WHAT THE SMITH-LEVER ACT MEANS TO MICHIGAN.

Federal aid for extension work in the several states was first provided by the Smith-Lever Act of 1914. This aid is supposed to be used through the medium of the agricultural colleges, and it differs from all other Federal aids to agricultural colleges in that money appropriated by the Federal Government must be met with equal amounts by the state government. The nature of the work and the co-operative relationship is shown by the following quotation from the law:

"Co-operative agricultural extension shall consist of the giving of instruction and practical demonstrations in agriculture and home economics to persons not attending or resident in said colleges in the several communities, and imparting to such persons information on said subjects through field demonstrations, publications, and otherwise, and this work shall be carried on in such a manner as may be mutually agreed upon by the Secretary of Agriculture and the state agricultural colleges receiving the benefits of this act."

Ten thousand dollars will be received by Michigan this year and will be continued indefinitely year after year. This sum does not have to be met by the state. In addition to this sum Michigan will also receive this year $18,002, which sum must be met with an equal appropriation from the state. Next year the addition to the $10,000 will be $33,004, which must also be met by the state. This additional amount keeps on increasing until in 1923 it amounts to $123,016, making $133,016 from the Federal Government and $123,016 from the state government, or a total of $256,032 to be used for extension work in "agriculture and home economics." For every year thereafter the same amount will be available. It is to be noted that equal emphasis is placed, in the bill, upon "agriculture" and "home economics." This means that much more attention will be given to the latter than ever was deemed necessary and that the farm women of Michigan are about to come into their due.

It is to be remembered that the above ever increasing sums must be met by money from M. A. C. and this is one of the many very important reasons why M. A. C. should receive a fifth mill.

Have you written to your Senator and Representative about this?

M. A. C. ALUMNI BANQUET AT NATIONAL CAPITAL.

The M. A. C. spirit never dies. It is therefore not surprising that alumni associations exist all over our land, to foster this spirit, and to stand loyal to their alma mater. At our national capital can be found a strong and enthusiastic association where the young and the old meet on a warm fraternal basis. It was a happy gathering of old ladies and gentlemen that met at the New Ebbitt, Wednesday evening, Feb. 24, to enjoy the annual banquet.

After a most enjoyable dinner, President Arthur Adelman, '04, introduced Mrs. C. B. Smith as toastmistress and her duties were performed in a most acceptable manner. The toasts were: “The Place of the Man in the Home,” John M. Rankin, ’02; “Mechanics,” D. A. Gurney, ’04; “The Awkward Squad,” H. B. Fuller, ’02; “Babies,” C. E. Basset, ’84; “Memories,” Charles H. Spencer, ’92; “The Men,” Mrs. W. J. Meyers; “College Hall,” L. A. Clinton, ’89; Mrs. W. F. Wight gave a very pleasing poem, in which she suggested that those ladies who had never had the benefits of an M. A. C. course might take the next best course, by appropriating an alumnus, as she had done.

Very enjoyable musical numbers were furnished by Lee M. Hutchins, ’13; F. H. Hillman, ’88, accompanied by Mrs. Eva E. Hicks, ’94, and Miss Helen Smith. A feeling of sadness was occasioned by the announcement of the recent death of Mr. J. H. Tibbetts, ’73, as he has been one of the most faithful members of this association. Following a few appropriate remarks by the toastmistress, the company arose and, in silence, drank a toast to the memory of this loved and respected member. Later in the evening appropriate resolutions were adopted.

Dr. Frank Kedzie, of the department of chemistry at the College, was present, as the guest of honor. His address was most pleasing, bright and entertaining, yet sound and full of encouragement. By a chart he emphasized the steady growth of the College attendance and he paid a high tribute to the 20 years' of service given by President Snyder.

At the business session it was voted to cooperate most heartily with the new M. A. C. Association. The following new officers were elected: President, L. A. Clinton, ’89; first vice president, Vernon Branch, ’13; second vice president, Mrs. R. H. Waite, ’88; treasurer, C. P. Close, ’85; secretary, Cora L. Feldkamp, ’05; executive board, W. A. Kinnan, ’86; W. K. Brainard, ’99; Mrs. C. A. Reed, ’05.

