When the budget was originally established for this project, we estimated that it could be completed for a total of $5,700,000 and that it would contain approximately 307,000 square feet. As plans were developed to implement the new educational concept, the following academic space was included in the project: 35 offices, 8 classrooms to seat 30 students each, one lecture room to seat 400, and the learning and resource center which will include a language laboratory. The low bids totaled $4,576,000. The square foot cost based on 333,036 square feet is only $13.74.

It is recommended the awarding of the contracts to the low bidders and the establishment of the following budget:
