THE M. A. C. RECORD

VOL. XXVII. No. 2. EAST LANSING October 7, 1921

HEARTY GREETINGS AND HANDSHAKES of returning students, timid looking young men and women pulling heavy suitcases, careening trucks piled high with trunks and long lines before the registration tables in the Agricultural pavilion and before the cashier's window in the secretary's office, are outward signs that another college year is in the beginning. "Have you had a nice summer" is the pass word of upper classmen with "Boy, this campus looks to me like a million dollars" a fitting counter sign. The sixty-fourth year of the Michigan Agricultural College opened Tuesday this week and one is inclined to agree with the effusively expressed like­ness of the campus to "a million dollars." The ashes and maples tinged with yellow and light reds are just beginning their autumnal transformation and the beds of petunias, salvia and canna's, still untouched by the frost, are riots of color. The lawns are the greenest of green due to the early fall rains. It is impossible to believe that freshmen can become homesick in an environment such as the campus gives them this fall.

PRESIDENT ELECT FRIDAY has selected Doctor Bessy's house to be his home on the campus. An addition is to be built in the eastern portion of the house remodeled. Doctor Bessy will live in the old section while the addition is being built and when it is completed will move there while the present structure is being remodeled. The residence is being prepared for President Friday's occupancy on April 1st. It has been definitely settled that the faculty houses other than those occupied by the deans are to be vacated by their present occupants within a short time. The uses to which the other houses are to be put has not been decided upon however. Prof. Taft's house next to the post office building has already been vacated and is being fitted up for a practice house in home economics.

THE FIRST FALL ISSUE OF THE HOLCAD appeared Tuesday, the opening day of college, and simultaneously with it the usual campaign for subscriptions. The student publication has increased in size from four to six pages, one more step in its aspiration to become a daily.

A GREATLY IMPROVED CAR SERVICE between Lansing and the college has been inaugurated beginning this week. It is a happy coincidence that the rebuilding and repairing of the lines could be completed the week before college opens. The College-Washtenaw line, which has been split into two sections during the laying of the new tracks in East Michigan avenue and the paving of that street, is again consolidated into a single line. The cars run from the loop at the college campus entrance the length of East Michigan avenue, over Washtenaw, St. Joseph and Pine streets, over the Olds factory loop with cars every ten minutes up to noon, eight minutes from noon to 9 p. m. and ten minutes from 9 to 11 p. m. Two extra cars will be required to give the eight minute service between noon and 9 p. m. The trip to Lansing now consumes about fifteen minutes.

THE FIRST NATIONAL GREEK LETTER SOCIETY to establish a chapter at the Michigan Agricultural College since the ban was lifted by the State Board of Agriculture is the Alpha Gamma Delta. This sorority is an entirely new organization on the campus and is not a reorganization or a chartering of one of the local girls societies that have existed for years at M. A. C. Installation ceremonies were held October 1 for the branch which is to be known as Chi Chapter. The charter members are Edith O. Brown '23, Port Huron; Margaret Snyder '23, Newport; Eileen Seibel '22, Lansing; Ada G. Wilson '23, Manistique; LaRue Pennell '23, Buchanan; Josephine Spaulding Eddy '23, Hartford. Members of the national organization from Syracuse, N. Y.; Seattle, Wash.; Madison, Wis., and Alle­gheny College, Meadville, Penn, directed the installation. Alpha Gamma Delta sorority is known in southern Michigan thru the service rendered by the sorority summer camp for children located at Wolf Lake near Jackson.

RECEPTIONS AND WELCOMING AFFAIRS for returning and new members of the student body are coming thick and fast this week. Beginning on Tuesday night there was a stag gathering for the men of the teaching staff and the new men students in the Armory, with cider and doughnuts, and some boxing and wrestling exhibitions arranged by Jimmy Dev¬ers. Wednesday evening the Students' Cit­izenship League and the League of the Silver Cross held a joint reception in the People's Church. Thursday an all men's mass meeting is scheduled, and on Friday is the general Y. M. C. A. reception in the gymnasium. Saturday afternoon the student body congregation for the first time on the athletic field to support the team in the fray with Albion and Saturday evening is a Union party in the gymnasium.

THE FIRST ISSUE OF THE MICHIGAN AGRICUL­TURIST, a monthly magazine edited and pub­lished by students in the agricultural division is being printed this week. The Agriculturist is to be a publication for the Michigan farmer, no matter in what specialized line he may be engaged, written and edited by students, with "occasional" contributions from the faculty and other leaders in Michigan agriculture. As such, it is indirectly an organ of the college and will bring the latest messages in agriculture to its readers. L. E. Harper '22, of Middleville is editor and G. S. Gill '23 of Ypsilanti, is business manager.
"The local association, often a loosely organized group, meeting in a desultory way once or twice a year, may be transformed into an energetic organization and a constructive force by accepting some worthy mission. Alumni organizations, like human muscles, become flabby when not exercised."—D. C. Mathews, Western Reserve University.

The sixty fourth year of the Michigan Agricultural College opens with a new President immediately in view, a new science course established which in years come will be considered a mile stone in her history, and a student body considerably larger than she has ever before known. It is the first year of an enlarged home economics course and the second chapter of the revised and broadened engineering curricula. A new and progressive member has come into the State Board of Agriculture.

Prospects in athletics are looking up. Football starts very promisingly with Mr. Barron in charge. Coach Barron makes an impression that is wonderfully favorable and the fifty or more splendid freshmen candidates promise much for the Green and White in future years.

