JUNIORS WILL PUBLISH WAR WOLVERINE

A reconsideration by the juniors of their previous action to abandon the publication of a Wolverine this year has led to the decision to proceed with an issue which will be a strictly war-time volume. Many of the class were loath to give up the publication and, with offered assistance from the junior class, an appeal was made from every corner of the campus that they would be helped if they needed help, the 1919 class felt sufficiently encouraged to again take hold of the Wolverine project and will see their previous action to abandon the publication of a Wolverine this year.

It is the purpose of the board to produce a Wolverine which will be the peer of any previous annual. The plans of the reorganized board are well underway and promise to contain all of the essential elements of former Wolverines, to introduce some new features which will make it a book of greater utility, as a guide to college activities and personnel, and some talks by M. A. C. talent.

The Signal Corps has asked the college to furnish the names, draft numbers and home addresses of all men taking the course in telegraphy who can send and receive messages at the rate of ten words a minute. It is estimated that there are at least 15 men in the present class who can qualify under the above requirement.

M. A. C. UNION PLANS BANQUET TO HONOR SOLDIERS

The M. A. C. Union is making plans for a big banquet to be held at the college some time in the near future to fittingly honor the M. A. C. men at Camp Custer. It was first intended to hold the affair on January 18 provided permission could be obtained for the men to leave camp on that evening. Leave was obtained through the kindness of General Parker in command at Camp Custer but word of it came so late that it was impossible to complete the arrangements in sufficient time to take advantage of it.

When the fuel situation has cleared itself, a request will again be made for leave for the men to attend and it is hoped that it may be then put through on the scale originally planned. It will be an all school affair with a banquet served no doubt in the diningroom of the Woman's building.

FORESTRY DEPT. SERVES FUEL ADMINISTRATOR

All senior and junior forestry students have been excused from classes for two weeks beginning January 21 in order to carry on a woodlot campaign in Ingham county under the direction of the Forestry department. The present shortage of coal makes necessary the use of wood for fuel to an unusual extent and in all probability this shortage will continue for some time. This renders advisable the adoption of measures to supply wood in larger quantities than is being done at the present time. Green wood is now being used resulting in a large loss of heat value. Green wood must, however, be secured in large quantities at once. If the coal shortage should soon be relieved, wood cutting should be continued this winter so as to allow it to season for next year, when present conditions may again prevail.

The college feels that the farmers will be more than ready to supply fuel for the present emergency if they realize that the fuel situation is up to them. This was the reason why the forestry students have been excused from classes. Each man will be assigned to a part of Ingham county in order to make a canvass of woodlots, estimating the amount of timber to be used, indicating trees that should be cut if the owner desires, and placing the owner in direct touch with users of cordwood. At the same time a canvass will be made of concerns that handle cordwood in the towns and in some cases of individual users so that woodlot owners may be placed directly in touch with markets so that there will be no delay in delivery. An estimate of the standing timber and the amount that may safely be cut will then be available for the present emergency and will be valuable in the case of the same conditions arising next year.

All the senior and junior forestry students have been sworn in as special agents of the Fuel Administration and they are working under the Extension Division of the College.

Professors Chittenden and Sanford are directing the project, Practically the entire time of the department for the next two weeks will be devoted to this work.
THE M. A. C. RECORD

Published every Friday during the College Year by the Michigan Agricultural College Association. Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under the Act of March 3, 1879.

C. W. MCKIBBIN, '11, Managing Editor.

MEMBERSHIP IN THE M. A. C. ASSOCIATION WHICH INCLUDES SUBSCRIPTION TO THE RECORD, $2.00 PER YEAR.

Memberships may be paid for by P. O. Money Order, Draft, or Personal Check.

MAKE THEM PAYABLE TO THE M. A. C. ASSOCIATION.

FRIDAY JANUARY 25, 1918.

A SUGGESTION TO M. A. C. WOMEN.

From far-off Seattle comes a suggestion to the women of M. A. C. which appears to have merit. Everyone knows that M. A. C. girls everywhere are doing their share and more too of war work in their own local communities, yet there is much that could be undertaken through an organization such as Miss Josephine Hart, '12, suggests. Among other things there come to mind systematic letter writing and a distribution of knitted things to insure every M. A. C. man being provided for. It could make itself of direct assistance to our men in service and emphasize the support of the college and the spirit of M. A. C. to the fellows "out there." Surely it would strengthen the big family idea that we are fostering and it would bring our girls into closer touch with each other.

