BUDGET

It was voted to give out the following statement regarding the Michigan State College budget for the fiscal year 1952-53 for information of the general public:

The operating budget at Michigan State College for the fiscal year 1952-53, as approved today by the State Board of Agriculture, shows a decrease in expenditure in the amount of $271,666.84 below the operating cost of 1951-52. It is hoped that this saving will be sufficient to offset the reduced income which the College must take during the next fiscal year.

The budget as approved shows a total of $2,489,460.00. In this amount there is a sum of $1,509,268.00 to provide for salaries and $980,192.00 for maintenance and operation of plant, including all labor payrolls.

The reduction shows a saving in the salary and labor payroll an amount of $169,988.30. All of this amount with the exception of approximately $30,000.00 will be deducted from those on the salary payroll. The percentage for reduced wages ranges from 7 to 15 and only three escaped a cut. These three were hired during the past year at the reduced rate with the understanding no deduction would be made this year.

The Maintenance figure set at $980,192.00 shows a reduction of $141,873.54 below the previous year's budget.
