EAST LANSING’S
LEADING GROCER
CHANGES IN H. E. EXT. DEPT.

During the summer two new members have been added to the home economics extension staff and a red­vision of the work has been made to accommodate the County Home Demo­nstration Agent. The work has been made possible by the recent Emergency Food Bill. Following the resignation of Miss Paulina Raven, Miss May Person has been appointed as head of the depart­ment and assumed her duties there July 1. Miss Person is a Lansing girl, a daughter of the late Judge Rollin H. Person and through her study and teaching experience is emi­nently fitted for the position as di­rector in charge.

Graduating from the University of Michigan in 1909 with the degree of A. B., Miss Person taught English and history for two years in the Lansing high school and then spent a year traveling in Europe, returning in 1913. She entered the English department at M. A. C. and for two years taught English and French. At this time Miss Person became very much interested in home economics work and since 1915 has been taking both regular and summer school work in home economics, while teaching history in college.

Another valuable addition to the de­partment is Miss Elizabeth Parker, who is to have charge of the health work. Miss Parker began her work July 1, coming to M. A. C. from the State Board of Health where she has been very active in the tuberculosis survey carried on over the state. Pre­vious to this work she was teacher at the State School for the Blind for 12 years. She is president of the State Nurses’ Association.

Miss Morse, a graduate of Kansas Agricultural College, who came to M. A. C. in February, is continuing in the regular work while Miss Edna D. Smith, ’03, who was added to the de­partment last year, has just been given charge of the new organization called for by the Emergency Food Bill. This bill provides for the appointment of home demonstration agents in each county who will work with the County agent and have an office at his head­quarters. These agents will not only make a survey and organize home economics work in their counties, but will be exactly what the name indi­cates, a trained specialist who can go into homes and demonstrate home economic principles, teach food values, food conservation, proper clothing, hygiene, etc. The scheme is a co-operative one in which the Federal govern­ment provides the salary of the demon­stration agents on condition of the counties providing the expenses. Already two or three counties have accepted the co-operative agreement and it is now being placed before the boards of several others.

Besides the counties, four cities in Michigan will be allowed co-operative home demonstration agents. Grand Rapids, Flint and Saginaw are being considered. The work is just being organized, but one appointment having been made so far, that of Miss Grace Hitchcock, ’15, to the agency of Ottawa county with headquarters at Grand Hose. Other appointments will follow shortly upon the decision of the counties to take up the work. Those in charge of organizing say that because of the lack of girls with proper training, it will be nearly a necessity that there be a number of M. A. C. women to fill many of the demonstration agent positions.

TWO DAYS’ ENROLLMENT,
300 SHORT.

Wednesday night the number of students who had enrolled was 1052. This was only about 300 behind last year’s second day enrollment and shows that M. A. C. is faring as well and even better than a number of other institutions. Three hundred ninety-eight of this number were freshmen which re­presents a decrease of from 15 to 20 per cent from last year’s class of new­comers.

The normal number of women have entered the big decline being in men in the junior and senior classes.

In drawing up schedules it is nota­ble that the French classes are over­loaded and that there is no call whatever for German. Usually there are a large number of German students but this year but one class has suffi­cient signed up to justify holding the class, that in second year German.

ALUMNI LUNCHEON AT MANISTIQUE.

Through a fortunate set of circum­stances it was possible to hold an in­formal M. A. C. meeting at Manis­tique on Thursday evening, September 27th. E. G. Amos, ’15, discovered that every judge at the Schoolcraft County Fair was an M. A. C. graduate. This led to an inventory of the M. A. C. people in Manistique and the luncheon was the result. The following attended: R. N. Kebler, ’14, of Marquette; Upper Peninsula Boys’ and Girls’ Club Leader; J. W. Weston, ’14, of Mar­quette; in charge of Extension work for Upper Peninsula; E. G. Amos, ’15, of Manistique, Schoolcraft County Ag­ricultural Agent; H. A. Cockran, ’16, of Manistique; John J. Kramin, ’16, teacher of agriculture, Manistique; Nellie Fredden, ’17, teacher of home economics, Manistique; E. Bouchard, ’18, of Manistique; Anna B. Cowles, ’15, of Lansing, State Leader for Girls’ Clubs; C. V. Ballard, ’12, of Iron Mountain, Dickinson County Agricul­tural Agent; Marion C. Thomas, ’15, of Manistique; E. C. Lindemann, ’11, of East Lansing, State Club Leader; Mary M. Harrington, ’18, of Hubbell.

