VOL. XXIV.

EAST LANSING, MICHIGAN, FRIDAY, FEBRUARY 21, 1919.

NO. 19

Beckkeepers from all over Michigan will enroll at M. A. C. on Feb. 21 for a week's study of ways and means for making the busy bee buzzier. A course intended for the instruction of beginners and amateurs in beekeeping will be the feature of the week's program. The staff of the department of entomology of M. A. C. will act as instructors. Floyd Marshall of Ypsilanti, one of Michigan's oldest beekeepers, will assist the M. A. C. men. He will principally discuss methods of production.

Air in establishing courses in military training is being offered by M. A. C. to high schools throughout the state in accordance with the war department's plans to build up junior reserve officers training corps units. The military department of the college is cooperating with the Washington war office in the work of encouraging the development of the training plan in Michigan. "There are quite a considerable number of technical details involved in establishing a junior training corps in high schools," declared Major P. G. Wrightson, commandant at M. A. C. "so we are volunteering the services of our military department to schools wishing to undertake military work. We are inviting principals and superintendents of schools to address their inquiries to us, and where necessary, we propose to send a representative to the school to assist the school authorities in mapping out a drill program."

The College Band, assisted by Mrs. Helen Dodge Stuck, '11, and Professor W. E. Renting, save the first of this year's Sunday afternoon concerts last Sunday in the Armory. This coming Sunday a second concert will be given in which the Girls' Glee Club will feature the program. Musical organizations suffered considerably during the S. A. T. C. period but are coming back strong and are already winning favor with their performance.

Ex-President William H. Taft will appear as the first number on the Liberal Arts Lecture Course this term. He comes to M. A. C. Wednesday evening, March 5th, and will speak on a selected subject. The Liberal Arts Course programs are to be held in the Armory, as formerly.

The Forestry Club at a recent meeting decided to publish their Forestry Annual this spring as usual. The editors for this year's book are I. V. Anderson, '20, editor-in-chief; O. A. Alderman, '20; B. H. Bentley, '20; M. D. Gray, '22, and C. F. Martin, '21, associate editors.

The Wolverine Board announces that they have already received orders for over 1,200 books. This is probably the largest number of Wolverines that have been sold in advance in several years.

The Standing Walls of Williams Hall were razed at 5 o'clock last Friday afternoon by the simultaneous explosion of some 100 charges of dynamite which had been placed at intervals in the walls. The first explosions failed to lower all the walls, complete sections on both the north and west sides remaining standing after the others had fallen. Three separate charges were required to completely demolish the building.

Intramural athletics will be drawn to a final windup on Saturday, March 15th. The entire day will be given over to completing the schedules and the final contests in the Inter-society and Inter-class games. Final contests in wrestling, boxing and track work, as well as swimming will also be run off during the day. A novelty in the meet will be a "girls' relay" in which the girls will select champions to represent them on the track.

Professor Ryder is growing very popular with central Michigan women. In the past couple of months he has addressed some fifteen different clubs and groups in Lansing and vicinity on the subject of voting. Not only have Prof. Ryder's talks been of a very instructive nature to the voters who are casting their first ballots but they are stimulating a much wider interest in the coming elections. He has been giving a series of talks before Y. W. C. A. women in Lansing covering questions of present day government, political parties, the primary law, etc. Besides several groups of Lansing and East Lansing club women, he has addressed the women employees of one or two large business institutions in Lansing.

The S. A. T. C.—A Comedy is the title of a very interesting and timely article appearing in the Outlook of February 5. The article is written "by a College President" and there are particular reasons why it will be of interest to every M. A. C. alumnus and former student. The article has been rather widely read by the faculty, that issue of the Outlook having been sold out of the East Lansing news stands soon after its receipt.

The East Lansing Church will observe its Annual Visitation Day on Sunday afternoon, February 23, in the afternoon. Mr. McCune, '92, who is organizing the day's calls has this to say about it. "Two good looking men will drop in for a visit. They are anxious to see you, as James Whitcomb Riley would say 'in a Friendly sort of way.' It is not a call for any business whatever, but rather for the purpose of helping the church get next to the people of East Lansing and finding out what folks think of the church so that it may improve and better its work." There will be thirty-two teams of callers. Better stay at home Sunday afternoon so as not to miss them.

