MINUTES OF THE MEETING
of the
STATE BOARD OF AGRICULTURE
February 17, 1956

Present: Mr. Brody, Chairman; Messrs. Baker, Mueller, Rouse, Smith; Dr. Taylor; President Hannah, Treasurer May and Secretary McDonel

Absent: Mr. Akers

The meeting was called to order at 10:15 a.m.

The minutes of the January meeting were approved.

SPECIAL MISCELLANEOUS

On motion of Mr. Mueller, seconded by Mr. Baker, it was voted to approve the report of the Finance Committee.

2. Leland Carr, College Attorney, advised the Board that the Circuit Court of Lenawee County had ruled adversely in the case raised by the Detroit Trust Company questioning the right of the Board to receive the income from the trust created by Harriet Kimball Fee.

On motion of Mr. Rouse, seconded by Mr. Brody, it was voted to authorize the attorney to appeal the case to the Supreme Court.

3. Dr. Connor Smith, as a member of the Study Commission appointed by Governor Williams to study the future of Wayne University, told the Board that he was disturbed by the statement in one of the Detroit newspapers to the effect that Michigan State University had been strangely silent in not supporting the efforts of Wayne University to become a part of the state educational system.

On motion of Dr. Smith, seconded by Mr. Brody, it was voted that in order to make the attitude of this Board perfectly clear, the Board declares itself to be favorable to the recommendations made by the recent Study Commission of which President Emeritus Ruthven was the Chairman, and urges the approval of its recommendations.

4. Request from WTOM-TV to lease the University mobile TV studio equipment at a suggested rate of $500 per day, including our staff to operate it.

After considerable discussion, on motion of Mr. Mueller, seconded by Mr. Baker, it was voted to inform WTOM-TV of the long-established policy of the Board of not loaning or leasing University equipment off campus except to agencies of the State or Federal governments. It regrets that apparently a previous use of this equipment by this station was in violation of this policy but it does not feel that this violation would justify further violations.

5. On January 27 fire destroyed the control panel of the elevator in the Home Economics Building. The State Elevator Inspector has ordered other substantial changes made. To restore the old elevator to service will cost a total of $13,000 and it will then have only a limited life. To purchase and install a new, modern elevator with the proper safety devices will cost $30,000. The Superintendent of Buildings and Utilities and Mr. McDonel recommend the installation of the new elevator at a total cost of about $30,000 of which $6,000 will be recovered from the fire insurance company.

On motion of Mr. Rouse, seconded by Mr. Mueller, it was voted to approve the installation of a new elevator in the Home Economics Building at a total cost of $30,000.

6. Discussion of the program to be presented to the legislature for approval for self-liquidating projects:

a. 500 units of married student housing
b. Student Services Building
c. Intramural Building for Men
d. Intramural Building for Women

It is necessary to select an architect for "c" and "d".

On motion of Mr. Baker, seconded by Mr. Brody, it was voted to authorize and instruct the officers to take the steps required to attempt to get legislative approval for the four above-mentioned self-liquidating projects.

On motion of Mr. Brody, seconded by Mr. Rouse, it was voted to approve the recommendation that Mr. Calder be engaged to design the Intramural Building for Women and Mr. Sarvis the Intramural Building for Men at the standard fee of 5%.

7. a. As previously authorized by the Board, the Michigan legislature was requested to approve a self-liquidating project covering the addition of 9,150 seats to the football stadium on a self-liquidating basis. The legislature through concurrent resolution has approved this project.

7.  b.  Bids were taken for the addition to the football stadium on February 15 as follows:

</table>

It is recommended that the contract be let to the low bidder, the Clark Construction Company of Grand Ledge, at $357,000 less the deduction of $7,000 for the alternate, or a total gross price of $350,000.

c.  Mr. Cress of the Ann Arbor Trust Company reports tentative arrangements with the Michigan National Bank to provide a loan to cover this project. It is recommended that the officers of the University be authorised to complete tentative arrangements covering this financing to be reported to the Board for final action at its next meeting.

On motion of Mr. Brody, seconded by Mr. Smith, it was voted to approve the awarding of the contract for the addition to the football stadium to Clark Construction Company at $350,000; and to authorize the officers to complete tentative financing through the Ann Arbor Trust Company with the final details to be presented to the Board at its next meeting.

Subsequent to this action and before adjournment, Mr. Clark of the Clark Construction Company appeared before the Board and asked for a hearing. He was accompanied by the architect, Mr. Munson. Mr. Clark expressed great concern about his bid and his ability to execute the contract and asked to be permitted to withdraw his bid.

On motion of Mr. Smith, seconded by Mr. Brody, it was voted to grant this request and to authorize the officers to award the contract to the second low bidder, the Reniger Construction Company.

8.  In accordance with previous authorization by this Board, bids were taken on February 9 for air conditioning guest rooms in the Kellogg Center. Subsequent to the receipt of these bids, consideration has been given to the financing of this project. The following communication from Comptroller May is self-explanatory:

"Several months ago we discussed with the Board the desirability of completely air conditioning all of the Kellogg Center. The Board requested that plans and costs be developed for its consideration.

