   RESOLVED that the Scudder, Stevens & Clark recommendations, as submitted, be approved.

   Approved unanimously. Motion by Trustee Carrigan, seconded by Trustee Martin.

2. The 100 stock warrants of Tri-Continental Corporation accepted by the Board of Trustees at the February 25, 1972 meeting, as a gift from Dr. Ivan Wright, were sold on January 26, 1972 for a net amount of $6,639.16. The proceeds are to be added to the Ivan Wright-Life Income Fund.

   RESOLVED that the report of the sale of Tri-Continental Corporation stock be accepted.

   Report accepted by unanimous vote. Motion by Trustee Huff, seconded by Trustee Carrigan.

3. On April 4, 1972, the University received cash and stocks valued at $88,897.57 from the Estate of Leone E. Wheaton Tudor as follows:

   The will states that the money is to be distributed in amounts from $1,000.00 to $2,000.00 to aid students in dire need of finances to enter or complete their educations at this University.

   It is recommended that the Board of Trustees receive the assets from the Estate and invest them in a fund functioning as an endowment, with the income to be used for scholarships to needy students.

   RESOLVED that the recommendation for the acceptance of the assets of the Estate of Leone E. Wheaton Tudor and the establishment of a fund functioning as an endowment, with the income to be used for scholarships to needy students, be approved.

   Approved unanimously. Motion by Trustee Hartman, seconded by Trustee Stevens.

Recommended Allocations

A. Activation of Channel 23 and Improvement of WKAR Radio

1. Transmission facilities (already approved)   $ 651,000
2. Color capable equipment                      900,000
3. Radio FM transmitter and stereo              30,000
4. One-year coverage for 5 engineers now on Channel 10  30,000
5. Remodel and air-condition TV and Radio studios  95,000
   **$1,726,000**

B. Rendering CCTV Color Capable

1. Production equipment                         $ 400,000
2. Receivers                                   100,000
   **$ 500,000**

C. Reserve for matching outside funds for building to house University communication facilities  $ 300,000

**RESOLVED** that the proposed allocation of funds for Broadcasting and TV, as submitted, be approved.

Approved unanimously. Motion by Trustee Carrigan, seconded by Trustee Stevens.

5. Vice President Muelder recommended that the Board of Trustees reaffirm the resolution passed by the Trustees on May 21, 1971 relative to the MSU Student Housing Corporation. Last year the Housing Corporation's grant request in the amount of $460,000 was not approved. The co-operative is now submitting a grant request for $612,000, which necessitates a new resolution incorporating the new amount requested.

WHEREAS, MSU Student Housing Corporation, a non-profit corporation of the State of Michigan, has made application to the Department of Housing and Urban Development - College Housing Program, for grant of a loan in the sum of Six Hundred Twelve Thousand Dollars ($612,000) to provide low cost housing for approximately forty-five women students and twenty families of married students attending Michigan State University; and

WHEREAS, the Board of Trustees of Michigan State University recognizes the need for such program to make possible an educational opportunity for students whose finances are restricted to cooperative housing;

NOW, THEREFORE, BE IT RESOLVED THAT THE Board of Trustees of Michigan State University approves the stated purposes for which MSU Student Housing Corporation was chartered and the specific project for which said loan application is filed.

Resolution approved unanimously. Motion by Trustee Huff, seconded by Trustee Stevens. It was explained that approval did not signify any financial or legal liability on the part of the University but only that the University would not change its regulations so as to prohibit off campus housing.

6. At their February 1972 meeting, the Trustees authorized the administration to further investigate the possibility of an investment in The Common Fund and submit a recommendation to the Trustees.

The administration recommended the following actions:

A. The University invest $300,000.00 of the John A. Hannah Professorships in The Common Fund as follows:

<table>
<thead>
<tr>
<th>Account Type</th>
<th>Amount</th>

<td><strong>$300,000.00</strong></td>
</tr>
</tbody>
</table>

B. The Bank of New York acts as a depository for The Common Fund. Therefore, it was recommended that the University be authorized to establish banking relationships with the Bank of New York, assigning Vice President Roger E. Wilkinson and Assistant Vice President Stephen H. Terry as the authorized signatures for this account.
Finance Committee Minutes, continued

April 21, 1972

6. Investment in The Common Fund, continued

C. That Vice President Roger E. Wilkinson and/or Assistant Vice President Stephen H. Terry be authorized to give instructions concerning deposits, withdrawals, election of plans relating to the operation of The Common Fund, etc.

RESOLVED that the proposal for investment in The Common Fund, as submitted, be approved.

Approved unanimously. Motion by Trustee Huff, seconded by Trustee Stevens. President Wharton noted that the compensation under the Hannah Professorships is being investigated since these chairs are not as competitive as the administration feels they should be.

