3. President’s Report

   A. State of the University Address

   President Simon said the State of Michigan budget recommendations are in flux because the Executive Order was not accepted by the Legislature. MSU will continue to work with the faculty through the University Committee on Faculty Affairs and the students through their Budget Committee. It has been a long
process and will require compromise in order to find a budget that will work not only today but for the future of Michigan.

B. WJR Radio—Frank Beckmann Show

President Simon said the Frank Beckmann Show will be at MSU on Tuesday, February 27, from 9 am-11:30 am. The show will broadcast live from the Union building as part of a campus tour. The show will focus on research discoveries and include a round table of students to discuss current issues and the role that MSU plays in the future of Michigan.

C. Chuck Gagliano Retirement

President Simon commented that Assistant Vice President of Housing and Food Services Chuck Gagliano will retire after 37 years of service to MSU. Chuck began working for Housing and Food Services as a supervisor in Brody Hall in 1969 and progressed through the ranks until he was named Assistant Vice President in 1997. Over the years, the Housing and Food Services program at MSU has remained one of the top programs in America due to the leadership of a person who has tremendous vision, fiscal integrity and an ability to develop partnerships across campus.

Trustee Ferguson said that MSU has a first class housing and food service system and that Mr. Gagliano will be missed.

Trustee Perles thanked Mr. Gagliano for his help over the years with recruits for the football program. The training table in Case Hall has been an important part of showcasing MSU to prospective student athletes.

Trustee Foster told Mr. Gagliano that he would be leaving some big shoes to fill at MSU. She commented that she had the opportunity to spend a day with him touring the entire operation and was a bit overwhelmed by the breadth of it. She thanked him for his hard work in setting the national standard for housing and food service.

Trustee McNamara said that she was appreciative of how attentive he has been over the years to her questions and concerns.

Trustee Nugent said that the management of a complex system such as Housing and Food Services is an immense responsibility. It many times appears seamless in operation, thanks to Mr. Gagliano’s hard work.
Trustee Owen said that she would be singing Mr. Gagliano’s praises at MSU for many years to come.

Mr. Gagliano thanked the Trustees for their kind remarks. He said that it has been wonderful working with the Board of Trustees over the years. The experience has been incredible and the foundation has been laid for the next person to improve upon.

D. I Stop Hate: MSU United

President Simon said that Trustee McNamara had joined her and approximately 60 representatives of MSU student organizations to kick off the I Stop Hate: MSU United campaign on February 14, 2007. This supports the vision of an inclusive MSU community. President Simon asked that Senior Advisor and Director Granberry Russell say a few words regarding the event.

Senior Advisor and Director Granberry Russell stated that the students took charge and led the effort to bring action to the words of the President’s Diversity and Inclusion statement. The students approached the Office of Student Affairs and Services and the Office for Inclusion and Intercultural Initiatives to ask the administration to embrace their campaign. Ms. Granberry Russell asked Lauren Beech and Mark Dobson, student coordinators of the campaign, to offer a few comments about the event.

Ms. Beech said that the I Stop Hate: MSU United campaign had 60 student groups and was growing. The campaign includes faculty, staff and administration. The next event will be a charity walk held on March 31, 2007 to benefit the Red Cross and MSU Student Food Bank.

Mr. Dobson said that the movement is about promoting inclusion and tolerance, not just stopping hatred. The goal is to create a community that everyone can be proud of.

4. There was no Public Participation on Issues Germane to the Agenda.

Provost Kim Wilcox presented the following personnel actions:

Associate Vice President Hunt presented the Gifts, Grants and Contracts report for the period November 22, 2006 through February 9, 2007. The total value for this period is $82,875,643.09.

Trustee McNamara moved to approve the report, with support from Trustee Owen.
THE BOARD VOTED to approve the Gifts, Grants and Contracts report.

Vice President Hunt introduced Associate Professor Jetze Tepe from the Department of Chemistry as an excellent example of a faculty member who collaborates across departments on campus.

Professor Tepe said that he started a research program in 2000 at MSU that focused on cancer. He explained that over the past 50 years, pharmaceuticals have reduced the top four causes of mortality in the United States, with the exception of cancer. Chemotherapeutic drugs have not had the same impact as drugs used to treat illnesses such as pneumonia and influenza.

Professor Tepe said that two pathways are currently being researched in his lab. The first involves making small molecules that will be used in combination with ionizing radiation or chemotherapy that would block survival responses in cancer cells. The question of whether smaller molecules being made in a very few steps would have better biological activity is the basis for the program. The second pathway takes the opposite approach and looks at the surrounding tissue when a person is exposed to ionizing radiation. The question of whether small molecules can be used to create DNA repair in cells drives the research on this pathway.

Professor Tepe said that he currently has a compound being developed for clinical use and will continue work on his cancer research programs.

Very few music programs have as much community engagement as this one. The School of Music has reached out to many communities, including working with Detroit youth.

9. Internationalization Report

Provost Wilcox presented Internationalizing the Campus 2006. (Appendix J)

10. Trustee Comments

Trustee Ferguson said that the meeting was very informative and he looked forward to seeing everyone in April.

Trustee Nugent reinforced the importance of internationalization by saying that his company now does business in over 50 countries in the world. An interesting example involving Michigan agriculture is mango ice cream served in India. The mangos are grown in Mexico, and shipped to Michigan to be prepared for the ice cream, which then goes to India, even though India is the largest producer of mangos in the world. This shows how small the globe has become.

President Simon said that Trustee Nugent’s company is a good example of the way in which globalization affects Michigan companies. It is important to educate students to work in that climate.
Trustee Gonzales said that she enjoyed the presentation by Provost Wilcox.

Trustee McNamara noted that ESPN Game Day is Saturday at the Breslin Center.