Dr. Kedzie’s address was most pleasing, bright and entertaining, yet sound and full of encouragement. By a chart he emphasized the steady growth of the College attendance and he paid a high tribute to the 20 years' of service given by President Snyder.

At the business session it was voted to cooperate most heartily with the new M. A. C. Association. The following new officers were elected: President, L. A. The following alumni were present: Prof. Frank Kedzie, ’71, hon r guest; W. W. Tracy, ’07; William A. Kinnan, ’86; Lyster H. Dewey, ’88; Fred H. Hillman, ’88; William A. Taylor, ’86; Ray Stannard Baker, ’89; Frederick N. Clark, ’89; Louis A. Clinton, ’89; William J. Meyers, ’90; H. B. Fuller, ’92; W. W. Tracy, Jr., ’93; Clarence B. Smith, ’94; William F. Wight, ’94; Clay Tallman, ’95; J. E. W. Tracy, ’96; Homer C. Skeels, ’92; Mrs. R. H. Waite (Mary Baker), ’98; W. K. Brainard, ’99; Lyman C. Carrier, ’02; John M. Rankin, ’02; Arthur Adelman, ’04; Dayton A. Gurney, ’04; Cora L. Feldkamp, ’06; Mrs. Dayton A. Gurney (Anna Pickett), ’06; Clarence A. Reed, ’05; Stephen W. Doty, ’07; Wallace B. Liverance, ’07; Roy C. Potts, ’06; Roy H. Waite, ’07; Henry M. Conolly, ’08; Mrs. Henry M. Connolly (Ruth Foster), ’09; Mrs. J. W. Fisher (Jean Avery), ’10; George P. Springer, ’11; H. B. Hendrick, ’12; O. W. Schlessmann, ’12; Lee M. Hutchins, ’13; J. W. Fisher, Jr., ’14.

Special students and others who have been connected with M. A. C.—C. E. Basset, ’80; David Fairchild; Mrs. L. H. Dewey, ’88-’90; Mrs. Elva E. Hicks, ’90-’94; Charles H. Spencer, ’90-’93; Mrs. J. W. Fisher (Jean Avery), ’10; George P. Springer, ’11; H. B. Hendrick, ’12; O. W. Schlessmann, ’12; Lee M. Hutchins, ’13; J. W. Fisher, Jr., ’14.

Detroit Association Banquet.

The Detroit M. A. C. Alumni Association will hold its annual meeting and banquet on the evening of March 26th. Governor Ferris will be the speaker of the evening. All alumni in Detroit and vicinity should make an especial effort to attend this meeting. The place will be announced later.

March 12th is the date for the Tri-State College debate. C. C. Nobles, H. A. Furlong, B. W. Bellinger, and S. J. Link will meet Purdue at M. A. C. while A. L. Maire, L. S. Wells, G. A. Newton, and H. H. Fuller will journey to Ames, Iowa.

TUESDAY, MARCH 9, 1915.

THE LONG SHORT COURSE.

The fifty men who graduated from the two-year long short course in agriculture last week are entitled to much consideration by the M. A. C. Association. These men have spent two winters of 16 weeks each at M. A. C., taking up regular studies and laboratory work pursued by the regular four-year students, with a schedule that would make the majority of regulars wince. Their period of stay at M. A. C. has been, in all, nearly the same as a year's work. They are loyal supporters of M. A. C. Even the eight weeks' short course men are, according to a letter appearing in the Record last term, loyal to the management of our extension men, sometimes more loyal than the graduates. We need more exponents of scientific farming, and more real support of M. A. C. in the farming communities, by the farmers themselves. May the M. A. C. Association welcome this new support.

Editor M. A. C. RECORD:

I am strongly in favor of having a good gymnasium rather than a library, if one of these two structures needs be sacrificed. Any thinking alumnus knows that systematic exercise is essential to the well-being and development of the student. What chance is there now for the training or development of the youth at M. A. C.? Absolutely no opportunity is the answer. The crowded condition of the Armory, together with the lack of efficient apparatus, makes it impossible for the students as a whole to get satisfaction from it. As to whether all the students would elect a course in gymnasium is hard to answer, but I know that the advantages gained by those who do carry on systematic training will be well worth the expenditure for a good gymnasium. Classes in gymnasium work are compulsory in some colleges. Why could not M. A. C. place in her curriculum a similar course when the gymnasium is completed?