On February 9 bids were taken on a major part of the work which involved installation of refrigeration and room air-conditioning equipment. The cost of the project can now be determined quite accurately.

Since the addition of air conditioning would involve a major expenditure, I would like to review briefly the financial operations of the Center. In the first year of operations the Center had an accumulated deficit of $14,152, of which approximately $16,000 represented pre-opening expense. Profits of $35,711, $53,208, and $10,159 were reported for the fiscal years ending June 30, 1953, 1954 and 1955, respectively. This year's earnings through December 31 amount to only $4,685. Current earnings have been adversely affected by loss of catering revenue during recent construction, costs of social security for a full year charged against six months of operations and higher labor costs.

Since the beginning of operations a depreciation reserve of $145,398 has been accumulated and is represented by cash in the bank. Out of the accumulated earnings amounting to $128,815, the Board has previously authorized reinvestment of approximately $25,000 in the basement cafeteria, $16,000 in air conditioning of the conference wing, and $60,000 in the new addition.

Thus, it is obvious that although we have plenty of cash for the current project, we would, of necessity, use cash belonging to the reserve for depreciation.

If the Board should authorize this project, the annual cost would probably approximate the following:

<table>
<thead>
<tr>
<th>Item</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>To amortize $187,000 @ 3½% over 20 years</td>
<td>$13,157</td>

</tr>
<tr>
<td>Power</td>
<td>2,000</td>
</tr>
<tr>
<td><strong>Annual Cost</strong></td>
<td><strong>$19,157</strong></td>
</tr>
</tbody>
</table>

*Power costs are estimated low because the system uses steam in the summer when electric power production results in unused steam.

In an effort to recover this cost we should consider the advisability of a further increase in rates. For the year ended June 30, 1955, the Center had 16,141 room occupancies by 75,552 guests. Based on the estimated annual cost of $19,157 and 1955 occupancy, we would need to increase rates $.11 per day. If desirable, we could also recover the cost of air conditioning by having a higher rate for three months in the summer. A comparison of rate schedules is shown below:

It should be noted that in 1955-56, 17.5% of room sales were to non-conference guests. Although no date are available, it is likely that most of the Center's guests are traveling on expense accounts and that an increase under either Plan 1 or Plan 2 would not be much of a hardship.

I suggest that we recommend to the Board:

1. That it authorize the project at an estimated cost of $187,200
2. That it award a contract in the amount of $136,700 to the low bidder, Branz-Diehl & Lohman, Inc. Other bids were as follows:

   - Farmington Co. $139,482
   - Dard, Inc. 139,500
   - R. L. Spitzley 143,740
   - J. A. Dart Plumbing and Heating 166,000
   - Mr. Morgan 167,000
   - Distel Heating Co. 213,000

3. That Kellogg Center rates be increased as suggested in Plan 1 above effective July 1, 1956, for both conference and non-conference guests.*

On motion of Mr. Mueller, seconded by Mr. Brody, it was voted to approve the recommendation that the contract be awarded to the low bidder, and for the financing of this project through the adoption of the schedule of increased room rates outlined in Plan 1 to become effective July 1, 1956.

ADDITIONAL ITEMS, continued

Miscellaneous

1. Assignment of Milton B. Dickerson to the project in Brazil at a salary rate of $11,440 per year, effective from February 2, 1956, to March 31, 1956, and paid from funds furnished by the International Cooperation Administration.

2. Increase in salary for Jerrold H. Keyworth, Lecturer in General Business, from $250 to $350 per month, effective from February 1 to March 31, 1956.

3. Change in the effective date of the resignation of Donald F. Rieder, Instructor in Sociology and Anthropology, from December 31, 1955, to February 29, 1956. The salary from January 1 to February 29 is to be paid from University funds.

4. Change in status of Frank D. Skinner from Assistant News Editor to News Editor in Information Services and a salary increase from $600 to $850 per year, effective March 1, 1956.

5. Change in status of A. Wesley Rowland from News Editor to Executive News Editor in Information Services and a salary increase from $8000 to $9000 per year, effective March 1, 1956.

6. The rear half of the auditorium has never provided satisfactory seating for seeing events on the stage due to the flat floor. The installation of a system of ramps and risers to overcome what would otherwise be a similar situation in the new Civic Auditorium in Lansing has made users of the auditorium more critical than previously. It is recommended that the Board authorize the installation of ramps and risers for the back 22 rows of seats on the first floor of the auditorium. This authorization will permit the ordering of the necessary equipment and the purchase of tickets for next year's series on the basis of the new seating arrangement. The actual contract will be let on a bid basis and will come to the Board for ultimate approval. It is estimated that the total cost will be in the vicinity of $15,800.

It is understood that bids will be taken for the above project and submitted to the State Board of Agriculture for its approval at its next meeting.

