On motion by Mr. Merriman, seconded by Mr. Thompson, it was voted to approve the investment recommendations.

2. Authorization is requested to sell the following stock:
   a. 700 shares of Food Machinery and Chemical Corporation common stock received from Mr. and Mrs. Ernest Hart, the proceeds to be credited to account 31-1220.
   b. 16 shares of Chrysler Corporation common stock received from Lynn A. Townsend, the proceeds to be credited to the Meadow Brook Music Festival.

On motion by Mr. Nisbet, seconded by Mr. Stevens it was voted to authorize the sale of the above-listed stock.

3. Improvement in office space in the Student Services Building for the Vice President for Student Affairs at an estimated cost of $7,850, to be charged to Alterations and Improvements, account 11-5173.

On motion by Mr. Thompson, seconded by Mr. Merriman, it was voted to approve the alterations to the Student Services Building.

4. The following communication from Roger Wilkinson is self-explanatory:

   The manure removal system which was developed on an experimental basis at the time of construction of the Veterinary Clinic has proved to be a failure in many respects.

   Last December the architects, Harley, Ellington, Cowin, and Stirton, Inc., were requested to make a complete study of the problem and come up with a suggested corrective procedure. Mr. Lehnhardt has worked with Dr. Oberst, Mr. Downey of the veterinary facilities, Max Neils from the Physical Plant, and an engineering firm which assisted in the design of a new mechanism for handling the waste.

   The equipment which was purchased for separating solids and wastes has consistently failed, and an emergency exists to take immediate corrective action. Attached is a report submitted by the architects outlining the corrective procedures and the cost thereof. Mr. Huntington has reviewed this with Dr. Oberst, representatives of the Physical Plant, and Mr. Lehnhardt of the architects' office. Dr. Oberst and the Physical Plant engineers concur in the architects' recommendations. The purchase of equipment will take eight or ten weeks for delivery.

   It is requested that the Board of Trustees allocate $45,000 and grant authority to proceed with this corrective program.

   All of the work is in the mechanical areas except for a minor alteration to the building at the collecting station.

On motion by Dr. Smith, seconded by Mr. Stevens, it was voted to approve the allocation and alterations recommended in Item 4.

5. Communication from Provost Neville:

   For the May Board meeting an item should be put in the Finance Committee agenda indicating that following the normal procedure, 2/12 of the total allocation for new positions is being transferred from the position account to the equipment category in order that it might be used for non-recurring equipment needs for 1968. These funds will be then available for annualizing salaries in the 1968-69 budget year.

continued - -
5. Communication from Provost Neville, continued

As you remember, all of these monies were placed in the salary accounts, and if all of the positions vacant as of July 1, 1967 had been filled by September 1, 1967, all of the salary accounts would have been encumbered.

As you know, there are serious budget deficiencies in several areas. These monies made available can be used on a non-recurring basis to meet some of the more urgent deficiencies in our current budget. On that basis, they are being transferred to the accounts of the colleges in order that they might fully be used for the best purpose.

Generally, the monies remain in the colleges and are transferred strictly from the salary accounts to the equipment accounts. The one major exception is $100,000 being transferred from Social Science to Arts and Letters. The College of Social Science had the largest number of unfilled positions and had a rather substantial balance which was not necessary for equipment in that college. The $100,000 is being transferred from Social Science to Arts and Letters which will be used for equipping the new Music Practice Building with pianos.

As you will remember, when the Music Practice Building was being constructed the budget had to be reduced for equipment essentially to finish the building and there was no money for these pianos. This $100,000 will put the Music Practice Building into fair shape for operation for a number of years to come.

On motion by Mr. Nisbet, seconded by Mr. Stevens, it was voted to approve the procedures recommended in Item 5.

### Agreement with Herman Siewert

Re occupancy house at Oakland Univ.

Agreement with Herman Siewert, the long-time gardener for Mrs. Wilson:

This letter is to confirm the agreement we made when I visited with you at your home last Sunday evening.

I understand from Mr. Meredith that you plan to terminate your work at the greenhouse on February 15, and our people will prepare to take over the management on that date. We have agreed that you and Mrs. Siewert may continue to live in your house at 415 Adams Road for as long as either of you live. It is our agreement that we will ask you to pay no rent but that there shall be no expense to the University in your living there. In other words, if the furnace must be repaired, the septic tank renovated, or any other improvement or maintenance on the place, this is to be your expense. Further, if any taxes are to be assessed against this property, these taxes will be paid by you.

It seemed only appropriate that you should be able to continue to live the rest of your lives in this home since you are the only ones to occupy it and because you have given such long and faithful service to Mrs. Wilson. We hope you will feel free to drop by and visit from time to time. We also hope you will share with us the background which you have acquired over these many years.

Adjourned.
