THE M.A.C. RECORD
VOL. XXI.
EAST LANSING, MICHIGAN, TUESDAY, JUNE 6, 1916.
NO. 34

MINNESOTA ALUMNI ENTERTAIN PROFESSOR GUNSON.

The Northwestern Association of the M. A. C. alumni held its fourth annual meeting at the Minneapolis Athletic Club in the direction of the splendid work of our new president, Dr. Kedzie. The latest possible Saturday afternoon was declared to be the best of the season and the meeting was the best so far held. The emphasis was put on the splendid product of the class of 1917 and the best was accorded the splendid product of the class of 1916. To say that the new Wolverine is a work of art is to speak of it lightly. To say only that it is better than any of its predecessors is not to accord the forerunners the due consideration which their production has merited in showing the way.

The Wolverine Board which has been responsible for this annual is made up of the following: E. R. Trangmar, Hancock, editor-in-chief; G. O. Stewart, Avilla, Ind., business manager; E. H. Pate, Lansing, advertising manager; Geo. H. Detting, Grand Rapids, assistant editor; G. S. Thomas, Schoolcraft, assistant business manager; H. L. Waterbury, Lansing, assistant advertising manager; E. W. Pickney, Lansing, art editor; C. L. Dietrich, East Lansing, assistant art editor; C. Marjorie Moore, Port Huron, assistant art editor; Howard C. Rath er, Elkin, class editor; Emily Castle, Mount Clemens, assistant class editor; Dorothy A. Lillie, Coopersville, class historian; K. B. Spaulding, Detroit, faculty editor; Beatrice Jakway, Ben ton Harbor, assistant faculty editor; L. H. Verschoor, Grand Rapids, society editor; Helen Perrin, Lansing, assistant society editor; A. K. Smith, Detroit, humorous editor; Josephine Carlson, Traverse City, assistant humorous editor; L. R. Leavitt, Alpena, snapshot editor.

Profiting by experiences of recent classes, who have had considerable difficulty in making the Wolverine pay out, the class of '17 has been able to cut in the cost of engraving considerably without cutting the quality of the book, has ordered fewer books, and has economized in other ways. In addition, the price has been raised from $2.00 to $2.25. The board of managers is confident that they have not only put out the best book ever published, but that this year they will come out at least even, financially.

M. A. C. ON MAP IN MILWAUKEE.

The First Annual Banquet of the Milwaukee M. A. C. Association was a great success. Twenty-three were present besides the guests, which included Professors Gunson and King from M. A. C. and Mr. and Mrs. Woodworth from Chicago. Wm. L. Davidson, '13, secretary of the Association, writes: "It seemed like being trans­ported back on the campus again. Prof. King and Mr. Gunson did their part well and the competition for "chief joker" was very keen between these two men. Prof. and Mrs. Woodworth of Chicago were also present and added greatly to the success of the meeting. The banquet was served at Hotel Carlson and from the way Prof. King mutilated the spring chicken we would judge that the poultry at East Lansing has not reached the milk-fed age as yet."

The Entomology Department is continuing to receive new and rare specimens of insects. Several which have come in this spring are undescribed species. One of the recent arrivals which is quite uncommon in Michigan is Haldeman's locust, taken near Hillsdale. Another very rare species belonging to the family of moths known as Swifts was sent in from the upper part of the state. This individual bears the distinguishing name Hepialus argentomaculatus.
THE DAIRY INDUSTRY IN JAPAN.

Due to the kindness of H. E. Demingson, 11, instructor in dairying at M. A. C. we are able to publish the following personal letter from G. Fukumura, who was a student at M. A. C. for three years with the class of 1910. He later graduated from the University of Illinois. This letter gives some interesting sidelights on the dairy industry in Japan.

Morioka, Japan, April 3rd, 1916.

Dear Friend:

Dairy farming in Japan is very immature. Statistics for 1910 show that we have 53,000 milk cows, while you have 21,000,000 cows and the consumption of milk per head for one year is only 5 pints while yours is 72 gallons.

The dairy industry is very poor, as you will be surprised to find the following table for 1913:

<table>
<thead>
<tr>
<th>Product</th>
<th>Value (Yen)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Condensed milk</td>
<td>500,000</td>
</tr>
<tr>
<td>Butter</td>
<td>227,000</td>
</tr>
<tr>
<td>Oleomargarin</td>
<td>57,000</td>
</tr>
<tr>
<td>Cheese</td>
<td>6,100</td>
</tr>
<tr>
<td>Cream</td>
<td>3,500</td>
</tr>
</tbody>
</table>

The above shows that condensed milk is produced to a greater value than any other product. This business will be very profitable one in Japan in the future because of the fact that we import more than Yen 2,000,000 worth every year and we also have a great hope of exporting to Korea and China.