Lyle Atwood, ’17, of Traverse City, and E. G. Culver, ’12, were also in Manistique on the day of the reunion but were not able to attend the luncheon. Culver’s excuse was a holiday-old son who demanded attention. Mrs. Cockran accompanied her husband. The discussion at the luncheon cen­tered around the problems of securing students to enroll at M. A. C. this fall, although most of the time was taken up with reminiscences of college days. A rousing rat-ta-ta-thrat” and a locomotive dismissed the pleasant gathering.

The RECORD desires complete in­formation of every man in service, his rank, branch, and assignment. Please help us by sending in what you have.

Don’t forget the M. A. C. get-to­gether at Grand Rapids November 2 during the State Teachers’ Associa­tion.
In the afternoon 'Chet' Spaulding made all forget their age and the big dinner they had consumed by introducing some lively games.

An election of officers wound up the very successful and enthusiastic meet.

After the big and bountiful basket dinner had been served, President Kezdie, '82, 'Chet' Spaulding, '14, and others responded to toasts.
MC CUNE '01 BECOMES PASTOR EAST LANSING CHURCH.

Newell A. McCune, '01, arrived in East Lansing last week and has actively entered upon his duties as minister of People's church. Reverend McCune comes to the college from Benton Harbor where he has been pastor of the Methodist church for the past seven years.

Following his graduation in 1901 Mr. McCune taught agriculture for two years at Berea College, Berea, Ky. Immediately following this he took some work at the University of Michigan and then entered the Boston University School of Theology and spent three years there, graduating in 1907 with the degree of S. T. B. During the time spent in the School of Theology he took residence work in the graduate school and received an M. A. degree in '09 from the university. His first post was as minister of the Methodist church in Three Rivers where he remained until 1910.

Since then he has been in Benton Harbor. Mr. McCune traveled abroad for six months in 1914, returning just before the war. During the winter of 1913 and 1914 he studied in King's College, University of London.

Mrs. McCune was Caroline R. Jennnings of Petoskey. She attended Olivet College and was teaching in the Petoskey schools at the time of their marriage in 1907.

Reverend McCune has energetically entered upon his work in East Lansing and has made plans for a church survey and visitation day in which the whole city of East Lansing will be thoroughly canvassed for church members and non-church members. The work will be divided among a large number of teams and each team will be given a certain territory to cover. As Reverend McCune expresses it, "Our survey will give us information of the field in East Lansing, and its needs and will show us how and where the church can do better business for the city. We are going to try to make the church make East Lansing a real good place in which to live."

We are fortunate indeed in being able to secure a man of Rev. McCune's strength and ability and doubly pleased that the man to be selected is an old M. A. C. man.

MICHIGAN GAME TICKETS.

Tickets for the Michigan game, October 20, will be placed on sale this week. A section of the new bleachers in the center of Ferry field has been reserved for M. A. C. folks and seats in this section may be had by enclosing checks to the alumni secretary, C. W. McPharlin, East Lansing, or direct to the athletic office. A uniform price of $1.30 is being charged for all seats this year.

If the commas are left out this week and the spelling is poor it's because the editor is moving from Lansing to East Lansing.

ALMA TAKES FIRST GAME 14 TO 7.

For the first time in 10 years Alma College defeated M. A. C. at football last Saturday. The final score was 14 and 7. Alma came to East Lansing with the best team she has had in years while M. A. C. displayed the greenest eleven in the history of the oldest inhabitant. That explains the result of the contest. Fumbles were frequent on both sides and especially costly to M. A. C. for they came just at the crucial moments in the game when the team was working within striking distance of the goal. One especially bad fumble in M. A. C.'s territory let Alma score a touchdown from the 25-yard line. The kicking was good for so early in the season and it was very noticeable that the M. A. C. line held much better during the kicking than did that of Alma. Several of the Alma kicks were blocked.

It was absolute greenness rather than any other factor that brought down M. A. C.'s downfall. The men did not know what to do at the proper time. The coaches are very confident of the material, however, from the showing of individual ability by the new men.

The potential strength of the team was brought out decidedly in their ability to gain almost at will in going down the field in the second and third quarters. In straight football M. A. C. gained twice as much ground as Alma. Inability to hang onto the ball, frequency in covering passes and a tendency to play the ball more liberally than the men in Alma's forward pass showed greenness and nothing else.

