THE HOME OF GOOD THINGS TO EAT

LOFTUS GROCERY
Tuesday's Enrollment came up to expectations and even exceeded them, with a total of 1,341. This was divided as follows: Agriculture, 491; engineering, 440; home economics, 327; veterinary, 35; graduates, 3. The freshman enrollment was 596, 242 engineers, 174 ages, 147 women and 18 vets. This is the largest freshman class of girls ever entering. The number of beginning engineers was also the largest in the history of the college, it never before having exceeded 150. The total for the first day of the fall term enrollment is such as to indicate a student body of close to 2,100. It seems that M. A. C. is getting back to times such as the college knew before the war.

The Collingwood House, the home of Judge C. B. Collingwood, '85, has been taken over by the college as a home for girls for the coming year. Many M. A. C. girls in days gone by have known the hospitality of this old home on Oakhill avenue. It began its existence as "the little shack back in the woods," and as the years have passed has been added to structurally and has grown in fame as its genial hospitality has been extended to and enjoyed by two generations of M. A. C. folk. It is the home of G. H. Collingwood, '13, and Rebecca Collingwood Trangmar and Laura Collingwood, both of '20. The shortage of rooms for girls made it necessary for the college authorities to look for other houses, and they were fortunate last week in obtaining the Collingwood residence. It will house eighteen girls, freshman and sophomores. Judge and Mrs. Collingwood will live in the Porter Apartments in Lansing this year.

Many old men are back. Everywhere on the campus are greetings and handshakes among the older men who are back from the service. A number of veteran students with '17, '18, and '19, who left to enter the service are back to finish up. "Hello, old man, how are you?" is heard many times a day. "When did you come back? I haven't heard a word about you since that day last year when we met in Paris. Seems good to be back to the old school again." The campus is teeming with old time pre-war enthusiasm and everyone is looking forward to big things.

Blake Miller, '15, captain and half back of the famous 1915 football team, is back at M. A. C. as backfield and end coach. Football fans cannot forget that the Aggie team under Capt. Miller ran up a score against Michigan of 24 to 0, and lost only one game that season. "Blake" was a first lieutenant in the 350th M. G. Bn., A. E. F., and was discharged May 2. Before going overseas, and while at Camp Custer, "Blake" along with "Jerry" DePrato, played on a football team which won a name for itself, and incidentally some victories.

According to the plans of Major Wrightson M. A. C. will again be represented in the Intercollegiate Rifle Matches. Three teams are to be selected—one from the cadet corps, one from the faculty and one all school team. Capt. Bell, a rifle enthusiast, will coach these teams. The amount of ammunition to be furnished by the War Department is still undecided but as the college has on hand 50,000 rounds there is no cause for alarm. The all college team will have to purchase their practice ammunition but the cadet team will be fully equipped by the government.

Mother Bright, so well known to alumni for the past ten years as the director of Club G in Williams Hall, is matron at the Columbian House this year.

C. W. Waid, extension specialist in horticulture, was honored at a meeting held recently in Detroit. At the annual meeting of the Vegetable Growers' Association of America, Mr. Waid was elected organization secretary.

Along with other cities of this general region East Lansing is to have a share of the army food supplies which the government is disposing. Mayor Ryder and the city council have negotiated for half a carload of the food stuffs, co-operating with the Lansing city government in securing them. Meats, canned vegetables and fruits and staple supplies make up the shipment. It is expected that the sale will go off with more zest than a similar one did in Lansing because of the eagerness (born of necessity) of college people to do battle with the H. C. of L.

The rooming problem continues a serious one at M. A. C. this fall and especially among the girls. Besides the two dormitories on the campus, the Woman's Building and Howard Terrace, and the cottage and residence off the campus, the college this spring took over Abbott Hall as a dormitory for women. When the requests for rooms began to come in, the housing space was still inadequate. The Collingwood residence on Oakhill avenue was rented by the college last week, and it was still necessary to place twenty girls in approved homes, mostly faculty residences on the campus. Girls who were living at home or with relatives or friends in Lansing or East Lansing were urged not to live at the college. This congestion among the girls is due mostly to the large enrollment, but partly to the fact that it has been necessary to use some of the space formerly occupied for rooms in the Woman's Building for additional class rooms and laboratories. The parlors will be used as a domestic art laboratory, and new parlors are being fitted up on the first floor, extending from the reception room to the north end of the building.

