MINUTES OF THE MEETING
of the
MICHIGAN STATE UNIVERSITY
BOARD OF TRUSTEES
July 23-24, 1981

Present: Trustees Bruff, Fletcher, Krolkowski (arrived at 7:56 p.m.), Lick and Martin (arrived at 7:32 p.m.), President Mackey, Provost Winder, Vice Presidents Breslin, Cantlon, Dickinson, Schonbein, Stewart, Thompson and Turner; Associate Vice President and Acting Secretary Wilkinson, General Counsel Carr, Assistant to the President Simon, Faculty Liaison Group, and Student Liaison Group.

Absent: Trustees Howe, Reed and Sawyer.

The Trustees met in Room 105, Kellogg Center, at 7:21 p.m. on July 23.

1. Work Session

During the work session, Vice President Thompson reviewed the budget guidelines which were approved by the Board of Trustees at its May 21-22 meeting. He discussed revenue projections and the prospects of receiving a reduction in the State appropriation due to an Executive Order. He outlined possible plans to meet such a reduction, including the deferment of special maintenance projects, enforcement of the position management plan, and possible tuition adjustments. Vice President Thompson also discussed the establishment of the liability for the employee incentive plan relating to the modified coordinated proposal.

President Mackey stated that the University Committee on Faculty Affairs recommended a 9.5% average faculty wage adjustment, which is 1% greater than recommended in the budget guidelines. He stated that this proposal was reviewed by the Administration and the Council of Deans, and it is the unanimous recommendation of the Deans, due to the fiscal uncertainty within the State, that the 9.5% recommendation not be incorporated in the budget as of this time. President Mackey indicated that it would be possible to adjust the budget to accommodate this adjustment at a future date if economic conditions were favorable.

Dr. Norman Abeles, Chairperson of the University Committee on Faculty Affairs, summarized the Committee's recommendation on the budget. (Copies of this material are on file in the Secretary's Office.)

Associate Vice President Roger Wilkinson, Assistant Vice President Stephen Terry, and Director of University Services John Lewis discussed the University's procurement program and affirmative action efforts in this area. (A copy of their summary document is on file in the Secretary's Office.)

The Board reconvened at 8:48 a.m., Room 106, Kellogg Center, on July 24. Trustees Reed and Martin were absent. President Mackey called the meeting to order.

2. Approval of Proposed Agenda

Trustee Fletcher moved approval of the proposed agenda, seconded by Trustee Sawyer. Approved by a vote of 6 to 0.

3. Approval of June 25-26, 1981, Minutes

Moved by Trustee Bruff, seconded by Trustee Howe, to approve the minutes of the June 25-26, 1981, Board meeting. Approved by a vote of 6 to 0.

The Board then recessed. During the recess there were meetings of the Board Committees on Investment, and Land and Physical Facilities.

4. Work Session

The Trustees reconvened for a work session at 11:13 a.m. Trustee Reed was absent.

Vice President Jack Breslin commented on the recommendation of not to proceed at this time to construct a parking ramp adjacent to the Performing Arts Center. (A copy of Mr. Breslin's remarks are on file in the Secretary's Office.)

President Mackey, Vice President Thompson, and Associate Vice President Wilkinson commented on the financial factors relating to this recommendation.

Dr. Frederick Horne, Chairperson of the Performing Arts Advisory Committee, addressed the Board concerning this matter, and stated that there will be two major problems incurred if the Trustees decided not to proceed with this project. First,

he stated that, in his opinion, it would take substantial modifications to the east side of the Center for accessibility purposes and aesthetics. Also, the delay on the parking ramp project will result in the lack of construction of the proposed Scene Shop. President Mackey indicated that there were alternatives to the parking ramp which will be reviewed by the Administration.

The Board then reviewed the document on proposed delegation of Board actions. This matter was considered at the action session by the Board of Trustees following the work session.

The Board recessed at 11:45 a.m.

The Board reconvened at 1:40 p.m., Board Room, Administration Building. Trustee Reed was absent; Trustee Howe arrived at 1:42 p.m.

5. Public Comments

Bret Waller, Chairperson of ASMSU, commended the Board for delegation of some of the Board's authority. He then expressed his concern that materials presented to the Board each month (personnel changes; gifts and grants) be available to the public, continuing with the current practice.