A good gymnasium would indeed be a boon to athletics, insofar that hidden talent would have opportunity for expressing itself. Many "green horn" make the best athletes with a little training, and timely suggestions by one who teaches or coaches in athletics will do wonders where possibly nothing else would.

'14 ALUMNUS.

THE M. A. C. RECORD.

Dear Editor M. A. C. Record:

Your editorial recently has furnished the leaven which I hope will leaven the whole lump. I view the comments as they are offered with a deal of interest, but there seems to be a general realization of M. A. C.'s need for assistance from the legislature, by all alumni who have so far expressed themselves, but what are the alumni themselves doing to further the work?

Our alma mater has done nobly in spite of the fickle attitude and actions of the legislature of two years ago. The trials and embarrassments of those in charge of affairs during these two years have been acute to a degree. But they have done their best and too they have been laying their plans for the future development as well.

The present agitation for a gymnasium fostered by students and very young alumni at the suggestions of those personally concerned, is to be deeply regretted. The effect of such side play detracts from the main issue and works only ill, by dividing the sentiment in the great college family. Those whose duty it is to direct the affairs of our great institution and who are doing that duty conscientiously and with wise foresight, need the united support of the rest of the family, the children, so to speak, of M. A. C.

I can only compare this spontaneous agitation to the sudden petulant outbursts of a boy in his early teens who suddenly discovers that he knows more than his father. We as older alumni of the institution, knowing this tendency of youth to fly wild at any impulse, directed in the form of mass meetings, by those orators at the moment in popular favor, should use every endeavor in our power to express our support of those whose judgment and care are guiding M. A. C. so safely and surely to the high place in the educational life of our commonwealth and nation. Such support should come through these columns and in no uncertain terms.

We look back with little pride on the many student demonstrations, strikes, etc., and realize keenly that such outbursts of student enthusiasm simply add to the weight of responsibility which those in charge of affairs must carry.

Join with me, brothers and sisters of '04, in the effort to make our legislators realize the meaning and need to M. A. C. and Michigan agricultural development of the one-fifth mill appropriation. Talk with your own members of the legislature, be a pusher for the big things which are coming to M. A. C. and our state. Rest assured that the Board will handle those funds in the best way for the greatest good. Whether it be a gymnasium or auditorium first matters little. Let's boost.

'04 ALUMNUS.

The regular Hort. Club meeting last week was held Wednesday afternoon, and addresses given by several prominent people in attendance at "Farmers' Week." E. I. Gibson, of the Western Michigan Development Bureau, talked on the work of the bureau. Granger Whitney, of Williamsburg, emphasized that on the small orchard the box pack and "direct to the consumer" would help settle a good many troubles. Harlow, of Ludington, said that thoroughness and truthfulness were the keywords to success in the fruit business. Mr. Riker, a graduate of Wisconsin, now a fruit raiser in northern Michigan, brought out the point that successes in fruit raising are not as numerous as formerly and advertised intensive methods. Riker, a senior, gave the history of the Hort. Club, and Taylor, also '10, told what the graduates of the Hort. department are doing.

UNITED WE STAND.
PORTRAIT PAINTER CHOSEN.

Frederick G. Walker, of Louisville, Ky., has been engaged to paint the portrait of Prof. George T. Fairchild. The selection of Mr. Walker for this task comes as a result of his being engaged at Berea, Ky., painting the portrait of President William Goodell Frost, of Berea College, and that of several others. There is a painting of Prof. Fairchild at Berea, done by Miss Jane Bartlett some twelve years ago, and it is this portrait that Mr. Walker will work from, with the aid of photographs.

According to President Frost, Mr. Walker is a somewhat noted and thoroughly reliable painter of portraits. Berea College has one of his portraits of Lincoln that is considered very fine, and he also painted the favorite portrait of Henry Watterson of Louisville.

In the Record for Feb. 15, the subscription which is credited to Ray Stannard Baker should be credited to Dr. W. J. Real. Other subscribers are: Emma Baker; F. E. Skellett, '78; G. L. Stannard, '76; J. H. Moores, '69; M. J. Gearin, '75; C. W. Garfield, '70; Roswell Lillie, '70; A. H. Phinney, '70; H. G. Reynolds, '70.