Miss Louise Freyhofer who for a number of years had charge of music at the college has left the college staff and announces that she will accept pupils in piano, theory and harmony beginning September 22nd. Miss Freyhofer will have a resident studio at 360 Evergreen Ave. East Lansing, Mich.

Miss Elizabeth Parker, Health Specialist in the Home Economics Department of the Michigan Agricultural College, resigned August 15, to become Secretary of the Anti-Tuberculosis Society, with headquarters at Lansing. Miss Parker is well known throughout the state, having been connected with the college for three years. During the war Miss Parker did splendid work recruiting nurse for the American Red Cross, and her efforts were especially effective during the influenza epidemic in the S. A. T. C. of a year ago when she took charge of and organized the campus hospital.

"The People's Church—A Most Successful Michigan Experiment in Cooperative Religion" is the title of an article in the Country Gentleman of June 21st, written by Earl R. Trangmar '17. The article tells of the successful work of the college People's Church and its scheme of cooperative religion, and non sectarian common church organization. It tells of the problems that have been met and successfully solved, and of the splendid work of Rev. McCune, '01. The success of the community center both in cash returns and the building of a cooperative spirit among the various communities, is described in detail. The close relation existing between the college and the community church is brought out and the fact that the common church idea will be carried into many rural communities by college extensionists and rural workers.
He entered service April 20, 1917, at Houghton, enlisting as a private in Co. C of the 1st Michigan Engineers. After going to France he was offered an opportunity of attending an officers' training school but preferred to remain with his unit which was about to go into battle. He was cited in orders following the battle of Chateau Thierry and early in August was transferred to the 107th Engineers Train and placed in charge of transportation.

The Croix de Guerre was granted him through his performing successfully a seemingly impossible task—of bringing eleven truck loads of bridge material through an area swept by German artillery fire and a distance of five miles all under observation. In a letter to his mother Capt. Sweet of the 107th Engineers speaks very highly of his bravery and his splendid work as a transportation officer. He further said that there was no doubt but that the severe strain of his work and the trying conditions through which he labored reduced his vitality and made him susceptible to the attack of pneumonia.

King entered M. A. C. in the agricultural course and was in college two years before entering the army. He was a member of the Forensic Society.

Samuel Rothenberg, with '19.

Samuel Rothenberg, with the class of 1919, was instantly killed by a piece of shrapnel at Gressaire Woods August 12, 1918.

Rothenberg enlisted in June, 1917, at Chicago and was in training at Camp Grant, III., and Camp Logan, Texas. He sailed for France in May, 1918, and was attached to the Battalion Headquarters of Co. A, 131st Infantry. It is said by his officers that he had become one of the best map-makers of his regiment. During the heavy fighting of August the regiment suffered many casualties and a call was sent to headquarters—then behind the lines—for men. Rothenberg volunteered to go forward as a replacement and lost his life three days later.

He entered college from Chicago and spent one year in the veterinary course.

**MERK** SMITH '17, HONORED.

Howard G. Smith, "Babe," "Merk," '17, who was the first M. A. C. man of whom we had a record to receive a decoration for bravery, is at his home in Cleveland on a short leave, 1911 E. 97th St., according to a letter received from "Norm" Well.

"He looks 100 per cent better than he did when I saw him in New York last May," writes Norm. "His wounds are coming along fine. Within another two months he should be free from all infection and treatment. He has received two additional decorations. They are the French Legion of Honor and the Palm Decoration of the Croix de Guerre. He has to go back to the Walter Reed Hospital for treatment, but will pull all strings to be in East Lansing on the 16th and Ann Arbor on the 18th."

The men referred to above are seldom given to one man, and no other M. A. C. man has been awarded these honors as far as we know. The French Legion of Honor is the highest decoration in the power of the French government to bestow.

**FACULTY CHANGES.**

Extension Leader Leaves.

