M. A. C. PLANS BIG LUNCHEON FOR ALUMNI GAME.

At a meeting of the board of governors of the M. A. C. Union held last week it was decided to arrange for an M. A. C. Union Luncheon and Mass meeting on the date of the M. A. C.-Notre Dame game, Nov. 18. This game has been settled upon as the annual Alumni game and the occasion will be made the opportunity to acquaint the alumni with plans of the M. A. C. Union. Following the luncheon, which will undoubtedly be served in the Armory, a Union mass meeting will be held. This will merge into a football mass meeting and the alumni will be conducted to College Field by the band where a special section in the bleachers will be reserved for them.

EAST LANSING’S LEADING GROCER
AN APPRECIATION OF DR. COOK BY ONE OF HIS STUDENTS.

I keenly appreciate the privilege of saying a few words regarding Professor Cook, whose recent death has saddened those alumni who during their student days came under his influence. Early in my college course I decided to specialize in zoology and entomology and was, therefore, thrown under his influence more than that of any other professor—a circumstance for which I have always been grateful.

Professor Cook had, in a very unusual degree, that divine gift of enthusiasm for his work which is the first requisite of a great teacher. He was a contemporary of some of the greatest men that have ever been connected with the college in a professional capacity. It required a man of very high teaching ability to hold his own with such men as Dr. Kedzie, Dr. Beal, Dr. Edwards and two or three others whose names will occur to all of the older alumni. In spite of this, his luster was not dimmed nor his prestige diminished among the students. His courses were always popular, and a large number of the graduates of his department found their way into positions of responsibility and honor in other colleges.

Professor Cook's influence was not limited to his professional activities, however. Not a few of us who needed wise personal counsel and even occasional financial aid, have reason to remember him with a very real sense of gratitude. He was never neutral in any question involving the morale of the student body, but an active and real force on the side of right.

Until the last alumni whose student days fell during the years 1887-1893 shall have passed away, the memory of Professor Cook as a great teacher will maintain its commanding place among the many cherished memories of the Michigan Agricultural College.

L. H. Baker, '93.

Dwight Alonzo Harrison, '86.

Dwight A. Harrison, graduate of M. A. C. in the class of '68, and for many years a prominent resident of Kalamazoo, died at his home Sept. 20. He had been ill for nearly two years but it was only recently known that his illness was serious.

Mr. Harrison was born in Blissfield, Mich., July 20, 1847. After graduation from M. A. C. he was in business in Williamston and Lansing, and about 37 years ago he became associated with Farrand, Williams & Co., wholesale druggists, of Detroit, and had been connected with the firm since that time. His widow, two sisters, and a brother survive him. He was an uncle of Mrs. Mary Louise Harrison Flower, '88, of Detroit.

A. G. Gulley of Storrs, Conn., a classmate of Mr. Harrison, writes as follows: "While a student at the college his father built the well-known Harrison house just west of the college grounds and lived there for several years. Mr. Harrison and I sat side by side during our whole college course. Since then I have visited him many times and been in much closer connection with him than with any of my other classmates. He was present at the reunion in 1915. For me it is the passing away of a very dear friend."

M. A. C. WILL CELEBRATE ANGELL DAY.

On Friday afternoon of this week students and faculty will meet in the Armory to do honor to James Burrell Angell, late president of the University of Michigan. The day has been designated as Angell Day and the committee has secured Dr. R. M. Wendt, classmate of Mr. Harrison, to give the address of the occasion. The exercises will take place directly following the laying of the corner stone of the gymnasium.

KAZOO MEETING POSTPONED.

The meeting of the Kalamazoo M. A. C. Association which was scheduled for this week Wednesday has been postponed until the latter part of the month.

ST. JOSEPH COUNTY ASSOCIATION ORGANIZED AT PICNIC.

The following account of the formation of an M. A. C. Association in St. Joseph county has been sent in by J. M. Wendt, '13, agricultural agent for that county:

About August 1st, a call was sent out to all St. Joseph county M. A. C. people to meet at Sand Lake near the station of Nottawa. From the answers which were received from the calls, we knew that the meeting or picnic would be a hummer, and consequently we invited President Kedzie to be with us, receiving the assurance of his presence in answer.