ADDRESSES WANTED.

Letters have been returned from the following alumni. Our appeal for assistance met such ready response the last time such a list was published that we are very hopeful of results this time. Any clue whatever will be appreciated:

George E. Martin, '04, Chicago, Ill.
W. P. Carleton, Pontiac, Mich.
A. C. Dorrance, '04, Chicago, Ill.
Shoichi Yebina, '95, Aomori Ken, Japan.
John Jay Bush, '84, New York City.
C. V. Williams, '08, San Diego, Cal.
Mrs. G. N. Eastman (Clara Wheeler, '99), Riverside, Cal.
David Jones Hale, '98, Colon Hospital, Canal Zone, Panama.

NEWS AND COMMENT.

T. W. Keating was elected to the Liberal Arts Council.

A measure to wipe out the deficit of $25,000 at M. A. C. has been introduced in the legislature.

The banquet of the Northeast Michigan M. A. C. Association, scheduled for March 5th, was postponed one week.

A delightful concert was given last Sunday by the M. A. C. orchestra, assisted by Miss Lyla Smith, soprano, and the Schubert Quartet, of Lansing.

A good many of the seniors have been indulging in real study the past two weeks, getting ready for the civil service exams which come this week Wednesday and Thursday.

There is considerable optimism over the track prospects this year and it is possible that Macklin will send a relay team to Philadelphia on May 22 to compete in the Intercollegiate.

Juniors for Student Council are: L. S. Wells, Blake Miller, and H. E. Norton. Sophomores for same, R. D. Keane and W. R. Wright. M. R. Andre will be freshman representative.

The baseball cage for the training of future diamond stars went up in the stock judging pavilion this week. A big try out is looked for and earnestly hoped. M. A. C. has a schedule of 20 games this season, 14 of them being at home.

The results of the eighth match in the intercollegiate gallery rifle shooting contest were more satisfactory from the standpoint of M. A. C. for our boys have scored the high score, winning from Norwich by a score of 523 to 527. Washington State, however, is still in the lead.

Student elections last Saturday gave the following results: Holcomb editor, M. E. Bottomley, of Charlotte; business manager, L. D. Fisher, of Detroit; circulation manager, C. N. Winston, of Saginaw; assistant football manager, N. O. Well; assistant baseball manager, J. W. O'Connell; yell master, F. M. Granger.

E. J. Russell, director of the Rothamsted Experiment Station at Harpenden, England, and lecturer at the graduate school held at M. A. C. in 1912, has been enlisting the co-operation of the M. A. C. library in collecting valuable information. In a letter to Mrs. Landon, he says: "Your state reports are very valuable as showing how agricultural problems can be successfully solved, and already those we have on our shelves have frequently been consulted not only by our own experts but also by men from the colonies home on leave of absence."

Prof. A. J. Pattan, experiment station chemist, has just unearthed a wide-spread attempt to fool the public. It comes this time in the form of a powder, put out by the Treevax Chemical Co., of Hicksville, Ohio, which is supposed to be put in a hole bored in the trunk of fruit trees, and which will control all the blights of the horticulturist from San Jose scale to pear blight. Presumably this powder is made to sell to the "hay seed" in town who owns a few trees and wishes to fix them up. The powder was analyzed very easily and found to consist of the following: 62 per cent, sulphur, 27 per cent, sulphate, 11 per cent, hemate (iron oxide). This is made to sell at about 82 cents per pound, and can surely be put up for 20 cents, this amount being about 50 cents more than it is worth.
NEWS AND COMMENT.

Did the little red hand appear on your Record last week? A good many have answered its summons. Why not you?

The Wolverine staff has already been chosen for next year's Wolverine and the various heads are getting acquainted with their jobs. E. H. Tranamar, of Hanceck, has been chosen editor-in-chief; E. H. Pate, of Lansing, advertising manager; G. O. Stewart, of Ionia, business manager.