One cannot fail to note a new and brightened atmosphere about the campus. A better feeling prevails among students who have witnessed their numbers so augmented on registration day. A much better spirit is as surely detected in the faculty where each has a new vision of the M. A. C. of the future and is looking forward to a new leadership and a new era of progress.

So evident is the advancement, so auspicious is the outlook that it should put new faith in M. A. C. into the hearts of M. A. C men and women.

There will be an unanimous expression of approval among alumni at President Friday's choosing to live upon the campus. The old Dr. Beal residence now occupied by Dr. Bessey is being remodeled for his occupancy in April.

Much has been said particularly by the older group of former students of that personal and sometimes almost filial relationship that has existed here between President and students when the President has lived in the midst of the college community. True that the occasions of some of these personal intimacies have not always been under circumstances most auspicious or entirely of the students' choosing either as to time or place, yet from all of them good has come, a lesson, the truth of which still clings, or an incident the memories of which have grown fonder as the years have passed.

There have been times in years gone by when the president's house was the center of campus social life and when its hospitable reception room was always open and welcoming groups of students and faculty. It was under such conditions as these we dare say, that some of M. A. C's most effective work has been done both by teachers and students and, that inspiration has been given those who are now strongest men among our graduates. We may look forward to a return of that closer, homier relationship among the college family with the president's home in its midst.

The selection of the Dr. Bessey house for President Friday will alter the aspect with regard to the location of the Union Memorial Building somewhat, although the exact site for the building had never been definitely decided upon by the committee. Among the suggested locations which will undoubtedly receive greatest consideration is the higher ground north of and across the road from the Bessey house on the site of the houses now occupied by Dean Shaw and Prof. Johnston.

The Michigan Agriculturist, the initial venture of the Agricultural Club in an agricultural publication shows to the public this week. A bright good looking magazine of sixteen pages, it presents timely illustrated articles on agricultural subjects. Dean Shaw has contributed an article entitled "A Bright Future for Michigan's Agriculture" in the first number.

Many other agricultural colleges have had their agricultural magazines for a number of years and M. A. C men's dreams of such a publication are realized with this year's undertaking of the Ag Club. As a contemporary on the campus, one that will spread "the word of M. A. C. in many directions where it is needed, one that should extend her usefulness in agricultural practice and teaching, we welcome it as it takes place among other campus publications and wish it many prosperous years of service and helpfulness to the students who are to be its editors and its readers, Michigan's agriculturalists.
Agricultural Hall, through whose doors to body of entering students M. A. C. has ever the College Registrar have passed the largest known.

Ann Arbor Alumni Prepare Welcome for M. A. C. Folk at Michigan Game.

That the Washtenaw M. A. C. Association is alive and ready to seize every opportunity to further the interests of M. A. C. is shown in the following letter.

Here is an excellent example of alumni pep. More power to them!

Secretary, M. A. C. Association,
Dear "Mac":

It's about time for the annual pow-wow over the Michigan game, and right here is where the Washtenaw M. A. C. Association has decided to get busy. This year we want M. A. C. students to really meet Michigan students and become better acquainted than ever before. Of course we realize that M. A. C. can't be beat for an Alma Mater, but Michigan has some fine points after all, and we aim to expose them.

With this purpose in view the Club wishes to extend to all M. A. C. men the privileges of the Michigan Union. The dining, bowling, billiard and other house facilities will be completely at their disposal the morning and afternoon of the game, October 15th. This has been arranged thru the courtesy of the Union officials. Incidentally here is a fine opportunity for the student body and alumni to study the benefits that would accrue from a Union at M. A. C. It is partly with the Union campaign in mind that I wish the invitation to be extended.

To all M. A. C. women of the student body, faculty, and alumnae the women of the Martha Cook building wish to extend a very cordial invitation to attend an open house in their honor the morning and afternoon of the Michigan game. An invitation to this effect is being forwarded to Dean Savage.

Will you thru the columns of the Record give these invitations, especially to the alumni. I am writing the editor of the Holcad to extend the invitation to the student body.

With hopes of a great game, and my best regards to you personally, I am

Harold A. Furlong w'18.
Pres. Washtenaw M. A. C. Association,

Enrollment is Largest Ever.

This week has seen the enrollment of the largest student body ever entering M. A. C. On Wednesday evening the total number entering was 1760. At the close of the first day of registration 1625 students had been signed for entrance. Thus far the number is 210 more than the largest total enrollment in the fall term, that of 1915 being 1550 students. As the Record goes to press the final figures on the total enrollment are not available but it is predicted that the number will be well over 1800.

The freshman class is the largest ever, 595 having been received the opening day. It is possible that the total may reach close to 700. Of this number engineers were in the majority with 210 entrants, ags next with 162, home economics 130, applied science 82 and vets 11. The ag enrollment is usually swelled by delinquents. Total figures for the enrollment in each department will be given next week.
Alma Beaten, 28-0.

Showing lots of potential defensive power and an offense which could gain ground when the men were working, the varsity won a 28 to 0 victory from Alma College last Saturday. The game was erratic, as opening games are likely to be, and it was apparent that the Aggies did not travel at top speed all the way. Had the attack with which the game opened been sustained, the score could well have been much larger.

It must be admitted, however, that Alma put up a more stubborn fight than was expected. The Gratiot county men showed a well-balanced lineup and offered by no means "set-up" opposition. They fought hard on defense, and turned loose a deceptive forward passing game which threatened to score in the third quarter, at which time the varsity seemed to have let down badly.

