On motion by Mr. Harlan, seconded by Mr. Merriman, it was voted to approve the investment recommendations. Mr. Huff voted "no" on this item.

### 2. Communication from Mr. May:

As you know, we were advised in late June that our group accident travel policy would not be renewed when it expired on August 1, 1966. You may also recall that at the last meeting of the Administrative Group, some of the Deans indicated a desire to have coverage for semi-official travel such as travel to professional meetings where no reimbursement of travel expenses was involved.

The Business Office was unsuccessful in obtaining any quotations for this complete coverage since no one could give any firm indication of the amount of semi-official travel. In late July the Provost called a meeting of the Deans for discussion of the situation, and it was agreed that the Business Office should make arrangements for a policy which would cover faculty and administrative-professional personnel for official travel only. The policy, which was secured from Continental Casualty, provides a maximum of $50,000 for accidental death and the usual dismemberment provisions. The annual cost of this policy is $16,648.

In negotiating for this policy, arrangements were also made for all faculty and staff to purchase at their expense additional accident insurance which will cover them for all travel at an annual cost of 60 cents per thousand. This coverage may be purchased in units of $5,000 with a minimum of $10,000 coverage and a maximum of $50,000.

Since there was no opportunity to discuss this program with the Trustees, I requested the privilege of a three-month cancellation option on the official travel policy in order that it could be presented to the Trustees for their approval. Although the company has prepared literature for the optional coverage which is paid for by the employees, literature will not be distributed until the Board has approved the basic policy.

This policy was handled through the Mourer Agency because of the urgency in adopting coverage and because data used for the previous policy was acceptable to Continental Casualty.

On motion by Mr. Huff, seconded by Mr. Hartman, it was voted to approve the recommendation that this arrangement be approved for a 90-day period with the understanding that bids will be solicited for a policy to be effective on that date. It is hoped that these bids will be ready for the October Trustees' meeting.

Mr. White and Mr. Harlan voted "no" on this item.

### 3. A copy of a letter from Mr. Zwingle of the Association of Governing Boards urging the Trustees to participate in the Colloquium to be held in Washington on November 16 and 17 was given to the Trustees.
Finance Committee Meeting Minutes, continued:

September 14, 1966

4. During the course of the audit, it was discovered that a $300,000 MSU note held by the Retirement Fund with a due date of October 1, 1965, had not been extended.

   This note was part of the original $900,000 financing of the Manley Miles Building. According to the original loan agreement, $600,000 borrowed from the National Bank of Detroit was to be paid off prior to any principal payments being made on this note. Interest is, of course, credited to the Retirement Fund at the rate of 4 1/2%.

   I would like to recommend that the Trustees approve an extension of the due date on this note to October 1, 1972. It appears that by that time we will have completed payments on the note to the National Bank of Detroit and will have been able to liquidate this obligation.

On motion by Mr. Huff, seconded by Mr. White, it was voted to approve the above recommendation.

5. Communication from Mr. May:

   The past week the Planetarium staff, Dr. Neville, and I met with Mr. Frank, President of the Spitz Laboratories, Inc., regarding problems encountered in the operation of the Planetarium.

   I think you are aware that the staff has encountered many difficulties in the operation of the Spitz instrument, which was a new design at the time of purchase. Since that time there have been a number of important developments in the equipment which could be incorporated into our machine to make it much more versatile for the teaching programs conducted at the Planetarium. It is the judgment of all concerned that we would be wise to have our machine updated and placed into new equipment condition.

   I am recommending that the Trustees appropriate $30,000 to update the machine. If this appropriation is made and the company advised to proceed by September 15, we have been assured the machine will be back in operation by the start of the winter term.

On motion by Mr. Harlan, seconded by Mr. Huff, it was voted to approve the above item.

6. You have received a letter from Mr. Lautner relative to the added cost of spraying trees with Methoxychlor.

   Since the budgets had already been finalized, it is necessary that I recommend a special appropriation of $3,850 for material and $6,000 for the additional spray rig.

7. Communication from Mr. May:

   I have received a request from the Office of International Programs advising that its allocation for International Travel is exhausted.

   I would recommend that the Trustees authorize the transfer of $7,500 from Indirect Expense Allowances for this purpose.