The suggestion: "Has there been any movement among alumnae women toward an organization through which the women graduates could give and show their support to the M. A. C. men in the service of their country? If anything has been done along that line several of us out here would be glad to know about it. Would some such plan be feasible if it has not already been done? I would be glad to hear your opinion."

And we would be glad to have yours. If it appears to you that M. A. C. women might organize themselves to carry on some definite program that would make our men better feel and know the support that the college is giving them in the great task they have undertaken, let the Record hear from you.

THE SHORT COURSE ASSOCIATION.

The value to the college of such an association as the Short Course Association can hardly be estimated nor the field of its usefulness limited. The association is open to all former short course students and when its membership has been built up to include the large numbers supposed about the state M. A. C. will find a strong band of agriculturalists ready to support her agricultural policies and methods and upon whom our agricultural divisions may call for backing and assistance when it is needed. All are practical farmers primarily, many of them leaders, who have the ambition to attend M. A. C. and acquire the training their few spare days or weeks can afford to spend away from the farm. During the time spent here, M. A. C. gains their confidence and they become firmly tied to us. Properly organized they should become agricultural captains in their communities, loyal college agents on whom M. A. C. may depend for leadership in the projects in their home sections.

From loyalty already demonstrated we know they will make a strong band of M. A. C. supporters. We hope that they may closely ally themselves with our own M. A. C. Association.

TWENTY ENGINEERS ENTER TECHNICAL STUDENTS R. C.

Men of Draft Age Permitted to Complete Studies.

The recommendation, examination and acceptance of twenty M. A. C. engineers for entrance into the Enlisted Reserve Corps was completed Monday, when the men recommended by Dean Biswell successfully passed the physical examination made by Lieut. Ogden, Medical Officers Reserve Corps of Chicago, and were enlisted by him. Those accepted for enlistment are: Seniors, T. C. Dee, W. O. Dow, H. L. Fralick, T. H. Gates, M. A. Harkaday, W. E. Hartman, T. C. Johnson, L. S. Plee, A. H. Walker; Juniors, P. A. Howell, N. J. Plett, R. Shenefield, A. W. Atkin; sophomores, L. L. Bateman, E. C. Hock, A. T. Hensans, R. B. Kling, S. R. Waring; freshmen, F. W. S. Pietzustosher.

The selective service regulations have made it possible for certain technical students of draft age to continue their studies in certain schools and colleges and enter the enlisted reserve corps pending the completion of their studies.

M. A. C. veterinary students were the first to benefit by a similar arrangement, which has only recently been extended to include certain branches of engineering.

Of the engineers now in college sixty men were of draft age and of this number twenty-five applied for enlistment, five being denied because of failure to meet the scholastic standing required by the regulations.

The following instructions under the Act approved February 27, 1911, relating to appointments from civil life to the grade of second lieutenant in the corps of engineers.

He must be a citizen of the United States.

He must be a student in one of the schools, the names of which are borne upon the list of technical schools approved by the Secretary of War for the purpose of carrying out Section 5 of the River and Harbor Act approved February 27, 1911, relating to appointments from civil life for the purpose of carrying out Section 5 of the River and Harbor Act approved February 27, 1911, relating to appointments from civil life to the grade of second lieutenant in the corps of engineers.

He must be regularly enrolled and must be pursuing a course required for the degree of Chemical Engineer, Civil Engineer, Electrical Engineer, Mechanical Engineer, Mining Engineer, or some other equivalent engineering or technical degree.

He must have made since his entry upon this course at the school a record of standing which will indicate clearly that he may be regarded fairly as deserving a place among the first third, based primarily on the scholastic records, of the young men who have graduated from that institution during the past ten years.

Each candidate for enlistment must submit an application made out in his own hand and in the following form. (form omitted).

Each application must be accompanied by a certificate from the president or dean, carrying the seal of the institution and made under oath by the civil officer authorized to administer oaths.

In order to receive prompt consideration, applications from candidates should be promptly submitted and no application will be considered unless it is filled out in the form prescribed by the regulations.
now at college, and who are over 21 years of age, should be submitted so as to reach the office of the Chief of Engineers in Washington not later than January 15th. The applications from a person who has not reached this age at the present time, must be submitted within three months before or one month after, he reaches the age of 21.

