The Finance Committee convened at 7 a.m. for breakfast at Kellogg Center.

The following members were present: Messrs. Bagwell, Harlan, Huff, Merriman, Nisbet, Pingel, Smith, Stevens; President Hannah, Treasurer May and Secretary Breslin

Absent: No one

Mr. Hartman and Mr. White, members elect, attended the meeting as observers.

1. The President outlined the negotiations that have been continuing for the past several years with the Ingham County Road Commissioners looking toward the possibility that the Commission could be persuaded to undertake the construction of a second highway paralleling Hagadorn Road, extending the full length of University property from the Red Cedar River on the north across Mt. Hope Road and to the G & O Railway right-of-way. A communication from Mr. Frank Evans, Engineer-Superintendent indicated a willingness on the part of the Road Commission to undertake this construction by the middle of June with final completion scheduled not later than December 15, 1965, contingent upon the granting by the Board of Trustees of the required right-of-way.

On motion by Mr. Harlan, seconded by Mr. Merriman, it was unanimously voted to approve granting the required right-of-way for this purpose to the County Road Commissioners of Ingham County.

Mr. Carr is authorized to prepare and execute the necessary legal documents.

2. Recommendation that the Board authorize the additional 9-hole golf course that was tentatively approved at the October Board meeting, with construction of the course to be undertaken entirely with funds to be furnished by Forest Akers or the Trustees of his estate.

It was requested that action be divided into two components - one pertaining to the authorization for the golf course and the second having to do with the location of the golf course.

On motion by Mr. Huff, seconded by Mr. Nisbet, it was moved to approve the construction of a 9-hole golf course to be financed with funds furnished by Forest Akers or the Trustees of his estate. This was unanimously voted.

On motion by Mr. Pingel, seconded by Mr. Stevens, it was moved to authorize the location of this course directly east of the existing Akers golf course extending eastward from Harrison Road between Mr. Hope and Forest Roads. This motion was approved by a vote of 5 to 2.

On motion by Mr. Nisbet, seconded by Mr. Merriman, it was voted to approve Item 3.

4. At the October Trustees' meeting a gift of 85 shares of Bank of America National Trust and Savings stock was accepted for a scholarship. It is now requested that the Board authorize the sale of this stock at market.

5. On December 11 Vice President May received information that Mr. Ormond Hunt had given Oakland University two shares of Class A. stock in GM Shares, Inc. In order that this stock may be converted to General Motors common stock, it is necessary for the Trustees to authorize Mr. May to sign a stock paper.

On motion by Mr. Harlan, seconded by Mr. Pingel, it was voted to approve items 4 and 5.

6. Appropriation of $47,800 to make it possible to convert Rooms 1 and 3 in the Home Economics Building for quantity food research, and Room 4 for an additional office. Acting Dean Lee is applying for additional funds to support these alterations in a proposal to the National Science Foundation.

On motion by Mr. Bagwell, seconded by Mr. Merriman, it was voted to approve the above item.
December 17, 1964

FINANCE COMMITTEE MEETING ITEMS, continued

7. Appropriation of $5,000 for the Agricultural Experiment Station to finance alterations in Room 146 of the Natural Science Building for Dr. Lockwood to carry on research.

On motion by Mr. Nisbet, seconded by Mr. Bagwell, it was voted to approve Item 7.

8. Recommendations from the Retirement Committee, as follows:

   a. One year consultantship with full pay for Walter L. Mallmann, Professor of Microbiology and Public Health, from July 1, 1965 to June 30, 1966, and retirement effective July 1, 1966, at a retirement salary of $3,000 per year. Dr. Mallmann was born October 29, 1895, and has been employed by the University since June 1, 1918.
   b. One year consultantship with full pay for G. Malcolm Trout, Professor of Food Science, from July 1, 1965 to June 30, 1966, and retirement effective July 1, 1966, at a retirement salary of $3,000 per year. Dr. Trout was born March 7, 1896, and has been employed by the University since November 1, 1928.
   c. Leave with half pay for William Morris, Associate Professor of Mechanical Engineering, from September 1, 1965, to June 30, 1966, and retirement without penalty on July 1, 1966, at a retirement salary of $960 per year. Mr. Morris was born July 12, 1903, and has been employed by the University since September 1, 1947.

On motion by Mr. Pingel, seconded by Mr. Stevens, it was voted to approve a, b, and c under 8.