"Under Four Flags," the official war film sent out by the Bureau of Public Information which was shown at the College during Farmers' Week, has a particular interest for a group of M. A. C. people. In that part of the picture where General Pershing is being decorated by General Bliss, standing in the line at attention in front of the camera is an M. A. C. man, Paul Woodworth, w'16, son of Prof. and Mrs. P. B. Woodworth, '88 and '93, respectively. Prof. Woodworth who is now business manager on the staff of the War Plans Division of the War Department, saw the picture one evening in Washington, and thinking he recognized his son, he waited for a second performance and made sure of it. Within a few days a letter from Paul told that he had just been transferred to the staff of General Pershing and was present at the ceremonies when the General was decorated. Paul Woodworth is in the Meteorological Section of the Signal Corps. Another son of Prof. and Mrs. Woodworth, Robert, seventeen years old, is in France with the American Red Cross.
THE M. A. C. RECORD

MAKE THEM PAYABLE TO THE M. A. C. ASSOCIATION.

FRIDAY, FEBRUARY 21, 1919.

ARE YOU A MEMBER OF A BRANCH ASSOCIATION?

Detroit alumni and former students are crystallizing the formation of a permanent and active organization that is to be known as the M. A. C. Club of Detroit. A constitution and by-laws are being framed that, lived up to, will make the Detroit association of M. A. C. men and women a real working factor in the general alumni group. They are pledging themselves "to exert their influence to further the best interests of M. A. C. and to make her an increasingly popular institution."

The progress being made in Detroit is very gratifying. Particularly since there probably never was a time in the history of the college when there are so many problems facing the institution—problems, in the solving of which alumni should have a voice and lend a hand. Now is truly a reconstruction period for Alma Mater and we must be ready to help.

Again we urge the reorganization of local associations and the holding of meetings wherever and whenever it is possible. It is only through the local organizations of alumni that the M. A. C. alumni body as a whole may become a strong close-knit unit capable of rendering service.

MRS. J. E. MARSHALL (ANNIE L. ROBINSON) WITH '98.

Mrs. James E. Marshall (Annie L. Robinson, with '98), former student and instructor in the domestic science department, died following the birth of a daughter on Dec. 15th. Mrs. Marshall attended M. A. C. for two years and served as instructor in sewing during the years 1905 and 1906.

From M. A. C. Mrs. Marshall attended and graduated from Columbia University. She later taught for two and a half years at the Colorado Agricultural College at Fort Collins, Colorado, and three years at the Oregon Agricultural College.

She is survived by a husband, James E. Marshall, a member of the staff of the Colorado Agricultural College at Fort Collins, Colo.

MANISTIQUE ALUMNI MEET.

M. A. C. folks at Manistique met for an informal dinner at the Ossian Hotel Wednesday evening, Feb. 12. An interesting time was spent talking over old and new things of M. A. C. Those present were Miss Aurelia P. Potts, '12; Mrs. Doty, guest; Eva Bouscher, '18, Jennie Williams, Sylvia Richardson, home economics extension specialists; Nellie A. Fredeen, '17; Mr. and Mrs. George Beckwith, '17; Glenn Amoe, '15; George Kinzett, '15.

L. WHITNEY WATKINS '93 REPUBLICAN NOMINEE FOR STATE BOARD.

At their biennial spring convention held in the Prudden Auditorium at Lansing Tuesday, the Republicans of Michigan nominated L. Whitney Watkins, '93, from Manchester, and Mrs. Dora Stockman of Lansing for positions on the State Board of Agriculture to succeed A. J. Doherty of Clare and Robert Graham of Grand Rapids, whose terms as members expire this year.

Farmers organizations throughout the state have been very vigorous in their campaign for Mr. Watkins and Mrs. Stockman urging that the State Board of Agriculture should have a larger representation of farmers. Up to the time of the convention Mr. Graham continued as a candidate for reelection, but it is reported by delegates from his district that Mr. Doherty had withdrawn from the race in favor of Mrs. Stockman.

Mr. Watkins is amply qualified, having served under appointment from the governor as a member of the State Board of Agriculture from 1899 to 1905. He is a one-thousand acre farmer of Jackson county, the third generation of the family on this farm. While in college he was boxing champion and prominent in college and student activities. He has also served his district in the state senate. Publicity matter circulated by the federated farm organizations types him as "a man of red blood and political courage." Mr. Watkins was for a time president of the Jackson M. A. C. Association.