This was the first big game of football for all the backfield men and the very first game for the most part of the rest of the team. Hammes was the big star at full back and from the way he started his first game, he will be a big bullwork in the team M. A. C. will take to Michigan. He runs and hits the line hard and his kicks are low and strong.

The scoring was all done in the first half of the game. The first quarter was a display of close playing with the exception of the fumbling which gave Alma her touchdown. In the second quarter M. A. C. came back and showed her real ability with a series of straight line bucking. Although losing the ball several times with fumbles they kept marching down the field until the score was accomplished. In this quarter Alma, with an almost dazzling string of short forward passes made a touchdown from the middle of the field before M. A. C. had fully awakened to the occasion. The last half of the game was almost a kicking match, each side trying for back and end runs. In this work M. A. C.'s straight football was ahead of Alma's and much more ground was gained by our men than by Alma's.

Summary:

M. A. C. Alma
Ramsey L.E. Foote
Coryell C.T. Lott
Bailey L.G. Miller
Atkins C. Burch
Leffler R.A. Leffler
Mills R.T. Spooner
Bassett R.E. Richards
Kellogg Q.B. Herbert
Oas L.H. Smith
Boardman R.H. Nunnance
Hammes F.B. Hammes
Hammes F.B. Hammes

Everyone feels that with more experience and with the enthusiasm encouraged by Mr. Brewer's presence, the present team will develop into a formidable opponent for any of the larger schools on the schedule. The coaches are confident that they can give Michigan as hard a fight for the game on October 20 as at any time in the past years. It is hoped that the back field may be strengthened this week by Huebel, Butler and Vandervoort. It is fairly
certain that these men will return this week. Archer, last year's sub-center, reported Monday. Murray, captain of the northern Michigan resorts. Mr. and Mrs. Henika are at home at 66 Benjamin Ave., N. E., Grand Rapids.

CHILDs—Crilly.
Miss Florence Crilly of Newark, Ohio, and Lieut. Francis M. Childs, '16, were principals in a military wedding at Newark, August 18, at the Crilly home. Lieut. and Mrs. Crilly spent a short time in Saugatuck, Mich., previous to the lieutenant's reporting for duty at Camp Custer.

GOODWiN-WOLVERTON.
Miss Corrine Wolverton was married to Oza T. Goodwin, '16, of Ionita August 22. Mrs. Goodwin has been a teacher in the Greenville school and the groom is professor of animal husbandry in the Agricultural College at Athens, Georgia, where they will make their home. Goodwin's father is C. L. Goodwin, '77.

ATCHISON-Snook.
Senika-ATCHIsOn.
A double wedding took place at the home of D. L. Snook, Hadley, Mich., August 28, when Blanche L. Snook, '17, was united in marriage to William J. Atchison, '17, of Muskegon, and Margery C. Atchison, '14, of Panama City was married to Albert Sin- nicks of Balboa, Canal Zone, Panama. A number of M. A. C. friends attended the wedding.

Couch—Joy.
The wedding of Lieut. D. J. Couch, '16, veterinarian in the officers reserve corps, and Miss Florence Joy took place Thursday evening, September 20, at St. Mary's church in Lansing. Lieutentant Couch received orders to report at Camp Custer on the 21st and the wedding was a rather hurried affair on that account. Mrs. Couch and has joined her husband at the camp.

Emmons-Pennington.
An announcement has just come of the marriage of Grace C. Pennington, '15, to Quartermaster Robert Emmons, which took place September 12, at the home of the bride in Grand Rapids. Sergeant Emmons is with the first contingent of the Grand Rapids naval militia, which is now stationed at rifle range, Illinois. Mrs. Emmons is continuing her domestic science work in Grand Rapids and has charge of the sewing at the Sigsbee school.

Blake Miller, '16, and Jerry De- Prute, '16, are planning football in old M. A. C. form in the officers' team at Camp Custer. Miller starred with a 40-yard run in the recent game with Alma in which the officers won 7-0. O'Callaghan, '16, is also displaying former M. A. C. tendencies as manager of the officers' team. He was varsity manager his senior year in college.