The opening touchdown came soon after the whistle, a forward pass from Noblet to Gingrich bringing the ball over. Long end runs behind effective interference carried the ball the length of the field quickly, Graves, Johnson, Wilcox, and Noblet all taking turns on the offensive.

The second quarter found the varsity able to push over two more touchdowns, Graves counting both times. Powerful line smashes by the big fullback were largely responsible for advancing the ball into Alma territory, the visitors' line seeming unable to stop his rushes. Wilcox and Noblet also looked good in the open field during this period.

Alma staged a dangerous rally in the third quarter. Weakened somewhat by the withdrawal of Captain Bos and Noblet, the team slowed up materially, giving the visitors a chance to carry the ball down to the five yard line on forward passes. A great stand here stopped a score, however, the ball going over on downs.

From this point the varsity started another sensational offensive, beautifully executed end runs advancing into Alma territory quickly. Wilcox went over for the score, after a clever open field run. Wilcox also kicked all four goals after touchdown, bringing the total count to 28.

Both of these failings can be overcome by work, however.

Captain Bos, Matson, and Parks played strong games in the line, each handling his opposition with apparent ease. Gingrich and Temple played good games at the ends, although inclined to be a trifle erratic in their defensive play. In fact, the whole line seemed to possess ample power and handled the lighter Alma forward wall without trouble. Big holes were opened for the backs on most plays.

Michigan Game Forecasts.

Interest among Michigan Aggies everywhere will center this next week in the annual Michigan game at Ann Arbor on October 15. This contest has become one of the classics of the West and is looked forward to by thousands of college men, even outside the M. A. C. family. Naturally the question of the Aggies' chances of bringing home a victory is uppermost.

Our varsity this year is unquestionably strong. The backfield has well balanced offensive ability, while the line presents a dependable defense and has shown itself able to open holes for its own backs, in the early games, at least. There are few outstanding stars on the squad, but it looks as though eleven men who can put up a really high class game will be ready to take the field against the ancient rivals at Ann Arbor.

The big weakness of the squad lies in its limited number of first string players. Even two or three injuries would probably prove disastrous. Coach Barron has about fifteen dependable men. Beyond this list the reserves are so inexperienced as to be of little value at this stage of the season. Numerous sub-
Captain Johnnie Bos, Varsity Leader.

sitions would be impossible, if the team was to retain its strength.

These facts are not given in an effort to provide an "alibi" for possible defeat at Ann Arbor. We are not contemplating any such result, for we know that a fighting team of Aggies who know the game thoroughly will carry the colors of Alma Mater when the whistle blows on Ferry Field. Our personal notion is that Yost's men are due for the surprise of their lives on the fifteenth, in spite of the fact that they are being picked as probable winners of the Western Conference championship this fall.

Barron has built up a real football machine, and it is not at all probable that the comparatively easy Michigan victories of the last two seasons will be duplicated. There will be a great battle at Ann Arbor on Saturday of next week. Two of the best teams of the West will fight it out for honors, and Michigan Aggies in the stand will have plenty to cheer about all through the sixty minutes of play.

Remember that reserved seats may be had directly through the M. A. C. athletic office until the day of the game. Director Brewer will take the remaining seats in the Aggie stands to Ann Arbor on the fifteenth, where they will be for sale at the gate.

Albion on College Field Saturday.

Albion College sends her football team to College Field on Saturday, October 8, for the last of the early season games. The Methodists are reported to be unusually strong this fall, and it is probable that the varsity will have to play football all the time in order to run up much of a score. In fact, it would not be surprising if the visitors put up a determined fight for the victory itself.

George Miller, varsity coach at Missouri University last year, is handling the Albion squad.

A Cheer from Dr. Beal.

July 13, 1921.

C. W. McKibbin,

I congratulate you publishing the largest and best M. A. C. Record ever. Thirty-two pages. To be sure you were furnished with an extraordinary assortment of fine copy. I hesitate to specify when there are so many that are first class, but I cannot help complimenting Harold Furlong for his speech concerning a Memorial building; remarkable in text and in manner of presentation.

Among those present, James H. Gunnison and J. W. Gunnison were present also at the inaugural ceremonies May 13, 1857, more than sixty-four years ago.

As ever,

W. J. Beal.

UPON THE RESIGNATION of Mr. Charles F. Schneider '85 from the Grand Rapids Weather Bureau, the center of the Michigan Climatological Service was transferred from Grand Rapids to East Lansing. This means an increase in importance of the Weather Bureau Station on the College Campus, which is under the direction of D. A. Seeley '98. The one hundred and twenty-four Cooperative Observers and a corps of Crop Correspondents scattered throughout the state, will hereafter make their report to the East Lansing Station, so that records will be immediately available for references by the college departments in connection with the spread of plant diseases and injurious insects, the development of crops, etc. Weekly reports on the influence of prevailing weather conditions on crops will be made during each growing season and monthly and annual climatological reports published by the local station. Two assistants have been added to the local office force to help with the new work.
"My Trip to Scotland"

By Prof. Thomas Gunson.

Prof. Gunson has such an interesting story to tell of his trip to his old home in Scotland and that most remarkable of world conferences, the international Rotary convention, at Edinburgh that we have asked him to present it to his many friends among the alumni. Prof. "Tom" said there was too much to tell to get it all into one number, so it is being printed in two, the first this issue, the rest next week.—Ed.

At the February meeting of the State Board of Agriculture the writer was granted for the second time in twenty years, three months' leave of absence. This second leave was to begin June the first of this year. We resolved to spend this vacation period in Scotland, England, Ireland, Belgium and France.