Mrs. Stockman is a State Grange lecturer and did some of the first extension demonstrating work for the college at Bay View in 1914. Later she represented the college as a special home economics demonstrator during the winter months and lectured at some thirty farmers institutes in southern Michigan. It is said by her supporters that "she knows the tests and needs of the farmer's wife as well as any woman in Michigan."

Judging from past history the Republican nomination in Michigan is an assurance of election.

M. A. C. MAN WINS BRITISH DECORATION FOR GALLANTRY.

Capt. Clare S. McArdle, '14, commanding Co. A of the 310th Engineers in the American North Russia Expeditionary Forces, has recently been granted a decoration for gallantry...
Begin to Make Your Plans for the After-the-War Homecoming in June.

IT IS GOING TO BE A REGULAR OLD TIME COMMENCEMENT REUNION.

THE DETAILS LATER.

and efficiency in action by the British government. The award was announced in dispatches from Archangel dated February 15th and was conferred for "conspicuous gallantry and ability since early in September with the Dvina River forces."

Capt. McArdle was commissioned as first lieutenant in the Engineers Reserve Corps June 11th, 1917, and reported for active duty July 2d of that year. On August 15th he was promoted to a Captain of Engineers and assigned to the 316th Engineer Regiment just then being formed at Camp Custer. He went across with the 85th Division early in the summer of 1918 and as a member of the 1st battalion of the 316th Engineers was assigned to the North Russia Expedition.

Professor Poison is a graduate of Purdue University and came to M. A. C. in 1906 as an instructor in mechanical engineering. He served as assistant professor of mechanical engineering from 1908 to 1913. He was acting dean of engineering in the fall term of 1915 and an associate professor in industrial chemistry from 1913 to 1916.

He is a member of the American society of Mechanical Engineers, the American Society for Testing Materials, and the Society of Automotive Engineers, all of which are honorary societies and testify to his ability and the scope of his work. On the campus he is a member of Tau Beta Pi and an honorary member of the M. A. C. Engineering Society. He has recently served as a member of the Educational Committee for the National Safety Council for the United States and as a delegate attended an我院 in industrial chemistry from 1913 to 1916.

He is a member of the American society of Mechanical Engineers, the American Society for Testing Materials, and the Society of Automotive Engineers, all of which are honorary societies and testify to his ability and the scope of his work. On the campus he is a member of Tau Beta Pi and an honorary member of the M. A. C. Engineering Society. He has recently served as a member of the Educational Committee for the National Safety Council for the United States and as a delegate attended an Institute of Safety Engineers held in the east last summer.

Some difficulty will be found in procuring a man to fill his position at M. A. C. As yet no one has been selected.

MICHIGAN TAKES GAME AFTER THREE TIES.

Luck hovered near the University of Michigan goal in Saturday night's basketball game at the college and succeeded in beating the Aggies 19 to 17. Victory came for Michigan only at the end of two overtime periods, made necessary by the tie score, both at the end of the game and when the first overtime period of five minutes had been played.

The battle was speedy and rough from the start and it has been years since as closely contested and hard fought basketball game has been seen at M. A. C. There were never more than two or three points separating the teams at any time during the contest and both teams were in the game and fighting every minute.

At three periods during the contest the score was tied. The first half ended with the score 9 and 9. When time was called at the end of the game the tally-sheet showed the score to be 16 and 16. It was decided to play for five minutes to decide the game but each team added a foul goal to its score making the totals 17 and 18. Another 5-minute period was decided upon. Karpus tossed the ball in the air in the direction of Michigan's goal, the kind hand of providence guiding it safely through for the two points that won for the U. of M. The Aggies fought hard but were unable to bag a goal before the timer's pistol rang out.

Defense offered by the M. A. C. quintette puzzled the Michigan men who found plenty of trouble in attempting to work the ball anywhere near their goal. As was the case in the DePauw game, however, the visitors had considerable good fortune in scoring on long distance shots, a few of them dropping into the basket from distances up to 40 feet.

M. A. C. meets Michigan on the Ann Arbor floor for their second game of the season on Friday, February 28.

ALL FRESH TRIM ALMA.