9. Recommendation from the Retirement Committee that the following changes in computation of pensions for employees covered by the University's retirement plan be approved:

   a. For faculty and staff retired before December 31, 1964:
      A blanket 10% increase in the basic pension (Plan I) but not to exceed $3,000. The only exception to the $3,000 maximum will be for those employees who might have qualified for social security if their employment had continued after July 1, 1956.
   b. For employees who retire after December 31, 1964:
      A blanket 10% increase in the computation of the basic pension plan (Plan I), but not to exceed $3,000, except that this adjustment shall not apply to the computation of pensions for faculty and staff who participate in the TIAA program.

   The above recommendations are estimated to cost approximately $3,000 annually, and the total cost for those persons who are now retired is estimated at about $375,000. This does not endanger the soundness of the Retirement Fund.

On motion by Mr. Merriman, seconded by Mr. Stevens, it was voted to approve Item 9.

10. Communication from Mr. May:

   As you know, we started to sell winter term bus passes on December 7 with the hope of determining the number of additional customers to be accommodated in the winter term. To date we have sold over 1,200 passes and are now concerned as to whether the increased load can be handled with present equipment.

   Several days ago we inquired whether it would be possible to get any additional GM buses at the price bid last July on very short notice. After checking with GM officials they agreed to divert one new bus from an order now being manufactured, and with your concurrence this order was placed.

   I think it would be well to advise the Board of the possibility that we will need to buy additional used equipment, or possibly lease several additional buses prior to the January Board meeting.

On motion by Mr. Huff, seconded by Mr. Stevens, it was voted to authorize the purchase of one additional GM bus at the same price as was bid last July on the first order of buses and to authorize leasing of additional buses or making other necessary arrangements if that becomes necessary prior to the next meeting of the Board of Trustees.

11. Communication from Mr. May:

   Recently Congress approved changes in the NDEA Student Loan Program which will provide additional funds if Michigan State is prepared to provide necessary matching funds.

   An entirely new program has been approved for student nurses. This program is identical to the old NDEA program except for the forgiveness feature of 10 percent per year for a maximum of five years which has heretofore not been approved for nurses.

   The student nurse program will be administered entirely separate from the regular NDEA program. To participate it was necessary that an application be filed by December 12. Our loan office estimated we would need approximately $33,000 for loans for student nurses for the balance of the fiscal year. I have signed the necessary application and am recommending that the Board appropriate the required $3,300

FINANCE COMMITTEE MEETING ITEMS, continued

11. Communication from Mr. May, continued:

Recently Congress removed the $800,000 ceiling on grants to any one institution. Our application as originally submitted indicated that we need way more than the $800,000. Mr. Dykema, Director of Student Aid, has indicated that we could use approximately $200,000 more this year. This would require a supplemental appropriation of $22,222.23 for matching purposes. Application for these additional funds must be submitted by December 31.

On motion by Dr. Smith, seconded by Mr. Bagwell, it was voted to approve the application for the additional funds and to appropriate the required matching funds.

12. Communication from Mr. May:

Information has been received from the Michigan Higher Education Facilities Commission that the first date for submission of applications for grants under the Federal Facilities Act will be December 31, 1964. I would like to recommend that the Board authorize the filing of grants for the following three projects which appear to be eligible for grants:

1. Classroom Faculty Office Building
2. Addition to the Library
3. Renovation of Kedzie Chemistry Building

It is our intention to file the application for the Classroom Building prior to December 31. However, the forms are so detailed and require so much information that it may not be possible to have them complete in every respect. For example, all of the required information on square footage of floors, type of classrooms, corridors, etc., may not be available from the architect.

Application for the other two projects will be developed and ready for submission on the second date of March 1, 1965.

On motion by Mr. Nisbet, seconded by Mr. Pingel, it was voted to authorize the above procedure.

13. Mr. Huff discussed conferences and negotiations having to do with appropriations for operations and the developing of a bonding program for University buildings.

Mr. Huff reported on the work of the Michigan Coordinating Council for Higher Education of which he is Chairman, with reference to branch colleges, bonding program for buildings, etc. cetera.

It was agreed that the report of the special committee on branch colleges recently approved by the Coordinating Council would be a subject for discussion at the January meeting of this Board.