On motion by Mr. Huff, seconded by Mr. Harlan, it was voted to approve items 6 and 7.

8. Necessary alterations in the Grounds Maintenance Building have been under discussion for the past several years and are now estimated to cost $27,900. It is recommended that the Board authorize an appropriation of this amount to cover this project. Almost 50% of this cost is due to switching from a gas-fired individual furnace to the University's steam supply.

On motion by Mr. Huff, seconded by Mr. Merriman, it was voted to approve the above appropriation.

9. It is recommended that the Board authorize the purchase of a home and three acres of land located at 3020 Collins Road from Dr. Belding at a purchase price of $40,000 with the understanding that Dr. Belding will be permitted to occupy this home until October 1, 1968, and during the period of his occupancy he is to pay all taxes, maintenance, and expenses connected with the home.

10. It was possible to secure on August 24 a 20-day purchase option for the 94 acres adjacent to the Kellogg Biological Station owned by Mrs. Maggie Louden. This option would have expired on September 12.

   Dr. Morris of the Kellogg Foundation has agreed to recommend to his Trustees that the Foundation appropriate the funds ($50,000) required to purchase this farm. I have acted for the Board of Trustees and authorized signing the purchase agreement with Mrs. Louden.

11. The President on August 12 acted for the Board of Trustees approving the purchase of a home and 1-acre lot on Forest Road from Mr. and Mrs. Robert Lucas for $25,000.

On motion by Mr. Huff, seconded by Dr. Smith, it was voted to approve items 9, 10 and 11.

12. On September 9 the following bids were received for installation of lights for two new intramural fields in the East Campus dormitory area:

   Hall Electric $22,690
   Barker-Fowler 22,900
   Lansing Electric Motors 25,728

   continued - -
Finance Committee Meeting Minutes, continued:

12. Bids for installation of lights for two new intramural fields, etc., continued:

It is recommended that the contract be awarded to the Hall Electric Company for $22,690 for the work.

An appropriation of an additional $4,690 is required.

We have been advised that if the contract is awarded at the September Board meeting, it will be possible to have this installation made by early October.

On motion by Mr. White, seconded by Mr. Harlan, it was voted to approve the above recommendation, including the additional appropriation.

13. It is recommended that the Board approve the creation of a separate non-profit corporation entitled: "The Michigan Educational Research Information Triad, Inc." with the directors composed of institutional representatives from the three universities—University of Michigan, Wayne State University, and Michigan State University—in order to permit joint action in connection with the development of a broad program in the area of information processing, and exchange by computer and other electric media. One immediate purpose will be to prepare an application for federal funds to permit experimentation with inter-institutional computer communication. It is recommended that Dr. Muelder be designated as the Michigan State University representative to serve on this Board of Directors. It is understood that in the event funds are received for the corporation, one or more of the participating universities will be named as fiscal agent for particular projects.

On motion by Mr. Merriman, seconded by Mr. Stevens, it was voted to approve the above recommendation.

14. Oakland University has received a gift of 110 shares of Prentice-Hall, Inc. common stock from John G. Powers. Authorization for sale of this stock is requested.

15. Communication from Chancellor Varner:

Our people in the housing department have reminded me pointedly that we have never had a dormitory ready to occupy at the time it was needed and scheduled for completion. This is, painfully, the situation we find ourselves in now in the new Calder dormitory, and we will be living in a chaotic situation for nearly a month. In view of this, they are urging that we start planning now for a new dormitory to be ready for occupancy in the fall of 1969. I must confess that this is considerable lead time, but in light of experience in years past, I am compelled to agree that we should get on with this at an early date.

I would like to recommend that we be authorized to commission Redstone and Associates to begin preliminary studies for a dormitory complex to house 1,200 students and to include dining facilities, to be ready for occupancy in September 1969. I would want to make it clear to Mr. Redstone that there will be no compensation until the decision is made to move on this unit and that we are making no commitment that cannot be retracted at a later date. In other words, we would ask him to do this on a speculative basis, with the expectation that it would be built ultimately and that he would be paid the regular 5 percent fee.

Our people who have worked with the three architectural firms which have done the dormitories here are convinced that Redstone has the greatest promise. The first three dormitories that he designed for us came in at an extremely low cost, of which the last one was higher than we had expected. With our most recent experience, I am sure he will be super-sensitive about costs.