CORRESPONDENCE.
Batanganas, Batangas, Phil. Isles.
C. S. Langden, Sec'y
M. A. C. Association.
East Lansing, Mich., C. S. A.
Sir:—Enclosed find P. O. M. O. for $5.00—my belated contribution toward portrait of Mr. E. Olds in new Engineering Building.
In case the cost of portrait is already fully subscribed for, please have the M. A. C. RECORD sent me for a copy.
In case orders are slow in coming, please have the Tau Beta Pi Association to help furnish the new room.
Everything here goes on nearly as it was before the war, except for tilled prices of food, etc. The Filipinos have stopped clamoring for "independencia" and seem anxious to help Uncle Sam all they can. We are giving military drill in the schools this year (with wooden guns). For myself, I purchased a "War Bond," and have applied for exam, in the Officers' Reserve Corps, but it takes so long to get my credentials from the States, that I'm afraid the war will be over before I see any of it.
If subscriptions are slow in coming for the portrait referred to, just drop me a line and I will "come across" again.
Very respectfully,
Teacher Math. and Science.
Batangas High School.
Mr. F. S. Kedzie,

2nd Lieut. O. A. Taylor, V. O. R. C.
A. E. F.,
Via New York.

Fort Barrancas, Pensacola, Fla.,
Sept. 9, 1917.

Dear Captain:

Yours of August 31st duly received.

* * * Here's a little survey of my
work:
The coast artillery branch of the
U. S. A. consists of men trained in
warfare with big guns, 6, 8, 10, 12, 14,
and 16 inches. In addition the versa­
tility of training is augmented with
small "field" pieces "3.2" (obsolete),
3 in. and 4.7 in., also infantry turrets.

I am located upon the mainland
post of Fort Barrancas. Directly
across the bay from me is Fort Pick­
ens where there are 6 in. guns, field
pieces, and 12 in. mortar batteries.
West of here at the entrance of the
bay is Fort McKee, where there is
some more heavy armament. The
garrison consists of 4 companies of
artillery and one company of mine
planters. Each company contains
about 135 men and five officers, cap­
tain, 1st Lieutenant and 3 second lieu­
tenants. All of the second lieutenants
here are from the Reserve Officers'
Training Camps.

At 6:10 a. m. we have reveille and
10 minutes setting up exercises. At

Aviation School, O. S. U.,
Columbus, Ohio, Sept. 2, 1917.
Mr. F. S. Kedzie,
Pres. Michigan Agricultural College,
East Lansing, Mich.

My Dear Mr. Kedzie:
The commandant of our school has
very kindly consented to allow me to

leisure cussing the I. W. W., whose
strike had tied up their operations.
Carey is helping me this season. At
present he is in the midst of examin­
ing a million or two (literally) of
prunes in various stages of decay. He
is making a fortune, but will be
back in Wenatchee later. Smith
left here a couple of weeks ago aboard
the cairrose of a freight train, on
route for Chicago with a trainload of
peers. He is investigating the prob­
lems of transportation and refrigeration
of fresh fruit, and has charge of
this line of work for the government
in the Northwest. Another M. A. C.
man whom I did not know while I
was there, naturally, since he was in
attendance after my time, called here
last week. His name is Clegg, think
he graduated last year. He has been
on a tour of the harvest fields of the
state, "seeing the country." He se­
cured a job in a large orchard near
here and expects to remain during the
apple harvest, and then go on to the
coast to study some of the park sys­
tems there. Think he is a landscape
architect. As for myself, I am still
doing the same thing, investigating
diseases of fruits for the Dept. of Agr.

Field covers Washington and Ore­
gen, with Wenatchee for headquarters.

Very truly yours,

News and Comment

The American Library Association, of which the college library is a member, has taken up actively the work of supplying the army with reading matter and of organizing and supervising army libraries. They ask the assistance of men librarians for cantonments. They are also soliciting the assistance of young women librarians to sort out and arrange reading matter in the district headquarters. The college library is collecting books and magazines for soldiers' libraries and also books of fiction, biography, adventure, history and invention. They also seek magazines that are not older than two years. Any wishing to contribute reading matter may do so through the college library if their local library is not in position to receive books for the army.

For one of its regular weekly noon meetings in July the Lansing Rotary Club was the guest of Prof. Vedder on the campus. Luncheon was served to some fifty members of the club in the dining room of the Women's building. Following short talks by President Kedzie, Secretary Brown and Dean Bissell the club adjourned to the R. E. Olds Hall of Engineering, where under the assistance of Grace Bissell they were shown the buildings and equipment of the engineering department. The club is made up of the leading business and professional men including some of the foremost manufacturers of Lansing and their comments on the arrangement, floor layout plan and equipment of the shops as well as of Olds Hall were exceedingly complimentary.