I was appointed by the Lansing Rotary Club its delegate to the twelfth international convention of Rotary Clubs to be held in the city of Edinburgh, Scotland the week of June thirteenth. Delegates to the number of over twelve hundred had been appointed from every state in the Union besides Cuba, Canada, Hawaii and the Philippines. Twenty-five nations in all were represented at the convention. Two or three weeks previous to the date of sailing the New York Rotary Club invited us to a complimentary luncheon to be given at the Hotel Waldorf-Astoria at 12 o'clock on May 30th.

Owing to difficulties regarding passport regulations it was necessary to be in New York four days previous to date of sailing. We arrived there on Friday the 26th of May. Through the courtesy of the Reo Motor Car Company a new Reo Six with an expert driver was placed at our disposal during our stay in New York. This was one of the greatest pleasures of our trip, for to see New York in the month of June under such favorable circumstances was indeed a luxury.

Rotary arrangements had cared for baggage and by five o'clock on Friday, we had completed all transportation, passport and income tax matters so that we took an evening train to Kingston, R. I. where we spent Saturday and Sunday with President Howard Edwards, Professor of English Language and Literature here for sixteen years, and his family.

The following Sunday we went with Dr. Edwards to a historic Congregational Church in one of the cleanest manufacturing towns in New England, known as Peacedale. It may cause a smile of memory to come over the faces of some of the East Lansingites to say that the topic for the discourse was "This the Day the Lord Hath Made."

On our return to Kingston we were delightfully entertained at dinner by Mrs. L. L. Peppard, who spent several years at M. A. C., first as a student and instructor, then professor and finally as Acting Dean of Women.

On our return to New York we had a pleasant visit with Miss Mary Allen, class of '09, who is a successful contralto singer and who sings regularly in one of New York's biggest churches.

On Tuesday I was one of the twelve hundred or more delegates who attended the Rotary luncheon at the Waldorf-Astoria while the ladies attended a theater party also as guests of the New York Rotary Club.

The guests at luncheon were seated in tens at circular tables and during the meal I was delightfully surprised and pleased to find that one of the men who sat near me was Hugh P. Baker, class of '01.

After the luncheon letters of good wishes were read from President Harding, the Governor of New York, and several other distinguished personages.

The Lieutenant Governor of New York and the British Consul spoke at length. They expressed the hope that so large a representation of professional and business men in America would tend to a better understanding among Anglo-Saxon peoples and hasten the dawn of international amity and universal peace. This thought was the keynote of the convention and was expressed on every hand and included in the messages of King George and the President of the French Republic, which were read at the convention.

Noon of next day found us on the deck of the Cameronia ready to sail. The New York Rotary Club had thoughtfully provided us with flags which we waved vigorously to the people on the dock and they responded just as heartily. The music from two bands added to the spirit of the already jubilant audience who were enjoying the novel experience to the full, but there was bound to be a sober undercurrent of feeling as we watched the shores of the homeland gradually disappear from view.

Space will not permit us to mention the activities on shipboard, the athletic contests, the social features, the music, the meetings of the Rotarians, for purposes of discussion and interchange of ideas, the meetings of members of the Masonic Order and the gathering of the clans for the purpose of singing Scotch songs.

On the tenth day we had our first view of land—the Emerald Isle, rightfully named for the shore where we approached was green to the water's edge. The well tilled fields spread out over the hillsides like a patch work quilt with the pieces set together by green hedgerows, and the white farm buildings with their red tile roofs nestling among the trees made a
scene so restful and so beautiful it was difficult to believe Ireland is anything but the quiet, peaceful place she appears to be.

The evening of the tenth day we dropped anchor in the Clyde just opposite the city of Greenock where some of our relatives had once lived. A number of battleships from the British North Sea Fleet were anchored near us and among them the Lyon, Admiral Beatty’s flagship.

The beauty of this particular spot is almost beyond description. The piles of old lumber and debris, the weeds and tumble-down buildings that mar many a shore in America that would be otherwise beautiful, were conspicuous by their absence. The well-kept grassy bank sloped gently to the very water’s edge. The houses were all of stone or brick, red or gray in color, with blue stone trimmings and very substantially constructed. The many chimney pots on the roof indicated the plentiful supply of fire-places within. Thickly wooded hillsides sloped back from the shore and the houses nestled at their feet or peeped out from among the foliage along their sides.

Early the next morning the incoming tide helped us to get up into Glasgow proper, after we had passed through miles of ship-building yards. The dock at Glasgow was decorated with many flags, conspicuous among which were the British, the Scotch Standard and the American, twined together.

A “kilty band” met us at the dock. The Glasgow Rotarians greeted us most cordially and their ladies presented us with bouquets of flowers among which were sprigs of heather and boxes of bonbons. Our reception by these old world folks was certainly all that could be desired.

(To be concluded next week.)

**ALUMNI CLUBS**

**Macomb County Proposes Association.**

It appears that M. A. C. people in one locality can get along for a long length of time without wanting to organize themselves and be of some service to their Alma Mater. It is well. Now comes Macomb County forward proposing an association. William Murphy ‘16, County Agent, is among the agitators and is taking steps to organize an association in Mt. Clemens or for Macomb County. An announcement of the organization meeting will be given very shortly.

“Start Early” is Slogan of Calhoun Club.

Alumni and former students of Battle Creek and vicinity are planning a get-together Wednesday, October 19, in Battle Creek. The exact time and place have not as yet been mentioned but will be announced in an early issue of the Record. The Calhoun County Association was organized during the past winter and that it is anxious to be up and doing, is indicated in the early start it is making this fall.