Miss May Person, of Lansing, who has been in charge of home economics extension work at the college for over two years, is to do graduate work in nutrition and sociology at Columbia University. Miss Person graduated from the University of Michigan, and later took work at M. A. C. during 1915-17 with the class of '16. Home economics extension work has developed rapidly under her supervision, and women all over the state will regret to hear of her resignation. Miss Edna V. Smith, '03, specialist in household management, who has been in the extension department for three years, will be acting leader until a successor is appointed to Miss Person's position. Miss Smith has been at Columbia University for three months taking graduate work. She has recently been designated specialist in household management.

New State Club Leader for Girls.

Barbara Van Heulen, '10, for over two years assistant to the state club leader, has been appointed assistant state club leader to fill the position vacated by Miss Anna B. Cowles, '15, who resigned recently. Previous to her connection with the club department, Miss Van Heulen taught domestic science in the Grand Rapids high school. Miss Van Heulen is well known all over the state. She had charge of the girls' club work in the upper peninsula last winter and spring, with headquarters at Marquette. As Miss Cowles' assistant, she has had experience in all phases of club work, and enters the new position well qualified.

New Assistant Professor in C. E.

Chester A. Allen of Washington, D. C., has been appointed to fill the position in the civil engineering department vacated by Prof. G. A. Mehlick. Mr. Allen comes to M. A. C. well qualified. He graduated from the Massachusetts Institute of Technology in 1915, and in 1917 received the degree of Master of Science from Pennsylvania College of Gettysburg. For four years he was an instructor and assistant professor of engineering at the Pennsylvania State College, and...
between 1915 and 1918 was head of the department of civil engineering at Pennsylvania College of Gettysburg. His broad practical experience as engineer, draftsman, designer and inspector will make him especially valuable.

In 1918 he was assistant engineer at Amatol, New Jersey, for the Atlantic Loading Co., a large shell loading plant for the U. S. Ordnance Department. Previous to coming here, he was assistant to the production engineer of the Foundation Co. of New York, which expedites the securing of all kinds of material needed in construction or in shipbuilding.

MING LOWE '15, BRINGS CHINESE COLLEGIANS TO U. S.

Ming S. Lowe, '15, Registrar of Tsing Hua College, Peking, China, was at the college on September 24 on a rather unusual mission. He left Shanghai on August 17 with 137 students, whom he is placing in colleges and universities in the United States. A few of these students have won scholarships, but the majority of them have their expenses all paid from the Boxer Indemnity fund. This money, it will be remembered was indemnity money paid by China to the U. S. government at the time of the Boxer Rebellion for damage to American property, and was turned back by our government to China to be used for the education of Chinese students in this country. Tsing Hua College decides who are to come, and one of the officials of the college is placed in charge of the party.

It is significant that eighty-five per cent of the men were electing engineering, and only about ten per cent agricultural students, which makes it allowable to take the work he desires and choose his own college. We asked Ming if he was bringing any men to M. A. C. and he said, "No, I can't say too much about M. A. C. They already think I boost my own Alma Mater too much." He brought 62 men from the Peking University, and one post graduate all of whom were selected through competitive examinations. The regular men take a five-year course and the post graduates three years.

Seven of the party were girls, all but one of whom had won scholarships. This one entered Teachers' College at Columbia University. One graduated from the Woman's Medical College at Peking, and will be intern in the San Francisco Children's Hospital. Two won the Barber scholarship at Ann Arbor, and one had a Rockefeller Foundation scholarship in a Boston hospital. "Ming" will return to China leaving San Francisco on October 18, and take his wife with him. Mrs. Lowe has been in San Francisco since their marriage.

WHAT WILL YOU DO FOR THE UNION MEMORIAL BUILDING?

A Letter to M. A. C. People From the President of the M. A. C. Association.

To the Alumni and Students of M. A. C.:

At the June meeting of the Alumni Association, there was launched a campaign to build upon the college campus a building to be known as the M. A. C. Union Memorial Building. There is at present an association at the College known as the M. A. C. Union. Its members comprise the students, faculty, and college instructors. This association needs a building distinct and apart from regular college work. It is proposed to have in this building distinctive features, such as amusement rooms, reading rooms, a few rooms for visiting alumni, and possibly a club dining hall.