The ASMSU Board expressed displeasure of last month's action regarding salary increases for administrators, considering MSU's current financial condition.

C. BIDS AND CONTRACT AWARDS

1. Construction of Parking Ramp No. 3

The following bids were received on June 2, 1981, for construction of Parking Ramp No. 3. This project involves construction of a five level, 985 space parking structure attached to the east side of the Performing Arts Center with an entrance at the Center's concourse level. The ramp will be constructed from cast in place concrete with a brick veneer matching that of the Performing Arts Center. Other features include two 4,000 pound capacity hydraulic elevators, two stair towers, energy efficient high pressure sodium lighting, and epoxy coated reinforcing steel for longer life. Also included is construction of a shop for scenery fabrication. Alternate No. 1 provides for interior finishing of the scene shop.

Approved by a vote of 7 to 0 on motion by Trustee Bruff, seconded by Trustee Krolikowski.

## Conversion of the Dual Duct Systems to Variable Air Volume - Natural Resources Building

The following bids were received on June 25, 1981, for Conversion of the Dual Duct Systems to Variable Air Volume in the Natural Resources Building. This project involves installing variable speed fan drives, controls, and dampers to convert the air handling systems from dual duct to variable volume in the east wing of the building, which reduces energy consumption and results in a two-year payback.

This project was estimated at $90,000 in June, 1980. When the estimate was developed for the grant application, it had not been determined that the dual duct system in the Natural Resources Building contained fewer components than normally experienced. This is because it serves zones rather than individual rooms as determined during the final design of the project. A very favorable bidding climate also contributed to the lower bids.

Due to the lower than anticipated costs, it will be possible to increase the scope of the project. A second phase of the variable air volume conversion project is being designed for the west wing of the Natural Resources Building. It has been determined that the terms of the U. S. Department of Energy grant allow this action.

Notification and/or plans and specifications were sent to the offices of Builders Exchange and Dodge Reports serving Detroit, Grand Rapids, Lansing, and Kalamazoo, as well as the Inner-City Business Improvement Forum (ICBIF), seven minority owned firms and two female owned firms. One female owned firm bid on this project and was the low bidder. No minority owned firms bid on the project.

It is recommended that a contract in the amount of $37,000 be awarded to Davanay Plumbing & Heating, Inc. of Flint, Michigan, and that the following project budget be established.

| Contract - Davanay Plumbing & Heating, Inc. | $37,000 |
| Contingency                                     | 3,600  |

| **Total**                                      | **$45,000** |

This project will be funded with funds in the amount of $22,500 from the U. S. Department of Energy and matching funds in the amount of $22,500 from the University General Fund.

RESOLVED that the above contract be awarded and project budget be established as recommended.

Approved by a vote of 7 to 0 on motion by Trustee Sawyer, seconded by Trustee Howe.

4. Well No. 1 Improvements, Wellhouse No. 1 and Irrigation Control Wiring - Clarksville Horticulture Experiment Station

The following bids were received on July 9, 1981, for Well No. 1 Improvements, Wellhouse No. 1 and Irrigation Control Wiring at the Clarksville Horticulture Experiment Station. This project involves improvements to the existing irrigation well, construction of Wellhouse No. 1, and installation of pressure piping and electrical conduit and wiring to control the system.

BIDS AND CONTRACT AWARDS, cont.

July 23-24, 1981

4. Well No. 1 Improvements, Wellhouse No. 1 and Irrigation Control Wiring - Clarksville Horticulture Experiment Station, cont.

It is the recommendation of the professional services contractor, Williams and Works of Grand Rapids, Michigan, that a contract in the amount of $161,500 ($155,000 base bid plus $6,500 alternate A) be awarded to Elmridge Construction Co. of Grand Rapids, Michigan and a contract in the amount of $197,203 ($167,777 base bid plus $29,426 alternate A) be awarded to Bowen & Milas, Inc. of Muskegon, Michigan. The administration concurs in this recommendation and recommends that the following project budget be established.

| Contract - Elmridge Construction Co. | $161,500 |
| Contract - Bowen & Milas, Inc. | $197,203 |
| Professional Fees - Williams and Works | $29,900 |
| Contingency | $16,583 |
| Construction Inspection, Reports and Certification | $5,814 |
| **Total** | **$411,000** |

Funds for this project were provided in the Agricultural Experiment Station appropriation.

