EAST LANSING'S LEADING GROCER.
LIEUT. COMMANDER C. B. LUNDY '01 SUPERINTENDENT HARVARD U. NAVAL SCHOOL.

Lieutenant Commander C. B. Lundy with '01, N. N. V., formerly with the U. S. S. Pennsylvania, has just been transferred from sea duty to become superintendent of the Harvard Naval Officers Training School, at Cambridge, Mass. It is understood that it is the first time that an American naval officer has held the position of superintendent of the Harvard school. Certainly it is an unusual honor for an M. A. C. man. We let Lieutenant Lundy tell the story.

"A month ago I was transferred from sea duty to this station to take charge of the training of officers for the navy. This school was established just after the declaration of war, and has turned out 181 officers, which combined with the special officers that Annapolis has been graduating, has helped to make up the deficiency of officers in the fleet. I will graduate 150 here next month and am at present making arrangements with Harvard University so that I can graduate at least 290 officers every two months. Practically all the men of the school are college men and the present average age is twenty-three years. They are chosen for this school by a Selection Board and are a very exceptional group of men."

SCOTT LILLY, '07, PARTNER IN NEW ENGINEERING FIRM.

The announcement has just been received of the formation of a partnership of Scott B. Lilly, formerly assistant plant engineer of the Merchant Shipbuilding Co. of Chester, Pa., with Carrol Beale, formerly chief designer for both of these companies. The new firm is organized for the purpose of conducting a general engineering business, specializing in the design and construction of shipyard plants, ship terminals, industrial and housing developments. The firm is to be known as Beale & Lilly, Engineers. They will be located at 1011 Chestnut St., Philadelphia.

DEAN GEORGE L. WHITE GOES TO CORNELL.

Miss Georgina L. White, dean of the division of Home Economics, has resigned her position at M. A. C. to become advisor of women at Cornell University, a position corresponding to that of dean of women. Miss White will leave the college in September to take up her new work at Cornell.

Dean White came to M. A. C. as dean of home economics in 1914 and during the time of her administration has brought about many changes and a vast improvement in the methods of the home economics division. She has made a great many friends while at M. A. C., being especially well liked and very popular among the girl students.

The call to Cornell besides offering larger fields and responsibilities contained a particular appeal to Miss White in that it came from her Alma Mater. She received both her under-graduate degree and her doctor's degree from that institution, out Michigan, her sphere of influence here being state wide. Much of her time during the past year has been spent in war emergency work for Michigan. She is one of the three women of the Michigan Women's War Board appointed by the governor, is one of the vice presidents of the Women's Committee of the Council of National Defense for Michigan, chairman of the food administration section of that body and Home Economics Director for Michigan under the Federal Food Administration. Her successor at M. A. C. has not been selected.

TWO LITERARY SOCIETIES UNITE.

A combination of the Ionian and Eunomian literary societies, in which the Ionians merged their organization into the Eunomian society, took place with a formal initiation of the former Sunday, May 19. The society rooms formerly held by the Ionians in Wells Hall have been given up and the society has moved into the Eunomian house. So far as known, this is the first time that two distinct societies have combined under one name. The object is to strengthen the ranks so as to be able to tide over anticipated "lean years" in college attendance. The decreasing numbers of men and students present a difficult situation for literary societies with society houses.

The seventeen active members of the Ionians were initiated into the Eunomian society, and it is announced that alumni of the former Ionians who wish to, will become members of the Eunomians with the active members.

SUMMER SCHOOL PROGRAM COMPLETE.

A complete announcement of the Summer School has just been issued which gives in detail the program for the college summer session. The outstanding feature of the Summer School announcement is the number of special war courses and activities in connection with the preparation of teachers for emergency work. Registration for the summer courses is on June 24, class work beginning in the morning of June 25. The session ends August 2.

Prof. Ryder, director of the summer session, says that the inquiries that have come in thus far regarding M. A. C.'s Summer School indicate that the attendance will be the largest that we have ever had.

FARM SITUATION ANALYZED BY LOUIS A. BREGGER, '88.

The Bangor Advance has recently printed a serial story of the war, a considerable section of which is from the pen of Louis A. Bregger, '88.

The part written by Mr. Bregger tells in a very graphic way of the farmers' problems during the war and his relation to the war's successful prosecution. As a climax in the novel he chronicles the activities of America in legislation and popular thought and the methods used in solving the nation's difficulties which finally carry us beyond the crisis and bring the war to a successful close. His treatment of the farm situation in 1918 is very instructive. Portions of the story were read before the Bangor and Arlington farmers' clubs. The Record regrets lack of space to print parts of Mr. Bregger's work.
THE M. A. C. RECORD

Published every Friday during the College Year by the Michigan Agricultural College Association.

Entered as second-class matter October 30, 1916, at the post office at East Lansing, Michigan, under Act of March 3, 1879.

C. W. Mckibbin, ’11, Managing Editor.

MEMBERSHIP IN THE M. A. C. ASSOCIATION WHICH INCLUDES SUBSCRIPTION TO THE RECORD, $1.00 PER YEAR.

Memberships may be paid for by P. O. Money Order, Draft, or Personal Check.

MAKE THEM PAYABLE TO THE M. A. C. ASSOCIATION.

FRIDAY JUNE 1, 1918.

THE COMMENCEMENT ADDRESS.

It is rare that M. A. C. has the opportunity to hear such a scholarly discourse. The unerring logic of the philosophy of life as the commencement audience was favored with by Dr. Bailey, ’82. After it Judge Collingwood, ’85, was heard to remark “Of the one hundred of us who are laborers, five get to be artisans but only one attains the status of the artist. Dr. Bailey is clearly M. A. C.’s artist.” The comment was so apt that the Judge was immediately qualified as one of the artisans.