The Tau Beta Pi fraternity initiated the following men last week: J. Van Buren, Grand Rapids; H. E. Morton, Muskegon Heights; W. Gorton, Mason; G. A. Willoughby, Owosso; L. D. Fisher, Detroit; E. J. Menevry, Detroit; A. J. Ritchie. The particular stunt to be worked out by the initiates, who are all juniors, was an efficiency test on an aeroplane fan, which was connected up with a motor in front of the Engineering Building. A sumptuous banquet was held at the Green Dragon Inn, Friday night, at which the following program was presented: Prof. V. T. Wilson, acting as toastmaster, "Specifications," H. H. Musselman, "Design," Alfred Iddles, "Construction," J. W. Leggat, "Trials of the Initiate," L. D. Fisher.

The results of the investigation made by James N. McBride on the bean marketing situation (which investigation was authorized by the State Board of Agriculture) will be definitely taken up at 12 county meetings held this month, with a state meeting at Saginaw, March 23d. At the county meeting, it is aimed to form local associations for the purpose of avoiding the usual dumping of beans on the market in the fall, and also for the purpose of coming to some terms with selling agencies concerning compensatory prices. At the state meeting it is aimed to combine these county organizations into a strong state association. In addition to the above objects it is also planned to organize and promote the growing of better seed; to carry on a campaign, by advertising, distributing cook books, cooking demonstrations, etc., to promote more general use of beans; to agree upon a standard of grades; to assist in the proper distribution of beans; to assist in securing better transportation.

The attendance at Farmers' Week last week was at least normal, according to Prof. L. R. Taft; the Women's Congress, held Wednesday and Thursday afternoons, being far above normal in attendance—at least 600 women attending some of the meetings. The regular scheduled classes through the days were very well attended, the people acclimating admirably in the idea of being present to receive instruction rather than entertainment. Of the demonstrations it is quite possible that the farm tractor demonstrations caused most interest and comment and it is certain that more Michigan farmers are giving their attention to the tractor as a motive power for a great deal of farm work. Six tractors were on exhibition. The demonstration on domestic science in the Forestry Building is deserving of especial comment. The annual bacteriology exhibit contained, besides the usual interesting features, specimens showing hoof and mouth disease. Of the evening programs, the comedy presented in the Armory Thursday night, drew the largest crowd, at least 1,000 people having to stand. A good many farmers who had to stand were heard to say: "Well, I guess they do need an auditorium here." The fact that those who did have seats in the rear could not hear proves the folly of using such a building as an auditorium.

Robert Taylor, '10a, and Miss Abbie Johnson, of Lapeer, were married Feb. 24. "Bob" is farming at Lapeer.
DETROIT “Y” HANDS AGGIES
FINAL BEATING.

Outclassed in every point of the game is the best way of expressing the final game of the basketball season that M. A. C. played with Detroit “Y” in Detroit March 2. The final score was 21 to 9. It can hardly be imagined, in view of this, that M. A. C. won from Detroit earlier in the season.

The summary:

DETROIT “Y.”  M. A. C.

Sutton ..............  L. F.  ................ B. Miller
Kreitz ..............  R. F.  ................ Ricker
Boosey ..............  C.  ................ Frimodig
Wilson ..............  L. G.  ................ O. Miller
Vinton ..............  R. G.  ................ DePrato

Score, first half—Detroit, 14; M. A. C., 4. Baskets from field—Kreitz, 4; Boosey, Vinton, Frimodig. Baskets from fouls—Wilson, 8 in 13; Boosey, 1 in 7; Ricker, 7 in 13. Fouls committed—Sutton, 4; Boosey, 3; Vinton, 3; Wilson, Kreitz, 0; Miller, 5; DePrato, 2; Prin baw, 6; Ricker, 3; E. Biller, 2. Substitutions—M. A. C., Hood for B. Miller; McClellan for O. Miller.

After the game with Detroit “Y” the basketball boys and the football heroes were tendered a rousing banquet at the Edelweiss Cafe by some of the Detroit alumni.

ALUMNI NOTES.

A. L. Hurd, ’10a, is farming at Gagetown, Mich.

W. E. Johnson, ’07, is a contractor and builder at 223 Pilgrim Ave., Highland Park, Mich.

R. V. Pearseal, ’08e, is civil engineer and surveyor at Long Beach, Cal., and lives at 2036 May Ave.

H. C. Walker, ex-’97, is a member of the firm of Walker & Co., poster and display advertising, Detroit, Mich.

Jerry Mains, ’14, is at present with the Bureau of Chemistry, at Washington.