**Detroit Club.**

The Detroit column has not arrived as we go to press, but we know that the attention of Detroit men must be drawn to the fact that Michigan Game seats for Detroiters may be had from G. V. Branch, 633 Municipal Courts Bldg., and S. B. Lee, 605 Lincoln Bldg. The joint Michigan-M. A. C. Smoker for Oct. 14 has been called off.

**Ionia Summer Meeting.**

Dear McKibbin:—

The Ionia County M. A. C. Alumni Association met at Hotel Divine in Portland Friday evening, Sept. 16th. A chicken dinner was served to twenty-nine alumni and friends. Nearby every community in the county was represented. Norman O. Weil of the college gave a talk and Mr. Stanley Powell was at his best in his introductory remarks. Miss Kling presided at the piano, playing a solo and later accompanying Plummer Snyder who sang “Until.” Mr. C. I. Goodwin pictured the college campus of ’74-’77 and Hazen Hines called attention to the Ionia County Club at M. A. C.

The new body of officers was elected consisting of the following members: Mr. C. S. Langdon ’71 of Hubbardson, President; Mrs. Park Wilson ’87, of Ionia, Vice-President; Dean Tyler of Portland, Student Vice-President; and H. J. Wheeler ’13, of Belding, Secy-Treas.

Those present were:

Mr. and Mrs. C. I. Goodwin ’77, Ionia; Mr. and Mrs. A. R. Locke ’01, Ionia; Mr. S. F. Gates ’03, Ionia; Ida M. Catt, R. D. No. 3, Ionia; Carolyn Ellsworth MacGregor ’09, Ionia; W. A. Wood ’12, Ionia; G. C. Edmunds ’17, Ionia; Plummer Snyder, East Lansing; N. O. Weil ’17, East Lansing; Iva Jensen ’18, Ionia; Hubert Reeves w’19, Smyrna; Lester Hubert w’19, Smyrna; Stanley Powell ’20, Ionia; Mark A. Johnson ’21, Ionia; C. Louise Kling ’22, Palo; Judith Thumanns ’22, Ionia; Fred H. Bunnell ’23E, Ionia; Cha. Bailey ’24A, Ionia; Hazen Hines ’24E, Ionia; Dean Tyler ’24, Portland; C. Edward Johnson ’22, Belding; Lucile Reason MAN; and H. J. Wheeler ’13 of Belding, Secy-Treas.

I want to say that we who were in office at the starting of this association feel our efforts well worth while and thank you for the big aid in it too. Hope it will go on and believe it will.

—William A. Wood ’12, Secy-Treas.
Many Changes in the Departments.

Each year witness a number of changes in the personnel of the teaching forces of the college, but this fall, because of the new courses and the many alterations made in existing courses there seem to be many more changes in the staff than usual. Only a brief summary is being given here in the hope that later the work of the departments may be presented at some length and the new professors appropriately introduced to alumni along side their pedigrees and life history.

SOILS

Mr. Millar has gone to Wisconsin for a ten months' graduate study in soils. L. C. Wheating '16 will take over the research work of Mr. Millar during his absence.

J. O. Veatch of Missouri is here doing field survey work in cooperation with the college and the United States Department of Agriculture. He is now located in Ontonagon County in the Upper Peninsula.

Professor J. M. Grantham, for the past few years connected with the extension department of the soils division, will do instruction work this winter.

C. W. Simpson '15, who has been connected with the soils department since graduation, has resigned to take up county agent work in Ridgeway, Illinois.

A. H. Joel '19, will take over the work of Mr. Simpson. This includes both teaching and experiment station work.

Doctor P. M. Harmer who took his regular college and doctor's work at the University of Minnesota, comes here from the University of Wisconsin to take charge of work in soils. He will do extension investigational work and teaching, and will give a course on muck soils, the first of its kind in the country. Michigan stands second among the states in the number of acres of muck soil and a great deal of interest is being developed among the farmers of the state in this phase of farming.

BACTERIOLOGY

Dr. H. J. Stafsseth '17, who has had leave of absence for a year, returned in July to take charge of veterinary bacteriology, research and miscellaneous diseases. Doctor Stafsseth has been in Norway for the past year in the employ of the Norwegian government in a position corresponding to State Veterinarian. He has been doing work in the control of infectious diseases.

Frank Davenport, Massachusetts Agricultural College '21, came July 1 to take over the work of Doctor Robert Snyder '14, with bacterial cultures for legumes. Doctor Snyder is now doing the work of Zac Northrup Wyant '06, in Soil Bacteriology. Mrs. Wyant left the college on July 1 and is now located at 221 Washington Avenue, Greenville, Ohio, with her husband, Royce Wyant '16.

BOTANY

Doctor Hibbard will do graduate work in Plant Pathology at Johns Hopkins University during the coming year.

SHORT COURSE

The increased enrollment in the short courses has made it necessary to have the director a full time college employee. At the July meeting of the State Board of Agriculture, E. B. Hill '15 was made director of short courses in addition to his work as assistant to Dean Shaw. A. M. Bertridge '12 will continue to spend four months of the year in short course work as assistant director.

HOME ECONOMICS

Thru recommendations of Miss Sweeney, the home economics department will no longer be divided into two divisions, Household Science and Household Art, but all courses will come under the head of Home Economics.

With the changes in courses which were made last spring the girls will now be offered a choice of a course in technical Home Economics of general Home Economics. The technical course does not differ materially from the work which has been offered in the past but the general course allows more choice in languages, English, history and economics, and does not require so much science or technical work.