As rapidly as possible after the receipt of the application in the office of the Chief of Engineers, they will be carefully examined, and the candidates whose applications are approved will promptly be sent cards of authorization, authorizing them to be enlisted in the Engineer Enlisted Reserve Corps by an officer authorized to make enlistments in the army, provided, of course, that they pass the necessary physical examination which will be made under the direction of the enlisting officer immediately prior to enlistment.

When thus enlisted the student's name will be placed on the "inactive list" of the Engineer Enlisted Reserve Corps, and he will be allowed to remain on this inactive list in order to enable him to complete his course at the institution.

Immediately after the completion of this course, or upon his discontinuance of the course for other reasons, the student will be given the option of being called into active service under his enlistment and being assigned to some one of the engineering branches of the army, or of being immediately discharged and taking his place again among those subject to service under the draft.

MUSIC STUDENTS RECITAL JANUARY 30.

Faculty and friends are being invited to attend a recital to be given by the students of music assisted by Mary Louise Creyts, contralto, and Leah Siebly, accompanist, in the parlor of the Women's Building, Wednesday evening, January 30, at 7:30.

PROGRAM.

Gavotte - Eva Schurr
Legend of the Plains - Bertine Cole
Beethoven
Valse Impromptu - Von Willert
Kate Schaeffer
Irish Love Song - Margaret Long
Comes to the Garden, Love - Miss Creyts
Vesper Songs - Evat Schurr
Sona, Op. 14, No. 1, Allegro - Beethoven
Glady's Gordon
Sona, Op. 16, No. 1, Adagio - Beethoven
Gertrude Babcock
Chaminade
Love's Greeting - Edgar
Margaret Kuhn
Nocturne - Miss Creyts
Alice Rhodes
Quartette, Valse Brilliante, Howzitocki
N. J. Pitt, H. M. Siss
Piano 1 - Margaret Kuhn, Bertine Cole
Piano 2 -

SHORT COURSE ASSOCIATION RECITAL.

Something new in the history of the Short course work and a step destined to bring the college closer to the farmers throughout the state and the discouragement felt by many. He made a patriotic appeal to the farmers to stand their losses courageously and stated that the college was depending upon them to go back to their communities as leaders and to permit the spirit of those about them to be broken by recent failures. He asked that they not look at the labor question for the coming season as the labor problem for the coming year. State Leader of the Boys' Working Reserve, who was expected to address the meeting and explain the government's plan of assisting the farmer through the boys' reserve, was unable to attend due to a meeting in their county.

Dean Shaw spoke of the losses of many of the farmers throughout the state and the discouragement felt by many. He made a patriotic appeal to the farmers to stand their losses courageously and stated that the college was depending upon them to go back to their communities as leaders and to permit the spirit of those about them to be broken by recent failures. He asked that they not look at the labor question for the coming season as the labor problem for the coming year. State Leader of the Boys' Working Reserve, who was expected to address the meeting and explain the government's plan of assisting the farmer through the boys' reserve, was unable to attend due to a meeting in their county.

Dean Shaw spoke of the losses of many of the farmers throughout the state and the discouragement felt by many. He made a patriotic appeal to the farmers to stand their losses courageously and stated that the college was depending upon them to go back to their communities as leaders and to permit the spirit of those about them to be broken by recent failures. He asked that they not look at the labor question for the coming season as the labor problem for the coming year.

M. A. C. FIVE WINS FROM CUSTER OFFICERS, 24-20.

In what is said to be the best game of basketball played in the armory since the game with Wabash a year ago, M. A. C. broke the spell that has been hovering over the basketball team since the beginning of the season and defeated the Officers' team from Camp Custer by a score of 24 to 20.

The game was very hotly contested throughout and not until well along in the second half was there any sign of a decision. The Custer men were a strong aggregation but were unable to break up Gauthier's five-man defense to which we owe much of our success. The passing and tossing of Higbie, Murray and Brigham featured

THE M. A. C. RECORD.

THE RECORD OFFICE.

An old, old picture, but it tells the story, except for the street car which this year stranded at the other end.
auto mechanics, electricians, photographers and tool makers, and under qualification (b) we can meet the requirements of the government in the extended list given under (b) but to a larger number by use of our facilities in the evenings as well as in the day time.

