Minutes of the Meeting
of the
Finance Committee
November 23, 1966

The Finance Committee convened at Kellogg Center at 7 o’clock for breakfast.

The following members were present: Messrs. Harlan, Hartman, Huff, Herriman, Smith, Stevens, White; President Hannah, Treasurer May, and Secretary Breslin.

Absent: Mr. Nisbet

1. The officers and directors of the Michigan Press Association met with the Trustees at dinner Wednesday evening, November 22, to discuss items of mutual interest.

2. Scudder, Stevens & Clark and Mr. Earl Cress recommend the following investment item:

$292,200 $13,820 4.7

On motion by Mr. Harlan, seconded by Mr. Huff, it was voted to approve the above investment recommendations.

3. Communication from Mr. May:

On November 7 I received a communication from Scudder, Stevens & Clark advising that American Airlines was currently offering shareholders the right to subscribe to a new convertible debenture issue maturing in 1991.

Since the University holds only 100 shares of American Airlines, we are entitled to subscribe to only $900 of bonds. Scudder, Stevens & Clark recommend that the rights, expiring on November 16, be sold. I authorized Mr. Cress to complete the sale and would now like Board’s approval of this action.

4. Communication from Mr. May:

At the October Board of Trustees meeting, a number of changes in the Harry A. Fee Trusts, that had been recommended by the Detroit Bank and Trust Company, were presented to the Trustees for consideration. After some discussion, the Trustees decided to substitute a purchase of Standard Oil of New Jersey stock for a recommended investment in Colgate-Palmolive Company.

Finance Committee Meeting Minutes, continued

November 23, 1966

4. Communication from Mr. May, continued:

I have received a letter from the Detroit Bank and Trust Company advising that all investment changes have been completed, except for the purchase of Standard Oil of New Jersey stock. This particular trust now holds approximately 20 percent of its investment in petroleum stocks, and for this reason, they suggest that our Trustees consider investing in McGraw Edison Company or Whirlpool Corporation or Fund American Companies.

After discussing this with Mr. Cress, I would like to recommend to the Board of Trustees that it authorize investment of $13,260 in Whirlpool Corporation stock, which is currently selling for about $36 per share.

On motion by Mr. Huff, seconded by Mr. Harlan, it was voted to approve the recommendations in items 3 and 4.

5. Request for the approval of an extension of the $4,000,000 Michigan National Bank Loan, which is due December 31, 1966, for a period of one year at an interest rate of 4 percent. It is recommended that the officers of the University be authorized to sign the notes and legal documents. The resolution authorizing extension of the loan will be filed with the Board material for this meeting.

On motion by Mr. Huff, seconded by Dr. Smith, it was voted to approve the above recommendation.

6. Authority is requested to sign a note with the Community National Bank of Pontiac for approximately $60,000 to cover the purchase price of mobile homes which are to be rented to staff connected with the theater program at Oakland University.

On motion by Mr. Stevens, seconded by Mr. Harlan, it was voted to approve the above item.

7. Communication from Mr. May:

We have been requested to sign an oil and gas lease with the Michigan Consolidated Gas Company, giving it the right to explore for oil and gas on the Sarah Van Hoosen Jones property near Rochester.

This lease is similar to the one given to the company on January 27, 1961.

I would like Board approval to sign such an agreement, with the understanding that it will be cleared with Miss Jones prior to any lease being signed.

On motion by Mr. Huff, seconded by Mr. Merriman, it was voted to approve the above item.

8. Communication from Mr. May:

Attached is a letter to you outlining the problems encountered with the old Oliver property in Battle Creek.

It is my judgment that we have an impossible situation in Battle Creek and should ask Board approval to trade the 7.2 acres to the B. & B. Wrecking Company in return for its property near Rochester.

On motion by Mr. Harlan, seconded by Mr. Huff, it was voted to approve the above request.

9. Mr. Carr reported on negotiations on the case in the Court of Appeals in which the Board of Trustees is the plaintiff and the State Labor mediation Board is the defendant.