On August 19th, the company gathered at the spot selected at about noon and immediately preparations were made for an immense picnic dinner, as the number which had collected surpassed our expectations. When we finally found time to look around for President Kedzie we noticed that his shoes were being quite ably filled by Professor Thomas Gunson, President Kedzie being ill and unable to come. When the preparations were finally completed, we all sat down to about the best picnic dinner that was ever indulged in. When capacities were finally reached all the way around, we listened to a short, but excellent banquet program. The offenders on this program were John Evert of Mendon, S. E. Hagenbuch of Constantine, William R. Addison of Leonidas, Florence S. Vaughn of Colon, and Thomas Gunson. All numbers on the program were more or less impromptu, but nevertheless very good, but Thomas Gunson capped the climax of all because he brought to us the spirit of Kedzieism at the "new" M. A. C.

As a part of the program we also had some spirited yells led by Vern Schaeffer—just to show that we were all still alive.

After the program we indulged in a short business meeting where plans were laid for a permanent St. Joseph County M. A. C. Association. The officers elected were John F. Evert as president and Sam Hagenbuch as secretary and treasurer. Then after that, nearly all of us invaded the waters of Sand Lake garbed in many hue bathing suits.

TUESDAY, OCTOBER 10, 1916.

OCT. 21 A PERFECT LEGAL HOLIDAY.

Such is the declaration of the M. A. C. people of Detroit and we do not doubt but that U. M. people feel somewhat the same way. We are not sure that all the factories and stores will close but it is certain that there will be a general exodus from the auto city towards Ann Arbor. And that is not the only direction from which the crowds will flock. M. A. C. students will go down on a special train, with the band, handed by Sergeant "Paddy" Cross. Alumni from Lansing and all over Michigan are writing in for tickets and everyone is looking for a repetition of last year's victory. One of the "old boys" from Bay City writes that, "We will be home every day this month except Oct. 21, and if we are home on that date we will be both sick abed." A recent graduate who is doing advanced work at Ann Arbor says that one question repeatedly put to him is, "What kind of a team have they over there this year?"

MORE SCIENTIFIC FARMERS?

The new rural credit law is hailed by those interested in extending the practice of scientific agriculture as an important step in the right direction. While the administration of the new act does not include directly the Agricultural colleges and experiment stations, it is pointed out that it may well lead to an expansion of the influence of these agents in putting into effect better methods and practices. The argument continues further: Instruction staffs engaged in preparing students for agricultural service have repeatedly been brought face to face with the obstacles confronting their graduates who wish to farm but have only limited capital. It should make it practicable for a larger proportion of college graduates to engage in farming operations. The new law will assist it should indeed be a great boon to scientific agriculture and agricultural colleges.

ST. JOSEPH COUNTY ASSOCIATION.

(Continued from page 3.)

The following is a list of M. A. C. people and their friends who were in attendance. There were a few people whose names we did not get so they must not feel slighted if not mentioned in this account:

Mr. and Mrs. Hubert J. Duthie, '10-'11, Lloyd W. Dougherty, '10, Carlene Dougherty, Mrs. Robert O'Hearn, Marjorie Scholtes, '18, Mr. and Mrs. C. M. Dool, '09, Mr. and Mrs. J. F. Evert, '82, Mrs. Mary Wells, Mr. and Mrs. Aaron Hagenbuch, '19, Mrs. Betty Dorgan Schaeffer, '14, Mr. and Mrs. R. C. Dreisbach, '11, Mr. and Mrs. H. C. Bucknell, '99, Mr. S. C. Hagenbuch, '10, B. S. Hice, C. Lee Harrison, '12, Walter T. Kelley, '19, Vern C. Schaeffer, '11, Lynn Clark, Carl L. Post, Ralph Miller, '14, Mr. and Mrs. C. E. Hagenbuch, '79-'81, Mr. and Mrs. W. H. Armey, '97-'99, Mr. and Mrs. Thomas Gunson, H. H. Himebaugh, '79, Faith Dedrick, Constance Rib, Culver D. Wilcox, '19, Verne Z. Fillmore, Willis Wahl, '12, John A. Wahl, '13, Viva Fillmore, Melva Wahl, Mr. and Mrs. L. R. Slot, Genevieve Null, '10, Berenice Clark, Helen Clark, '18, Mr. and Mrs. D. L. Wahl, '14, Mrs. M. Bailey, D. S. Meld, '89, Florence S. Vaughn, '14, Moss Estes, '19, Bernice Johnson, Bess Fraser, Vance Batty, '19, "White Elephant," Mr. and Mrs. William Addison, Ralph Kelley, '18, R. L. Himebaugh, '22.

GYMNASIUM CORNERSTONE WILL BE LAID FRIDAY.