Dr. Beal sends the following: Charles B. Tubergen, '11, discovered that a "fall-thru" for awhile. Clearing the color of the flesh of the fruit and the color in the inside of the calyx-cup and the color of the flesh of the fruit is one of the distinguishing features of peaches. J. P. Hedrick, '93, in his great work on "The Peaches of New York," says: 'Since the discovery of this correlation in the Station orchards by Mr. Charles B. Tubergen it has been in yearly use and has enabled us to tell a year or two in advance the flesh-color of seedling peaches, since the first peach-blossoms seldom set fruit.'

For a number of years the entomology department has been trying to get together display material for the fairs. During the summer they met with success and have prepared a number of cases containing specimens of crop destroying and other insects for educational purposes. Several cases of

Printers of the M. A. C. Record
Lawrence & Van Buren Printing Company
210-212 North Grand Ave., Lansing

Editor M. A. C. Record:
I received your copy of the Record and was much pleased to hear from my old friend, M. A. C. At present I am busy engaged in learning how to fly an aeroplane without breaking it all to pieces. I finished my ground work up here in Toronto under the R. F. C. and now I am out here at a flying school. We are sent up here from Fort Sheridan July 21 and are now under the care of the Canadian government. We have our own headquarters at Toronto but we are under the Imperial officers entirely for instruction. We expect to go to Texas in a few weeks. In that short time I expect to be able to fly alone. I can hardly expect to get your paper while here, but when I reach Texas I will immediately look for it because I am sure to miss those football games and I want at least an account of them. I am not an alumnus, but possibly a "fall-thru" for awhile. In other words more aeronautical I have "washed-out" of college for awhile, although I want to make another safe boarding at "Uncle Franck's" home before leaving for France.

Well, here's hoping for all kinds of success for old M. A. C. this year as in other years. Success in football, basketball, debating and—war work. I think we have a fair showing at present in the army and I am certainly proud of M. A. C.'s patriotism.

Sincerely yours,
EDWIN R. CLARK,
U. S. Signal Corps,
Camp Mohawk, Deseronto, Ont., Can.
Alumni Notes

Geo. B. Fuller, who has been aeronautical mechanical engineer at the aviation school at San Diego, was transferred in June to the newly established school at Hampton, Va., where he is head of the mechanical engineering department.

Hugh P. Baker, who has been dean of the New York State College of Forestry at Syracuse, has been granted leave of absence for a year and is attending the second officers’ training camp at Fort Meade.

Bertha Hinkson has moved from 331 Cadillac Ave., Detroit, to 31 Seneca Ave.

Born September 15, 1897, to Mr. and Mrs. H. S. Hunt, twin boys. Mrs. Hunt was Cecil Alden, with ’97. Their address is 201 McBride St., Jackson.

J. A. Mitchell, who was recently transferred from the forest experiment station at Quincy, Calif., to Washington, is an inspector in the office of the State Cooperation of the forest service. His territory covers the eastern and middle western states.

D. E. Fraizer, with ’93, is proprietor of the Motor Tire and Supply Co., at 415 S. St., Eureka, Calif.

Mr. and Mrs. George W. Hoover (Beatrice Dodge, with ’12) were college visitors this week en route from their home in Youngstown, Ohio, to Grand Rapids.

Mr. and Mrs. W. G. Nay were Lansing visitors recently. “Bill” is with the sales department of the Cincinnati branch of the Allis Chalmers Co.

Chas. Tubergen is now located at Escanaba, Mich. and from the letterhead it appears that Charlie is in the Office of Markets and Rural Organization, Department of Agriculture.

Chas. A. Hamilton has moved from Saginaw to Bath, Mich.

H. B. Wale, who has been located at Magdalen, New Mexico, as a forest examiner in the forest service, has just been transferred to Tucson, Arizona.

Born to Mr. and Mrs. Herbert L. Brown on September 24, a boy, Richard Louis. Mrs. Brown was Edna Chamberlain, ’11.

W. W. Roth called at the alumni office last Monday. He is now farming at Sawyer.

Floyd J. Gibbs, Jr., arrived October 3 at the home of Mr. and Mrs. Floyd J. Gibbs, Charlotte, Michigan.

A card from Richmond, Va., R. F. D. No. 5, announces the birth of Harriet Elizabeth France, on Sept. 25, 1917, to Mr. and Mrs. J. Glenn France.