Rarely has any graduating class been given such a parting message. The charge direct from the heart of M. A. C.’s foremost agriculturalist and philosopher, given without notes and extemporaneously was a veritable gem. The charge that we should be thinned.

We know that time and distance from the campus will never dim Dr. Bailey’s affection for M. A. C.—a love born of creation and deepened in long association, and we hope that for many commencement seasons in the future we may welcome M. A. C.’s Grand Old Man.

TRAINING SOLDIERS.

As we receive the National Army men into our midst and round the turn from a school of reserve officers training to a soldiers proving ground, we find that the Wisconsin soldiers have brought us something. Their day is measured by bugle calls, a mark of soldiering more intense than M. A. C. has ever had. It is difficult to become accustomed to their violation of the old tradition of no smoking on the campus. Yet this is one of the soldier’s joys, his privilege and one that we would not deprive him of—yes, one that we would not want one of our own soldier sons deprived of in a similar circumstance.

But of other things, the Wisconsin soldier is emphasizing up the minds of M. A. C. people, our former rather lathy realization, that M. A. C. is training soldiers has always been training soldiers—that she is not so very far back of the front line trenches and that she has a direct and a very important connection with them.

ADVERTISING.

The resolution with respect to the college’s advertising her facilities, passed by the M. A. C. Association at the annual meeting was timely and of merit. Any institution with something to sell that the people want and need, spends money to advertise because as a business proposition it pays. M. A. C. has something that Michigan people want and need. The college is furnishing a commodity that the country needs. If we are going to sell it we must advertise it.

The passing of the resolution urging the college to advertise increases our obligation as alumni to advertise M. A. C. in personal contact with prospective students and assist in keeping the college filled.

Send a freshman next fall.

THE UNION PICNIC.

Again the college family had an opportunity to get together in a social way at the Union picnic on the college grounds the Friday evening before Commencement week. The Union arranged the picnic as a farewell to the seniors, and as an honor to the Wisconsin soldiers. It was an attempt at a college picnic which was sufficiently successful to warrant its being repeated.

FURNISHING COLLEGE HALL.

Alumni returning for commencement were gratified to see the progress being made on the restoration of College Hall and much interest was manifested in the plans for its rebuilding as a home for the Union. An early issue of the Record will give the detailed floor plans for the building and a complete description of the proposed alterations.

Everyone viewing the status of the work agreed that the campaign for the raising of funds to properly furnish the building should be started at once, and one of the most important actions of the meeting of the association was the launching of the furnishing fund campaign through clearing the way for action for the present College Hall committee.

Professor Anderson, ’06, has been appointed by Chairman Haigh as head of the sub-committee on the canvass for subscriptions and W. O. Hedrick, ’31, has been made treasurer of the funds. The campaign plans are now being laid out.

It is expected that the building may be completed by the first of the year and it is hoped that the amount to amply furnish the old hall from basement to rafters will be available by the first of October.

It would be deplorable indeed to have old College Hall stand before its restored and lack for an instant the furnishing it deserves and that we owe it.

M. A. C.’s GRAND OLD MAN.

Dr. Beal’s annual pilgrimage to the campus of his framing, on commencement affords every M. A. C. resident the keenest pleasure and from the doctor’s interest in us we know the enjoyment is mutual. This year he made the trip alone from Amherst, Mass. In his eighty-fifth year, as alert and keen and spry as at sixty, he brought the college some new ideas.

As usual he gave the campus a thorough going over and gave many helpful hints to its caretakers. His chief criticism and one that would scarcely gain credence should it come from any other than Dr. Beal was that in many parts of the campus the trees were becoming too thick and should be thinned.

We know that time and distance from the campus will never dim Dr. Beal’s affection for M. A. C.—a love born of creation and deepened in long association, and we hope that for many commencement seasons in the future we may welcome M. A. C.’s Grand Old Man.

ADVERTISING.

The annual report of the State Board of Agriculture for the year 1917 has recently come from the press and is now being distributed. Besides reports from each college department and bulletins of the college experiment station the report contains a very interesting article entitled “The Climate of Michigan and its Relation to Agriculture,” by Dewey A. Seeley, ’98, who is in charge of the East Lansing weather bureau. The work is Seeley’s thesis for the degree of Master of Science which received from him last commencement time. The thesis is divided into three parts, the first of which treats of climate in general and the factors controlling climate; the second, the climate of Michigan with summaries of meteorological records, and part three, the relation of the climate to agriculture in the state. This chapter is treated from...
the angle of the crop requirements and how they are met by temperature, precipitation, cloudiness, wind and humidity. The report also contains the annual report of the state society of agriculture.

M. A. C. SENIORS IN HORTICULTURE HONOR DR. BAILEY.

The Senior students in Horticulture or at least that portion of the class that was able to be present at the graduating exercises to hear Dean Bailey's address, gathered at the Grill Room of the Downey House for a banquet to honor the greatest horticulturist of the present day and a former professor of horticulture at M. A. C. The presence of Hon. Charles W. Garfield and Mr. James Satterlee, also alumni and former teachers of horticulture at M. A. C., combined to make the affair an unusual privilege for the graduates in horticulture. During the banquet, which was informal in every way, Dr. Bailey and Mr. Garfield talked at length of the early days at M. A. C. and of their experiences along horticultural lines. It was a unique coincidence that Mr. Garfield, who graced one end of the table with Dr. Bailey at the opposite end, should have been the one who was responsible for inducing Dr. Bailey to enter M. A. C. as a student. Mr. Garfield read a poem which was delivered by Dr. Bailey before the State Pomological society in 1873 when he was a lad of fifteen years.

Dr. Bailey, in a very informal and pleasing manner, told of his travels through China and of the work that he is doing at the present time; also of that which he hopes to accomplish in the near future. The banquet was terminated with short inspiring addresses by Dr. Bailey and Mr. Garfield. The members of the Senior class feel that this unexpected privilege of meeting and hearing such illustrious and successful men in horticulture was a treat that they will carry with them as a happy remembrance of the termination of their college work.