W. T. Parks, ’00a, is member of the firm “Twin City Creamery Co., Benton Harbor, Mich.,” living at 471 Broadway.

“I hear that you have a college graduate for a cook. Isn’t that rather expensive?”

“Not very, she works for her board and clothes.”

“Why, how does she come to do that?”

“She’s my wife.”

ALUMNI LUNCHEONS.

Every Saturday noon the M. A. C. Association of Chicago has luncheon at the New Morrison Hotel, Clark and Madison Sts. Any M. A. C. men who happen to be in Chicago at this time will find some friends here and a hearty welcome.

Luncheon meetings of the Northern California Association are held the last Saturday in every month at the Hotel Sutter, San Francisco, Cal.

NORTHWESTERN TEACHERS' AGENCY

We are greatly in need of teachers of all kinds, especially teachers of Agriculture, Manual Training and other special lines. Write immediately for free circular.  BOISE, IDAHO.
ALUMNI NOTES.

R. S. Wheeler, '10f, is with the U. S. Forest Service at Durango, Col.

O. B. Burrell, '95a, is a county agricultural agent, located at Owensboro, Ky.

W. R. Stafford, '06c, is with the Port Hope Telephone Co., of Port Hope, Mich.

Herman T. Kramer, '07, is a surveyor and civil engineer at 759 Gratiot Co., on "Hints to Homeseekers," a book just published by the Webb Pub.

Forest Service in the District Office at Ave., Detroit.

A. C. last week. Servis is planning on the reunion at Commencement and wishes to know how many more will be there. Gunnison has just been elected secretary and treasurer of the M. A. C. men in its employ. C. E. Bassett, '02, is the author of a book just published by the Webb Pub., Co., on "Hints to Homeseekers," a book of agricultural opportunities.

Word has been received from Lee Kennedy, '14, that the M. A. C. people in and around Minneapolis and St. Paul will have a meeting March 11th.

O. G. Anderson, '11, has bought a farm near Atlas, Mich., and will be glad to welcome any M. A. C. people who may find themselves in that region.

Born, to Mr. and Mrs. Fred T. Baker, of Peoria, 111., on March 2, an eight and one-half pound boy. Baker graduated in '13, and is now with the California Fruit Growers' Exchange.

Ray Servis, '13, instructor in agriculture at St. Louis; Ray Servis, '10f, is with the Forest Service in the District Office at Seattle, Wash. His address is 490 Henry Building.

B. E. Hoffman, '06, who has been with the U. S. Forest Service since graduation, has been transferred from Alaska to Medford, Oregon.

The Jerseys

In 1913 eighteen Jersey cows were officially tested which averaged 12 years and 7 months of age. Their average milk production was 1077 pounds. Average butter fat, 387 pounds. One of these cows was over 15 years old.

Longevity, Constitution and Economic Production are Jersey characteristics.

THE AMERICAN JERSEY CATTLE CLUB

221 W. 23d St., New York City

THE M. A. C. RECORD.

that vicinity. He reports a great deal of snow in that region this winter and says that he has tried skis for the first time. The stockmen have been using skis to drive their ranch horses out of the mountains and many of these horses were so starved that their manes and tails were eaten off each other.

The following alumni were back for Farmers' Week: J. W. Chapin, Branch county agriculturist; C. H. Taylor, '13, farm agent for the Swigert Land Co., at Wellston: Lyman A. Lilly, '77, secretary of the West Michigan Fair; George F. Stow, '88, farming at Fowler; "Bill" Johnson, '12, farming at Metamora; Helen Ashley Hill, '97, Davison; Howard A. Taft, '11, farming at South Haven; Ashley M. Berridge, '12, farming at Greenville; L. Brumm, '12, manager of feed and dumb farm at Flint; Thomas Burt, '10, manager of Wayne county poor farm, Eloise; A. H. Perrine, '16, farming at Rives Junction; H. B. Vansold, '14, Freeland; W. A. Wood, '12, teaching agriculture at St. Louis; Ray Servis, '13, teaching agriculture at Monroe; Harry Taft, '13, teaching agriculture at Constantine; "Torchy" True, '11, farming at Armada; Paul Ketchum, '13, farming at South Haven.