I have studied nearly all the courses which were given at the Michigan Agricultural College and the University of Illinois but unfortunately not the practical side of condensed milk manufacture.

I am planning to go to America in order to practice in some condensed milk factory for one or two years and also with the hope of being able to make an arrangement with such factories to cooperate with them after my return to Japan.

To those going to America for study our government gives some financial assistance provided that they have the required qualifications and a certificate or letter showing some promise of acceptance into some factory in your country.

If you can get passport and assistance provided that they have the required qualifications and a certificate or letter showing some promise of acceptance into some factory in your country.

Your very truly,

Gikan Fukumura

THE DAIRY INDUSTRY IN JAPAN.

C. M. Thayer, with '68, of Flushing, sends a copy of the Lansing Press for June 25th, 1916, which contains an account of what purports to be the first baseball game in which M. A. C. participated. Recent letters from alumni make us fearful of claiming priority for this game, however, and we really want some of the boys who played in 57 to "so as still one better."—Ed.

The first game played was with the Capital Club of Lansing, in which the school proved as lucky as they have in later years, winning 24 to 27. It took two scorers to account for the run, but the team did not give any satisfaction, as the following story, written of the game from the Lansing standpoint, would indicate. The name of the paper it appeared in is not known, but Mr. Thayer thought it might be the old Lansing Republican.

The first game played was with the Capital Club of Lansing, in which the school proved as lucky as they have in later years, winning 24 to 27. It took two scorers to account for the run, but the team did not give any satisfaction, as the following story, written of the game from the Lansing standpoint, would indicate. The name of the paper it appeared in is not known, but Mr. Thayer thought it might be the old Lansing Republican.

June 25, 1865.—Baseball match.—A match game of baseball which was played between the Capital Club of this city and the Star Baseball club of the Michigan Agricultural College, on the grounds of the former club, on Friday afternoon last, resulted in a victory for the Star Club. The game was concluded in the best of feeling on the part of all the players, but fault was found with the umpire, who was a member of the Star Club. It was thought he allowed partiality.
to govern many of his decisions, instead of justice and fair dealing. After the game the Capital Club challenged the Star club to another game to be played immediately, or the next day, on the grounds of the latter club, neither of which challenges were accepted, owing to other engagements.

"In the evening the members of the Capital club gave the victorious nine a banquet at the Edgar House. The following was the score made:

—Lansing Press.

LOYAL CHICAGOANS ATTEND LUNCHEON.

The luncheon held at the Hotel Morrison, Chicago, on May 27th, is thus reported by Irving Woodin, '13: "Had a good feed, and good time. Listened to some good talks by our old friend Douglas and a few others. Talked about the proposed fund for worthy boys, and also decided to have a picnic in bathing suits this summer."

The following were present: W. R. Thompson, '15; Anna Louise Scott; Lucy M. Woodworth, '95; P. B. Woodworth, '85; Irving Gingrich, '02; S. Liph, '15; Mr. and Mrs. I. J. Woodin, '13 and '14; Mr. and Mrs. John R. Thompson, '09; Mrs. Bertha M. Rittschoff, '09; Mr. and Mrs. J. W. Perrigo, '94; Lillian M. Haggerty, '08; S. J. Kennedy, '01; N. W. Mogge, '14; Mr. and Mrs. L. A. Prescott, '13; W. L. Nies, '13; G. H. Osborne, '11; E. C. Douglas, '13.

The annual Interscholastic field and track meet will be held this week Saturday. Coach Gauthier is expecting a record-breaking attendance from the high schools of the state.

THE M. A. C. RECORD.

STUDENT Y. M. C. A. HAS SUCCESSFUL YEAR.

Figures on file at the office of Don Heffley, secretary of the Y. M. C. A., for the year just closing, show that this organization has passed through one of the most successful years in its history.

It has been the desire of the Y. M. C. A. Cabinet to make the association mean something definite to each man affiliated with it, so that a large membership has not been the end sought. In all, 379 students have shown an active, participating interest in the work. Of this number 128 have made decisions for Christian life. Some excellent work has been done in the voluntary Bible study classes. Thirty-three classes were held in the fall term, twenty-eight in the winter term, and twenty have completed the work of the spring term, giving a total attendance of 3,869.

