The following statements presented by Mr. Traxler are excerpts from the addendum to the Budget Guidelines:

"...The planning that the University has done over the last few years has put us in good stead to deal with the challenges of the twenty-first century. However, the University must be strong in its resolve to make the programmatic and financial decisions necessary to keep MSU as a unique and valuable resource for the nation and indeed the world and a necessary and prudent investment for the State of Michigan.

The Board is also very cognizant that inaction or decisions not made can have a detrimental effect on the quality and vitality of MSU. Further, the Board is committed to the principle that any programmatic change will be done in an orderly fashion and in a way that majors [students] have the fullest opportunity to complete programs of choice. Therefore, we must be well positioned to make the decisions necessary to keep MSU on a sound course into 1994-95 and beyond.
June 11, 1993

Therefore, on behalf of the Trustee Finance Committee, I asked the other members of the Board to join us in requesting that the President, Interim Provost, and Vice President for Finance and Operations begin to assemble and review with the Trustee Finance Committee and Trustee Policy Committee a comprehensive plan for the review of academic programs and the review of the effectiveness and efficiency of academic support services in the event that the financial circumstances may require the curtailment or reorganization of programs, units and functions in order to preserve the quality, integrity and vitality of Michigan State University."

On a motion by Mr. Traxler, supported by Dr. Mawby, THE BOARD VOTED to approve the recommendation and addendum. The vote was 7-1; Trustee Gonzales voted no. The addendum is included with the Board Agenda in the Office of the Secretary of the Board of Trustees.

Mr. Traxler also commented that the Finance Committee members are pleased with the work the administration has done in seeking out the counsel of faculty and students and other interested groups of the MSU family. Although it may not satisfy everyone, under the circumstances it represents, in Trustee Traxler's judgment, the best of all possible. It is fiscally responsible and each person has to be very conscious of that in coming years. It represents a departure from past practices; it also represents an effort on the part of the administration to communicate with all interested parties. Mr. Traxler commended the President for his efforts over the months, as well as those of Interim Provost Simon, Vice President Wilkinson, and their staff members. The University is especially pleased to provide increases to faculty members since they did not receive an increase last year. It was imperative that it be done this year. The guidelines represent a compromise.

Additional supportive comments were made by Trustees Weiss, Cook, Sawyer, and Shingleton. Mr. Weiss expressed an ongoing concern for the cost of tuition for the middle income family. Ms. Cook commended the President for his assistance in the budget development. Ms. Sawyer commented that although tuition has increased, financial aid has always increased to assist students. Mr. Shingleton commented that residence hall rates are a contribution to the total package. He also remarked about the ongoing deliberations and discussions regarding the budget.

On a motion by Mr. Weiss, supported by Mr. Shingleton, THE BOARD VOTED to approve the recommendation.

The statement presented by Trustee Weiss is included with the Board Agenda in the Office of the Secretary of the Board of Trustees.

Mr. Traxler stated that although he agrees with the establishment of a committee, the fiscal implications and financial impact on the university must be carefully considered. Everyone must be satisfied as to the fiscal soundness of the approach. He believes it is an excellent recommendation, but the President and his colleagues share a concern for the importance of the economic issues.