The M. A. C. Union is an organization designed to bring in contact with each other students, alumni and college authorities. It is a means by which the formality of the class room and official relations between students and faculty are relaxed and a more intimate, personal acquaintance-established between student and teacher. The gain to the college will be in the development of greater college spirit and a means of adding the social element to education.

The gain to the students will be suitable recreation in homelike and attractive surroundings.

The Alumni will have a "home" to visit which will strengthen their loyalty and renew their desire to become a greater asset and help to the college.

The idea of a Union Building for the purposes mentioned is not a new one. The members of the Executive Committee for more than three years have favored the plan. The great problem seemed to be to raise the money. During the war, the Government discouraged all building operations not absolutely necessary so the plan was held in abeyance. On November 11th, 1918, an armistice was signed between the Allies and Germany. That date practically ended the great "World War." What is interesting to you and me, is that in that army of nearly two million American soldiers, upwards of 1,400 were M. A. C. alumni and students. Of this noble 1,400, upwards of 42 gave their lives for the cause of world liberty.

Would it not be natural, therefore, that in taking up the plan of an M. A. C. Union Building, these 1,400 heroes and the 42 who made the "supreme sacrifice" should be uppermost in our minds? The plan, when presented to the Alumni at the meeting in June met with such favor and enthusiasm. Pledges in amounts running into thousands of dollars were made by former students, to whom prior to that meeting the plan was unknown. Upwards of $36,000 was pledged within an hour.

Your Executive Committee believes the entire one hundred and fifty thousand dollars can be raised by December 1st, 1920. We realize that many calls are made these times for money. What call is more worthy than this? In addition to the benefits of such a building, in what better way can we show our appreciation of those who fought our battles?

When this building is dedicated I would like to read some such sentiment as this inscribed upon a tablet at its entrance:

"This M. A. C. Union Memorial Building is erected to the honor and memory of our brave boys who gave their lives to perpetuate liberty and justice throughout the world, and to the students and alumni of this college hereby declare that the principles for which they fought and died must not perish from this earth."

If our plan appeals to you, please make out and sign the three notes on one of the following pages of this paper and forward to C. W. McKibbin, Secretary, East Lansing, Michigan.

Give not what you think you can give without sacrifice, but give as you think the cause merits. If it proves some sacrifice on your part, you will be the gainer in the end.

W. K. PRUDDEN, '78.

Lansing, Mich., October 1st, 1919.
THE BESSEY MEMORIAL TABLET.

The Bessey Memorial Tablet, the gift of Dr. P. J. O’Gara, a graduate of the Nebraska University, honoring Dr. Charles Edwin Bessey, ’69, was recently installed on the wall of the alcove on the main floor of Bessey Hall at the University of Nebraska. Dr. Charles Bessey was a graduate of the class of ’69, and father of Dr. E. A. Bessey, head of the Botany department at M. A. C. Dr. Charles Bessey was connected with the department of horticulture here for a short time after his graduation, and helped build the old green-house where the Armory now stands.

The following description of the Memorial Tablet is taken from a recent issue of the University Journal (Alumni Edition) of Nebraska.

"Oak seats are built around three sides of the alcove for those who wish to sit and study the tablet. It stands in full view of all passing up and down the stairs at the east end of Bessey Hall. The tablet was modeled and cast in bronze by Mrs. Elizabeth Tuttle Holsam of Chicago, formerly of Lincoln. The border of the tablet is seemingly but a conventional design, but inspection shows that it is wrought in letters spelling the names of certain plants which have been named after this famous scholar, and in his hand is held the plant Besseya Alpina. Dr. O’Gara, the donor of the tablet is a former student of Dr. Bessey, and is director of the department of agricultural research of the American Smelting and Refining Co.

AGGIES PUT ON PRACTICE BATTLES.

Albion College Saturday.

Wearers of the “green” won a victory over “blue” clad warriors in the practice game at M. A. C. field Saturday afternoon, 13 to 6, being the final score. It was impossible to classify the elevens as varsity and scrubs with Graves, Bassett, Leffler and others opposing Vandervoort, Archer and men of like caliber. The teams were nearly evenly divided and real football was the order.

