horticulture building all that morning, and says that the bunch will report at the Hort. building at 1:30 on Friday to practice yells and then march down to the field in a body. November 13th is Pennsylvania day and a holiday at the College, and so it will be imperative that the reservations be secured as soon as possible. Don't delay writing if you are counting on the game. Thirty M. A. C. men in the east have already written to Mr. Kains and it looks as if there would be considerable M. A. C. enthusiasm.

SAMUEL SATTERLEE TROWBRIDGE.

Samuel Satterlee Trowbridge, '78, died October 11th at the old family home near Bloomfield, Mich., at the age of 54 years. Mr. Trowbridge was for 12 years an employee of the land department at Washington, but gave up his work in recent years on account of failing health and had been making his home with his sister. The greater part of his life was spent at the homestead in Bloomfield Hills.

OCTOBER MEETING—STATE BOARD.

The September meeting of the State Board was supposed to have taken place at the time of the State Fair but a quorum was not present so no meeting was held. The October meeting was held at the college the morning of the Michigan game. The greater part of his life was spent failing health and had been making his home with his sister. The greater part of his life was spent failing health and had been making his home with

NEWS AND COMMENT.

According to reports over 800 University of Michigan students have signed up for the Harvard trip. No one can say that M. A. C. isn't interested in this trip, for the boys here are, to a large extent, paying their expenses as a result of a recent decision here in the major tennis court. It is not without some sacrifice, however, on the home boys' part—they are planning on eating snowballs this winter in order to make their account with dad balance up. We might add, in passing, that if Michigan is going to take a band to Harvard it would be a good thing to take along a real band—one that would show the state up in the right light.

Prof. A. C. Anderson has been scoring the farms in the cow testing association the past week at Grand Rapids. This work is being carried on in co-operation with J. H. Skinner, Extension Agent for Kent County, and Fred Riddell, who is in direct charge of the association.

The Phi Delta society will hold their fall term party in the Agricultural Hall, October 31. The Eclectic society will have their party at the Tic house on the same date.

Dean White has been in attendance the past week at the meeting of the State Federation of Women's Clubs, held at Adrian, where she presented the subject, “Student Aid Funds.”

F. L. Prince, instructor in soils the past year, has resigned to accept a position with the University of Vermont. The vacancy is filled by G. M. Graham of the University of Illinois.

Dean Shaw spoke at the Farmers' Club meeting last week, giving a comment on the principal phases of agricultural development in the last twenty years, with a discussion of present needs and possibilities in the agricultural field and future opportunities.

The M. A. C. Veterinary Medical Association had for the speakers at the last meeting Dr. George W. Dunphy, State Veterinarian, and Dr. Hutton. Dr. Dunphy gave a talk on field work and Dr. Hutton lectured on obstetrics.

The Horticulture Club enjoyed a fine “get-together” meeting last Wednesday night in the big room on the top floor of the Agricultural building. The principal topic of the meeting was “seniors, get acquainted with the juniors.” Several impromptu speeches were listened to and general good-fellowship prevailed.

The engineering directory has gone to the printers.

The English Department is giving special spelling instruction to 140 freshmen, and is also planning to give special drill in some of the more important phases of grammar.

F. J. Godin, '11, spent the summer in Europe, and while he suffered no hardships on account of the war it was necessary to change his plans. He returned to America on a vessel chartered by Americans in Italy. Fred is an instructor in horticulture in the R. I. State College at Kingston.
M. A. C. FINDS TARTAR IN NEBRASKA

