Ms. Jamie Kendall, member of the ASMSU Handicapper Council, remarked about her attendance at the signing of the American Disabilities Act, and thanked President DiBiaggio for the appointments of Eric Gentile and Judy Gentile to the Task Force. She also commented on accessibility to the University auditorium and the Business library facilities.

4. President DiBiaggio welcomed Dr. Russell G. Mawby to his first meeting as a member of the Board of Trustees since being appointed by Governor Engler, effective January 1, 1992, to succeed Trustee Thomas Reed. He stated the University will benefit from Dr. Mawby's insight, wisdom, and love of Michigan State.

Dr. Mawby responded as follows:

"I would simply comment that I regard it as both an honor and a privilege to become a member of this Board and to have now a new relationship with the University that is my alma mater. As you commented, this University has been an enriching influence in my life since literally early childhood and I am grateful for that and now grateful for the opportunity, hopefully, of being helpful to the University. I want to be a constructive participant with everyone else and hope I can make a useful contribution. It might be appropriate for me to comment, because of my role with the W. K. Kellogg Foundation, that the Foundation has enjoyed a relationship with this University for about 65 years which long predates my participation with the Foundation. We have appreciated this relationship because of the commonality of mission, a shared concern for people, and our mutual commitment to the application of knowledge to human concerns. The involvement of the Foundation in helping the University in its purposes has been much appreciated by the Foundation Board and staff. In discussions with the Foundation's Board of Trustees, with leadership here, and with the Governor, I have made it clear and wish now to clarify here the point that my presence on this Board will neither enhance nor detract from the possibility of continuing Foundation responsiveness to University requests for assistance in accomplishing the University's objectives. I see three or four items in the gift and grant list today of ways in which the Foundation has provided assistance to University interests. I want to be absolutely above board and I hope that no one finds this relationship troublesome. If they do, I hope they will discuss it with me. I look forward very much in my new opportunity as a Trustee to be helpful to this University and to work with fellow Trustees and everyone concerned with the University in its future development. Thank you very much."
5. President DiBiaggio announced that the Board would adjourn for lunch and reconvene at 1:00 p.m.

D. Mr. Pridgeon presented the following statement regarding fiscal challenges:

"We all recognize the critical economic situation in the nation and in the state and the impact that this may have on future appropriations to Michigan State University. We also recognize the public concern about accountability and affordability of higher education.

As Chair of the Board of Trustees, I have talked with my colleagues about the need to move ahead with planning for 1992-1993 and beyond to assure that Michigan State can meet the projected fiscal challenge while sustaining the access and quality teaching, research and service required for a land-grant university.

On behalf of the Board of Trustees, I ask the President in conjunction with the Provost and the Vice President for Finance and Operations to initiate such actions as may be necessary to position the University to handle the fiscal challenges of 1992-1993.

Also, on behalf of the Board, I ask the President to initiate the development of a new, multi-year planning process, which will guide Michigan State for the first part of the decade of the 1990's.

In formulating plans for our consideration, you should know that my colleagues and I understand that no options should be eliminated simply because they have not been part of the traditions of Michigan State or higher education. However, our shared commitment to quality and access must guide all of this planning.

We ask that a progress report be presented at the April meeting of the Board."

E. Mr. Weiss expressed appreciation to the University Outreach division for providing assistance to the people of Genesee County.