14. Communication from Mr. May covering the financing of the AEC Plant Science Building, as follows:

Assuming that the Board approves the award of contracts for the Plant Science Building, I would propose the following financing of this project:

1. That the Board authorize the use of up to $2,310,000 of general work cash. This amount will be initially established on our books as an advance for the Plant Science Building. It will be repaid through the annual rent charge to the Atomic Energy Commission of $231,000 plus the application of all the overhead funds received from contract work carried on in the facility. I believe that with the application of the overhead funds, it will be possible to recover this investment in approximately five to six years. The AEC will be obligated to pay rent for the full ten years.

2. That we allocate $290,000 of contract overhead funds for this project. In the presentation made to the Board last month, we indicated that probably $350,000 would be required.

It should be recognized that this type of financing will reduce current interest income on cash balances, but this program is so important to our total university program that I believe this is an acceptable method of financing as long as it is understood by the Board of Trustees and is authorized so there can be no questions by the auditors.

On motion by Mr. Nisbet, seconded by Mr. Bagwell, it was voted to approve the above recommendation.

15. It is proposed that effective with this meeting there will be a report included in the agenda of all meetings of the Finance Committee giving a list of all fund transfers within the budget that have been made since the previous meeting. All budget transfers in the current year, July 1 to December 11, 1964, are shown on the accompanying statement prepared by Vice President May. (A copy of this statement is filed with the supporting materials for this meeting.)

16. It is recommended that the Trustees authorize the appointment of Manson Associates to complete the architectural work on 200 additional units of married student housing. The decision was made at the October Trustees' meeting to proceed with this work, but there was no formal action authorizing employment of the Manson firm as architects. They have been working on the project.

17. Recommendation that the Board authorize an appropriation of $4,000 to make it possible to produce portions of the annual MSU film for 1964-65 in color.

On motion by Mr. Bagwell, seconded by Mr. Pingel, it was voted to approve Items 16 and 17.
FINANCE COMMITTEE MEETING ITEMS, continued

18. Vice President Sabine reported on the Work-Study Program request that has been filed with the U. S. Office of Education under the Economic Opportunity Act.

Oakland University Finance Committee Items

19. Grant of $132,500 from the Mott Foundation of Flint to be used under the direction of Chancellor Varner in support of programs related to the community school philosophy, basic economics, and general community-university efforts designed to attack community problems through education.

20. The President introduced a discussion of the new master's degree programs to be instituted at Oakland University effective in the fall of 1965 and recommended that the Trustees approve in principle the institution of these programs with the details to be worked out by himself and Chancellor Varner and to be reported to the Trustees at a later date.

On motion by Mr. Huff, seconded by Mr. Pingel, it was voted to approve items 19 and 20.

Adjourned.

MINUTES OF THE MEETING
of the
BOARD OF TRUSTEES
December 17, 1964

Present: Dr. Smith, Chairman, Messrs. Bagwell, Harlan, Huff, Merriman, Nisbet, Pingel, Stevens; President Hannah, Treasurer May and Secretary Breslin

Absent: No one

The meeting was called to order at 10:15 a.m.

The minutes of the November meeting were approved.

SPECIAL MISCELLANEOUS

1. Approval of Finance Committee Items on the previous pages.

On motion by Mr. Nisbet, seconded by Mr. Harlan, it was voted to approve the Finance Committee Items.

2. The President recommended that East Campus Dormitory No. 4 be named in honor of Bela Hubbard who was a Detroit geologist, naturalist, and farm-owner. He was commissioned by the Michigan State Agricultural Society to draft a memorial to the Legislature asking that an agricultural college be established as soon as practicable. That memorial, presented in January, 1850, moved the Legislature to petition Congress to grant 350,000 acres of federal land with which to endow such a college. Thus Michigan presented the first of the many petitions which culminated in the Morrill Act of 1862, and Hubbard qualified as an educational pioneer.

Hubbard deserves to be remembered for many services, but one in particular justifies his being honored by Michigan State University. His memorial to the Legislature proposed specific courses of study, including the natural sciences, mathematics, engineering, and also those which would constitute "enlightened liberal education." These were his memorial words: "Nor should the claims of literature and the fine arts be wholly neglected, as tending to polish the mind and manners, refine the taste, and add greater lustre and dignity to life."

On motion by Mr. Merriman, seconded by Mr. Harlan, it was voted to approve the above recommendation.

3. Professor Harry Kimber, Head of the Department of Religion and Assistant Dean of the College of Arts and Letters was introduced by President Hannah to report on the Michigan State University Department of Religion. A copy of his report is filed with the minutes of this meeting.

