COLLEGE AND STUDENT NEWS.

Dr. Beal has a new horse.

Mrs. Kedzie is in Olivet for a few days.

The addition to Dr. Edwards’ house is nearly completed.

There will be no preaching at the College next Sunday.

Some very nice bevel and spur gears are being cut in the iron shops.

Subscriptions from students, until the end of the fall term will be taken for 25 cents.

A handsome wrought iron lamp stand has just been completed in the College forge shop.

Ed. Clute left today with the Reynolds family, and will spend a month with his friend, Duncan, at Old Mission.

The Botanical Department are pressing and mounting about 100 kinds of grasses and 75 kinds of weeds for use in farmers’ institutes next winter.

Fourth of July at noon the “Salute to the Union” (44 guns) will be fired. There will be no salute in the morning and evening.

There will be no College exercises next Monday so that students can spend the Fourth at their homes. It will be made up on the next Saturday.

Sec. I. H. Butterfield will take control of the Office tomorrow. His family will not come to the College until the house has been painted and repaired.

The five young ladies who are mounting plants in the Botanical Department have been racing to see who can mount the most plants in an hour. Thus far Miss Kathy Clute has the lead with a record of 21 plants an hour; Miss Fay Wheeler second, record 19.

NEWS OF THE ALUMNI.

Chas. R. Winegar, ’92, was on the grounds Wednesday.

John Perrigo, with ’93, who has been straining the rheumatism out of his bones at a St. Louis Sanitarium is spending a few days with his friends at the College.

H. A. Danville, class of ’83, was decomposing water with metallic sodium, in the Chemical Laboratory, when some of the alkali flew in his eyes. No permanent injury will be done.

Invitations have been received to the marriage of Mary Celia McLouth, with ’90 to Arthur Burton Cordley, class of ’88. The ceremony takes place at Brookings, South Dakota.

Prof. James Toumey, ’89, Prof. of Botany and Botanist of the Arizona Agricultural College and Experiment Station at Tucson spent last Sunday with his friends at the College.
A Visit to The Fair.

As nearly all of the College population will visit the Fair at some time during the season, a few suggestions from one who has been there may not be out of place. Do not make up your mind that you will see everything before you return or we shall not have the pleasure of seeing you at the College again this year. Select those departments in which you are specially interested and study them thoroughly. If you have any time left see as much of the other departments as you can.

When you first enter the Fair buy a guide book for .25 cts. and take the Electric car on the Intramural railroad and ride around the grounds. In this way you will get one of the best views to be obtained anywhere.

What will be the cost of a ten days visit to the Fair? That is the question asked by nearly everybody. Of course the expense will depend entirely upon the person. The necessary expense, however, need not be very great. For $2.00 you can have a good room in a hotel, good board, and pay your admission to the fair. If you engage a tent your necessary expenses need not be more than $1.50 per day. Is it best to engage a room in advance? If you don't you may pay double what you would otherwise have to pay. But whether you engage a room before or after you get there, be sure you engage one within walking distance of the grounds. It will be found very inconvenient, especially by ladies, to have to depend upon the cars for transportation to and from the grounds. I know of people who stood for two hours waiting for the cars after the fireworks in the evening. The hotel recommended by the College faculty is very conveniently located, being within five minutes' walk of the fair grounds.

If you find it necessary to take any baggage, give your check to the transfer agent, who will pass through the car before your arrival at the depot. He represents a good company and his charges will not be exorbitant. You will always find it to your advantage to know the price of everything in advance. If you have occasion to employ a hack, know what the charges will be before you get in. Always look at your change. I never saw so many mistakes made in making change as I saw in one month in Chicago.

In conclusion, make your arrangement to visit the Fair if you can not stay more than one week. You can have no conception of the magnitude and grandeur of the Exhibits unless you have seen them personally. It is an opportunity of a lifetime and one which you can ill afford to miss.

Complete line of Sweaters in Black, White, and Tan at 3.00 and 4.00. Wool bicycle hose with linen feet are the kind to buy, and only cost a trifle more than cotton.

Nice line of Summer Vests. Come in and see them.