Ceremonies incident to the laying of the corner stone for the new gymnasium have been scheduled for Friday afternoon at ten o'clock. The place is the campus of Prof. L. C. Plant, who is chairman of the committee, the College cadet corps will take part in the ceremony, led by the College band. The time has been set for 10 Aug. 10, Friday. President Kedzie will undoubtedly supervise the placing of the stone.

It was decided at the recent meeting of the Union board of governors to hold a Union party this week Friday. And the celebration of Thanksgiving day has been set aside as the occasion for a general Union convention of M. A. C. students.

MICHIGAN GAME TICKETS.

Tickets for the Michigan game, Oct. 21, may be secured by the alumni by sending to the alumni secretary, C. S. Langdon, East Lansing. A section has been reserved for the alumni: $1.50 for the first three rows, all others $1.00. Orders for tickets should be accompanied by cash.

"WHITE ELEPHANT" WILL BE TORN DOWN.

As a result of a recent State Board action, in which authority was given to purchase the property upon which the "White Elephant" stands, this College landmark will soon be razed and nearby an entrance will be made to the athletic field. The "White Elephant" has been closely associated with College life for many years. It was built as a rooming house for students and many of them have kept bachelor's hall there. However, it was never a financial success, hence its name. In the past few years it has been sinking rapidly into disrepair and certainly has been no positive factor as an advertisement for M. A. C. alma mater. The need of an adequate athletic field has made it necessary that the "White Elephant" should be torn down.

PROSPECTS OF STILL MORE MILITARY OFFICERS.

If the expectations of Captain Longanecker, commandant at M. A. C. are realized, the college cadets will soon have three more officers to assist in their "preparedness." According to a recent law by Congress M. A. C. is entitled to two commissioned officers and either three or four non-commissioned officers. First Lieutenant Max K. Murray, who is already on the job, is the additional commissioned officer and Captain Longanecker has put in application for three sergeants.
MANY ELIGIBLE FOR SONS AND DAUGHTERS CLUB.

The formation of a "Sons and Daughters" club has been suggested at M. A. C. membership to include those students now in college who have had fathers or mothers either in attendance or graduate. If this list would be augmented to include also those who have had brothers or other immediate relatives the club would assume almost unwieldy proportions. It is pointed out that only those could be found in college were the members would have more in common. Certainly there wouldn't be a lack of interesting gossip once all the knowledge of their parents' college activities was unloosed.

The present entering class numbers a good many eligible to such an organization.

C. B. Cullingwood, '85, leads the list with two daughters, Laura and Rebecca. C. P. Locke, '95 (deceased) has a son, Allan B. of Ionia in the freshman class. Ralph McFain of Grand Rapids is a son of Eva Coryell McFain. '79, the first woman to graduate at M. A. C. Others are: I. R. Quigley of Grand Rapids, second son of I. J. Quigley, ex '94, to enter; Henrietta Stafford of Lawrence, daughter of J. C. Stafford, '88 (J. M., who graduated the year before); W. A. Sampson of Kingston, son of W. C. Sampson, '87; B. H. Bentley of Ceresco, second son to enter of B. K. Bentley, '96; L. C. Palmer of Parma, son of H. F. Palmer, '95; Gertrude Babcock of East Lansing, daughter of Warren Babcock, '99 (deceased), F. F. Rogers of Lansing, son and fourth child to enter of F. F. Rogers, '85; Phyllis Rossman of Harbor Beach, daughter of Wm. Rossman, '85; Barbara Julia Little, second daughter of C. Little, '84.

Those entering who have had near relatives here are: Stanley Powell of Ionia, brother of Ralph Powell, '82; E. C. Banks, '84, and C. A. Hach, '95; Marian Normington, sister of F. P. Normington, '89, of Bryan, Ohio; sister of Edna Frazier, '94; Wm. Rossman, '95; A. A. Sorenson, '12, is teaching agriculture in the high school at Freeso and studied in the summer school at the university. He is very enthusiastic about his work in California.

D. W. Francisco, '84, is the advertising manager of the California Fruit Growers Exchange and has entire charge of the very extensive campaign that is being carried on to increase the sale of Sungist oranges and lemons at which work he has been very successful.

B. B. Pratt, '90, is in charge of the Field Department of the California Fruit Growers Exchange. The work of this department is too see that the fruit that Francisco advertises comes up to its claims by the Exchange and under his wise management, the Exchange membership is increasing year by year.