On motion by Mr. Huff, seconded by Mr. Hartman, it was voted to instruct Mr. Carr to proceed with his legal efforts to achieve the Board's desire for a single Union for our employees.

10. Recommendation that the Board authorize the purchase of the Harold W. and Geraldine M. Parks farm adjacent to the Kellogg Forestry Tract, a total of 72.26 acres, at a purchase price of $25,000. It is hoped that the Kellogg Foundation will eventually reimburse us.

On motion by Mr. Merriman, seconded by Mr. Huff, it was voted to approve the above purchase of the Parks farm.

11. Mr. May recommended that the Board authorize an appropriation of $64,993, to pay for the redesign bridge project across the Red Cedar River at the Computer Center.

On motion by Mr. Huff, seconded by Mr. Stevens, it was voted to approve the above recommendation.

OAKLAND UNIVERSITY

12. Communication from Chancellor Varner:

When I made the request for authorization from the Board of Trustees to place an order for the bleachers for the gymnasium, I failed to include the electric scoreboard, which will be necessary to conduct our major assault on the records in intercollegiate basketball. I have authorized our people to go ahead and place the order for this, since I felt sure the Board would have been willing to have this included. The total expenditure will be approximately as we described earlier -- about $20,000.

On motion by Mr. Huff, seconded by Dr. Smith, it was voted to approve the above item.
13. Chancellor Varner recommends expanding the role of James L. Howlett, the Oakland University attorney in Pontiac who is now employed on a $1,000 per year retainer. It is now recommended that in order to relieve Attorney Carr of much of the leg work involved in Oakland University legal business, Mr. Howlett be given increased responsibility to work under Mr. Carr’s direction and with Mr. Carr’s approval. It is understood that with the Trustees’ approval Mr. Carr, Chancellor Varner, and Mr. Howlett will develop the specifics of an agreement to be reported to the Trustees before it becomes effective.

It was agreed that Mr. Varner and Mr. Carr would work out a recommended arrangement with Mr. Howlett, to be presented to the next meeting of this Board.

14. From the Minutes of the Meeting of the Board of Trustees on December 17, 1964:

The President introduced a discussion of the new master’s degree programs to be instituted at Oakland University effective in the fall of 1965 and recommended that the Trustees approve in principle the institution of these programs with the details to be worked out by himself and Chancellor Varner.

From the Minutes of the Meeting of the Board of Trustees on June 16, 1966:

Chancellor Varner recommends that Oakland University be authorized to offer master’s programs in Physics, Psychology, and Systems Engineering effective in the fall of 1966.

The President and Chancellor Varner have reported to the Trustees on various occasions on the progress of the graduate programs authorized in the action of December 17, 1964, and subsequently developed by President Hannah and Chancellor Varner and approved by the Trustees. The specific programs authorized effective September 1, 1965, are as follows:

- Chemistry: Master of Science
- Elementary Education: Master of Arts in Teaching
- English: Master of Arts
- Mathematics: Master of Arts
- Social Science: Master of Arts in Teaching

On motion by Mr. Varner, seconded by Mr. Stevens, it was voted to approve the above item.

15. Communication from Chancellor Varner:

Our parking problems have grown quite acute during the fall, and they will be chaotic as the winter months close in and as additional construction gets under way.

In order to alleviate this, it is recommended that the Board authorize us to invest approximately $15,000 to create temporary parking for approximately 250 cars north and west of the new dormitory. It is the plan that this will be so designed that it will carry us through the winter and then be converted into permanent parking within the next year.

It is our recommendation that we be authorized to make this charge against Dormitory No. 7.

On motion by Mr. Huff, seconded by Mr. Harlan, it was voted to approve the above recommendation.

Adjourned.
2. Mr. Huff moved, seconded by Mr. Merriman and Mr. Stevens, that this Board express its endorsement for "Open Housing" policies to become effective as soon as possible in all communities where our employees and students live, as follows:

More than twenty years ago this Board took a firm position that has been consistently held—to the effect that there should be no discrimination of any kind based on race, color, creed, or national origin practiced or tolerated in any operation under its control.