On motion by Mr. Huff, seconded by Mr. Harlan, it was voted to approve the recommendations in items 14 and 15.

16. On September 12, 1966, bids were opened for remodeling a section of the administrative wing of North Foundation Hall on the Oakland University campus. The following firms submitted bids on this job:

- Bundy Construction Company
  1309 S. Telegraph Road
  Pontiac, Michigan
  $15,850

- Garascia Construction Company
  1397 Hawthorne
  Grosse Pointe Woods, Michigan
  $17,200

- Harry D. Osgood Company
  11331 Limwood
  Detroit, Michigan
  $13,300

- Zervos Construction Company
  Detroit, Michigan
  $15,800

It is recommended that the Board authorize a contract to the low bidder for this remodeling:

- Harry D. Osgood Company
  for $13,300

This contract will be charged to Alterations and Improvements budget.

On motion by Dr. Smith, seconded by Mr. Merriman, it was voted to approve the above recommendation.

Adjourned.
MINUTES OF THE MEETING
of the
BOARD OF TRUSTEES
September 14, 1966

Present: Mr. Huff, Chairman; Messrs. Harlan, Hartman, Merriman, Nisbet, Smith, Stevens, White; President Hannah, Treasurer May, and Secretary Breslin

Absent: No one

The meeting was called to order at 10:30 a.m. - President Hannah presiding.

The Minutes of the July meeting were approved; also the Minutes of the special meeting of the Board held on August 8, 1966 were approved.

SPECIAL MISCELLANEOUS

1. Approval of the Finance Committee Items on the preceding pages.

On motion by Dr. Smith, seconded by Mr. Stevens, it was voted to approve the Finance Committee Items.

2. The President introduced a discussion of the minimum wage rate for students and suggested that consideration be given to establishing a minimum pay scale effective September 26, 1966 at $1.40 per hour, instead of the present $1.25 per hour - this to be effective for both Michigan State University and Oakland University.

On motion by Mr. Stevens, seconded by Dr. Smith, it was voted to approve the above recommendation.

3. President Hannah reported on the discussions which have been carried on over the past several months between the officers of the University and the staff of the State Board of Education having to do with the possible establishment of a law school at Michigan State University. These discussions had been authorized by the Trustees and he indicated that we have now reached a point where it would be proper for the Trustees to formally request approval for this program.

On motion by Mr. White, seconded by Mr. Stevens, it was voted to instruct the President and the officers of the University to make a formal request on behalf of this Board to the State Board of Education, requesting their approval for the establishment of a degree-granting law program at Michigan State University.

The cost of this work will be charged to 11-8725, appropriation for drilling wells.

* Compilation of the bid of Ackerman Construction Company and Layne-Northern Company, with one contract to Ackerman.

48. On September 8 the following bids were received for construction of a parking ramp with a design capacity of 576 cars:

**General**
- Miller-Davis Company $991,800
- Christman Company 999,600
- Granger Construction Company 1,075,000

**Mechanical**
- Shaw-Winkler, Inc 88,573
- Bosch Plumbing & Heating 88,936
- W. A. Brown Corporation 94,115
- John E. Green Plumbing & Heating 97,970
- Phoenix Sprinkler & Heating 128,881

**Electrical**
- Fox Electric Company 69,062
- Lansing Electric Motors 69,774
- Hall Electric 72,850
- Central Electric 75,600

**Elevator**
- Otis Elevator Company 21,800
- Haughton Elevator Company 22,610
- Westinghouse Electric Corporation 23,381
- Montgomery Elevator Company 24,987

The bids included the cost of rerouting utilities on the parking lot site. The bids indicated this work amounted to $71,291. Therefore, the actual cost of the ramp amounted to $1,171,235, and the cost including utilities, to $2,033 per car. It is recommended that contracts be awarded to the following low bidders:

- Miller-Davis Company $991,800
- Shaw-Winkler, Inc 88,573
- Fox Electric Company 69,062
- Otis Elevator Company 21,800

$1,171,235

The bids are within the original estimates, and the project can be built under the budget shown below:

- Construction $1,171,235
- Architect 60,000
- Site 11,000
- Utilities 1,500
- Engineering and Inspection 11,000
- Contingency 20,265

$1,275,000

This project will be financed internally from income from faculty and staff parking permits and parking revenues from the operation of lots.
At the July Board meeting the Trustees authorized the award of contracts to the low bidders on the Administration Building, contingent upon the authorization that the project be increased by the legislature and the release of funds by the State Administrative Board.

