6. Grant of $10,985 from the National Institute of Mental Health of the U. S. Public Health Service of Washington, D. C., to be used in the Social Research Service for a study of the strengths in mental health.

7. Grant of $500 from the Michigan State Florists Association of East Lansing to be used under the direction of Paul Krouse in Horticulture for the part purchase of a light intensity recorder.

8. Grant of $2200 from the Dow Chemical Company to be used under the direction of C. C. DeWitt, C. C. Harris and E. A. Finney in the Engineering Experiment Station to study the effect of the addition of various amounts of Peladow and DowLake calcium chloride on the compressive strength of concrete, the setting time of standard mortar, and the workability of concrete.

9. At a joint meeting of the Michigan Crop Improvement Association and the Michigan Foundation Seed Association, the following resolution was unanimously adopted:

"Whereas, Seed produced as the result of twenty years of research at Michigan State College plus seed to be used in the making of Certified seed are stored in a wooden building which could be readily destroyed by fire; and whereas such a fire would cost Michigan farmers millions of dollars in potential crop income; Be it resolved that the State Board of Agriculture do everything in its power to provide temporary fireproof storage for seed on hand, and be it further resolved that sufficient funds be requested of the State Legislature to provide a permanent processing and storage plant."

No action.

10. Recommendation for the installation of a radiator and thermostat in the small brick building used by the Psychology Department to house experimental rats at an estimated cost of $150, to be charged to Alterations and Improvements 1950-51.

On motion of Miss Jones, seconded by Mr. Mueller, it was voted to approve the Additional Items, except item 9 under Miscellaneous on which no action appears.

SPECIAL MISCELLANEOUS

1. Recommendation for the purchase of approximately 33 acres of land contiguous to the Lake City Experiment Station at a cost of $2500. This piece of property is in the corner of the College holdings and will complete a block of land. It is understood that Mr. and Mrs. Fred Delo, the present owners, will retain a life lease to live in the house. Both Mr. and Mrs. Delo are over 75 years of age.

On motion of Miss Jones, seconded by Mr. Brody, it was voted to approve the above recommendation.
SPECIAL MISCELLANEOUS, continued

2. Discussion of wage and salary adjustments in light of the action recently taken by the State Civil Service Commission, and by the Board of Regents, the State Board of Education, and the Board in Control of the Michigan College of Mining and Technology.

On motion of Mr. Mueller, seconded by Mr. Brody, **it was voted to request the legislature for a supplementary appropriation of $558,755 to be used for salary and wage adjustments in accordance with the following policies:**

1. These adjustments are to be effective January 1, 1951, but no payment will be made to employees until this supplementary appropriation is made available by the legislature.

2. Wages and salaries are to be increased approximately 10% for each employee but with the understanding that all increases granted since the establishment of the budget for the current year on July 1, 1950, are to be deducted from this adjustment.

3. The maximum increase in the annual rate under this adjustment is not to exceed $1000 per year. Full time regular employees on the hourly payroll are to be given a minimum increase of five cents per hour. This does not apply to the student minimum rate.

4. It is understood that the President will review the cases of all individuals on the salary payroll that have received individual salary adjustments since July last and that he will recommend for Board approval any variations from No. 2 above, since it is probable that it will be desirable to make some exceptions to this rule.

3. Recommendation that the salary of Ralph Young, Director of Athletics, be increased from $10,000 to $11,000 per year, effective January 1, 1951.

On motion of Mr. Mueller, seconded by Dr. Smith, **it was voted to approve the above recommendation.**

On motion of Mr. Mueller, seconded by Miss Jones, **it was voted to approve the above recommendation of the Alumni Advisory Council.**

5. At the November 23, 1953 Board meeting, action was taken by the Board allowing the inventor of patented items who is a member of the College staff royalties amounting to 20 per cent of the amount received by the State Board of Agriculture. The National Research Corporation and the Faculty Committee on Patents recommend that the former action of the Board be amended to a percentage of between 12 and 15 per cent.

On motion of Mr. Akers, seconded by Mr. Brody, **it was voted to approve the above recommendation.**

6. The joint committee authorized at the last Board meeting proposes the following policy statement:

"The State Board of Agriculture recognizes that political affairs and issues are of real import and concern to members of Michigan State College staff, as they are to other citizens in our democratic society. Because of their special background and qualifications, Michigan State College faculty members have an important contribution to make in bringing their knowledge and abilities to bear on political problems of national and local significance."