H. A. Voight, '81, is president of the California Furniture Company which is by far the very finest furniture store in the southwestern United States.

W. J. Bailey, '01, is very much improved in health and is enjoying a splendid business as manager with the Day and Night Solar Heating Company. Easterners may not know what this is but it is a thing that looks like a hot bed on the roof full of black pipes. The current California sunlight heats the water in these pipes, forces it into an affair like a thermos bottle in the garage and it stays hot all night, furnishing hot water at a very trivial expense.

Geo. T. Hayes, '15, recently arrived at Monrovia from the East where he will take charge of orange properties for his father. He thinks that California is a wonderful place but for real beauty there is nothing like the M. A. C. campus.

Miss Elizabeth Frazer, '11, is a very successful teacher in the Redlands high school.

Mary Mabien Allen, '09, goes NO CONCERT TOUR.

Miss Mary Mabien Allen, '09, contralto, who has been at St. Louis, Mo., for the past several years doing concert work and teaching vocal, will tour with a Chicago concert company this winter. She will sing in various cities of the United States and Canada.

In a recent letter she writes of the possibility that she may sing at M. A. C. some time during the winter. The concert here would be for the benefit of the M. A. C. student Aid fund, she advises. Miss Allen is now at home, 246 Hubbard Ave., Detroit.
WITH CRIPPLED TEAM AGGIES
DEFEAT CARROLL, 20 TO 0.

Viewed as an example of M. A. C. brand of football the game with Carroll College Saturday was very unsatisfactory. But when the conditions were taken into consideration the three touchdowns rolled up do not look so bad.

It may be said in the first place that the game was played by the reserves, only six regulars going into the battle at the start and most of these were removed before the game was finished. And the score would have been much bigger had it not been for fumbles. Twice M. A. C. lost the ball near their opponent's goal line. Totalled 100 yards.

The particular bright spots in the contest were the playing of Ramsey at end in place of Capt. Henning who has a foot condition in his toe, strained, and Al Brown at halfback. Both of these men showed varsity caliber in the positions where men are needed most. Pick played a fine game at guard and showed that he also can be depended on in pinches. One of his runs went for 25 yards. Once only was M. A. C.'s goal line threatened and this came as result of a fumble from Taugher to Keller which netted Carroll 30 yards. Another pass was attempted soon afterward, Butler intercepted and ran the ball back 30 yards, out of danger.

No score came in the first quarter although the ball was advanced to the one-yard line just at the end so that Ramsey took it over in the first play of the second. Another by Hoebel came in this quarter and the final count was made by Jacobs in the fourth period.

Freddy Jacks was one of the stars in the backfield though the coach and manager had him work long. Baker made some good individual gains but showed no adeptness at team work. The line missed VanDervort who was out because of injuries. Pattison was the worst offender in the holding.

During the contest the following substitutions were made: Thompson for Archer, end; Miller for Coryell, tackle; Kuntzworth for Blacklock, tackle; Turner for Ramsey, end; Thompson for Archer, end; Archer for Primdahl, center; Culter for Thompson, end; Ode for Culter; Baker for McClellan, back; McCool for Butler, back; Beale for McCool; Smith for Ode; Franson for Straight.

While there is some anxiety on the part of the Aggie coaches over injuries which may keep some of the varsity men out of the game for two weeks, the outlook is considered good.

A large score was not expected Saturday and the game did bring out some strong contenders for varsity positions.

A.LUMNI NOTES

C. H. Redman has recently accepted a position in the valuation department of the M. C. R. R. He writes, "Have my wife and daughter Mann with me now. They have recently returned from a three years' sojourn in Berlin where my daughter has been studying piano under Professor Chen, than whom there is no greater piano teacher living. Our address is 429 W. Philadelphia Ave., Detroit."

In the July number of American Forestry, James W. Tomney, director of the Yale Forest School, points out that the United States is working more and more towards the establishment of communal or city forests. In his article he gives data on the number of cities that already have large tracts, some of them as large as 7,000 acres. Cities are drawn in this work in the first place to protect water sheds from which potable water is obtained or for purposes of recreation, but, he says, "some time timber production will join hands with water protection. Seventy-two per cent of Switzerland's forests are owned by small units and a large part of Germany's are also owned."

H. F. Palmer was a campus visitor last week. He came up to bring a horse skeleton to aid his son who has just entered the veterinary course at M. A. C. Palmer says it is the same skeleton he 'boned' over in his own veterinary work. For several years he has been with the H. K. Mulford Veterinary Co. of Philadelphia, but re­ signed this summer and is now getting his mail at Parma, Mich. He is con­ sidering now a proposition with a Cul­ egano firm, though he may go into prac­tice at Brooklyn, Mich.