MICHIGAN WINNER SECOND TIME.

In the last out of town game of the season M. A. C. lost to Michigan by a score of 5 to 2. DeMond allowed but five hits in the entire game and M. A. C. was able to knock out more hits than the Wolverines, but lost through costly errors. The score by innings:

The baseball season as a whole has been a very successful one, considering the problems that confronted Director Brewer at its beginning. We have won seven games and lost five.

In connection, the little object lesson in optimism and persistence from the director, is worthy of mention.

M. A. C. WINNER IN INTER-COLLEGIATE TRACK MEET.

The Michigan Intercollegiate track meet which was held on college field May 18 was easily won by M. A. C. track men. Only six colleges were entered. The scores were: M. A. C. 48 1/2; Western Normal, 38 1/2; M. A. C. All Fresh, 30 1/3; Kalamazoo College, 14 1/2; Michigan State Normal, 14; Detroit Junior College, 12; Hillsdale College, 7 1/2.

DR. LIBERTY HYDE BAILEY, '82.

DR. BAILEY'S MESSAGE TO THE GRADUATING CLASS.

The following is that part of Dr. Bailey’s commencement address which was given directly to the graduating class. Inasmuch as they came right from the heart, extemporaneously, without notes, the remarks reported below may not be word for word as Dr. Bailey gave them but approximate the spoken sentences as closely as he was able to reconstruct them afterward.

My Young Friends of the Graduating Class:

Thirty-six years ago, I stood in this college as you stand today—I stood at the threshold of life. Therefore may I speak to you as an older brother.

My Young Friends of the Graduating Class:

Thirty-six years ago, I stood in this college as you stand today—I stood at the threshold of life. Therefore may I speak to you as an older brother.

From green fields and deep woods and blossoming orchards I had come into this college, a college then just turning into its manhood—into its twenty-first year. Yet very old it seemed to me, and very perfect were its ideas. All my life have I taken these ideas with me, not as one wears one's clothing but as one is unconscious of one's blood and bone. Blessed were those years.

To this college I came full of the feeling of the mystery, and divinity of life. The world was wonderful. My four years under able and devoted teachers deepened and broadened this feeling. These teachers gave the meaning. Every lesson in a book, every statement by a teacher, every animal and plant, every reaction in a laboratory, was not only a fact—it was a magic.

Now the years have come and gone. The mysteries are mysteries still and magic is abroad on the earth. No mystery have I solved, no magic have I analyzed; but they have assembled themselves into my life as a vast com-
ALUMNI LUNCHEON LARGE-LY ATTENDED

College Hall Furnishing Campaign Launched at Annual Meeting of the M. A. C. Association.

The annual commencement alumni luncheon and meeting of the M. A. C. Association was held Thursday noon in the lunch room of the Woman’s building. Three hundred ten alumni, faculty and friends of M. A. C. sat down to the splendid luncheon prepared by Club C and served by junior college girls. Nearly twenty-five more attended than preparations had been made for, so that an overflow crowd participated in a buffet style luncheon in the parlors of the Woman’s build-

ing and were served by ladies of home economics and home economics extension departments.

President Kedzie called on Rev. McCune, ’01, for the invocation. Music was furnished during the luncheon by an orchestra led by Mr. Abel, and Mary Allen, ’99, sang several solos between courses. The meal was an entire wheatless one and the printed menus included receipts for the wheatless bread and angel food cake prepared by the home economics department. There was also at each place a menu card showing alumni and friends of M. A. C. that the College is in the war. It contained brief statements of the war work which each college department is accomplishing.

Following the dinner Henry Haigh, ’74, took charge of affairs in the absence of President Prudden, ’78, whose duties as coal administrator had called him elsewhere. Chairman Haigh opened the meeting with his ready wit. The meeting of the M. A. C. Association was called to order. President Kedzie gave the alumna welcome and greetings from the college and commented upon the large number who had returned for commencement. He stated that it had made its impression upon the student body. He remarked of the work that the college was doing and said that in such times as these there must be a curricula of an institution such as M. A. C., and that it is the will of the college administration that M. A. C. curriculum shall fit the times. That the changes which are being made and which are made in the future are those that in their opinion will be for the best.

Dr. Bailey, ’82, as the guest of honor at the meeting, expressed his pleasure at returning to his alma mater. The college, he said, was the largest grant institution in the United States and yet is always new, since through the foresight of its directors it is always being made over to fit new and changing conditions. He said that the old was out and the new was in. He said that much progress had been made and that he had always had the feeling of a missionary.

Dr. Beal, whose annual commencement sojourn to M. A. C. is looked forward to each year by his many college friends and admirers, was also an honored guest of the occasion.

When Dr. Beal was called upon he arose and after prolonged applause remarked: “I stand before you the fiery and eloquent Dr. Beal.” He told of the early days at M. A. C. and how he had first come to teaching botany in 1870 he had held, as he expressed it, “not only the chair of that science but a whole settee.” Dr. Beal prepared a history of his class at the University of Michigan and brought up the desirability of having some member of each of the older classes that have graduated from M. A. C. prepare a history of their members that will be added to the books made available for distribution. In closing Dr. Beal brought out the fact that many M. A. C. alumni and even those directly connected with the institution do not appreciate the war work that alumni clubs are doing and the efforts that all are making to serve the nation in a greater capacity. After commenting upon the wonderful growth of the college he closed with the remark “From opposition the college has grown to its present great size.”

Prof. W. O. Hedrick, ’91, then brought before the Association the principal business of the meeting and told of the M. A. C. Union and the restoration of College Hall. Dr. Bailey, ’82, announced that the alumni organization had made that after the building was completed the alumni would stand responsible for its proper furnishing. He closed his remarks with the motion that the present alumni advisory committee on the rebuilding of College Hall, composed of Haigh, ’74, Rogers, ’83, Anderson, ’06, and McKibbin, ’11, be authorized to extend and continue their duties as the College Hall committee and take charge of the raising of funds to furnish and equip the building as a home for the Union, and further that they be authorized to call on others to assist in the campaign. This motion was carried.