"is a citizen a member of the Michigan State College staff has the same rights and responsibilities as any other citizen to write or speak freely. His special position, however, imposes special obligations to indicate that he is not an institutional spokesman, to be accurate, and to exercise appropriate restraint. A staff member has a similar obligation to discharge his instructional or other regular duties. His ability to discharge these duties may be impaired by any private activity requiring a large portion of his time. For the mutual protection of the College and the staff member, it is the policy of the Board that a staff member campaigning as a political party's candidate for a state or federal office shall do so on his own time and for the period of such candidacy will obtain a leave of absence or continue his work at the college on a part-time basis. Final determination for such decisions shall rest with the Board."

"A member of the staff may become a candidate for an office of a temporary or part-time nature, such as a member of a municipal charter revision commission or as a delegate to the State Constitutional Convention, or as a member of a local school board, and such candidacy will not require a leave of absence from the State Board of Agriculture."

"It is the intent of this policy to safeguard the freedom of speech, thought, and action of staff personnel and to avoid the impairment of the significant contributions they are capable of making towards the definition of political issues and the solution of political problems in a democratic manner."
6. Policy statement, continued:

On motion of Mr. Brody, seconded by Miss Jones, it was voted to instruct the President to notify the Committee that it had no objection to the suggested draft outlined above and that when it is ratified by the A.A.U.P. it is ready to approve it as a policy for the institution.

7. The following is a recommendation from Mr. May:

"The Kellogg Center's original budget, for which funds have been provided, anticipated an expenditure for furnishings and kitchen equipment of $250,000. Orders have already been placed for $100,164.99 worth of equipment and, according to the best estimates of Mr. Foster and Mr. Scott, another $150,000 will be required. This means that approximately $200,000 additional will be needed to furnish and equip this facility.

Part of this overrun is due to rapidly increasing prices and part of it to a misunderstanding on the original estimate. Mr. Scott and Mr. Foster inform me that they originally expected it would cost $250,000 plus the Hotel contribution of $100,000, whereas only the $250,000 including the Hotel contribution was provided.

At the present time we have accumulated a little over $240,000 from the Quonset operations and the service charges made to the Barracks. It would be my recommendation that we use these funds to take care of the immediate needs of the Kellogg Center and that we continue to make charges against the Barracks to build up sufficient reserve to take care of any further major repairs or expense in connection with removal of the temporary buildings.

"I think the Board should also know that, as yet, no provision has been made for covering architect's fees on this project and we will, at some later date, have to provide the necessary funds for this expense."

On motion of Mr. Mueller, seconded by Mr. Brody, it was voted to approve Mr. May's recommendation and he is authorized to make the necessary fund transfers.

8. Request from the W. K. Kellogg Consolidated Agricultural School for an allotment of approximately 5 3/4 acres of land from the W. K. Kellogg Farms and adjacent on the east end of the present W. K. Kellogg School property. This acreage, which covers approximately 33 rods east and west and 30 rods north and south, will be used for an expansion of athletic and playground activities. It is recommended that it be transferred to the Kellogg School District by a 99-year lease or by a conditional deed, and that the deed or conditional lease should indicate that this land is being transferred to the school only for school purposes and that any time it is not used for such school purposes and not under the active supervision and control of the School District it would revert to Michigan State College.

On motion of Mr. Brody, seconded by Mr. Akers, it was voted to approve the request for the transfer of title of approximately 5 3/4 acres of land from the W. K. Kellogg Farms to the W. K. Kellogg Consolidated Agricultural School to be used for educational purposes, with the understanding that if it ceases to be used for educational purposes the title is to revert to Michigan State College. The Board discussed at some length the possible refinancing of some of the dormitory bond issues. It was decided to reconsider this matter again in a few months but to take no action at this time.

10. The President discussed with the Board various proposals with reference to Olivet College. The Board authorized the President to advise the people at Olivet that in view of the present national emergency, it does not seem probable that this Board will be able to render any real assistance to Olivet in solving its problems.

11. Mr. May reported further developments in connection with the acquisition of the kind of fire insurance desired by the Board covering college property.

Mr. May was authorized to proceed to prepare detailed recommendations covering each building to be distributed to the Board members soon so that definite action can be taken at Feb. Bd. meeting.

Dean Dye of the School of Home Economics had lunch with the Board and discussed some of the problems in the School of Home Economics.

The Board viewed a showing of the new moving picture "Postmark East Lansing."

The Board adjourned at 3:15 p.m.