Scoring for the green came in a bunch in the first quarter. After about five minutes of play Larry Archer intercepted a short pass and went through the entire blue line for a touchdown, leaving it to Hammes to kick the goal, which he did. Shortly after this, after the ball had been advanced to the ten-yard line by line bucks, Springer shot around end, through and between the opposing players and marked up the second touchdown of the game. This time the try for goal failed.

From this point till the last quarter honors were pretty nicely divided with both teams making first down several times in the center of the field only to be held and forced to punt. The final period gave Graves a chance to grab a long pass and the dusky back showed a world of speed and no small ability at broken field running when he carried the ball over the line. His attempt at the kick was low by a couple of inches.

A glance at the lineup of the opposing groups in Saturday’s practice scratch gives an intimation of the calibre of Brewer’s squad:

Green  Blue
Ramsay  L.E.  Gingrich
Coryell  L.T.  Leffler (c)
Vandervoort  L.O.  Leach
Archer  C  Ball
Van Orden  R.G.  Shumway
Franson (c)  R.T.  Miller
Walton  R.E.  Bes
Springer  Q.B.  Noblett
Waite  L.H.  Matson
Davis  R.H.  Graves
Hammes  F.B.  Bassett

Following the practice game on Saturday varsity practice Monday evening was of the tamest variety. Signal practice and a little kicking constituted the entire activities of the huskies. Schwein joined the squad and was worked at half during the signal
THE M. A. C. RECORD.

practice, but whether he will be worked into this department or returned to classes has not yet been decided.

A change of schedule goes into effect today when some of the football must give way to classes. Nevertheless, the field back of the grandstand is all ready for night work and should any hitch in the development of the team for the Michigan game, two weeks from Saturday make it necessary, night work can be started at any time.

Indications from Albion college point to a battle for the Aggies Saturday when they meet the Presbyterianians at East Lansing, for the coaches from the former school are driving the charges in preparation for the game. Barring an accident, however, the farmer gridders should be able to cope with their opening foes, although nothing like easy sledding is anticipated.

The season's schedule is:

Nov. 1—Purdue U.—Purdue.
Nov. 8—South Dakota—Albion.
Nov. 15—Notre Dame U.—Away.
Nov. 22—Wayne—Home.
Nov. 29—All Fresh—Home.
Nov. 27—Wabash—Home.

MINUTES OF SUMMER BOARD MEETINGS.

JULY MEETING.

The State Board, under the presidency of Dr. M. M. McCool of the Soils Department, met at East Lansing, July 18th, at the home of Mr. W. W. Tappan, as chief caretaker for the Physics department. $300.00 was added to the salary of Mr. Teske, who retained his present responsibilities while employed by the college. The Budget recommended by Director Shaw for the Experiment Station was approved, and Dean Shaw was appointed to represent the college at the International Congress of Commissioners of Agriculture which was approved, and Dean Shaw was appointed to represent the college at that congress.

Mr. Wm. J. Kurtz was appointed assistant dairyman, and Mr. I. T. Waterbury was appointed assistant in the Department of Home Economics. It was voted that when the Board adjourned it adjourned to meet at Junction on August 1st.

The following persons were granted the Bachelor of Science degree as shown below: Margaret Emma Holliday, Doro­thy Katherine James, Lida McClure, Jessie Clark, Helen Horden, Viola Lee, Home Economics course; Bert Leonard, S. A. O. S. course; George Spinning, Frank Luther Vaughn, Agriculture course; Harold Glenn Car­row, Machine industry course.

President presented communications from the American Council on Education, the Library and the Board of Trustees, Mr. Lyman, Dean of the Division of Women, presented the conference of the Michigan Game, two years. Pino was lieutenant in the 338th Infantry, and was discharged from the service early in the year. He is now managing the farm back for the Varsity Reserves in 1915. He was recently discharged from the 49th Ordnance Depot Corps. The McCools will live at Cameron, Mo.

PINO-YUTZEY.