Alma college, touted as the proud possessor of the champion M. I. A. A. basketball team, was well trimmed by the M. A. C. All-Freshmen in their game at East Lansing Saturday night, played as a preliminary to the M. A. C.-Michigan game. The score ended 28 to 3.

Gilkey, last year's star on the Lansing high school team, scored 23 of the M. A. C.'s 28 points. The Aggies fought hard but were unable to bag a goal. The tally Sheet showed the score to be 16 and 16. It was decided to play for five minutes to decide the game but each team added a foul goal to its score making the totals 17 and 18. Another 5-minute period was decided upon. Karpus tossed the ball in the air in the direction of Michigan's goal, the kind hand of providence guiding it safely through for the two points that won for the U. of M. Juniors not attending the hop may get their tickets by calling for them at that time.
Dear McKibbin:

Just received a welcome copy of the Record and would write you a few lines. It sure seems good to get the M. A. C. news while helping to hold the Coblenz Bridgehead up here in Germany.

I am still with the 42d (Rainbow) division, having come over with it 14 months ago. We have been in all the big engagements and were honored by being placed in the Third American Army or Army of Occupation. We are now holding a strip of territory along the Rhine about 45 kilometers west of Coblenz.

I have met several M. A. C. men over here, and it is like the good old campus days when you run across one. Last winter I met Glen Dicker, '17, and Earl Hough, 36, in Neuchemateau and this summer I met Captains Thompson, '17, and Smith, '17, in Nevers. Just a few weeks ago I met Clint Chilson, '12, in Coblenz and Stace Griggs, '14, in Paris. M. A. C. seems to be well represented in the A. E. F.

I am doing laboratory and sanitary work with the field laboratory, 42d division and find the work very interesting. I never thought when I was taking the bacteriology course at M. A. C. that I would ever have the opportunity of testing the water of the Rhine River, but such has been the case.

Would be glad to hear from any members of the class of 1915. Remember me to my old pals.

Wishing you a successful and Happy New Year, I am

Sincerely yours,

Ist Lt. F. O. Arns, '15
Field Laboratory, 42d Division.

Alumni Notes

Major Paul M. Chamberlain of the Ordnance Department, who has been stationed as Army Inspector of Ordnance at Toledo since December, 1917, has just been transferred to Cleveland to act as special assistant to the District Claims Board. His address is Inspection Division, Cleveland District Office, Cleveland, Ohio. "Among the many contracts," he writes, "the most notable was the beginning and completing of 1,300 75-mm. gun carriages, French model."

Peter V. Ross of the Christian Science Committee on Publication for Los Angeles, California, at 166 Geary St., San Francisco, is entering upon his twentieth year in that city. He writes, "a number of M. A. C. men have come to this part of California to stay. Others pass through occasionally. I well remember meeting Col. Robert S. Welsh, '94, on the street here in 1900 on his return from the Philippines. The men who were with me on that day have served with him in the Spanish-American war and I believe all the other students who had the chance to serve with him as a soldier. It just comes to mind that he gave me my first military training on the campus in my freshman year. We little realized in those days the serious necessity for such training, nor did we appreciate the foresight of the institution.

Chas. H. Alvord is in the Office of Extension Work in the south for the States Relation Service of the Department of Agriculture. His headquarters are in Washington, D.C., and he is living at 3224 Northampton St.

Recently having come over with it 14 months ago. We have been in all the big engagements and were honored by being placed in the Third American Army or Army of Occupation. We are now holding a strip of territory along the Rhine about 45 kilometers west of Coblenz.

I have met several M. A. C. men over here, and it is like the good old campus days when you run across one. Last winter I met Glen Dicker, '17, and Earl Hough, 36, in Neuchemateau and this summer I met Captains Thompson, '17, and Smith, '17, in Nevers. Just a few weeks ago I met Clint Chilson, '12, in Coblenz and Stace Griggs, '14, in Paris. M. A. C. seems to be well represented in the A. E. F.

I am doing laboratory and sanitary work with the field laboratory, 42d division and find the work very interesting. I never thought when I was taking the bacteriology course at M. A. C. that I would ever have the opportunity of testing the water of the Rhine River, but such has been the case.

Would be glad to hear from any members of the class of 1915. Remember me to my old pals.

Wishing you a successful and Happy New Year, I am

Ist Lt. F. O. Arns, '15
Field Laboratory, 42d Division.