Mrs. May Person Kirby is to return as Assistant to Dean Sweeney and to conduct nutrition clinics.

Bess Frazer '11, is staying at home in California because of illness in her family. She will teach in San Diego. Josephine Hart '12, who has been her assistant is now in charge of Home Economics teaching. Miss Garrison will assist Miss Hart.

Miss Hilda Faust, for two years Professor of Household Science is doing graduate work in Columbia, but it is expected that she will return in February.

Miss Cecil Van Steensburg, professor of millinery and textiles for two years, is also doing graduate work in Columbia.

Miss Sprague has been given charge of Club C under Home Economics department management.

Miss Irma Gross is to have charge of Practice House, and teach Household Management.

MARRIAGES

DEVEREAUX-MAT00N

E. Denell Devereaux '21 and Mildred Matoon '20 were married August 20 at Corunna. Mr. Devereaux is employed with the State Highway Department in Lansing, and Mrs. Devereaux is teaching in Corunna where she may be addressed at Box 243.
### NEROCLOGY

**John Havington Jones, Jr., with '07.**

John Havington Jones Jr., with the class of 1907, was killed on September 21 in Miami, Florida. He was superintendent of construction for the Western Telephone Company of Miami and he was electrocuted while directing his men in some repair work.

Jones entered M. A. C. as a sub-freshman and became famous in his sophomore year for the invention of a hydrogen-sulphide machine which was installed under the floor of the Armory and intended to put to riot the juniors assembled for their annual J-Hop. The machine was discovered by the juniors before it was given an opportunity to operate. Jones was dismissed from college for the offense but later because of the ingenuity he displayed in the design of the machine and the cleverness of its construction and operation, he was invited to return to college. By that time however, he had entered Purdue University and remained there until graduation. For his invention and installation of the hydrogen-sulphide gas machine he was known to practically every student in college at that time. He leaves a widow, formerly Miss Cora McCool of Lansing, and five children.

### CLASS NOTES

<tr>
<td>2023</td>
<td>Charles Garfield</td>
<td>206 Burton St. S. E., Grand Rapids, recently sent in on a blue slip, &quot;Barton Farm has disappeared, and in its place is a part of woods and residences.&quot; My domain is reduced to a house known as 'Restful Roof' and two lots. My horticulture is pursued in diminuendo. My forest has passed into the possession of the City. Journalism has been eliminated and while still in the banking field it is an anchorage and my chief interest is city planning with able associates who do most of the work. Mrs. Garfield and I are moving smoothly along life's decline and each day is better than any previous one. It is real fun to be an 'Old fellow' even with the inevitable limitations. It is quite natural to lapse into reminiscences but only for purposes of comparison. The 'good old times' will not compare with the present or the future outlook and the world never looked so good to me as now, but whether good or whether bad depends on how we take it.&quot;</td>
</tr>
<tr>
<td>2022</td>
<td>H. S. Hackstaff</td>
<td>is moving from his old home to Hermosa Beach, California, where he has built a home and moved into the Pacific Ocean. His office address is 1331 Central Ave., Los Angeles.</td>
</tr>
<tr>
<td>2021</td>
<td>Frederick C. Davis</td>
<td>Managing Engineer for the Gladding, McBean Terra Cotta Manufacturing Company, lives at 515 Buena Vista Ave., San Francisco, Calif.</td>
</tr>
<tr>
<td>2020</td>
<td>A clipping from a Seattle, Washington, newspaper tells of the election of E. F. Weil of Beaverton, Oregon, as President of the Pacific Coast Association of Nurserymen at their annual convention held in July. The sessions were attended by 132 delegates from Washington, Oregon, California, Idaho, Utah and British Columbia.</td>
<td></td>
</tr>
<tr>
<td>2021</td>
<td>L. G. Barber</td>
<td>says he is at the same old job that he has had for the last eight years, designing printing presses for the American Type Founders Company. He resides at 131 North Euclid Ave., Westfield, New Jersey.</td>
</tr>
<tr>
<td>2021</td>
<td>H. Arnold White</td>
<td>1810 Commonwealth Building, Pittsburgh, Pa., is special agent for the Pittsburgh Fire Insurance Company. He says that &quot;B. F. Bain '90, W. M. Hallock '96 and myself are still main attractions at the Western Pennsylvania Association meets, luncheons at Kaufman and Baurer's, second and fourth Tuesdays of each month.&quot; He concludes &quot;yours for a bigger school, a larger attendance, and a more glorious year than in all the brilliant past.&quot;</td>
</tr>
<tr>
<td>2021</td>
<td>J. W. Perrigo</td>
<td>has been in South America with the John S. Metcalf Company of Chicago since February. He can be reached at 639 Maipu, Buenos Aires.</td>
</tr>
<tr>
<td>2021</td>
<td>Major Mark L. Ireland</td>
<td>and Mrs. Ireland (Irema Thompson) now live at 87 Pleasant St., Wakefield, Mass.</td>
</tr>
<tr>
<td>2021</td>
<td>H. K. Patriarche</td>
<td>is now living at 32 Banks St., Waltham, Mass.</td>
</tr>
<tr>
<td>2021</td>
<td>J. F. Loop</td>
<td>requests us to change his Record from Mail addressed to H. Ray Kingsley at 1045 Rookery Building, Chicago, has been returned. Can anyone give us any information about his whereabouts?</td>
</tr>
<tr>
<td>2021</td>
<td>Fred L. Johnston</td>
<td>has &quot;put his John Henry on the line&quot; and joined the Association. He is a mechanical engineer with the E. I. DuPont de Noms and Company of Wilmington, Delaware, and lives at 531 West Edgemont, Del.</td>

</tbody>
</table>
of the Detroit Gas Company returned to Detroit on September 1, to become vice-president of Campbell & Trump Company, one of Detroit’s most aggressive advertising agencies. Mr. Fowler returns to the city from Dayton, where he has been assistant sales manager of the Delco Light Company.