Chas. W. Garfield, ’70, then read the report of the resolutions committee and moved that the resolutions be adopted and recorded “as the mind and heart of the M. A. C. Association.” The resolutions are printed in another column.

The nominations committee, consisting of A. C. Anderson, ’06, C. S. Langdon, ’11, James Troxel, ’08, Mary Allen, ’99, and A. N. Bateman, ’02, presented its report which was acted upon with a unanimous electing vote. The officers for the coming year are, president, W. K. Prudden, ’78; vice-president, N. W. Rogers, ’79; treasurer, C. W. McKibbin, ’11; secretary, H. H. Musselman, ’08. Members of the executive committee at large are A. C. MacKinnon, with ’95; Anna Cowles, ’15; Alexander MacVittie, ’11; Mary Allen, ’99, sang a solo and then led in singing of Alma Mater, which brought to a close a very successful and enjoyable meal.
COMMENCEMENT AND REUNIONS.

Four weeks earlier than the usual commencement, with a greatly depleted graduating class and in the midst of strenuous war times, this year’s commencement was again unusual and brought a great surprise in the numbers of alumni who returned for the reunions. Considerably over two hundred registered at the alumni headquarters in the new gymnasium, attended the exercises, and read the commencement slogan, “Send Us a Freshman Next Fall.”

Informal Alumni Supper.

Alumni activities started with the informal supper Wednesday night in the basement of the People’s Church in East Lansing, served by the Misses Smith, formerly of the Wildwood. One hundred ten attended the informal get-together and meeting of the M. A. C. Association, presided over by President Prudden, ’78. W. O. Hedrick, ’91, gave a brief report on the M. A. C. Union, which the Association sponsored and brought into being. A description of the plans for the remodeling of College Hall as a home for the Union was given by A. C. Anderson, ’06. Nominations and resolution committees were appointed and the meeting adjourned with songs led by Mary Allen, ’99.

Gymnasium Dedication.

Wednesday evening, a thousand M. A. C. enthusiasts, students, faculty, alumni including many former athletes, and friends from Lansing and East Lansing gathered to inspect the new gymnasium and witness its formal dedication. Former athletes sat in a special section reserved for them. The keys of the building were presented by Hon. Robert D. Graham of the State Board and were accepted with short speeches by President Kedzie and Director Brewer.

W. C. Wilcox, ’15, president of the student council, spoke the felicitations of the student body and was followed by former athletes, E. W. Ranney, '00, and W. K. Prudden, ’78, who told of M. A. C. athletes and athletes during their time in college. An address on physical preparedness was given by Major Rolf Duff of the governor’s staff. An informal reception and an M. A. C. Union dance followed the program.

Commencement.

Commencement for the class of 1918 was, we venture to say, the most unusual graduation exercises in the history of the college. Of the senior class of 143, half the number of last year’s graduating class, less than a hundred graduated as usual and crossed the platform. Numerous vacant chairs in the senior section marked the absence of men answering the nation’s call for liberators of a world and gone to fight for diplomas in Uncle Sam’s college of war. It was the first commencement to be held in the new college auditorium in the gymnasium. But more unusual than all of these was the commencement address by Dr. Liberty Hyde Bailey, ’82, one of M. A. C.’s own graduates and probably her greatest agriculturalist and philosopher.

At ten o’clock Thursday morning, gathering in front of Dr. Bessey’s residence and preceded by the band and followed by the faculty, the senior class marched across the drill ground to the gymnasium. The shortness of the line of caps and gowns recalled classes of eight and nine years back.

The program follows:

(a) Andantino (Lenare); (b) Canzonetta (d’Ambrosio) Matinee Musical Quintet.

Invocation, Rev. N. A. McCune, ’01.

(a) Lovely Spring (Coenen); (b) The Bells (Denza) Solo Soprano and Chorus, Mrs. Esther Phillips-Toy, and M. A. C. Girls’ Glee Club, Miss Louise Furhoffer, Director.

Address, “What is Democracy,” by Dr. Liberty H. Bailey, Class of 1882, Ithaca, N. Y.

(a) In the Arbor (Didier); (b) Peasants’ Dance (German) Matinee Musical Quintet.

Conferring of Degrees, by President Kedzie.

Benediction.

It is deeply regretted that the Rrcoon’s limited space will not permit of printing more of Dr. Bailey’s address. His message to the class and selected paragraphs from his discourse are being printed in other columns.

Reunions.

To the class of ’78 celebrating their fortieth anniversary C. C. Georgeson, director of the Alaska Agricultural Experiment Station at Sitka, Alaska, sent the following telegram to his classmates in reunion on the campus: Sitka, Alaska.

To the Class of ’78:

Warmest greetings. Sorry I am not with you. The snows of forty winters, twenty of them in Alaska, have not chilled my affection for my class and for my Alma Mater. My pride in both grows year by year. Come to Alaska for your vacations. Scenery, hunting and fishing unsurpassed.

C. C. Georgeson.

Several similar greetings were sent other classes from members unable to attend reunions.

The classes of ’06, ’07, and ’08 celebrated their reunion with a supper Thursday evening in the People’s Church. Those attending were: Earl P. Robinson, ’07; Earle Towne, ’07; R. C. Hudson, ’07; Geo. A. Brown, ’07; Walter Warden, ’07; A. J. Carpenter, ’07; Josephine M. Carpenter, ’08; Philip J. Baker, ’08; Mrs. Philip J. Baker, Mrs. Agnes Hunt Cade, C. Marshall Cade, ’07; Zoe Northrup, ’06; Mabel Mosher, ’08; Mrs. Anne Musselman, Harry H. H. Musselman, ’08; George H. M. Vannel, ’08; Myra Severance Barden, ’09; F. M. Barden, ’08; W. W. Hitchcock, ’07; E. L. Grover, ’07; C. C. Anderson, ’06.