With the overwhelming score of 24 to 0, it looks as if M. A. C. broke out in some really big company last Saturday when the heroes of the week before traveled to Lincoln for their first out of town game this season. All previous dope on the game was supplied, as it was with many of the other big Saturday games. The accurate forward passing of the Cornhuskers together with their whirlwind attack completely surprised and routed the Aggies, who were outplayed the greater part of the game. A forward pass and fake punt formation early in the game, with several brilliant line smashes brought the ball to M. A. C.'s 6-yard line where Nebraska was held and on the fourth down place kicked the first counts. On the next kickoff, DePrato booted the ball 45 yards to Chamberlain who shook off several M. A. C. tacklers and with perfect interference made a sensational run of 90 yards for a touchdown. Nebraska then played a waiting game and towards the end of the first quarter Blake Miller secured the ball and tore off a 35-yard gain and with a series of line plunges the ball was carried to Nebraska's one-yard line, when the quarter ended. The score of M. A. C. alumni then began to take heart. Julian took the ball on the first play of the second quarter and gained all but six inches but Hewitt Miller was unable to carry it over and the only good chance that M. A. C. had to score was gone. However, the Nebraskans were outclassed during the second and third quarters. Chaddock was replaced by Henning and then in the last quarter Blake Miller was carried from the field, Chamberlain went in and gave a good account of himself. Pick was given the reins and Hutton went in for Blacklock. However, these substitutions failed to stop the rushing Cornhuskers, who by forward passing and line bucking were able to add two more touchdowns in the last quarter, making a total of three touchdowns and one place kick.

C. E. Webb, '12, was married October 7th to Miss Mary Earle, of Mason. Mr. and Mrs. Webb were here for the Michigan game and from here went to Gary, Ind., where Webb is working in the efficiency department of the steel works.

Arrived, at the home of Mr. and Mrs. George M. O'Dell, 411 W. Lenawee St., Lansing, Oct. 12, a boy—in fine spirits. O'Dell graduated in 1912.

C. Dwight Curtis, '11, has been transferred from Ashokan, N. Y., to Richmond, Va.
CANNING DEMONSTRATION.

Prof. George E. Farrell, representing the Department of Agriculture at Washington, gave a very much appreciated demonstration in canning in the Woman's building last Thursday afternoon. The method demonstrated is known as the "cold pack" method, and consists in blanching the fruit for one minute in boiling hot water by means of a wire screen, then a cold water dip, after which the fruit is put in jars, covered with hot syrup and steamed for eight minutes. This completes the process, which is very simple, and the fruit comes out of the cans just as fresh as when it went in and can be used in the same way as fresh fruit. All vegetables, tomatoes, apples and peaches can be canned this way. Prof. Farrell, accompanied by E. C. Linde- mann, is demonstrating this method this week before boys' and girls' canning clubs at Big Rapids, Cadillac, Manistee, Evart and Mt. Pleasant. Prof. Farrell is employed regularly as country life director of Cook county, Ill., and only takes this work up at this time at the earnest solicitation of the government. No doubt this will have a very stimulating effect on the club canning work in this state.

TRI-STATE DEBATE.

Arrangements have already been completed by the English Department for a tri-state debate to be held between M. A. C., Purdue and Iowa State College. The question of debate will be decided the first week in November. The debate will take place the 12th of March, and will be carried on at each school at the same time. The affirmative team of each will debate at home, schedule working something like this: Our negative team goes to Ames; Ames sends a negative team to Purdue, and we meet Purdue's negative team at East Lansing. If it will be possible to arrange with the telegraph company the result of each debate will be given to the audiences before they leave. This meeting of teams should be given as much support as that of athletic teams, and graduates of this institution who reside in these places should look forward to these combats with a good deal of pleasurable expectation.

R. G. Crane, '10, now has charge of the livestock department at the Ohio State Sanitorium, an institution for the treatment of incipient tuberculosis, located at Mt. Vernon. R. G. writes: "I frequently meet fellows from the O. S. U. and am much pleased to observe the respect they have for M. A. C.'s athletic ability and her fair play. When being introduced among them I am usually referred to as 'one of those terrible Michigan Aggies.'"

NORTHWESTERN TEACHERS' AGENCY

We are greatly in need of teachers for emergency vacancies of the early autumn, which offer the best opportunity for promotion. The leading Agency for the entire West and Alaska. BOISE, IDAHO.
ALUMNI NOTES.

"Octy" Moore, '10, is in efficiency engineering work at Champaign, Ill.

Jack Knecht, '11, is construction engineer for the Grand Rapids Traction Co.