Otto Pino, '17, and Miss Beatrice Yut­zey, of Ithaca, Michigan, were mar­ried on June 29th. Miss Pino is a graduate of the University of Michigan, and has been teaching languages in the Tecumseh schools for the past two years. Pino was lieutenant in the 338th Infantry, and was discharged from the service early in the year. He is now managing the farm back for the Varsity Reserves in 1915.

The marriage of Miss Leola A. Hallett, '19, of Hillsdale, and Albert LaFever, '16, and Miss Ellen Sanford, with '18, were married at the bride's home in East Lansing, on June 28th. The bride is a sister of Prof. E. D. Sanford, '14, of the Forestry department. The LaFevres are living on the groom's farm at Jonesville.

LAFEVER-SANFORD.

As for the charges in preparation for the game. Barring an accident, however, the farmer gridders should be able to cope with their opening foes, although nothing like easy sledding is anticipated.

The season's schedule is:

Oct. 4—Albion College—Home.
Oct. 8—Alma College—Home.
Oct. 11—Western State—Normal—Home.
Oct. 18—U. of M.—Away.
Nov. 1—Purdue U.—Purdue.
Nov. 8—South Dakota—Albion.
Nov. 15—Notre Dame U.—Away.
Nov. 22—Wayne—Home.
Nov. 29—All Fresh—Home.
Nov. 27—Wabash—Home.

TAYLOR-NELSON.

The marriage of Miss Leola A. Dunning, with '20, and Vernon B. Redfern, with '17, was solemnized July 19th at the home of the bride in East Lansing. Mr. and Mrs. Redfern plan to reside in Marshall until Nov. 28th, where he has been connected with the state highway department since his return from overseas with the 19th field artillery. After that time they will make their home in Lansing.

Daniel Webster's Decision

THERE come only a few great crises in men's lives. A few great decisions, and the course of a life—for better or worse, for large things or for small—is determined forever.

Such a crisis came early to Webster.

He had struggled up out of the hard conditions of the farm and was reading law in the office of Christopher Gore in Boston.

* * *

One day there came a letter that seemed like a great ray of sunlight. His father wrote him that the clerk of the Court of Common Pleas, back in the home state had died. The Chief Justice had decided to offer the place to Webster.

It carried a salary of $1500 a year.

In great elation he went to Mr. Gore with the letter. And Christopher Gore, wise and successful man of the world, dashed his enthusiasm with a single question:

“You don't mean to accept it surely?” he asked.

The wise few who sacrifice the present for the future.

IN straightforward, kindly fashion he pointed out the truth to young Webster—that the few wise men who make large successes in the world must learn to sacrifice the present for the future.

The fifteen hundred dollars looked large to the young man, but the place that went with it led nowhere.

And Daniel Webster had the wisdom to pass it by, and to make the struggle for larger training that leads to a really worthwhile success.

Comparatively few men in any generation have that wisdom; it is the business of the Alexander Hamilton Institute to discover those men and to put at their command the training that opens the way to commanding positions in business.

95,000 men enrolled

WITHIN the past ten years more than 95,000 men have enrolled with the Alexander Hamilton Institute; a very large proportion of them are college graduates.

They were men who realized that training is the key to large things, and who were willing to invest a little in money and time for the sake of their future.

They have been attracted to the Institute by the fact that it has only one Course; for ten years it has specialized in just one thing—training men for executive responsibility and success. To the man who knows one branch of business it gives the underlying principles of all business; to the man who has special training in one department it provides a grasp of the other departments.

These 95,000 men are the living advertisement of the Institute; the evidence that its Course is worth the investigation of any man who covets large rather than mediocre success.

Send for “Forging Ahead in Business”

If you are a college man in your twenties or thirties or forties, who realizes that the larger prizes in business go to those who prepare themselves to grasp them, the Alexander Hamilton Institute is for you; you will find an appeal in its practical character, and in its fine application of scholarship to business. If you are an older man, to whom young men turn for advice, you owe it to them to familiarize yourself with an Institution that has helped 95,000 men to larger success. A 112-page book has been published to tell the story of the Institute. It is full of interest, and it is free. It is called “Forging Ahead in Business.” Send for your copy today.