A dozen or more of the ’16 class celebrating their first reunion had supper together in the College Cafe. Alumni attending the class reunions are given in the lists of those registering by classes and printed elsewhere in this number.

Cap Night.

A pleasing feature of the commencement week programs of the past two years has been their establishment before the close of college so that alumni and others coming for commencement may see the college in full swing and take part in the student term end customs, particularly “cap night.”

The usual procession headed by the band, or rather what is left of it, started from Williams Hall about dusk Thursday evening, gathering into its columns Director Kedzie and other alumni contingent at the library and the seniors at the women’s building. With a few less fire works (these are war times) but with as much noise as usual, the parade moved to the “hollow.” Here was the usual fare of canteen but not built this year for the purpose of consuming freshman lads, for on this cap night a big box beside the fire received the little brown caps and will convey them to the Belgian Relief organization for a useful purpose.

Cap Night speakers were N. L. Reed, ’19, who acted as master of ceremonies, Clarence E. Holmes, ’93, President DeMond of the graduating class, and R. H. Huxtable, next year’s senior president.

SEND A FRESHMAN NEXT FALL.

DEGREES GRANTED AT COMMENCEMENT.

In the following list agricultural graduates are designated by a, engineering by b, home economics by h, and forestry by f. The asterisk designates men in U. S. Service.

BACHELORS OF SCIENCE.

Abbott, Howard Clinton, a; Anderson, Edgar Shannon, a; Andrews, Paul Gerhardt, e; Armstrong, Egbert James a; Atwater, Charles Edwin, a; Beers, Rice, Aher, e; Ballamy, William Harold, a; Bennett, Donald Robins, a; *Blades, Glen Irving, a; Bondie, Royal John, e; Bouschor, Eva Grey, h; Brigham, Gerald Hobart, e; Broughton, Tracy Verner, a; Brown, Andrew Clyde, a; Buell, Lincoln Everett, b; Culver, Adelbert, f; Limrul, h; Butcher, C. REPORT OF THE COMMITTEE ON RESOLUTIONS.

Submitted to The M. A. C. Association at the Annual Meeting May 23.

Ladies and Gentlemen:

Your committee charged with the responsibility of presenting a statement to be acted upon at this anniversary, beg to submit the following: In voicing the dominant note of this anniversary gathering unquestionably all of us can unite in saying that it is not simply patriotism but service,—the type of service which fosters the idea of universality in the world.

We are now passing through the birth pain of this ideal but living in
the hope, the prayer, the expectancy that the lines of agony will be effaced in the fruition of succeeding epochs.

As we return to this wonderful campus we are more deeply impressed than ever by its beauty and each recurrence doth add to the love of it which was born in our delightful, undergraduate captivity. We are grateful for the preservation of the trees with marked individuality, and the groups of trees, which in their development doth entirely lose their reminiscent value.

We have a joyful pride in the completion of the new gymnasium, which is a physical manifestation of the recognition of the value of a balanced training for the responsibilities of a life of service.

We are proud of the persistent endeavors of the little group of members of this association through whose activities, the governing board of this college, was impressed with the great value to the institution of preserving, in some useful capacity, the first college in America erected in the interest of agriculture and the mechanic arts; and we desire to express to the Board of Agriculture our warmest gratitude for its generous appreciation of our contention in providing so fully for the rehabilitation of the structure and the preservation of its strength and rugged beauty, which have impressed every student enjoying the privileges of life in this campus for over sixty years.

As an expression of our recognition of this cordial cooperation of the Board of Agriculture, we renew our pledge to render our share of material assistance in the proper equipment of the building for the appropriate service to which it will be dedicated.

We desire to express loyalty to the promoters of the College Union which has for its purpose the co-ordination of all possible co-operative effort to utilize, conserve and in-crease all possible co-operative co-operation of the members of its family and the State.

We desire with reverence, affection and patriotic devotion to voice our sense of pride in the honor roll of a thousand names of M. A. C. men who have dedicated their service in the trenches, when so much is bound up in the equipment, energies, and efficiency of the girls and boys who are now receiving their school training and preparing for the solution of problems of outer movement, than have been known in any epoch on the world's history. That the College should be unremitting in its mode of advertising the facilities of the college to prepare men and women for their obligations and to fill our ranks to the limit of our capacity.

AGGRESSIVE ADVERTISING IN THIS EMERGENCY IS A LEGITIMATE WAR MEASURE.

Resolved, As the sense of this Association that in these times, when so much is bound up in the equipment, energies, and efficiency of the girls and boys who are now receiving their school training and preparing for the solution of problems of outer movement, than have been known in any epoch on the world's history. That the College should be unremitting in its mode of advertising the facilities of the college to prepare men and women for their obligations and so fill our ranks to the limit of our capacity.

knowledge, perhaps at public expense, and then sit on it. This is just as
deplorable as the habit of the commercial man who accumulates gain
and then pockets it.

"You tell me these things are far away, so man lives without him-
self alone so no man liveth to the present alone. They say that I live
in Utopia; I live in hope.

"Verily, the rural phase must be
considered as a primary condition in
democracy worthy the name. We
consider a democracy of cities
alone, nor do we want to attempt one
of the open country alone. These
Land Grant Colleges are largely re
sponsible for the facts underlying the
rural regions of our democracy. Their
place is of fundamental importance.
They give us knowledge; they should
also develop wisdom.

"It is the truth that shall make you
free."

MOTOR MECHANICS CONTINGENT
SETTLES DOWN TO TRAINING.