A particular valuable line of work has been done during the winter by the deputation teams which have visited sixteen different communities throughout the state. In this work 90 different students have participated. 70 meetings have been held, with a total attendance of 4,928. The young men sent out on this work are peculiarly able to help the young people with whom they come in contact, and they have definitely known of 154 decisions for Christian life.

In the social line the Y. M. C. A. has given three receptions, two student banquets, and a faculty-student banquet. The latter was a new venture this year and its success makes sure of its repetition. In addition various other social features will be promoted the coming year.

Secretary Heffley has also conducted a student employment bureau, in addition to the other work. In this he reports the following: 1,006 jobs reported to the bureau; 130 employers have made use of the bureau; 200 students furnished the fall term. Jobs could be found for all the students that applied. In the winter term the demand for work exceeded the supply, while this spring the bureau could not begin to supply the demand for men, due to labor conditions.

The finances for the work the past year were raised largely as a result of the work of "Dad" Elliot a year ago this spring. For the budget of $2,100 contributions were made by 250 students, 93 faculty, and 50 students. For the coming year the budget has been estimated at the same amount. Students have subscribed to the number of 306, alumni to the number of 40, and a faculty canvass will be made this fall.

With the experience of the past year, and the decisions reached, the leadership of Secretary Heffley, predictions which are being made for a banner year in 1916-17 cannot go far wrong.

HONORARY FORESTRY FRATERNITY ORGANIZED.

A chapter of the Xi Sigma Pi, a national honorary forestry fraternity, was installed at the College last week. This makes the sixth honorary organization of this kind at M. A. C. Qualifications for membership require that a man shall have better than an average of 80 per cent, and that he shows definite and progressive interest in all phases of forestry.

Professors Chittenden and Sanford and Instructors Gilson and Klem were made charter members, together with the following students: R. J. Johnson, L. C. Gren, S. A. Boatman, F. A. Thompson, F. T. Warner, E. C. Clementson, O. A. Olsen, and H. N. Putnam.

NORTHERN OHIO ALUMNI HOLD PICNIC.

The Summer picnic of the M. A. C. Association of Northern Ohio will be held on the afternoon of June 10th, somewhere in the vicinity of Cleveland. Athletic events will be indulged in during the afternoon and a basket lunch will be served by the ladies at 6 o'clock. Whole families are urged to attend and out of town members were entertained so they need not return until Sunday. Arrangements are in charge of R. M. Liekley, 68 Penrose Ave., East Cleveland, Ohio.

SOME OF THOSE WHO WILL BE BACK.

The M. A. C. campus resonated with the laughter and play of children last Friday when the grade schools of Lansing took a holiday and picnicked at the College. In the afternoon the annual grade school athletic meet was held on the athletic field.
AGGIES GIVE REVENGE ON NOTRE DAME, 5-2.

Remembering well the three-to-two defeat they suffered at the hands of Notre Dame at South Bend early in the season, the Aggies reversed this courteous treatment to the Catholics at M. A. C. last Thursday, and sent them home with the small end of a 5 to 2 score.

"Lefty" Brown was in fine fighting trim for the contest, so good, in fact, that he let the visitors down with but four hits, and these counted only in the second inning, when the two scores were pushed around.

The Aggies came right back in the third. After Thomas had struck out and Frimodig went out on an infield hit, Brown stepped up and sent one out of the park one for two bases. This seemed to dishearten pitcher Murphy, and he walked Davis and Clark, thus filling the bases. Fick then proved the hero, and brought all in with a three-run wild pitch. Rates walked and Fick came home on Huebel's long fly. Fick also scored the only other run for M. A. C. when, in the eighth, he pounded out a two-bagger and a little later scored another long fly by Huebel.

The summary:

NEWS AND COMMENT

First story window frames were set on the east and south sides of the new engineering building last week and the stone work between them was started. Excavation was also started for the foundation of Shop No. 1.

Norman O. Weil, of Cleveland, defeated Earl R. Trangmar, of Hancock, by a vote of 102 to 106 last week in the election for senior class president for next year. The week before these candidates tied, making another election necessary.

A pretty college romance will culminate in marriage on Commencement day when Ruth Price and W. B. Masse, both graduates in '16, will be married at the home of Mr. and Mrs. R. E. Loree, East Lansing. Masse will teach at M. A. C. the coming year.