No estimate of the cost of meeting the demands which may be made upon us by the government in this regard has been made, and it is assumed that extraordinary expenses which might be incurred will be met by the government in one form or another.

Dean Bissell has also very recently received a letter from the director of the Federal Board of Vocational Education, in which he says: "Plans are now on foot to deal with the conceded men in large numbers in institutions. As soon as anything definite comes of it you will hear from us."

From this one need not stretch one's imagination to foresee war emergency short courses in engineering lines at M. A. C. as well as in agriculture.

THE COLLEGE

The college is a pilot solely taught.
Knowing life's stream with hiddenills is fraught,
Bringing all their wrecking powers to naught.

The college is a leader learned, brave,
Bringing all their wrecking powers to naught.

The following "camus definitions" have just been received from Dr. Beal. In the accompanying note he says "at one time I intended to publish the enclosed in the history of the college but later thought not. I send it thinking you might like to look it over." The "dictionary" is apparently an edition of about 1910, but we are not able to say how much of it is the work of Dr. Beal.

A to L.
Ag, City bean looking for a cool snug
in the country.

Ag. course, A convenient escape for an engineer threatened with failure.

Alumni, One who regales you with the daring deeds of his youth.

Armory, A place where one spends the pleasantest and unhappiest hours of his course.

Band, A bunch of musicians who make up in energy what they lack in harmony.

Banquet, Small dab of grub at four prices.

Boarding Club, A dyspepsia factory.

Botanic Garden, A matrimonial playground; a pair orchard.

Campus, Cupid's drill ground.

Chapel, Daily "fussing" class. Now obsolete.

Chilblain, A rube who gets a college education in six weeks.

Co-ed, A veteran of many campaigns.

College Spirit, Yelling like a fool at nothing.

Con, Temporary injunction on advancement.

Coop, Woman's Building.

"D.S.," Source of income of our sub-faculty.

Debt, Result of a Junior Hop.

Engineer, Farmer boy trying to escape the daily chores.

Exam, An ordeal occurring semi-occasionally; a guessing contest.

Excitement, Condition prevailing at M. A. C. when a car arrives on time (obsolete in 1910).

Feed, Anything stolen from the college or friends.

Fling, Amunition passport from the gates of learning.

Football, Only way of showing college spirit.

Fussing, A germ of a breach of promise suit.

Girl, One of the principal parts of the verb "fussing."

Grind, A student who must work or be kicked out.

Grub, Organic matter served at boarding clubs at $1.75 to $2.25 per week; the catalogue says so.

Hash, Review of Reviews.

Hazing, Preliminary preparation for the gates of knowledge.

Imbecile, A person who dislikes football.

Inspector, He who answers for the sins of many.

Institute. The gathering of the Rubus Rusticans.

Junior Hop, A mixture of dancings, waltzes, and songs.

Kingology, Making a "heller" for an advance.

THE M. A. C. RECORD.

THE M. A. C.'s side of the game while Wyman and Thompson were easily the individual stars for the silver bar wearers. Brigham scored nine points and averaged 50 per cent on attempted free tosses. Murray was a close second.

SUMMARY:
M. A. C. Custer.
Murray R.F. Thompson.
Brigham L.F. Keller.
Higbie C. Wyman.
Garret C. Langhoff.
Kurtz R.G. Langhoff.
Referee Davis, Ill. Score at end of first half—M. A. C. 8; Custer, 5. Final—M. A. C. 24; Custer, 20. Time of halves—20 minutes. Field baskets M. A. C. Brigham, 4; Murray, 3; Kurtz, 2; Garret 1; Custer, Thompson 2; Keller, 2; Kurtz, 3; Tippet, 1. Free throws on fouls—M. A. C. Murray, 2; Brigham, 1; Custer, Wyman 2; Thomson, 3; Fouls—M. A. C., Higbie, 2; Kurtz 1; Murray, 3; Custer, Thompson, 4; Wyman, 2; Keller, 2; Langhoff 1. Substitutions—Kurtz for Wyman.

A CORRECTION.
In the Record of January 11 in the story of the signing of the M. A. C. Football team contract Notre Dame was mentioned as a member of the western conference. This was an error. Northwestern being the institution intended.

ENGINEERING DEPT. LISTS FACILITIES WITH BUREAU OF EDUCATION.