Harry Moon’s latest address is 4526 North Griffin, Los Angeles, Calif.

Maurice F. Johnson tells us to “please announce to the world at large that myself and family are enjoying a new daughter, Mary Alice. She was born August 6, since when I have been busy with family affairs. I hope to see most all of the M. A. P. people over here about October 15 and I hope no one will have to go home disappointed but we all have some very strong players on our team.”

A post script down in the corner of the page says “Do you think it would be all right to suggest a bet? Say a pic or something?”

W. E. Piper is Plant Manager for the General Motors Export Company, general offices at 224 W. 57th St., New York City. Mr. and Mrs. Piper (Alma Kenyon w’69) and their two children are at home at New Canaan, Conn.

Emma Danforth Wilson is High Priestess of the Jofn Shrine Order of the White Shrine of Jerusalem.

Fannie E. Beal now lives at 933 Congress Street, Ypsilanti.

Mail reaches D. H. Shannon at 2048 Seward Ave., Detroit.

“Nels” B. Hubbard, 206 Blaine Ave., Detroit, writes: “That he is ‘still on the Masonic Temple plans although we have slipped in a couple jobs ‘successful’.”

“Chun” C. Taylor is manager of the Insecticide Department of the Chemical Company and lives at 224 E. Park Drive, Midland, Mich.

R. Z. “Red” Hopkins is Plant Superintendent of the Hudson Motor Car Company. He lives at 2596 Hermitage Ave., and Mr. Hopkins recently joined the Association. Welcome to our midst!

Winfield Spratt is now teaching Smith-Hughes Agriculture in Aurora, Nebraska.

E. G. Forbes is now at 385 Jackson St., Seattle.

Washington’s “Maggie” Wandell and Mysie Bennett Wandell live at 653 Griswold St., Jackson, Mich. Misses Wandell is still with the Greenlee Bros. & Co., doing sales and advertising work. He lives at 1107 Harlem Blvd., Kenmore, New York.

Charlie B. Tubergen is at 706 First Ave. North, Minneapolis, Minn.

W. (“Foss”) Applin is still chief engineer of the LaFayette Motors Company, Mars Hill, Maine.

L. G. Conway is with the Conway Landscape Co., doing fine.

Lee M. Hutchins is Plant Pathologist located, in Landscape Art at Cornell, having one more year to complete before receiving his degree. He and his family are living at 631 Park St., Royal Oak, Mich.

Edward K. Sales recently moved from East Lansing to 193 Leslie St., Lansing, and is continuing work with the H. J. Heinz Company at Albertville, Alabama, and is now located at Sparta, Wisconsin with the same concern.

J. A. Berry has left St. Elizabeth’s Hospital at Youngstown, Ohio, and has taken the position of instructor in Bacteriology at the Ozark Agricultural College at Corvallis.

E. G. Hamlin is a forester with the John Scheeder Lumber Company and located at 28 High St., Ilion, New York.

My friend A. R. Moon is still doing graduate work in Landscape Art at Cornell, having one more year to complete before receiving his degree. He and
Mrs. Bottomley (Esther Parker '17) are living at 209 Delaware Ave., Ithaca. He visited the campus Sept. 7 just before returning to Cornell for his year's work.

J. Van Buren has moved to 922 Prince St., S. E., Grand Rapids, Mich. Mr. Van Buren is engineer for the garden, cemetery, and cemetery work. He is now living at 922 Prince St., S. E., Grand Rapids.

C. M. Lescell is assistant in Rural Education Department at Cornell University and is also doing graduate work in that department for Masters Degree. He lives at 208 Delaware Ave., Ithaca.

Rose Hogue, 1029 S. Franklin St., Mt. Pleasant, is beginning her third year as head of the Home Economics Department at the Central Michigan Normal. Miss Hogue was acting Dean of Women during the summer term.

Earl Spencer has accepted a position as instructor in the civil engineering department at the University of Nebraska and is living at 121 North 10th Street, Lincoln.

Martin Devine is handling power plant equipment in Grand Rapids.

A. H. and Marion Leonard ('15) Atzenhoffer are "still weathering the storm in the same shelter as formerly" and he is with the same company working harder than ever to convince customers by the quality of the American Hard Rubber Products "that they are the best in their line."

W. K. Makemson has accepted the position of Extension Plant Pathologist and Entomologist to the Agricultural Extension Division, University of Florida and after October 1 may be reached in the care of the State Experiment Station, Gainesville, Florida.

Glenn Hobbs, Deerfield, Illinois, says that "fields, cows, horses, tractor and things in general on the farm keep me out of mischief most of the time while our second daughter, Dorothy, keeps things happy in our home. Dorothy arrived July 1."

Gerald Goss has secured a position as Tractor Salesman at the Standard Auto Company of Grand Rapids. He is still operating his fruit farm at Byron Center.

Leo R. Stanley moved to Benton Harbor July 1 where he will teach agriculture in the high school.

Arnold Olson asks us to "please forward the Record to White Sulphur Springs, Montana." He is now working through Yellowstone Park for the second time.

V. C. Taggart, Mrs. Grace Bryant Taggart '16, and son Ralph have moved their residence to 441 Lawns Avenue, Western Springs, Illinois.

