On motion by Mr. Harlan, seconded by Mr. Merriman, it was voted to approve item 1.

2. Communication from Mr. May:

A gift of 13 shares of Bank of Lansing stock has been received from Mr. Albert Ehinger as a gift for the Class of 1916 project.

The control of the Bank of Lansing is being taken over by the Lansing Equity Company, which has offered to purchase all tendered stock at a price of 78 through January 14, 1966.

I have submitted the stock certificate to the Bank with the understanding that the Trustees will have to pass the necessary resolution for the sale.

On motion by Mr. Huff, seconded by Mr. Harlan, it was voted to approve the sale of the above stock.
January 19, 1966

FINANCE COMMITTEE ITEMS, continued

3. Mr. May requests authorization to sell the following stock reported today in gifts and
   grants to Oakland University:
   a. Mrs. Elizabeth B. Graham--200 shares of Parke, Davis & Company, value of $6,000
   b. Mrs. Dorothy M. Johnson--150 shares of The One William Street Fund, Inc.,
      value of $2,382
   c. Mr. Marvin L. Katke--200 shares of Ford Motor Company, value of $10,925
   
   On motion by Mr. Merriman, seconded by Mr. Harlan, it was voted to approve the sale of the
   above stocks.

4. Communication from Mr. May:
   Several months ago Dr. Smuckler met with me to discuss the possibility of his office
   being provided a reasonable allocation for entertaining by project directors in
   foreign areas.
   
   It is expected that project directors, where necessary, would be reimbursed for special
   entertainment on about the same basis as United States Government officials stationed in
   the same area. For example, a director might receive $1.50 per person invited to a
   reception for governmental officials.
   
   I believe this is a reasonable request, and would recommend that the Trustees authorize
   the use of $2,000 from overseas projects overhead for this purpose.

5. Communication from Mr. May:
   Reference is made to Dr. Sabine's letter requesting a supplemental appropriation of $16,000
   for student counseling.
   
   Last year when budgets were developed, Dr. Sabine believed that he could allocate $80,000
   to the Counseling Center to take care of summer counseling and to provide additional
   counseling services during the regular school year. He now finds that the Orientation Clinic
   fees were not sufficient to cover all of his expenses and the $80,000 allocated to the
   Counseling Center. He has therefore requested an appropriation of $16,000 on a nonrecurring
   basis for this year.

6. Communication from Mr. May:
   A request has been received from Mr. Glander for a supplemental appropriation of $1,500 for
   the supplies and services budget of the Personnel Office.
   
   Mr. Glander's letter indicates that the office has incurred higher than normal costs in
   advertising for new personnel and for postage and supplies due to the shortage of labor.
   
   This request has Mr. Breslin's approval, and I would recommend an appropriation of $1,500
   to the Personnel Office for supplies and services.

7. Communication from Mr. May:
   I received a recommendation from Director H. W. Lautner for the purchase of a new rubbish
   handling equipment consisting of two truck-mounted Load-A-Matic front end loader systems and
   ninety to one hundred containers.* With the trade-in of existing equipment, we believe the
   cost of the equipment will be approximately $57,600, and an appropriation of that amount is
   recommended to the Trustees.
   
   As background of this recommendation, it should be noted that the present loose-filled Load
   Lugger system was started in 1953 when the University had an incinerator plant located on the
   site of the new Power Plant. There is now a 15-mile round trip to the dump site. With new
   equipment we expect to save 135,000 truck miles a year plus approximately $13,000 in labor
   costs. We will also eliminate the necessity of having the City maintain the dump on weekends
   at considerable cost to the University.
   
   I will try to answer any other questions the Trustees may have I would like their approval
   for an appropriation of $57,600 for equipment for this operation.

8. It is recommended that the Trustees approve a change in the easement granted to the Consumers
   Power Company in the NW_2 of the SE_1 of Section 21, Ross Township T1S, R9W, Kalamazoo County
   (Kellogg).

   On motion by Mr. Huff, seconded by Mr. Merriman, it was voted to approve the above item.
FINANCE COMMITTEE ITEMS, continued

9. It is recommended that the Board authorize an appropriation of $8,000 to cover the cost of correcting all University drainage into the Red Cedar River so that there will be in fact no pollution of the river from Michigan State University sources.

The City of East Lansing continues to pour substantial quantities of pollutants into the river through its drains that reach the river over Michigan State University property.

On motion by Mr. Merriman, seconded by Mr. Harlan, it was voted to approve the above recommendation.

10. Recommendation that before the Bylaws approved at the December meeting are printed, the following change be made under Article XI "Contracts".

The present language reads:

The President, Secretary, Treasurer, or any two of them are authorized to execute contracts on behalf of the Board of Trustees.

The following sentence is to be added:

In the absence or unavailability of two of the officers of the University, the University Counsel, plus one of the named officers is authorized to execute contracts on behalf of the Board of Trustees.

On motion by Mr. Harlan, seconded by Mr. White, it was voted to approve the above addition to Article XI of the Bylaws approved at the December meeting.

11. Mr. May reported on continuing negotiations with the National Science Foundation and our request that the National Science Foundation provide $1,528 million dollars toward the cost of an addition to the building constructed for the Atomic Energy Commission to provide additional space for plant research and to provide housing for all of the University's Botany Department, with the University to contribute $1.217 million dollars, plus the University funds already expended on the present Plant Research Building.

On motion by Mr. Harlan, seconded by Mr. Huff, it was voted to approve the above item.

