An agreement has been negotiated between the Michigan State University College of Human Medicine's Department of Psychiatry and the Pontiac State Hospital which makes it possible to begin graduate training in Psychiatry for physicians to the eventual benefit of both institutions involved and the community.

In 1959 the University was granted $44,000 by the Atomic Energy Commission for the purchase of certain nuclear laboratory equipment, including the acquisition of a graphite pile. In 1966 the University of Illinois and the Atomic Energy Commission transferred certain facilities that had been in use at the University of Illinois to Michigan State. As a consequence, the original graphite pile is surplus and no longer needed by Michigan State. With the approval of the Atomic Energy Commission, it was recommended that the graphite pile now not required by MSU be given and transferred to Tuskegee Institute with the understanding that Tuskegee will take care of the costs and expenses involved in moving it.

On motion by Mr. Stevens, seconded by Mr. Nisbet, it was voted to approve the transfer of the graphite pile to the Tuskegee Institute under the conditions stated above.

Oakland Univ B. OAKLAND UNIVERSITY

On motion by Mr. Stevens, seconded by Mr. Thompson, it was voted to award the contract for the site work at Hamlin Hall to the J. D. Armstrong Landscape Company.
C. RETIREMENTS

1. The President reported the receipt of a letter from Mr. May, Vice President for Business and Finance, in which he requested that he be granted retirement at the convenience of the University but not later than June 30, 1969. Copies of Mr. May's letter were distributed to the Trustees.

The President recommended that this request be granted and that the effective date be established as of the end of this fiscal year to make it possible for the University to utilize Mr. May's experience and competence in completing certain projects that are important to the University that are in process of negotiation, including the development of the finalized plans for the Events Building to be financed with athletic revenues and to serve some of the athletic requirements as well as certain other needs of the University.

On motion by Mr. Merriman, seconded by Dr. Smith, it was unanimously voted to grant retirement to Mr. May, to be effective June 30, 1969. Mr. Harlan was absent.

President Hannah then made the following statement:

For more than 21 years, Mr. May has served Michigan State University as principal business officer with the highest professional competence. I do not believe there is a better business officer in any university anywhere.

No one knows better than I how much the continuous progress of Michigan State has depended upon accurate business judgment and sound management practice, and consequently, no one knows better than I how much the University owes to his performance. I have depended upon him heavily, and he has never failed me.

No one—no auditor, no investigator, no supplier, no critic—has ever so much as hinted that this University or the people of this state ever lost as much as a penny by reason of Mr. May's private business transactions.

I, who know him better and have worked with him more closely than anyone else at the University, believe him to be a man of absolute dependability and honesty in both his public and his private affairs.

The University will miss his competent service.

D. INVESTMENT ITEMS

1. President Hannah suggested the designation of an Investment Committee authorized to act for the Trustees in all matters of investments and real estate purchases with Action re reports of their actions to be distributed to all Trustees at each regular meeting. It is understood that the committee will act formally only upon unanimous action by the committee and that Scudder, Stevens & Clark and Mr. Earl Cress will continue postponed to serve as investment counselors. The President suggested that the first committee consist of Mr. Stevens, Mr. Nisbet, and the President.

After discussion, it was decided to postpone action until the next meeting of the Board.

E. NOVEMBER MEETING

A question was raised as to whether the November meeting would begin with an informal meeting on Wednesday, November 20, or be confined to Thursday, November 21.

It was agreed that Secretary Breslin would canvass the Trustees and would notify all Trustees as soon as possible of the procedure that satisfies the greatest number.