Edward Gagnier is "enjoying life in a mild sort of way" and is bringing along two youngsters who may enter M. A. C. about eight or nine years from now. Gagnier is living at 412 W. Deleson, Youngstown, Ohio.

Frances Sly is in her second year at the Normal School at Valley City, North Dakota. A blizzardless winter was added to the enjoyment of her work there.

E. R. Bennett is field horticulturist for the Extension Division of the University of Idaho at Boise, Idaho. The following is taken from his letter: "I was very sorry of the calamity that happened to old Williams Hall, but that the building is of any particular value and I presume that M. A. C. is better off with the building in ruins than with it as it was, yet the campus will hardly look the same to us fellows of the older classes without Williams and College Halls in their old places. However, I am not yet so old but that I have the future betterment of the institution at heart and I sincerely hope that M. A. C. will have an Administration Building properly located on the grounds made vacant by the removal of the two buildings. M. A. C. has grown to such an extent since the days of '96 that I have hardly kept pace with its development. However, I am glad to hear of the improvements being made and the steady substantial growth of the institution."

THE M. A. C. RECORD.

M. P. Willett is editor of the American Sugar Bulletin, the house organ of the American Sugar Refining Company, with offices at 117 Wall St., New York, N. Y. He lives at Montclair, N. J., and is 26th Lieutenant of the Montclair Battalion New Jersey Militia Reserve, as well as an enthusiastic booster of two M. A. C.'s, including the Montclair Athletic Club.

R. L. Yates and family have moved to Erie, Pa., where he is associated with the Skinner Engine Works.

S. F. Galloway, farmer and county treasurer at Ionia, Michigan.

H. G. Walker is with the Standard Aircraft Corporation at Elizabeth, N. J.

M. W. Taber resigned his position as factory manager of the Asproptom Company on January 1st and is in Detroit at 3555 Penobscot Bldg., temporarily. He is representing several manufacturers making parts and material used in the automobile industry. Taber is chairman of the membership committee of the Detroit Engineering Society.

T. F. Locke is in charge of the Tool Drafting Department of the Mitchell Motor Company at Racine, Wis. He deplores the fact that up to the present time he has not met any M. A. C. men in Racine. He is living at 827 Dilla St., Racine, Wis.

A. A. Thomas, draftsman for the Virginia Bridge and Iron Company and lives at 511 Kenyon St., Washington, D. C.

H. L. Brown is a chemist with the American Agricultural Chemical Company and lives at 483 Clark Ave., Detroit, Mich.

H. H. Curtis, who has been farming for some four years at R. F. D. Albion, Michigan, has just purchased an eighty-acre farm two miles north and three-fourths of a mile east of Parma, and expects to move there March 1st. The Curtises have two husky boys, six and eight years old.

G. H. Allen writes that his wife (Harriet Weston) and children have all been ill with the "flu" but came through in fine shape. Jerry is living at 370 Fisher Ave., Detroit, Mich.

Charles J. Oviatt continues as president and manager of the Sheridan Creamery Company at Sheridan, Wyoming.

S. Bogue and myself are always pleased with the spinach, lettuce, cabbage and Bermuda onions of southern California, which are just out of Seattle, and overlooks Puget Sound.

F. L. Granger, who is associated with the Crutchfield, Woolfolk & Clore Company, wholesale dealers in fruits and vegetables, has left Green ville for Laredo, Texas, "for another round with the spinach, lettuce, cabbage and Bermuda onions of southwest Texas."

MILLS DRY GOODS GO.

THE M. A. C. RECORD.

Mill’s Clearance Sales
Take Early Advantage of This
Bargain Occasion

Scores of remarkable values are passed along to you. Seed-time and harvest under conditions of peaceful developments will be necessary before even an attempt can be made to re-construct the prices of average merchandise, so any great drop in prices for next season is out of the question. The sales prices we quote therefore are substantially less than their real worth—in many cases—so you would be obliged to pay more.

Our entire stock of carpets and linoleums will be sacrificed by the big cut to close out. We are clearing out the floor covering department which is to be replaced by an up-to-date women’s department, with corsets, muslin underwear, babies and children’s garments, beauty shop and an enlarged drapery department.

Ready Made Garments

There are many splendid models left in our ready-to-wear department, and each is a special bargain.
