President Mackey introduced Dr. Ralph H. Smuckler, Dean of International Studies and Programs. Dean Smuckler's excellent presentation called attention to the several dimensions of the University's international activities including institutional development, educational programs, and research. Since their initiation in 1956, the University's international programs have played a major role in assisting developing nations to establish flourishing domestic institutions of higher education and to apply various types of technology to local economic and social problems. Dean Smuckler predicted that the former patterns of large institutional development projects will be superceded by a series of smaller projects in keeping with a change in United States government philosophy regarding foreign assistance. Accompanying this change will be greater effort on non-country specific programs directed toward seeking solutions to regional problems. In addition, there will be a shift to collegial relationships with the faculty of institutions abroad as contrasted to the tutorial relationships which heretofore have been predominant.

During the recess there were meetings of the Board Investment and Lands and Physical Facilities Committees.

E. REPORTS TO THE BOARD

1. President's Report

President Mackey reported that the winter term enrollment of 42,710 is the second highest in the University's history; some 300 students short of the all-time record. He noted that the winter term enrollment pattern continued the previous term's pattern of increases in the Colleges of Business, Communication Arts and Sciences, Engineering, and Natural Science.

Dr. Mackey also commented that the Governor's 1980-81 budget recommendations contemplate larger increases than had earlier been indicated. The Governor's recommendations also depart from earlier signals in that they make some effort to recognize institutional role and mission and are not straight across-the-board adjustments for all institutions.

2. Board Committee Reports

a. Investment Committee

On behalf of the Investment Committee, Trustee Krolikowski reported that the committee reviewed letters from Scudder, Stevens & Clark outlining investment transactions taken since the October meeting of the Board of Trustees. Also reviewed was the Investment Performance Report for the quarter ended September 30, 1979.

The Committee heard a presentation from representatives of Detroit Bank & Trust regarding their management of the Fee trusts and discussed a recommendation from the bank that full discretionary authority be granted to them in the management of these assets. Currently, the Board is required to approve sales in two of the three trusts. The Committee voted to recommend to the Board that full discretionary authority be granted subject to the requirement that all investment transactions be reported to the Investment Committee on an after-the-fact basis at the next meeting of the Committee following the transaction.

Trustee Krolikowski moved approval of the report, seconded by Trustee Sawyer. Approved on a vote of 6 to 0. Trustee Radcliffe was not in the room at the time the vote was taken.
2. Board Committee Reports, cont.

a. Investment Committee, cont.

Trustee Krolikowski also reported successful implementation of the Board's decision to divest itself of stocks of firms doing business in South Africa. He reported that this series of transactions had resulted in substantial economic gains in contrast to earlier predictions of negative financial consequences to the University.

b. Lands and Physical Facilities Committee

Trustee Krolikowski reported that the Land and Physical Facilities Committee considered but made no final decision on a request by the Reef Petroleum Company for the necessary easement and right-of-way agreements to establish a processing station and market the gas from our well in Avon Township, Oakland County.

He also reported that the Committee had voted to direct the Administration to list the 385 acres of land in the Sara Van Hoosen Jones property with Weir, Manuel, Snyder and Ranke for a twelve-month period at $9,000 per acre. Prior to the listing, we should give the two developers which had previously expressed interest in the property thirty days to make an offer. A report was received concerning preliminary negotiations on a possible gift of property on the AuSable River.

The Committee also recommended cooperation with the Tri-County Planning Commission in a study to determine automobile origin and destination patterns.

Trustee Bruff moved approval of the Committee report. Seconded by Trustee Sawyer. Approved 5 to 1 with Trustee Krolikowski voting No. Trustee Radcliffe was not in the room at the time the vote was taken.

Trustee Krolikowski moved that in the Board's closed session, as previously voted, consideration also be given to a lease as authorized under Section 8 of the Open Meetings Act. Seconded by Trustee Bruff. Approved. Voting Yes: Trustees Bruff, Lick, Martin, Sawyer, and Stack. (A copy of the minutes is filed in the Executive Session Minutes book in the Secretary's Office.)