RESOLVED that the above contract be awarded and project budget be established as recommended.

Approved by a vote of 7 to 0 on motion by Trustee Martin, seconded by Trustee Lick.

5. Authority to Proceed with Alterations for the Data Processing Department

During the course of the past year, our external auditors, our internal auditors, and a private consultant have commented on problems with data and equipment security and fire safety matters in the Administrative Data Processing facility. Ms. Dorothy Hopkin, Director of Data Processing, has placed a very high priority on the resolution of these problems with the result that specifications to correct virtually all of the safety and security problems, as well as improve the utilization of space through office landscaping have been completed. It is important that we make these changes as quickly as possible and, in particular, that we do so in a way that minimizes disruption to the department's operations during the Fall term.

In order to expedite this project and meet the processing demands of the Fall term, it will be necessary to award contracts immediately upon receipt and analysis of the bid responses. The purpose of this item is to request that the Administration be authorized by the Board of Trustees to accept proposals and award the necessary contracts prior to formal bid acceptance. After a preliminary design review, the Physical Plant Division has estimated the cost of the entire project to be approximately $550,000.

RESOLVED that the Administration be authorized to accept proposals and award contracts with a reporting to be made at the subsequent Board meeting.

Trustee Fletcher moved that the Board consider the bids for this project at its special August 19, 1981, meeting.

D. OTHER ITEMS FOR ACTION

1. Guaranteed Student Loan Program Financing

Arrangements have been completed for a $1,000,000 term loan agreement to finance the University's Guaranteed Student Loan Program for 1981-82. It is recommended that the administration be authorized to execute the necessary documents to complete this transaction. Copies of the documents supporting this transaction have been provided to the members of the Board with their agenda materials.

RESOLVED that the above recommendation be approved.

Approved by a vote of 6 to 0 on motion by Trustee Bruff, seconded by Trustee Krolikowski. Trustee Fletcher abstained.
2. 1981-82 Budgets

The materials relating to the 1981-82 Budgets, the October 1, 1981 salary adjustments and the 1981-82 tuition and fee schedule have been distributed with the agenda. The budgets, salary adjustments and tuition rates have been developed in accordance with the guidelines adopted by the Board at the May 22, 1981 meeting.

RESOLVED that the recommended salary adjustments, the 1981-82 tuition and fee rates and the 1981-82 University General Fund, Agricultural Experiment Station, Cooperative Extension Service and Intercollegiate Athletics budgets be approved as submitted.

Approved by a vote of 5 to 0 on motion by Trustee Bruff, seconded by Trustee Sawyer. Trustee Martin voted No. Trustee Krollikowski left prior to this vote.

3. Recognition of Liability for Employee Incentive Plans

On April 4, 1981, the Board of Trustees adopted the Modified Coordinated Proposal for program reduction at Michigan State University. These program reduction plans place a number of tenured faculty at potential risk with respect to their future employment at Michigan State University.

We are now implementing these Board approved program reductions. In order to reduce the impact of terminating tenured faculty and job security specialists, the University is making available two incentive plans for tenured faculty and specialists with job security to encourage them to terminate voluntarily their employment at Michigan State University. These incentive plans will carry a liability into the future. Prudent budget planning and proper accounting reporting require recognition of this liability as of June 30, 1981 for these commitments estimated to be approximately $1,800,000.

RESOLVED that the above liability be reflected on the financial statements of the University as of June 30, 1981, that the President be authorized to expend these funds in implementing the incentive plans, and that the President may delegate this authority.

Approved by a vote of 6 to 0 on motion by Trustee Sawyer, seconded by Trustee Howe.

4. Delegation of Board Authority

a. Affiliation Agreements

The curricula of selected University units require that students complete a clinical or practicum experience. The research mission of these same units often requires access to clinical and field settings. Providing for such student experiences and research settings frequently necessitates use of non-University facilities. When the approved academic programs of an MSU unit are such as to require regular and long-term use of the facilities of an external organization, the practice has been to establish necessary arrangements by means of the Affiliation Agreement, a formal document which states the intent of both parties to cooperate in programmatic ways which will yield mutual benefits and which puts forward, in general terms, the obligations and responsibilities to be assumed by both. The policy is to establish Affiliation Agreements as necessary to effectively implement approved academic activities.

