a. 1982-83 Budget

Vice President Thompson reviewed the 1982-83 recommended budget for the General Fund, Agricultural Experiment Station, Cooperative Extension Service, and Intercollegiate Athletics (copy of material on file in the Secretary's Office). He emphasized that the General Fund budget includes actions previously adopted by the Board incorporated in the interim budget including student fees. He stated that the recommended budgets include a 5% salary adjustment for faculty and administrators effective January 1, 1983.

At the request of President Mackey, Provost Winder commented on the recommended salary adjustment and alternatives considered by the Administration. Included in Provost Winder's remarks was also a summarization of the Faculty Affairs Committee recommendation which is an adjustment of 8% effective January 1, 1983, with the funding for the additional 3% to come from open faculty positions. Provost Winder reminded the Board that these open position dollars were already committed in the $12 million Cash Management Plan. Provost Winder summarized the relative faculty salary range of our faculty within the Big Ten and supplied information concerning the three-year salary increments for our faculty in comparison to Big Ten and other Michigan public institutions. Provost Winder then asked the Deans of the several colleges to comment on the budget recommendation including the 5% salary adjustment. The following Deans made comments: James Anderson, College of Agriculture and Natural Resources; Erwin Bettinghaus, College of Communication Arts and Sciences; Judith Lanier, College of Education; Richard Lewis, College of Business; Donald Weston, College of Human Medicine; Raymond Vlasin, Life-long Education Programs; Robert Green, Urban Affairs Programs; Ralph Smuckler, International Studies and Programs; and Richard Byerrum, College of Natural Science.

Following the comments by the Deans, President Mackey stated that the record shows, when possible, we are prepared to consider mid-year salary adjustments for the faculty. He stated that if the economic situation of the State improves and if the general financial condition of the University permits, he would be prepared to recommend to the Board of Trustees a mid-year salary recommendation similar to the one which was approved two years ago by the Board.

a. 1982-83 Budget, cont.

Professor Norman Abeles, Chairperson of the Faculty Affairs Committee summarized the Committee's recommendation relating to the faculty salary adjustments. He stated the Committee recommends a salary adjustment of 8% effective January 1, 1983, or 5% effective October 1, 1982. He stated that he agrees that the Administration and the Board have been concerned about faculty salaries; however, he felt that we could not turn from the progress made during the past three years. President Mackey then summarized the choices relating to this matter which were before the Board and commented that they were consequences, not choices, due to the financial condition of the State of Michigan.

Professor Lawrence Sommers, Chairperson of the Steering Committee, stated that it was necessary to have a quality faculty in order to have a quality institution and this should continue to be the Administration's and the Board of Trustees' goal. He stated that the faculty realized the problem facing the State and that priorities must be carefully considered by the University community. He stated he was pleased to hear President Mackey's comments concerning possible mid-year salary adjustments.

Provost Winder summarized the discussion on the 1982-83 budget recommendation by stating that the alternatives had several impacts within the academic area, i.e., adequate support service, teaching materials, travel, deferment of maintenance, upgrading of teaching/research laboratories, and upgrading of large classrooms. He stated the proposal would permit the University to manage another year within the resources and look to next year without jeopardizing the financial position of the University.

3. Trustee Lick read the following resolution:

The Board of Trustees at Michigan State University today enthusiastically commends the faculty and staff, students, parents, alumni, and other friends of our University for their consistent commitment to excellence during unprecedented economic times.

The Michigan State community has not permitted budget difficulties to serve as an excuse for reducing the standards that have traditionally been maintained here, at a time when the temptation to do so is admittedly attractive.

The Board of Trustees is well aware of the problems and challenges faced by all members of the Michigan State community, and we sincerely appreciate the effort to retain a mood of cooperation in all sectors of the institution. Surely, there are many examples of which we are aware that demonstrate unselfish and innovative approaches to difficulties caused by budget constraints.

We are heartened, especially, by the obvious commitment to the future displayed by our faculty and staff. Because of this unwillingness to let current problems adversely affect the future, the Board of Trustees is confident, indeed, convinced, that Michigan State University will emerge from perilous economic times as a stronger, bolder, more efficient, more innovative, and more compassionate institution.

Our commitments and patience have been severely tested; our ability to provide the state, region, nation, and world with Michigan State leadership has been threatened.

This Board of Trustees is grateful that during these challenging and threatening months, our University has not only survived, it has in many ways thrived.

The Michigan State community has been vigilant in the guarding of honored traditions of excellence at the nation's pioneer land-grant university. As we acknowledge that effort, we promise our concurrent vigilance.