Born to Mrs. Edward W. Steck on Sept. 29, a son, Herbert Marion. Ed Steck is working for the Gulf Refining Company, at Port Arthur, Texas. His address is Box 528.

P. B. Patterson is county agent for Delta county.

H. M. Jacklin is in the extension division of the engineering department of the University of Wisconsin. His present address is 112 Wisconsin Ave., Oshkosh.

Lodge R. Smith, who is teaching in the vocational school near Falls Creek, Pa., was employed during the summer in the extension department of Penn. State College, and gave cartoon lectures and demonstrations. She is the sister of Misses Gertrude Potter and Edna McNaughton, ’11, who were regularly employed in extension work there.

A 7-pound daughter, Marion Devoe, arrived September 25th at the home of Mr. and Mrs. E. C. Kiefer (Helen Haight, with ’12). Kiefer is instructor in mathematics, but during the summer has been employed in building a house in Chesterfield Hills.

Floyd A. Nagler after receiving his Ph. D. at the University of Michigan has been in connection with Robert E. Horton, consulting hydraulic engineer, Albany, N. Y. He writes that he is enjoying the work very much and that it consists chiefly in the preparation and giving of testimony in hydraulic claims cases. He has recently published two papers in the proceedings of the American Society of Civil Engineers, one in the May number, the other coming in the November issue.

His address in Albany is 4th Western Ave.

Hazel R. Ramsey has charge of the domestic science and the domestic art in the Eaton Rapids schools this year. Her address is 211 E. Knight St.

Don Toland is superintendent of the Cold俘dia public schools this year.

Ethel Smith is teaching cooking in the high school at Pontiac this year. She writes that her summer was spent at the “End of the Trail” at Houghton Lake, Mich.

Karl H. Miller is teaching agriculture in the Escanaba high school. His address is 502 S. Campbell St.

Eugene E. Ewing is lumberman at Addison, Mich.

Ernest L. Brow has moved from Detroit, Michigan, to Tooele, Utah.

Sada Anderson is teaching domestic science at Clearwater, Florida.

A. Gordon Adams has moved from 251 Virginia Park to 279 Dexter Blvd., Detroit.

A. L. Babbins, instructor in farm crops, entered Camp Custer recently as a cook in the 310th engineers. Anxious for service with a rank something better than a cook and with his draft number considerably down the list “Al” was in a quandary as to just what course to take. Learning of his education and experience his captain took up the matter of his enlistment in the engineers and an attempt is being made by the colonel of the 310th regiment to secure permission for his enlistment. If he succeeds, Babbins will hold the unusual distinction of being the only man enlisted in the national army. It was necessary for his name to be certified by the local draft board before his enlistment could be considered.

Charles Morton (Chuck) is in the chief engineer’s office of the G. R. & I. Ry. of Grand Rapids.

H. A. Jessop who attended the Chicago Y. M. C. A. College last year, is county secretary for the Y. M. C. A. in Sanilac county.

E. Rikersen is now located at Sparta, Wisconsin, with the H. J. Heinz Company of pickles and jams.

4. Frances Klasell gives 97 E. Euclid Ave., Detroit, as her present address.

5. Roy L. Cadmus, Charles Garthe, Herb Abel and "Baldy" Frey are employed as food inspectors for the New York Central Railroad. Cadmus gives as his address Hotel Lysitt, Barker, N. Y.

6. Dorothy Lillie is in New York City where her address is 1250 Amsterdam Ave.

8. Wm. C. Eggert is an electrical engineer with the Denver Gas and Electric Light company this year. His address is 1129 South Pearl St.

9. Chas. H. Rouse is in Lansing working with the Equitable Life Insurance Company and writes that he is insureing everything that looks like a healthy man.

10. "We Are Answerable to the People"

As merchants of a great public necessity, the Hoover-Bond organization represents the people and is "answerable" to them — answerable for the beauty, comfort, durability and money-saving of those who buy furniture that bears the name.

M. A. C. Association

A Service to Alumni and former Students

Dues $2.00 Annually

The money is spent
To maintain an office
To keep records of all living and dead alumni and former students
To publish the Record, a weekly paper that aims to keep M. A. C. folks in touch
To organize, inform and help local M. A. C. associations
To publish Alumni Directories
To inspire and inform graduates and others everywhere

Thus far the College has had to do these things because the Association was unable. Now we are to be self-supporting and the service we render M. A. C. is only limited by the funds you provide.

M. A. C. Association
