Acceptance of $900 for propagation of forestry nursery - Norris-Doxey Act.

The Norris-Doxey Act makes available certain funds for the propagation of forestry nursery stock for farm distribution. A formal agreement has been offered by the U. S. D. A. requiring the acceptance by the State Board of Agriculture in order that the funds available by Michigan may be available to the Forestry Department of the College for work as prescribed by this Federal Act. The amount of money that will be paid to Michigan State College will be approximately $900.00 the first year and somewhat larger amounts in subsequent years. This in essence provides additional funds for additional work to that provided for in the Clark-McNary Act. It will not increase the cost of the College of operating the Forestry Department.