12. Discussion of development of tentative plans to provide a more adequate Michigan State University faculty club. A report prepared by a faculty committee was distributed to the Trustees.

After discussion, it was agreed to approve further planning on this project with the Trustees to be kept advised as plans progress.

13. Provost Neville discussed problems arising from the necessity of limiting the enrollment of nursing majors and the policies that are being developed in this connection.

14. Provost Neville reported on the plans that are being developed to separate the departments of Astronomy and Physics to become effective for the next school year.

15. Communication from Mr. May:

Oakland University wishes to submit a request to the State Department of Administration for an appropriation of $59,300 to provide eighty constant differential pressure reducing valve assemblies.

Last year the legislature appropriated $180,000 for additional heating capacity at Oakland. It has now been determined that these valve assemblies are needed to regulate and control the flow of high temperature water in the new system.

This problem has been discussed with the State Building Division, and the Oakland officials believe the request will receive favorable consideration.

I would recommend that the Trustees approve the submission of this supplemental request.

On motion by Mr. Harlan, seconded by Dr. Smith, it was voted to approve the above recommendation provided the Kahn Company agrees that these valves are needed.

16. Arrangements have been completed to purchase 50.1 acres of land from James Cox at the corner of Sandhill and Hagadorn Roads at $1,800 per acre or a total $90,180. The legal description is as follows:

South 56 acres of the SE\%, of Section 6, T3N, R1W, except the E 14 Rods thereof; also except commencing at a point on the S line of the Section, 10 rods E of the E\% post of Section 6, T3N, R1W, thence N 264 feet, thence E 165 feet, thence S 264 feet, thence E 165 feet, thence S 264 feet, to said Section line, thence 165 feet to the place of beginning, Township of Alaiedon, County of Ingham, State of Michigan.

The purchase should be ratified by the Trustees.

On motion by Mr. White, seconded by Mr. Merriman, it was voted to approve the above purchase of land from Mr. Cox.
17. Ward Warren of R. 1, Ovid, died April 1963 and in his will left his farm in Clinton County to Michigan State University to be used for agricultural research purposes. Subsequently his wife by court action was assigned one-half interest. This farm has now been sold for $26,000, and the University will receive $13,000. The court has approved striking the testator's provision that the farm be used as an experimental farm and substituting "using the proceeds that may be derived therefrom for the furtherance of experimental agriculture."

On motion by Mr. Huff, seconded by Mr. White, it was voted to approve the above item and to authorize the sale of the land.

COURT OF TRUSTEES

18. Mr. Varner recommended that he be authorized to employ Glen Paulsen and Associates of Bloomfield Hills as University planners for a three-year period effective February 1, 1966 at $28,000 the first year, $29,000 the second year, and $30,000 the third year.

On motion by Mr. Harlan, seconded by Mr. Stevens, it was voted to approve the above recommendation.

Adjourned.

It is recommended that contracts be awarded to the Kewaunee Manufacturing Company in the amount of $53,640 and the Walrus Manufacturing Company in the amount of $92,500.

On motion by Mr. Huff, seconded by Dr. Smith, it was voted to approve Item 26 and to approve awarding the contract for the metal Laboratory Equipment to Kewaunee and to hold up awarding the contract for the Wood Laboratory Equipment.

28. Mr. May reports as follows:

I have received a proposed agreement for the joint operation of a sanitary landfill with the City of East Lansing. This agreement covers operations which are now in effect.

Briefly, the contract provides that the University will share in the cost of the operation of the landfill based on material which it delivers to the site. We are estimating that the cost will be approximately $15,000 per year. The contract also provides that the City will have full responsibility for the operation of the landfill and will keep the necessary cost records in order that there may be accurate billing to the University.

At the present time the City operates the landfill from 8:30 a.m. to 5:30 p.m. from Monday through Friday of each week and from 8:30 a.m. to 12:00 noon on Saturday. The University has to pay for the cost of Saturday afternoon and Sunday operations on an overtime basis. We hope to eliminate the necessity for any weekend overtime through the purchase of new equipment.

It is expected that the area acquired by the City for the landfill will serve the needs of both the University and the City for a period of from five to ten years. If the operation should not prove satisfactory, the agreement can be cancelled by giving one year’s notice.

I would recommend Board approval of this agreement.

On motion by Mr. Merriman, seconded by Mr. Huff, it was voted to approve Item 28.

$2800 approved for alterations to Rooms 70 and 72 in Kellogg Center for the Highway Traffic Safety Center at an estimated cost of $2,800, to be charged to Alterations and Improvements Account 11-5173.

On motion by Mr. Stevens, seconded by Dr. Smith, it was voted to approve the appropriation of $2,800 for the above alterations.

Resolution of Michigan Farm Bureau

30. The Michigan Farm Bureau at their recent annual meeting passed the following resolution of interest to Michigan State University:

We favor the more positive emphasis now being directed by the Cooperative Extension Service toward agriculture, agricultural marketing and natural resources, with greater emphasis on Home and Family Living and 4-H Club work being directed to rural areas. We believe this to be a forward step and give our support to Extension in County, District and State programs, and urge the Legislature to appropriate adequate funds for this purpose.

We are in favor of adequate support for the Agricultural Stations of Michigan State University.

We urge that the Michigan Legislature appropriate sufficient funds for the construction of plant breeding greenhouses and for the operation of an expanded vegetable breeding program at Michigan State University.

We ask the Michigan Legislature to appropriate the funds needed to build a Pesticide Research Center at Michigan State University.