Gideon Smith sends the news that he has moved from Princess Anne, Maryland to Hampton Institute, Hampton, Virginia.

Willis D. Kimmel and Orena Caswell Kimmel '17 have moved to 706 South Tenth Street, Norfolk, Nebraska.

Lou E. Butler is now visitor with the Social Service Bureau at Lansing.

Mrs. Karl Kinsey (Mildred Force) is moving from Lansing to Washigame, Michigan.

Hazen P. English is grain supervisor for the U. S. Department of Agriculture with offices at 720 Woodmen of the World Building, Omaha, Nebraska.

Maurice V. Carnody is assistant district engineer with the State Highway Department at Kalamazoo and lives at 715 Lay Boulevard. Carnody recently joined the Association.

Amy E. Briddich has also joined the Association. She is a librarian and lives at 120 Bridge St., N. W., Grand Rapids.

Grover C. White and Mrs. White (Ethelyn Hudson '00) are living at 115 Pearl St., Dandridge, Michigan, where Mr. White is superintendent of schools. Scottville is now the residence of Glenn Quick.

Amy Gunn Pearson extends an invitation to all M. A. C. friends to visit her at her home at Onaway.

A. J. Patch went on the job as county agent in Lapeer County on September 1.

While the Vandenburgs will be in Idaho a great deal this fall, mail will always reach them at 530 E. 21st St., North Portland, Oregon.

The latchstring is always out for M. A. C. people visiting Grand Traverse County says John J. Bagley, Old Mission.

C. M. Giddens writes that Phyllis Jean, aged 14 months, is rapidly preparing for M. A. C. Glid.
den is with the Henry L. Doherty Company at Massillon, Ohio.

H. C. Stewart may be addressed at 52 Chandler Avenue, Detroit.

After a three months' vacation at home L. O. Stewart left for Washington, D. C. where he will be located with the U. S. Coast and Geodetic Survey.

Jessie Godfrey is now located at 1816 Winfield St., Los Angeles, Calif.

Iva Jensen is teaching Domestic Science and Art in Jonia and lives at 216 East Washington St. Quindara Oliver is taking work as a student dietitian at the Peter Bent Brigham Hospital in Boston. She received her Master's Degree from Columbia in June.

Rice A. Beers is a civil engineer with the State Highway Department and is located at 213 Pratt Bldg., Kalamazoo.

John E. Kotila is doing plant pathological work at the U. S. Experiment Station, Chatham, Mich.

Agnes McIntyre is teaching in Allegan. Her local address is 222 Chestnut Street. Dan W. Kent is back in the "good old regular army" as a lieutenant and may be addressed at 27th Infantry, Fort Wayne, Michigan. He says "If anyone from the good old M. A. C. comes this way and doesn't look me up I surely will see that they get in the guard house where I can go each day and look at them."

Henry M. Harper is now at 524 Park Street, South Bend, Indiana.

William A. Siefert, formerly of Wilkinsburg, Pennsylvania may now be reached at Jenison, Michigan.

Mrs. P. F. McCool (Esther Hallock) says that they are still farming in "Mizzory."

The Post Office authorities say that Lois McBride now lives at 738 South Rampart Ave., Los Angeles, Calif. We hope they are right.

Madge Ditts is teaching Domestic Science and English in the High School at Yale, Michigan.

Winnie Haywood is starting her third year of teaching in Manistee.

Mrs. Howard Butch (Gertrude Cole) requests us to change her address to Lake Linden, Michigan, and extends a hearty welcome to any M. A. C.-ites in that territory.

Mildred Mead asks us to send the Record to 220 Warren Ave., Detroit.

William K. Kuntz is taking graduate work in Agricultural Economics at the University of Wisconsin and is located at 317 North Warren St., Madison.

Harry E. Franson says to please send his Record to Box 217, Stephen, Minnesota.

Ferne Loomis is supervising Domestic Science and Art in Owosso and gets her Record at 809 W. Oliver St.

Margaret Himmelein is teaching millinery at the Arthur Hill Trade School in Saginaw.

Norman Kolenman is now living at 224 National Road, Fulton, Wheeling, West Virginia.

Marie Schreiber, 216 West Park Ave., is teaching home economics at the Florida State College for Women, Tallahassee.

Kenneth Kernem has moved to Saginaw where he lives at 1800 S. Washington Ave.

Elmer Overholt writes that he is "west bound. Got my A. M. from Michigan and am going west to winter with my folks at 1666 North Mariposa Avenue, Hollywood. Plan to enter a law school this fall, either Leland Stanford or the University, of California."

William C. Boman started July 15 as manager of the Werner Stock Farms of Zanesville, Ohio. He lives in the La Rue Apartments on Putnam Avenue, Zanesville.

Fern Fillingham will have charge of the Smith-Hughes Department in the schools at Bowman, North Dakota.

**Tickets for the Michigan Game**

Should be ordered now, direct from C. L. Brewer—except for Detroiter's, who may get theirs in the Detroit Club section from Sec'y S. B. Lee, 8230 Lawton Avenue

An Alumni block of 2000 seats has been reserved in the center of the M. A. C. stands (north side, wooden), and with the exception of 500 for the Detroit Club, now in the hands of Sec'y Lee, these are on sale October 1. The price is $1.50 and all seats are reserved. You pay the same price for standing room. Send checks or money orders direct to C. L. Brewer, East Lansing.

**The Home-Coming Game**

is November 5, with South Dakota. Mark the date and figure "that little business trip" to the Capital City so you can take it in.