'T62 Class Reunion.
The class of '62 after a separation of
thirty one years, had a most pleasant
reunion at the home of Mr. Frank
Hodgman at Climax on last Saturday
and Sunday. President O. Clute, Frank
Hodgman, Chas. A. Jewel, and A. J.
Cook were present. Mr. E. M. Puston
of Nevada, California was alone absent
his pressing business engagements as
President of two National banks one at
Nevada and the other at Grossvalley
California, keeping him at home.

It is impossible to express the pleasure
and satisfaction which this first reun-
ion of all but one of the class gave to
the happy participants. Old College
experiences, history made since gradua-
tion, and hopes and prospects were all
topics of fond and long continued
conversation.

The class are all alive, and all but one
are in perfect health. All but one have
written books which in the aggregate
have numbered over 60,000 copies. One
passed unscratched through the war,
from 1862 to the close, where he rose
from private to 1st Lieutenant. They
have eighteen children living, and three
have crossed to the other shore. They
have sent eight students to their Alma
Mater, three of whom will graduate at
the coming Commencement and six
of whom are now in attendance at the
College. Two have done long service
in our Agricultural College. One other
has written a Text book on Surveying
which has been used as a text book at
the College, and a fourth has been twice in a State Senate, where he secured the enactment of a Law founding a State Industrial School, which takes his name.

Not one of them ever touches liquor in any form, and only one ever smokes, and he did not till he was over thirty, when, as he says he was led to the habit by the convivial associations in the Free Mason lodge.

All are active in church work, all but one are Republicans, who believes that if enough others of their fellow citizens had been like minded, we would not have the present stringency in the money affairs of the Nation. All eat well and sleep well, and feel that this is a beautiful world, this a good Country, and life a precious blessed thing.

**Silver Wedding.**

June 23rd. was the wedding anniversary of President and Mrs. Clute. The Ladies of the Campus had been planning a surprise to mark the event. When the date arrived, owing to the enforced absence of President Clute it was decided to divide the surprise. The refreshments were held sacred to the date and were served at Dr. Beal's. The bride received in the same room where she was married twenty five years before. The presents were kept until the return of the President on the 26th. They consisted of a liberal supply of solid silver tea and desert spoons, a beautiful 5 o'clock tea kettle, a Royal Worcester tea-caddy, and a silver tea ball. Besides these were gifts from Lansing and a finely executed water color from Prof. and Mrs. Holdsworth. The reception and gifts were a great surprise to President and Mrs. Clute; they have expressed heartfelt appreciation to their many friends.
Farewell Reception.

On Tuesday evening (the 27th inst.) a charming reception was given by Dr. Kedzie in honor of Secretary and Mrs. Reynolds. The bright rooms were filled with their friends, every one was at their best, under the influence of the genial host and hostess. Dainty refreshments were as daintily served during the evening, good will reigned supreme, while out of doors the moon shone clear over the lovely campus. It was an ideal evening and will be long remembered.

When all had assembled Dr. Kedzie in a kind and characteristic speech asked Sec. and Mrs. Reynolds to accept as a farewell from their friends a bundle of leaves. These leaves were cut from cardboard in the shape of a tulip leaf and had been distributed, each one decorating, painting, drawing or dropping into poetry according to their gifts. All were then bound together within beautiful ornamented covers, and formed a very unique and original volume. Mr. Reynolds thanked the donors in an earnest and sympathetic speech. It is not likely that all will ever again meet together, but this gathering will linger lovingly in our memories, as will the dear friends who leave us. “May goodness and mercy follow them all the days of their life.”

M.M.C.

Shakspere and Bicycle Club Picnic.

About fifty members of the Shakspere Club and their friends picniced at Leadley’s Park last Saturday afternoon. Nearly one half of the number rode out on their bicycles presenting a pleasing sight as they moved along. The remainder of the party went either in private carriages or in the bus that was chartered for the occasion. The Park was reached about three o’clock, and the afternoon spent in boating, dancing and having a general good time. At seven a spring chicken supper was served at the hotel. The supper was much enjoyed, excepting possibly by a few who were unfortunate enough to get a portion of that “veteran rooster of long ago.”

The ride home by moon light formed a pleasant feature of the affair. Never did the hills seem so short and the roads so good and upon reaching home the general verdict was that the afternoon had been most pleasantly spent.