The 500 Wisconsin national army
men taking special courses in motor
mechanics have established them-

selves upon the campus and are well
started in the routine work of a sol-
dier. The contingent has been di
vided into two companies, A and B,
with headquarters in the old bath
house adjoining the Armory and the
other in the second floor of the engi-
nearng building. The men upon their
arrival were placed in three weeks'
quarters which confines them to
bounds extending from the agricul-
tural building to the library thence
west to the drill grounds, and to the
river, which forms the southern
boundary.

Every attempt is being made by
college people to entertain the men
here and make their stay at M. A. C.
a pleasant and enjoyable one. The Y.
M. C. A. rooms in Williams Hall
which have been opened for their use,
are being remodeled as far as facili-
ties are concerned by Secretary Don
Heffley to make them serve the men
as an army Y. hut. Mrs. Landon has
opened the library from 7 to 9 every
afternoon within the quarantine limits
by Reverend McCune, '01, of the Peo-
dle's Church.

However, for entertainment the men
scarcely need outside assistance for
exceptionally good vocal talent has
appeared among the ranks. Several
soloists of unusual ability, a quartet,
instrumentalists, and a male chorus
artist spring from the crowd to en-
tertain the men on the campus every
evening. During commencement week
Mary Allen, '09, pleased the men dur-
ing their evening leisure with her
singing.

On Memorial day a number of Lan-
sing women entertained the Wiscon-
sin soldiers with a "canteen supper" ser-
dored on the drill ground at five o'clock. The supper and the girls
that served it made considerable
hit with the motor mechanics.

Uniforms and equipment for the
contingent are expected soon. The
men are especially pleased with the
campus and their quarters here and
are very appreciative of the courtse-
ships being shown them by the college.
They are a splendid looking crowd
and are taking the regular army rou-
tine and drill and their work in the
shops enthusiastically.

DETOITERS RESUME WEEKLY
LUNCHEONS.

The Detroit M. A. C. Association
has resumed the weekly luncheon for
Detroit M. A. C. folk and Secretary
Kenyon wishes it announced that they
will be held regularly on Wednesday
nights at the Board of Commerce din-
ing room at 12:15. An urgent invita-
tion is extended to all Detroit Aggies,
as well as to M. A. C. visitors out of
the city, to meet with the Detroit
crowd.

SEND A FRESHMAN NEXT FALL.

R. J. JOHNSON, '16, WOUNDED IN
FRANCE WRITES OF 'SCRAPS'
WITH BOCHES.'

The following letter written to
Prof. Chittenden by R. J. Johnson,
'16, graduates of M. A. C. men are
scattered along the Western front and
in the thick of the fighting there.
It is only through such communications
as these that the war is brought home
to those without it. M. A. C. men are
right now taking part in the
front lines to help stem the present
 Hun offensive.

Johnson is a corporal in Co. B, 29th
Engineers, Sec. F, Army Eng. School,
A. F. O. 714, American E. F., France.
It is quite a coincidence that John-
son and Ginter, '19, should have been
wounded about the same time and find
each other in the same hospital.

"After proceeding to our base and
becoming located there, I was chosen
together with my friend (an Alaskan)
to report to French Expeditionary
Forces for instruction in a certain
field. Receiving said material we be
came actively engaged at our work.
In a certain field following a series of
battles after battles, we become in-
volved in a particular scrap with the
"Boche." After four exciting days
and nights of modern warfare in front
line trenches, the turning point took
place. The question resolved itself in
the usual way. I was taken prisoner and
escorted into a French hospital.
In following orders to drop back to a new
position, I received a ping from a ma
machine gun through the left forearm.
They do hit with terrific force. As re
minders, one nipped my ear and
riched off my steel helmet, another
went through my ammunition belt.
But as luck would have it, today I am
here at this American hospital alive
and well and the talk of being
wounded is one of the real trials of
this modern war. To my surprise I
met Paul Ginter (Forester), '19 I be
lieve, in this hospital. He is with En
gineer troops and had had a share in
the sport as well. He received a rifle
bULLET through the hand and one
through the jaw. He is getting around
splendidly and we see each other and
strolllevery day. I am cer
tainly happy over being so fortunate
as to meet a brother forester of M. A.
C. here. We are both comfortable
and will be in active service again in,
I should say, two months. Received my
wound on March 31 and Paul on
the same date.

I recently received a few Records
from Olson here in France. He is
now expert Gardener in the govern
ment service. See Tip Hodgkins was
a survivor of the Tuscania as well as
Haiberg. I believe.

My brother writes that he is inter
ested in his work somewhere in
France. He is fortunate in having E.
C. Sanford, Skeels, Cook, Billings,
Klassell, Putnam, Gilchrist all in the
same regiment. M. A. C. surely has

contributed her quota for the war thus far. Ofttimes I feel I could have greatly bettered myself had I enlisted in a forestry regiment, but I was inclined to be nearer the front and besides did not quite understand the opportunities offered in forestry lines at the time of my enlistment. As I account for my old '16 classmates all are indeed well represented in our country's service."

**AMONG THOSE PRESENT WERE.**

The following is a list by classes of all those alumni and former students attending commencement and reunions who registered at the alumni headquarters in the new gymnasium.

- '01—George W. Haigh (with).
- '07—H. H. Jennison.
- '09—Richard Haigh, J. H. Moores, James Satterlee.
- '10—Chas. W. Garfield, A. H. Phinney.
- '11—Henry A. Haigh.
- '12—B. A. Nevins.
- '13—F. S. Keedie.
- '16—Jay M. Smith, Frank F. Rogers.
- '17—W. A. Dohany.
- '18—D. A. Seeley, Pearl K. Plant, R. J. Robb, Fred L. Woodworth.
- '21—Tod J. Leavitt, C. W. Christopher, Gertrude Lowe Woodworth.
- '22—H. L. Mills.
- '23—Elzie M. Shosmith.
- '34—Agnes Stover Smith, Bessie Andrews Hays, Lorena Fuller Beach, John W. Longnecker, Norman M.