I would like to report to the Board that after consultation with legislative leaders and the State Building Division, certain changes were made in the use of materials in the building to reduce the estimated project cost from $6,200,000 to $5,900,000. It is expected that with these changes, the legislature would authorize the project at $5,900,000. In mid-August the legislature passed Senate Concurrent Resolution No. 222, Regular Session of 1966, authorizing a total project cost of $5,900,000 with the state's share not to exceed $5,600,000.

Following the passage of the Senate Concurrent Resolution, a request was made to the State Administrative Board for the release of funds appropriated by Act No. 2, Public Acts of 1966, in the amount of $100,000 and Act No. 310, Public Acts of 1966, in the amount of $1,900,000. On September 6 the State Administrative Board approved the request for the release of funds. On September 7 the contractors were authorized to start construction on the new Administration Building. Scheduled completion date is January 1, 1968.

For the record I would like to recommend that the Board approve the revised budget shown below:

Since the University must supply $300,000 of the project cost, I would like to recommend that the Trustees authorize this appropriation to be set up as funds become available in the General Fund.

On motion by Mr. White, seconded by Mr. Stevens, it was voted to approve items 46, 47, 48 and 49.

50. Communication from Elton R. Smith, President of the Michigan Farm Bureau:

As a farmer and as President of the Michigan Farm Bureau, I would like to express to you some of the appreciation and satisfaction that we in agriculture have in the education and research programs that are, or have been carried on by the College of Agriculture at Michigan State University. I refer specifically to the following four programs in particular, under the capable leadership of Dean Cowden:

1) The research and development of Tel-Farm. A program to help Michigan farmers do a better job of managing their farm business.
2) Researching the future of Michigan agriculture, known as "Project 80", also known as one of the most popular research programs ever carried on in agriculture.
3) The Farm Organization Survey. This is a project to study farmers' thinking and attitudes about existing farm organizations in Michigan.
4) The Kellogg Farmer Study Program. A project of using selected young farmers who have committed themselves to farming and in this effort to better prepare themselves to making decisions on public issues; decisions that will shape the future of Michigan agriculture and Michigan rural communities.

All of the above listed projects have been developed by the Agricultural Economics Department, headed by Dr. Lawrence Boger. Dr. Boger is most highly respected in Michigan agriculture as head of the Agricultural Economics Department. He is also known as one who has developed a highly respected staff in the department.

As a farmer, and an elected leader in our organization, I know I speak for many of our people when I say all of these projects will be of great value to the future of Michigan agriculture.

51. Communications have been received from the following farmers urging the Trustees to include a request for a new building to house the Departments of Crop Science and Soil Science in the University building program:

Stanley Woods, President of the Michigan Crop Improvement Association.

From the following members of the Michigan Certified Seed Corn Association:

Basil McKenzie, John L. Canfield, Carl F. Abel, Robert L. Moore, Lyle Aldrich.

It is the recommendation of the architects and Oakland University officials that contracts be awarded to the following low bidders:

Albert D. Thomas, Inc. $ 59,553
Benjamin Muskovitz Company 46,796
Schultz Electrical Service 47,000

The budget for this project will be:

General Construction $ 59,553
Mechanical Work 46,796
Electrical Work 47,000
Architects’ Fees 15,000
Equipment, Furnishings, Contingencies 83,651
$252,000

6. Communication from Chancellor Varner:

I am writing to report to you two actions which we have taken during the past few weeks, and about which we talked some ten days ago. Both of these are in connection with the establishment of the theater program here on campus, and both actions were necessary in order to have the facility ready for use when rehearsals start in mid-November.

The first action was in connection with the theater lighting equipment. We took bids on this, and the lowest bid was from the Century Lighting Company at $34,594.85. The second low bid was $52,900 from Kleigl Company. We have awarded the contract to Century with the understanding that the equipment will be delivered by November 1, and installed, ready for use by mid-November.