Bertha Van Orden, '14, is teaching domestic science and art at Nezpeice, Idaho.

L. W. Campbell, '13, is working as foreman in the five mile water intake tunnel for the city of Cleveland.

M. J. Bemis, ex. '12, is living at 6516 University Ave., Chicago, III., and is with the Standard Oil Co, as Sur'f of the Englewood Sta.

G. B. Wells, ex. '09, is now traveling passenger agent of the Atlantic Coast Line R. R. Co., with headquarters at corner of Broadway and 30th St. New York City.

The Edison Illuminating Co., of Detroit, has several M. A. C. men in its employ. The following are their names: R. E. Delvin, F. Delvin and F. L. Barrows, of '12, C. E. Chaney and C. Jones of '11, and C. B. Gorton of '09.

Charles Lemmon, '10, motored through for the big game from Meadville, Pa. He was not in town 15 minutes before he found that the speed limit here is lower than it is in the east. "And the worst of it," says "Chuck," "I am not a fast driver anyway."

A letter from Edwin Smith, '12, who is in charge of fruit cold storage and transportation investigations for the Dominion of Canada, at Grimsby, Ontario, reads very interestingly of the work of Prof. L. J. Smith, '16, of Manitoba Agr. College. Ed. writes that since L. J. has been placed on the faculty he has been given a large new building devoted entirely to agricultural engineering. He has also been a most potent factor in shaping the policies of that institution. One of the innovations secured for the students by him is a splendid joint dining room where the men and women students have their meals together.

E. J. Rowley, '90 leaves Greenville, Mich. this week for Aberdeen So. Dak., where he will travel for the Dakota Farmer.

W. W. Shanor, '11, was married Sept. 2d to Pauline Perry, at Delaware, Ohio. Mr. and Mrs. Shanor left at once for Whitefield N. H. where "Bill" is principal of Schools.

Dr. Hess Stock Tonic

Now is the Time Your Hens Need a Tonic

Moulting weakens a hen—it brings her vitality down to low ebb. To help the hen over this period you ought to feed her a tonic to keep her system vigorous, well able to force out the old quills, grow a new feather crop and get back on the job laying eggs well before the winter sets in. Keep your hens toned up.

What your hens need right now is Dr. Hess Poultry Pan-a-ce-a. This splendid tonic is the result of my lifetime experience as a doctor of veterinary science, a doctor of medicine and a successful poultry raiser. It tones up the dormant egg organs, offsets the weakening effects of moulting, quickens quill shedding, makes for a new feather growth and makes hens lay.

Dr. Hess Poultry Pan-a-ce-a

Not a Stimulant, but a Tonic

Shortens Moulting Period—Makes Hens Lay

This is also a splendid tonic for fattening poultry for market. It helps the birds digest the maximum amount of their ration and convert it into flesh. It keeps poultry healthy and fit while cooped up. Besides, my Poultry Pan-a-ce-a is an excellent constitutional remedy for roup.

So sure am I that Dr. Hess Poultry Pan-a-ce-a will make your poultry healthy, make hens lay, help chicks grow and shorten the moulting period, that I have authorized my dealer in your town to supply you with enough for your flock and if it doesn't do as I claim, return the empty packages and get your money back.

Lawrence & Van Buren Printing Company

210-212 Grand Ave. North

Dr. Hess Instant Louse Killer

Kills lice on poultry and all farm stock. Dust the hens and chickens with it, sprinkle it on the roots, in the cracks, or keep it in an old bucket, the hens will debouch themselves. Also destroys bugs on corn, grain, hay, squash and melons. Helps keep vines, cabbage worms, squash and melon, etc., bugs off roses, bushes, vegetable vines, etc., etc. Sold only by reputable dealers whom you know, never by peddlers.

Sold by only reputable dealers whom you know, never by peddlers.

Buy On My Money-Back Guarantee

1 lb. 25c; 5 lbs. 60c; 25-lb. pail $2.50. Except in Canada, the far West and the South.

My new Poultry Book tells all about Pan-a-ce-a. It's Free.