The Union Picnic at the Picnic Grounds Just West of the Arboretum.

The college picnic arranged by the M. A. C. Union as a farewell college function to the departing seniors was attended by nearly seven hundred students, faculty and alumni. The picnic was served cafeteria style, the crowd at the right in the picture being lined up before the serving table. Following the supper were games and sports for faculty and students arranged by Director Brewer. They included medicine ball, flag relays and a tug of war between students and faculty, fifteen on a side, won by the latter.
Dr. Strauss' Book Presented to A fraternity.

An unusual book entitled "Diseases in Milk—The Remedy—Pasteurization," a compilation of the great work of Nathan Strauss by his wife, Lina Guthertz Strauss, has just been received by Mrs. Landon, librarian. It is through the courtesy of Mrs. Strauss that this book is available for the use of the students of M. A. C. Dr. Gilber, head of the bacteriology department, in commenting upon the volume, says:

"We would recommend that every student interested in the great campaign for the saving of babies should study this book. Probably to Mr. Strauss more than to any other man, do the babies of the large cities owe their existence."

CORRESPONDENCE

I am enclosing a check for $2.00 to pay my rent on College Hall for another year and incidentally to make it possible for me to read the Record for that length of time.

Please change my address from 1100 S. Main St., Mt. Pleasant, to Mt. Pleasant, R. F. D. No. 6. As the changed address indicates, I have severed my connection with Central State Normal and gone actively to farming.

I am also trying to help the cause along by acting as secretary of the Isabella County Farm Bureau. H. D. Carbus, '15, was recently elected our county agent and is getting his summer's campaign well under way.

Gifford Patch, Jr., 15, has been teaching science in the Mt. Pleasant High School, has recently accepted the job of county agent for Montcalm county and has moved to Greenville.

The Extension Department has taken three county agents from Mt. Pleasant this spring. Gifford Patch, Jr., '15, Montcalm county; W. T. Baud, '16—Alton M. Porter, Edna Tussing Vandenburg, Lou E. Butler, Josephine Fry Nicolson, Leola Lewis, Glen 0. B. Cowles, W. B. Cathcart. Ardie Strong Boucher, Addie Glad Massie, Ethel Taft, Ethel M. Caster, Clara G. Rogers, V. A. Freeman, L. P. Irwin, Karl Fischer, '15. His address was changed from the one in the pamphlet and that led us over to the colored section of camp and, believe me, that's a dark portion. Everywhere we passed the privates yelled out 'You'll like it,' thinking we were drafted. When we came to the 'dark portion' they would say 'You all like it.'

"What we find difficult is absolute discipline, inspection of bunks and clothes, daily, etc. I wish that more of this could be enforced at school, especially the salute; and it would be clear sailing.

"There are about 92 men in our unit and out of these only 25 of us are not regular national army men of seven months' experience, so you see we will have to step lively."

"During rest periods everyone picks up a manual of some kind and studies or walks, etc. We cannot afford to give much time to anything else as only 50 per cent of us will get commissions."
We crossed bats with the champions, an artillery team. After Dodge had made them swing their bats in vain, Fick had given them a few "thillers" and Lt. Knapp had added a "Y. M. C. A. catch" in the outfield the score stood 15 to 1 in our favor. It seemed just like college days to get behind the plate with Dodge's "whiffing 'em out" and throwing down to Fick; however, the surroundings were much different and, also, in those days we didn't have to consider the German activities when arranging for a game. We just finished a five-hundred mile trip, leaving and largely because of the notice and stopping without any notice at all. That is characteristic with our branch of the service. One never knows where he will be by night nor how long he will stay when he arrives.

One very amusing incident occurred on our last long trip. We stopped one dark and rainy night at the edge of a small city. After our 9 o'clock supper, Dodge, Fick and I sought our night's lodging in a building near by. We had a nice smooth stone floor for a bed but it was dry and were soon in slumberland, all huddled together "like pigs in a storm." When we awoke in the morning, we surely enjoyed a hearty laugh. Perhaps you will echo the laugh as I tell you we had used for our hotel the main building of a university academy. We thought it quite a coincidence of life's possibilities—that three Agricultural graduates should ever be connected with a similar institution in such a manner. I wish to make known a decision that we reached, namely: If war should ever be on our own American soil that the "Ag" building at M. A. C. should be equipped with three bunks the same to be stationed in the lower hall to care for any wandering soldier lads who might be journeying through. We trust that you will take this matter up at the next Board meeting.

Being students of agriculture, we have come across the rural conditions in France, and already have many interesting comparisons to make with Michigan agriculture. Of course the Michigan farmer is farther ahead in many ways but there are many lessons that may be learned from the French tillers of the soil.

One thing we are certain. That is the great educational advantage of the American youth. France is doing her best to keep her schools open but there is even better than meal time. It is necessary that we have here. You surely would feel mighty pleased that the "old school came across" in the support of the army "Y." Too much credit cannot be given this organization. Even where we are now located we have an excellent "Y." In fact I now am in the hut beside a log fire. In an adjoining room the boys are playing check-ers, cards, etc. bowls and reciting at the opposite end. The American people will receive their real thanks for the "Y" and Red Cross when the boys come back home. Speaking of returning, no one knows when that day will be. The main thing is that many are here and many more must and will come—then when it's all over we will return to a new America and a new world.

We are the 375th company of the 499th Motor Train and are gallantly led by First Lt. Knapp, yes, no other than "Hockey" Knapp, M. A. C. '12. All the men of the organization swear by him and largely because of the excellent spirit existing we have already won a place among the "top-notch" troops in France. In the ranks we have "Chl" Fick, Ralph Dodge, and myself; so you see that the Aggies are well represented, numerically at least.

We are all well and "having the time of our lives." None of us would be anywhere else at this time for we are mighty pleased to be doing something of direct value for the cause.