In the interclass track meet held last Saturday forenoon the juniors claim to have won but in their total points are some dozen made by "Brownie" Springer who is alleged to be a sophomore. In case this is proven the meet will go to the seniors.

Mrs. Chamberlain of Chicago, wife of P. M. Chamberlain, '98, was a campus visitor last Thursday. Mrs. Chamberlain has many friends among the faculty since she and Mr. Chamberlain lived in the Terrace during the time of his appointment as assistant professor of mechanical engineering, '95-'96.

Through the kind services of Frank Johnson, '95m, who is designer for the Cadillac Motor Co., this company has shipped to the Engineering Division one cut-own chassis for use in the experimental engineering laboratory. This consists of an eight-cylinder engine, clutch, transmission, axles, wheels, steering gear, etc., as used on the 1916 model.

The new East Lansing State Bank was opened last Wednesday with 150 depositors. Students and instructors are enthusiastic over the bank which was established exclusively for community service. Several M. A. C. people are numbered among the officers and stockholders: A. M. Brown, president; Jacob Schepers, secretary; E. H. Ryder, R. C. Huston, L. H. Baker, A. C. Anderson, and others.

Rev. David Howell, of Lansing, one of the first of the graduates of other colleges to receive an honorary degree at M. A. C. died in his home Sunday. Mr. Howell has been connected with the Presbyterian church in Michigan for 19 years, being state superintendent of Sunday School Missions much of this time, and he was greatly admired by all people who came in contact with him.

J. M. Maze, '18s, of Jersey City, New Jersey, has been selected as the winner of the Sayer prize in bacteriology. This amounts to $25, and is awarded each year to the student showing special aptitude in this line. It may be well to recall at this time that this prize bears the name of a former instructor in bacteriology who was drowned some years ago in the Red Cedar. His heirs left a sum of $500, the interest on which is to be used to encourage work in bacteriology.

The Honorable James Wilson of New York City, formerly Secretary of Agriculture, spent a half day at M. A. C. early last week. Mr. Wilson, with some other prominent men, is interested in a technical magazine which they propose to establish and which will act as a clearing house for what the various agricultural colleges and experiment stations throughout the land are doing. They believe that a periodical of this nature will be of great benefit in advancing the science of agriculture. Mr. Wilson visited with Dean Shaw, Director Baldwin and President Keedle.

ALUMNI NOTES

'91.
M. F. Loomis, m, who perfected the Loomis Oil Engine, and who is now manufacturing this at Cleveland, was a campus visitor last week.

'92.
F. V. Warren, m, is engineer for Cramp & Co., Dinkle Bldg., Philadelphia. He writes: "Am very busy but would miss the Record greatly if it ceased to come."

'93.
Samuel J. Kennedy, m, the well-known artist, will have an exhibit of his paintings in Marshall Field's art gallery during Republican Convention week.

'94.
T. P. Chase, m, chief engineer of the King Motor Co. of Detroit, is credited with the creation of the King Eight, which has taken its place in the front rank of automobiles.

'95.
News has just been received of the appointment of A. D. Peters, m, to the superintending of Sandusky Division of Northern Railway, with headquarters at Lima, Ohio. For some time Peters has been special engineer with Lake Erie and Western Railroads at Indianapolis.

'96.
In the Western Engineering for May there appears an article and chart for determining velocity and discharge in earth ditches, written by Geo. H. Ellis, e. of the U. S. Reclamation Service. This is one of a series of articles, the first of which was published in the February number.

'97.
Norma Vedder, Mrs. H. I. Andrews, of Rochester, N. Y., with her two small
daughters, is visiting her parents at East Lansing.

12. LeRoy L. Jones, a, extension poultry-man for Purdue University, writes: "Sorry I cannot be with you the 13th and 14th but demonstration train prevents."

13. Can any of his classmates give the Room the address of Ivan E. Brands? He entered M. A. C. from Corunna.

15. Thomas W. Churchill, v, who is with the J. T. Milliken Co. of St. Louis, Mo., was married on May 10th to Miss Estelle Rees of that place. Reports were also received recently of Churchill's signal success in a state veterinary examination.

14. "I note with pleasure Ove Jensen's call to a reunion of '31. Two years ago we all made plans for this reunion. I am expecting to carry out my part of those plans and hope a great many more of the class are planning the same way."

Yours sincerely.

"CORK ft. WHEELIE. Mt. Pleasant."

15. L. M. Shumaker, who is doing engineering work with Cox and Shavers, both '11, at Coldwater, was a college visitor last week.