The second action had to do with some modifications in the building to make it usable by the theater. This involved a series of minor architectural, electrical, and mechanical modifications. The bids were taken after the specifications were drawn up by the architectural firm of O’Dell, Hewlett, and Luckenbach. While we had anticipated a budget of approximately $30,000, the low bid came in from the Bundy Construction Company at $93,000. We have subsequently made major modifications in the work to be done, and are now convinced that the minimum changes necessary for the operation of this program can, indeed, be achieved for the original figure. We have negotiated these figures with the Bundy Construction Company, and the following awards have been made:

Bundy Construction Company, architectural $20,000
Schultz Electrical Company 7,600
Benjamin Muskovitz Company, mechanical 3,100
$30,700

continued -
6. Communication from Chancellor Varner, continued:

This work has been authorized, and they are now proceeding with the target date of November 15 for completion.

They all seem within the bounds of reason, and we have been assured that they can be completed in time to permit the use of the theater for rehearsals on November 14.

7. Communication from Chancellor Varner:

This is to recommend for approval by you and the Board of Trustees an administrative regulation to govern our traffic situation here on campus. You will recall that we have not, up to this time, had an automobile registration fee, and have indeed had little problem because of traffic in view of our adequate parking accommodations. This situation has suddenly disappeared, and we have had a committee at work on this matter for the past several months. Their recommendations are as follows:

1) All automobiles--student, faculty, and staff--must be registered at the beginning of the fall semester.
2) The registration fee will be $2 per year for the first car and $1 for each subsequent car in the family. Anyone failing to register by October 1 will be subject to a $15 fine.
3) Fines for violations will be paid to the Cashier of the University and assessed according to the following schedule:

   1st violation - $2  
   2nd violation - $5  
   3rd violation - $10  
   4th violation - $15  
   5th violation - Referral to the Dean of Students  
   (For staff, to Principal Administrator)

Failure to pay the fine within 7 days of the violation will result in the following added charges:

   After 1 week - An additional $2  
   After 2 weeks - An additional $4  
   After 3 weeks - An additional $8  
   After 4 weeks - An additional $16

   If the fine is not paid after one month, the matter will be referred to the Dean of Students or the appropriate principal administrator.

4) Non-University people who violate the parking regulations will be initially issued a courtesy ticket, which can be mailed to the University with the $2 fine. We propose to assign this fine income to our scholarship or to our student loan fund.
5) An appeal board will be established, made up of the Dean of Students, (Chairman) the Director of Public Safety, President of the Dormitory Council, President of the Commuter Council, and one member from the Faculty Affairs Committee.

It is our hope that enforcement can be accomplished by our own people and that we can handle this without going through the township or county court system. After a year's observation, we would undoubtedly have some refinements to recommend on this procedure.

On motion by Mr. Huff, seconded by Mr. Hartman, it was voted to approve the foregoing Oakland University Items.

On motion by Mr. Huff, seconded by Mr. Hartman, it was voted to accept the Oakland University Gifts and Grants.

The meeting adjourned at 12 o'clock noon.

The next meeting will be held on Thursday, October 20, with an informal session on Wednesday evening, October 19.

Minutes of the Executive Session of the Board of Trustees September 14, 1966

Following the Finance Meeting of the Board of Trustees, Chairman Warren M. Huff asked for an Executive Session of the Board with the Secretary. All Trustees were present with the exception of Mr. Nisbet.

Chairman Huff called the meeting to order at 9:50 a.m. and asked for a progress report from the Secretary relative to the John A. Hannah Testimonial Dinner scheduled for November 18, 1966. Following the Secretary's report, there was a discussion concerning the financing of the John A. Hannah endowed chairs. The Trustees were enthusiastic in their support of this project and voted unanimously to match the funds raised by the alumni for this purpose.

The Secretary in his report to the Trustees indicated that the Planning Committee had set a goal of $3,000,000 for the ten John A. Hannah endowed chairs. The financing of the chairs would be a combination of unappropriated general funds and those funds raised by the alumni and friends. The Secretary also reported that the specific disciplines and organizational structure of the John A. Hannah Chairs would be recommended to the Board by the Office of the Provost.

Adjourned.