Undoubtedly the boys are all "primed up" for their annual games. Let it be known that M. A. C. is being represented upon the baseball field here too. During the few warm days, with which we have been blessed, our company has organized a team—in fact we have been the "champs" of every place that we have stayed at. We are recent arrivals at our present location and, naturally, were called upon to prove our worth.

CORP. A. L. BIBBINS, '15.

In letters to his mother "Bib" writes "I am happy to be here and in shape to go ahead and do my part in the war. The insignificant life that I left looks all the more insignificant in comparison to the big, broad life I now am in. This is living and a fellow is lucky to be in it if he can only look at it in that light. I am the happiest I ever have been."

Bibbins writes the following to President Kedzie:

"I have been elected to utilize the evening in writing you concerning the activities of the M. A. C. quota in our company.

We are the 375th company of the 499th Motor Train and are gallantly led by First Lt. Knapp, yes, no other than "Hockey" Knapp, M. A. C. '12. All the men of the organization swear by him and largely because of the excellent spirit existing we have already won a place among the "top-notch" troops in France. In the ranks we have "Chl" Fick, Ralph Dodge, and myself; so you see that the Aggies are well represented, numerically at least.

We are all well and "having the time of our lives." None of us would be anywhere else at this time for we are mighty pleased to be doing something of direct value for the cause.

Undoubtedly the boys are all "primed up" for their annual games. Let it be known that M. A. C. is being represented upon the baseball field here too. During the few warm days, with which we have been blessed, our company has organized a team—in fact we have been the "champs" of every place that we have stayed at. We are recent arrivals at our present location and, naturally, were called upon to prove our worth.

THE M. A. C. RECORD.
GOING ACROSS.

Howard Rather, '17; W. J. "Bill" Clark, '17; Fred "Ted" England, '17; L. S. "Jute" Jennings, with '17; R. W. Waife, '16; G. H. "Jerry" Mains, '17; Geo. Peet, '16; Richard E. Decker, '15; N. Yonkman, with '18; E. Men-rose, with '19; address Camp Jackson, R. O. T. C., Cable 774, Par. 4, Amer. E. F., France.

IN THE FOURTH CAMP.

SAFE ARRIVALS OVERSEAS.

WHERE THEY WENT FROM THE THIRD CAMP.

WHERE THEY WENT FROM THE FOURTH CAMP.

Dick, Dallas, Tex., 102d M. G. Bn., American E. F., France.

IN THE FOURTH CAMP.

Robert S. Welsh. It has just been learned from the Adjutant General's office that Welsh is now a colonel in the 17th U. S. Engineers (Ry.), and "trying to do my part to demonstrate his patriotic tendencies by making one of the conditions of probation of a violator of the liquor law that when one liberty bond has been purchased the probation charge requires that when one liberty bond is to buy another and keep on the good work for the full two-year period.

R. C. Bristol is with the Parker Rustproof Co., in Detroit, and lives at 156 Tuxedo Ave.

Cecil J. Barnum is commissioner of schools in Gladwin county, Gladwin, Mich., and "trying to do my part to be the boys at the front." At the time of publishing our last list of men in service there were several inquiries as to the location of Robert S. Welsh. It has just been learned from the Adjutant General's office that Welsh is now a colonel in Field Artillery, National Army, and is stationed with the 314th F. A., Camp Lee, Va.

James A. Stockwell (with) is a second lieutenant with the 341st Inf., Camp Grant, Rockford, Ill.

Capt. Fred S. Curtis (with) is with the 17th U. S. Engineers (Ry.), American E. F., France.
THE M. A. C. RECORD.

15

American E. F., France. Capt. Curtis recently sent us a copy of the Oolala Times, the journal of the 17th Engineers. The Oolala Times is one of the snappiest and most interesting trench newspapers we have seen and besides carrying general regimental news it has a column for each individual company. In the last baseball news it would seem that the American Expeditionary Forces are not lacking for sport over there.

A. R. Carter, "Nick," is county superintendent of highways with headquarters at Rockford, Ill.

George E. Martin is chief engineer with the Velle Motors Corporation, Moline, Ill., and is living at 1807 18th Ave. there.

C. A. Willson is animal husbandman and chief of the department of animal husbandry at the University of Tennessee.

Eugene Robinson (with) is a major in field infantry, regular army, and is now on duty with the 58th Inf., American Expeditionary Forces, France. From a part of Major Robinson’s organization was aboard the ill-fated Moldavia, the ship recently torpedoed in the English Channel, but reports indicate that the 58 men who were lost were privates and non-commissioned officers.

A nine-pound son, Maurice Arthur, arrived at the home of Prof. and Mrs. Maurine F. Johnson, May 23. "Johnnie" says that the youngster came for the reunion of dad’s class but was a little late for the commencement exercises.

R. H. Gilbert is acting as purchasing agent for the DePree Chemical Co., pharmaceutical chemists, Chicago, Ill., makers of San-Tox products. His home address is 6850A Ridgeland.

**SPRING DAYS ARE NOT FAR AWAY**

**SPRING STYLES ARE ALREADY HERE**

We have a store full of merchandise bought many months ago and priced at figures which means retailing today at prices very close to present wholesale prices. It means economy to purchase now—anticipate your wants—spend freely and wisely—but do not hoard. Save your nickels and pennies for Thrift Stamps and keep your money in circulation. Buy goods at home and save railroad transportation. Conserve your energies—concentrate your buying.

CONCENTRATION IS CONSERVATION. It increases your opportunities in "bigger" savings in many ways. Right here, we show what we can do for you with more variety, larger assortments, and the best brands of Ready-to-Wear Silks, Underwear, Gloves, Hosiery, etc.

**MILLS DRY GOODS COMPANY**

108-110 S. WASHINGTON AVE.

---

**THE M. A. C. ASSOCIATION**