What appears to be an indication that the government may be contemplating a more intensive use of the facilities that M. A. C. has to offer in the training of men and women in technical and commercial occupations has come to Dean Bissell in the form of a questionnaire from the Bureau of Education of the Department of Interior.

Three conditions are covered by the questionnaire: (a) Facilities available without interference with the regular work of the college. (b) Facilities which could be made available in the respective lines by releasing qualified instructors from regular work up to the limit of their availability with the material and equipment at hand. (c) Facilities available by the substitution of material and equipment with the employment of additional instructors to this end.

The questionnaire as filled out in detail for the engineering department shows that M. A. C. may offer briefly the following facilities:

Under the qualification (a) intensive training or commercial instructional to blacksmiths, carpenters, draftsmen, mechanics, moulders, stationary engineers, telegraph and wireless operators, surveyors, topographers, and cement testers. Under qualification (b) we can add to the list just given.

MILLS-SKIDMORE.
The marriage of Harold N. Mills, '18, and Miss Emma Beatrice Skidmore of Lansing took place at the bride's home January 19. Mills is a corporal in Co. F, 310 Engineers, Camp Custer.

CORRESPONDENCE.
Los Angeles, Calif., Dec. 19, 1917.
Dear Sir,

I often wonder why I rarely see any news in the Record from the boys of the older classes. The later classes are usually well represented. I do not feel that the class of '81 is so
ancient that nobody cares to hear anything about it.

It is said that "the busy man can always find time to do more." Evidently the majority of the class of '81 are either on the sick list or they have so much leisure that they do not care about what is going on.

It may be because I am so far away from the old institution that I am able to get a line on what some of our fellows are doing. I am sure all of his classmates will learn with a great deal of regret that the life of our classmate, C. A. Dockstader, living at North Syracuse, N. Y., is saddened through the death of his wife, in November. Doc, himself, has been in poor health for some years.

Just had a letter from Byron S. Palmer, Palmyra, N. Y., telling me that he is slowly improving, but is still confined to the house in charge of a special nurse. A notice of his illness appeared in the Record some months ago.

I am sure both Doc and Palmer would appreciate a line from their classmates.

Dear Mac:

Enclosed find check.

Am exceedingly busy selling Hudson motor cars. Have had a wonderful summer season and now that tourists are returning, am looking forward to an even more successful winter season. Have been at the work of selling cars since Friday, the 13th of August, 1915. Had engaged in engineering and sales department work for the Oliver Chilled Plow Works of South Bend, Ind., and Hamilton, Ont., up to that time. Spent the month of July, '15, in the sales training camp of the Willys-Overland Co. of Toledo, and they sent me to Los Angeles, where I made my start on the date above named. Had the disappointment of my young life (No, I'm still single) in September. Was turned down for the Officers' Training Camp at Frisco on account of my eyes. Even went back to take a second exam but to no avail. Had never dreamed but what I could make the grade. Huskier than a bear otherwise. Can lift a front wheel of our super-six limousine off the show room floor.

Geo. G. Cover, with '13,
Pasadena, Calif.

Since writing the above Cover has enlisted in the aviation section S. O. R. C. and is expecting a call momentarily to the non-flying officers' school at S. San Antonio, Tex.

Dear Editor:

Three weeks ago today I spent the day with Pip Snyder at Fort Sheridan, Ill. He is attending 2nd P. T. R. Then I left for Omaha, Neb., where I spent a week, then on to Lincoln, Neb., for a few days, and a week ago today I came to Denver. That very same evening I bumped into Kipe Hood, '17, and Dendell, '14.

I am now touring this western country taking in the auto shows with a cut chassis job of the 1918 Model Maxwell. I will leave Denver Sunday for Geylee, Colorado, and then to Cheyenne, Wyo. for a few days. From there I will come back south to Colorado Springs. My headquarters at present will be care 600 First Nat'l Bank Bldg., Omaha, Neb. By the way Cas. E. Herrington, '18, opened the automobile show here in Denver last Monday evening.

Please send Records to Omaha and they will be forwarded to me.

CLIFF W. REYNOLDS, with '14.