Mrs. I. N. Van Tassell (Alice Gonn) is now living at 8 Mt. Vernon Apts., Fargo, N. D.

F. H. Valentine, e, and Miss Lillian Elliott of Grand Rapids were married this past summer. They are living at 9230 Wade Park Ave., Cleveland. Valentine is now assistant manager of the Vacuum Heating Department for the Bostrop-Dabrock-Becker Co. of that city. He writes that he expects to see the Michigan game on the 21st. In fact he expects the Michigan representative of the company, who is a C. of M. man, will pay his expenses to Ann Arbor, then the result of the game is known.

A daughter, Mollie, was born Oct. 2 to Mr. and Mrs. E. Lakin Brown of Schoolcraft.

G. Harris Collingwood, f, assistant (Continued on page 7.)
Most remarkable are all of the new models of the
Hammond Typewriter
Multiplex

Features:
- Instantly interchangeable type
- 36 varieties; over 50 different languages. No bad alignment. No imperfect impressions of type, as stroke is automatic.
- The regular Multiplex
  - Is the standard for executives, authors, clergymen, physicians, instructors and students.
- Aluminum Multiplex
  - The lightest and most portable of high-grade typewriters, weighing about 11 1/4 pounds.
- Mathematical Multiplex
  - Carrying about 150 different characters, for the writing of all algebraic equations and mathematical problems—and all other kinds of work.
- Reversible Multiplex
  - When the writing is reversed from English — Hebrew, Arabic, Persian, etc. immediately adapted to English also.
- Multiplex Copy-Riter
  - Has variable spacing of letters and many styles of type. "Your copy is your proof." As is the copy so will be the style of printing.
- Wide Carriage Multiplex's
  - Writing lines from regular up to 20 inches long. All Hammond's however accommodate any width of paper.
- Service
  - To business institutions exceeds and excels any other one class of its usage.
- Beauty of Work
  - Is a pre-eminent feature in all of its models.
- Every Model
  - Is fitted to accommodate our many styles of type and our great variety of languages. Two sets on a machine at once. "Just turn the knob" and presto, there is one or the other. Other equipment in our line.

CATALOGUES GLADLY SENT FOR THE ASKING.

NEWS AND COMMENT

Miss Janet Duffy of Saginaw, who has had much experience in bookstore work, has been secured to manage the M. A. C. Co-Operative Book Store.

V. James of Bloomington, Ind., takes Prof. Emmens’ place as instructor in mathematics this year. He is a graduate of Indiana University and has his M. S. from Columbia.

Instructor Reece of the mathematics department has a leave of absence this term and will do graduate work at the University of Wisconsin. Mrs. Reece and their daughter will accompany him.

A. E. Head (B. S. Ohio State 1915—M. S. 1916) is the new instructor in the Soils department. W. A. Landerman, who has his A. B. and A. M. from Indiana University, is half time assistant in soils.

Prof. Chapman, of the Physics department, has secured the services of James P. Coyle as instructor in Physics. Mr. Coyle has taught physics at Keokuk, Iowa, for five years. He has his M. A. from Illinois University.

Wylie B. Wendt, formerly assistant professor of mechanical engineering at M. A. C., is now at Kansas State Agricultural College, Manhattan, Kansas, as assistant professor of applied mechanics. He teaches classes in mathematics, strength of materials, graphics and concrete construction, and has charge of mechanical laboratories. He is very much taken up with the town and position.

During the first week of school the elevator at the Woman’s Building stopped midway between two floors and for an hour the imprisoned girls could go neither up nor down. The college electrician was called and finally succeeded in correcting the difficulty so that a score of men, more or less, who were waiting below, were greatly relieved and had to “take back” their customary charge.

During the funeral of Professor A. J. Cook a week ago Monday classes at the college were suspended for five minutes while the instructors read to the students a brief sketch of Professor Cook’s life. At the funeral M. A. C. was represented by the following people from the College—President Kedzie, Professors Taft, Gunman, Hedrick, Enslow, and Mrs. Landon; other alumni, James Satterlee, ’69; A. E. MacComber, ’62, a classmate of Dr. Cook; O. E. Augstman, ’81; J. D. Towar, ’85; L. H. Baker, ’90; Jason Woodman, ’82.