6. Change Fred K. Hoehler, Professor of Labor and Industrial Relations, from full time at $16,200 to half time at $8,100 per year, effective from January 1 to March 31, 1965. Professor Hoehler will be working for the Poverty Program on a half-time basis.

7. Change Joan W. Bussfield from Assistant Editor to Managing Editor of the MSU Press with a salary increase from $9100 to $9,750 per year, effective January 1, 1965.

8. Designation of J. Colby Lewis III, Professor of Television and Radio and Coordinator of Closed Circuit Television, as Manager of Television Broadcasting, effective January 1, 1965. This is an additional responsibility.

9. Designation of Burton Friedman, Assistant Professor of Administration and Higher Education, as Acting Co-Director, of the Guatemala Project, effective from December 1 to December 31, 1964, paid from account 71-1871.

10. Recommendations from the Retirement Committee, as follows:

   a. Retirement of Irene M. Baird, Ogemaw County Extension Agent, Home Economics, on TIAA only, effective December 30, 1964. Mrs. Baird was born on May 25, 1899, and has been employed by the University since October 16, 1953.

   b. Retirement of J. Murray Barbour, Professor of Music, at a retirement salary of $3,000 per year, effective July 1, 1965. Mr. Barbour was born March 31, 1897, and has been employed by the University since September 1, 1939.

   c. Disability retirement for Victor C. Beal, Cash Crops Agent in Montcalm, Kent and Ionia Counties, at a retirement salary of $2,814 per year, effective December 30, 1964. Mr. Beal was born October 11, 1903, and has been employed by the University since January 15, 1936.

   d. Retirement of George F. Biekkola, Baraga County Extension Director, at a retirement salary of $3,000 per year, effective July 1, 1965. Mr. Biekkola was born February 19, 1900, and has been employed by the University since January 1, 1931.

   e. Retirement of Hubert M. Brown, Assistant Professor of Crop Science, at a retirement salary of $3,000 per year, effective July 1, 1965. Mr. Brown was born April 3, 1895 and has been employed by the University since September 1, 1921.

   f. Retirement of Lydia Lightwing, Professor of Health, Physical Education, and Recreation, at a retirement salary of $3,000 per year, effective September 1, 1965. Dr. Lightwing was born November 19, 1896, and has been employed by the University since September 1, 1930.

   g. Retirement of Thelma Porter, Dean of Home Economics, at a retirement salary of $1,836 per year, effective July 1, 1965. Dean Porter was born August 8, 1899, and has been employed by the University since September 1, 1956.

   h. Salary increase for Einar Hardin, Associate Director of Labor and Industrial Relations, to $15,000 per year effective January 1, 1965.
On motion by Mr. Stevens, seconded by Mr. Merriman, it was voted to approve Miscellaneous Items 1 through .14.

10. Retirement recommendations, continued:

h. Disability retirement of Clarence V. Amiot, Utility Man II in Physical Plant, at a retirement salary of $3,000 per year, effective January 1, 1965. Mr. Amiot was born August 21, 1899, and has been employed by the University since October 13, 1960.

The combination of low bids exceeded the funds available. Changes were made in some of the specifications, and the mechanical work was rebid on December 14, as follows:

<table>
<thead>
<tr>
<th>Contract Type</th>
<th>Contractor</th>

</table>

All of the above bidders for whom contracts are recommended originally submitted low bids except in the case of laboratory furniture. In the original bidding the Kewaunee Manufacturing Company submitted a low bid which was $1,325 lower than the bid of Metalab Equipment Company. However, Metalab Equipment Company offered a credit in its original bid of $34,367 if it was permitted to use lab table tops made of "Kemrock" instead of "Kemrisen", which is manufactured by Kewaunee. After a thorough investigation we scientists approved table tops made of "Kemrock", and we are therefore recommending that we take the savings. The Kewaunee Manufacturing Company, when it found that we were considering "Kemrock" table tops, offered an additional credit of approximately $15,000.00.

If the Board approves the award of contracts as recommended above, this contract will have a budget as follows:

- Main Building Contracts: $2,122,777.30
- Reserve for Greenhouse: 100,000.00
- Architect: 140,000.00
- Utilities: 110,000.00
- Furniture and Equipment: 30,000.00
- Site Development: 45,000.00
- Contingencies: 52,222.70

Total budget: $2,600,000.00

On motion by Mr. Harlan, seconded by Mr. Pingel, it was voted to approve the awarding of the above contracts.

On motion by Mr. Stevens, seconded by Mr. Merriman, it was voted to approve Item 23.