Proposed Affiliation Agreements originate at the unit level and are subsequently reviewed by the Dean, the Office of the Provost, and the Office of Legal Affairs to validate their relevancy to the academic mission of the unit and to insure that their provisions are consonant with University authority, responsibility and policy. When these reviews are concluded and the proposal deemed to be in order, the procedure has been for the Administration to submit the proposed Agreement as an action item to the Board of Trustees.

It is recommended that the authority to enter into Affiliation Agreements with organizations, agencies, and providers ancillary to the educational and research mission of the University be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

b. Personnel Action

The Board of Trustees has approved appointments, transfers and changes in assignment, promotions, leaves, resignations, and terminations of personnel in the Cooperative Extension Service Continuing Employment System and the Specialist Job Security System.

It is recommended that appointments, transfers and changes in assignment, promotions, leaves, resignations and terminations of personnel in the Cooperative Extension Service Continuing Employment System and the Specialist Job Security System be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

c. Personnel Actions

The Board of Trustees has approved the appointments, promotions, transfers & changes in assignment, reclassifications, resignations and terminations of employees at the Administrative and Professional level of 15 through 19. Changes in these classifications are carefully monitored both by the Personnel Office and the respective Vice Presidents, in conjunction with the University affirmative action policy.

It is recommended that appointments, promotions, salary adjustments, transfers & changes in assignment, reclassifications, resignations and terminations of Administrative and Professional employees be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

d. Leaves

The Board of Trustees has approved medical, military, and other leaves for nonacademic personnel. The University has very specific policies on each of the aforementioned leaves.

It is recommended that authorization of medical, military, and other leaves for nonacademic personnel be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

e. New Positions

The Board of Trustees has approved the establishment of new nonacademic positions charged to the general fund. This action is redundant because all new positions established are within the unit budgets which are set by the Board when the annual budgets are approved.

It is recommended that authorization for the establishment of new nonacademic positions charged to the general fund be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.
D. OTHER ITEMS FOR ACTION, cont.  

4. Delegation of Board Authority, cont.  

f. Bids and Contracts  

The Board of Trustees has approved bids and contracts for construction projects, alterations and improvements, and special maintenance projects for work contracted externally by the University in an amount of $25,000 or over.

It is recommended that the Board of Trustees take formal action on construction, alterations and improvements, and other special maintenance projects costing $100,000 or over and that the President be authorized to approve contracts costing under $100,000 with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

g. Annual Closing of the Books  

The Board of Trustees has annually authorized the Administration to complete the closing entries of the financial records for the fiscal year with final accounting to be made to the Board at a subsequent meeting.

It is recommended that authorization to annually complete the closing entries for the University financial records for the fiscal year with appropriate accounting to be subsequently made to the Board of Trustees be delegated to the President with authority to redelegate in accordance with a plan for redelegation filed with the Board of Trustees.

RESOLVED that the above recommendation be approved.

Motion to approve Delegation of Board Authority items 4 a. through 4 g. were approved by a vote of 6 to 0 on motion by Trustee Bruff, seconded by Trustee Lick.

E. REPORTS TO THE BOARD  

1. Board Committee Reports  

a. Investment Committee  

Trustee Martin reported that the Investment Committee heard a presentation and viewed graphs showing the University's investment performance.

On the evening of Wednesday, August 19, the Board will interview three investment consultant firms. The Board will then engage one of these consultants to assist in the process of reviewing investment managers and in the refinement of the University's performance measurement reports.

b. Land and Physical Facilities Committee  

Trustee Lick reported that the Land and Physical Facilities Committee approved the following items and recommend them to the Board of Trustees for approval:

1. Sale of house and buildings plus 10 acres of land to Robert G. Lott for $45,000. This is part of the Homer Nowlin property.

2. Sale of 4.7 acres in South Haven to the First Savings of Saginaw for $47,000.

3. Sale of 10 acres in South Haven Township to Mr. Vincent G. DeGrandchamp for $13,000.

Approved by a vote of 6 to 0 on motion by Trustee Lick, seconded by Trustee Sawyer.