P. S.—Mr. Hood wishes to state that he is not out here for his health but is connected with U. S. Bureau of Markets. Forgot to state that I tried hard to get into 2nd P. T. R. but was rejected; also enlisted in regular army, then the navy, and last but not least the draft took me in hand but as the examiner for draft board wouldn't even consider me fit on account of my near-sightedness, I am not wanted by Uncle Sam.—C. W. R.
learning all about infantry drill regulations and maintain the usual army orders and hours. The camp life, with its hardships is O. K. with me, as I am trained already in that line. This camp is new with 30,000 men in it. Things are not in ship shape yet, so will have to overlook that. No kick from me. Sincerely,

L. G. (Johnnie) Johnson,
With '11.
San Diego, Cal., Dec. 18, 1917.

Dear Sir:

I have been rather slack about writing a few words to the Record now and then it was because I have been jumping around so much. At last I'm settled if a berth in the regular army can be considered such. At any rate I'm with the 21st Infantry, stationed on the Exposition grounds at San Diego and expect to stay here for some time now.

There are two battalions here and the other is doing guard duty on the border. I can appreciate a good winter climate. It's just like twenty-two years, I can appreciate a ter, for after living in Michigan for some time now.

The aviation school is on an island near here and it is not an uncommon sight to see 10 to 15 machines in the air at once.

It might also be of interest to some of the late graduates that I was married Dec. 9 to Miss Eliza Brown, Gates of Port Gamble. She was a school teacher and I met her last year while working for the Puget Mill Co. A. C. men I am LIEUT. ERNEST E. ALDKH, Co. K, 21st Inf.

COLUMBUS BARRACKS REUNION.

The following letter received early in December indicates the tendency of M. A. C. men in service to "reunite" whenever they get together in any number above one. Columbus Barracks being only a receiving station practically all of the men named in the letter were moved to more permanent assignments within a fortnight.

12th Recruit Company, Columbus Barracks, Ohio.

Dear McKibbin:

Just a line to let you know about a part of M. A. C. They come and go almost every day. Charlie Cieno, who is in the Aviation, West Mallock and also A. E. Kinney, 23d Engineers, came through here last week. Crocker arrived yesterday and also enlisted in the 23rd Engineers. M. P. Read, who rang the college bell last year, is working as a clerk here in the laundry at the Barracks.

Last night ten of us fellows got together and had a reunion, displaying the old M. A. C. parade more. Hopperstad had his mandolin and this with Trowell and Lord on the corns completed our Jass Band. The men present at this reunion were: Ted Fred, Coast Artillery, '26; F. G. Mallard, Aviation: A. M. Hopperstad, 23d Eng., '18: Frank Fitpatrick, Aviation, '18: Helmer Erickson, Coast Art., '21; H. F. Thayer, Aviation, '15; R. Grund, Aviation, '19; Ed Lord, Coast Art., '20; Stanley Wellman, Aviation, '18; R. E. Post, Aviation, '19. M. W. Read, Commissary Div., '19, and W. J. Ketchum, 20, 23d Engs., were here but were not with us at the reunion.

Bob Huxtable's brother, Frank Huxtable, who came down with the M. A. C. bunch, left with Brandt yesterday for Kelley Field, Texas. Fitpatrick and myself are detailed to leave for the same place tomorrow. As soon as I get down there and assigned to my new company and work I will write you.

Saw Irving Lankey, '16, today. He is in the ground school of the Ohio State. He says he is studying for the first time in his life and that the 2-hour examination required for entrance was the easiest thing of the whole works.

Oh, yes, McClung was through here and enlisted in the Field Art. I am not sure about some of the initials of the men mentioned in the letter, so it might be well to confirm them if you are going to use them in any way. With best regards to M. A. C. pep once more. Hope you will have to overlook that. No kick from me.

R. E. Post.

(I wrote this by the light of the coal stove, the lights being put out at 9 o'clock.)

"PRICE"

Nothing is more uncertain these days than "price." The price of any article today, is liable to change within an incredibly short time. This is true in practically all lines of merchandise.

Only one thing regarding "price" is reasonably certain, and that is, that whenever any change comes it is sure to be "upward."

Fortunately for this store and its patrons, we protected ourselves against unusual price conditions by placing early and extensive orders with the result that now, much of our merchandise is being sold to you at prices lower than today's market value.

THE STORE THAT SELLS GUARANTEED MERCHANDISE

\"We Are Answerable to the People\"

AS MERCHANTS of a great public necessity, the Hoover-Bond organization represents the people and is "answerable" to them — answerable for the beauty, comfort, durability and money-saving of those who buy furniture that bears the name.