7. Upon the recommendation of the College of Engineering, approved by the Academic Council and the Academic Senate, it is recommended that professional degrees in engineering be discontinued after the end of the current academic year. Very few of these degrees have been granted in recent years, and it is felt that they no longer serve a useful purpose.

8. Recommendation that the resolution approved by the Board on December 15, 1955, be amended to read as follows:

"BE IT RESOLVED by the State Board of Agriculture of the State of Michigan that the following named members,

are not required to have access to, nor will they be permitted to have access to, such classified material or information as is received by Michigan State University from Department of Defense agencies, and further that the Security Office, Fifth Army, will be notified prior to any change which would authorize the above members to have such access to classified military information.

"IT IS FURTHER RESOLVED that President John A. Hannah, Secretary Karl H. McKoneal, and Comptroller and Treasurer Philip J. May are authorized to act for the Board in the administration of any classified contracts."

The Fifth Army Regional Industrial Security Office has requested that the resolution be amended because of the change in Board membership.

9. A copy of the ruling of the Attorney General of December 9, 1955, will be found in the Board folders, and a copy of this ruling will be filed with the permanent records of this Board meeting. This ruling has to do with powers of the Faculty and powers of the State Board of Agriculture.

10. Mr. May submits the following report on Workmen's Compensation for the period July 1 to December 31, 1955:

Number of cases 56
Amount paid as accident time $1,929.26
Amount paid as compensation 3,144.00
MSU Health Center charges 1,547.00
Off-Campus medical services 937.75

Includes $708.50 medical care cost for 275 employees who were given first-aid treatment at the Health Center.

11. The usual report on dormitory operations and other financial reports were distributed by Mr. May.

12. Receipt of the annual report from the East Lansing Fire Department.

13. Dean Osgood appeared before the Board to discuss recent developments in the MURA project.

14. Professor Weidner appeared before the Board to report on the Vietnam project.

Gifts and Grants
ADDITIONAL ITEMS, continued

Gifts and Grants

1. Gift of a cutaway display unit MP2878 of a Buick-Pratt and Whitney 18 cylinder Twin Wasp Aircraft Engine, valued at $1,000, from the engineering staff of General Motors Corporation of Detroit to be used for instructional purposes in Internal-combustion engine courses.

2. Gift of clothing for the historic costume collection from Ruth Ryder of East Lansing to be used for class work in the Department of Textiles, Clothing, and Related Arts.

3. Grant of $2,000 from Reno Carrier, President of Federal Drop Forge; Barney C. Cox, President of Melling Forging Company; Walter Lindell, President of Lindell Drop Forge; and Robert Refior, President of Lansing Drop Forge, to be used to establish a graduate fellowship in metallurgy at Michigan State University.

4. Grant of $200 from Mr. and Mrs. Perry Gray, Mrs. Betty Gray, and Mr. and Mrs. W. Thomas Gray of Detroit to be used as a loan fund for married students in the Graduate School, preferably students in Agriculture. This is a memorial for Bryce Carroll Gray, Class of 1950, and son of Mr. and Mrs. Perry Gray.

5. Grants as follows to be used for scholarship purposes:
   a. $5,000 from the Dow Chemical Company of Midland to continue the scholarships in Chemical and Mechanical Engineering for 1956-57.
   b. $500 from Ralston Purina Company of St. Louis, Missouri, to continue the scholarship for the senior during 1956-57.
   c. $125 from the Presser Foundation of Philadelphia, Pennsylvania, to continue the scholarship for a student majoring in music.
   d. $183.33 from the Hastings Public Schools for a student enrolled at present.
   e. $2850 from the Consumers Power Company of Jackson to be used as follows:
      $200 for a freshman scholarship for 1956
      $450 for 1956 payment toward a 3-year scholarship for an engineering student, preferably electrical or mechanical
      $2000 for 1956 payment toward a 3-year graduate fellowship for student studying for doctorate in order to become an engineering teacher.

The University is to use its best judgment in selecting the scholars and fellows on the basis of merit and financial need. It is expected that the freshman scholars will be a resident of the Consumers Power service area in the Lower Peninsula of Michigan. This gift will be followed by one of $5,500 in 1957 and $8,150 in 1958 when the program will be fully implemented and will include one freshman scholar, three engineering scholars, and three graduate fellows planning to become teachers of engineering.

6. Renewal of a memorandum of agreement with The Upjohn Company of Kalamazoo covering a grant of $200 to be used under the direction of W. D. Lindquist in Microbiology to reappraise the efficiency of a piperazine compound in dogs infected with ascarids.

7. Grant of $3,000 from The Upjohn Company of Kalamazoo to be used under the direction of A. C. Wheeler in Surgery and Medicine to complete physical facilities in the new suite of rooms designed for radiology.

On motion of Mr. Mueller, seconded by Mr. Rouse, it was voted to approve all Additional Items.

The Board adjourned at 12:15 p.m.

The next meeting of the Board will be held Saturday, March 17.