It now seems wise to express our specific concern for equal and adequate housing opportunities for all of our employees and students.

Unanimously approved.

$3,000 approp for improvements to Green Room in Aud for Speech Alterations in Olin for Office Med. Educ Res and Devel.
36. Additional office space is needed by the Speech Department. Office space for two staff members can be provided by moving the existing Green Room from its present location to a relatively unused space behind the experimental theater. Necessary structural, mechanical, and electrical work is estimated at $3,000. If approved, this project will be charged to Alterations and Improvements, account 11-5173.

37. The Office of Medical Education Research and Development will be housed in Olin Health Center until the completion of the Life Science Building. In order for the assigned space to function properly, certain structural, mechanical, and electrical changes are necessary. At the request of Dr. Jason, the space will be air conditioned; this portion will be financed by funds available to his department. If approved, this project will be financed by charging $3,500 to the Office of Medical Education Research and Development, 11-2693, and $3,500 to Alterations and Improvements, 11-5173.

On motion by Mr. Merriman, seconded by Dr. Smith, it was voted to approve Item 36.
38. The Cyclotron Laboratory will receive an SDS Computer in early December 1966. This computer will significantly increase the research capabilities of the Cyclotron. In order to accommodate the computer in the existing building, certain modifications of the space are required. If approved, this project will cost an estimated $12,500 and will be charged to Alterations and Improvements, 11-5173.

39. Two rooms vacated by the University College Natural Science Department in the Natural Science Building have been assigned to the Botany Department as a teaching laboratory and associated preparation room. In order for this space to function effectively for laboratory instruction, certain alterations are needed, including relocation of laboratory tables, blackout shade installation chalkboards, and other necessary improvements. If approved, this project is estimated to cost $10,200 and will be charged to Alterations and Improvements, 11-5173.

40. The Educational Development Project is sponsoring an individual study project in Music for voice students. In order for this project to operate it is necessary to provide four soundproof booths and related electrical and mechanical work. These recording-listening booths will continue to be useful beyond the experimental phase supported by EDP. If approved, the project is estimated to cost $8,900 and will be charged to Alterations and Improvements 11-5173.

On motion by Mr. Hartman, seconded by Mr. Huff, it was voted to approve Items 35, 36, 37, 38, 39 and 40.

It is recommended that a contract be awarded to Barnhart Construction, Inc., in the amount of $19,941 for this work.

44. Report on the Computer Center Pedestrian Bridge:

Bids were opened October 6 for the original project. Three bids were received ranging from $79,400 to $103,600, which were far in excess of the engineers' estimate. The Miller-Davis Company agreed to work with University personnel and the engineers, George Snyder Associates, to rework the design and reduce the cost. The Miller-Davis Company submitted an offer to build this redesigned bridge for a lump sum price of $64,993.

It is recommended that the contract for this work be awarded to the Miller-Davis Company.

To assure delivery when needed next spring, it is necessary to place the order for steel now. The Miller-Davis Company's price is based on proceeding with necessary pier work this fall while the water level is low.

On motion by Mr. Stevens, seconded by Dr. Smith, it was voted to approve Items 41, 42, 43, and 44. Mr. Harlan did not vote on these items.

45. The following resolution was adopted at the annual meeting of Michigan Soil Conservation Districts, Inc., February 23, 1965:

WHEREAS, a continued increase in gross agricultural production by the farmers of Michigan will be necessary for their economy and will be needed by the people of the United States and of the World; and

WHEREAS, expanded crops and soils research will be needed to furnish the know-how to bring about an increase in agricultural production on fewer acres of land; and

WHEREAS, the requests by schools and industry for personnel trained for crops and soils teaching, extension and research continue to increase; and

WHEREAS, the present facilities occupied by the Crops and Soils Department of the College of Agriculture of Michigan State University are not adequate to properly house the present staff and students; Therefore be it

RESOLVED, that we, the Michigan Association of Soil Conservation Districts, give our unqualified support to the Michigan State University Crops and Soil Science Building proposal and recommend to the Michigan State Board of Trustees that this building be included in the 1966-67 Michigan State University building program.