7. In a preliminary discussion (action taken in the April 21 public meeting) of the Power Plant 65 Unit 3 Turbine Generator bids, Mr. A. Kelsall, Vice President of Commonwealth Associates, Inc., the consultant for this project, explained the basis for his firm's recommendation that the University purchase the 15 Mw noncondensing turbine generator from the General Electric Co. He stated that while the GE base bid was higher than some of the others submitted, the lower annual operating cost made the GE total package more desirable.

Vice President Wilkinson reported that the present appropriation bill includes $500,000 to begin the funding of this $12,000,000 project.

Executive Vice President Breslin added that while staff people in the State budget office had agreed with the Commonwealth Associates' analysis, the University officers should have a week or ten days prior to the signing of the contracts to obtain the Capital Outlay Subcommittee's agreement. He also stated that while our original grant application for Life Sciences II included a request for $1,200,000 for power plant expansion, the recently received guidelines for resubmitting that application stated that any part of this contract that is awarded is excluded from any federal money.

8. There have been various practices and policies utilized regarding the reimbursement of Trustee expenses. In an attempt to clarify these and to consolidate past actions, the following was recommended:

A. Trustees will be reimbursed for all expenses incurred in the conduct of University business related to their service as a Trustee. The following are considered appropriate expenditures:

1. Travel to and from meetings of the Board by means appropriate to the time and circumstance.

2. Subsistence expenses and hotel accommodations in connection with such meetings.

3. Similar travel and expenses in connection with other visits to the University or other locations in the performance of Trustee responsibilities such as meetings with the President, commencements, retirement dinners, faculty awards, and University events at which attendance is a function of their Trustee role.

B. Secretarial services for Trustees are provided by the office of the Secretary of the Board, including the use of a common office facility which has been reserved for the use of all Trustees for purposes of University business related to their service as a Trustee.

1. When use of such services is difficult due to distance or time, Trustees may have part-time secretarial/clerical service. However, such an individual shall not be deemed a University employee and shall only have a contractual relationship with the individual Trustee.

2. Reasonable office supplies and equipment such as stationery, typewriters, dictaphones will be provided by the Secretary of the Board.

3. Each Trustee is provided with a telephone credit card for use in University business.

C. Each Trustee is provided with a University pool car on request.

Trustee Merriman asked if there was a clear statement of how expenses of chief University administrative officers are handled. President Wharton responded that at the time of his appointment, procedures were adopted which provide that expenses for both the President and Executive Vice President would be submitted for regular auditing procedures.

Executive Vice President Breslin remarked that the above statement would protect not only the Trustees but the University officers as well, since a statement outlining the kinds of expenses that are reimbursable to the Trustees does not exist. In response to a question from Trustee Carrigan, he stated that the University would purchase equipment for off-campus use by the Trustees.
8. Expenses of Trustees, continued

Motion was made by Trustee Stevens, seconded by Trustee Hartman, to approve the recommended statement. Trustee Huff's editorial suggestion that item B be changed to read as follows was accepted.

B. Secretaryal services for Trustees are provided by the office of the Secretary of the Board, including the use of a common office facility which has been reserved for the use of all Trustees, for purposes of University business related to their service as a Trustee.

Unanimously approved.

9. Currently, the Admissions staff is packaging financial aid awards for incoming freshmen for the 1972-73 school year. The Admissions Office informs the student of his financial aid award, subject to funding by federal, state, and/or University sources. The University applies for federal support for the following programs: E.O.G., Work-Study, and National Defense Student Loan. Following this application, the H.E.W. Region V Panel approves a level of support. Historically, the University has received in actual federal appropriation 80% of what has previously been approved by the Region V Panel. With this knowledge, the University has been able to package financial aids for new freshmen students during the spring term, recognizing that the appropriation would fall within the 80% bracket.

As of this date, the 1972-73 educational bill has not been passed in Washington. Usually, this would cause the University little problem since we would be inclined to use the 80% factor in establishing our estimates for committing the University to financial aid awards. However, this year is not a typical year because of the national election as well as various amendments which have been attached to the education bill. The national administration has recommended a revision in the federal financial aid programs, which has not received the concurrence of the House under the leadership of Representative Edith Green.

Recently, a Senate bill, which is similar to the administration's recommendation, cleared the Joint Conference Committee on a 11-9 vote. It appears as though it will be a period of time before the University will have a firm commitment or direction as to its financial aids funding for the next school year.

It is necessary, however, for the University to make a commitment to new freshmen students, subject to funding, and the Financial Aids Administrative Group has recommended that the University proceed to package the financial aid programs, taking into consideration an expected 80% funding on current programs. A schedule reporting the various financial facts relating to this matter was distributed to the Trustees and is filed in the Secretary's Office.

Vice President Muelder reported that as of April 20 a resolution had been introduced in the House of Representatives requesting a continuation of the current year's program and funding level for one year, with a good chance that this resolution would prevail. He stated that other universities were packaging at the current funding level and including a rider to the recipients that the awards are being made subject to the availability of funds. Vice President Wilkinson reported that the letter has always been written on a conditional funding basis, but that we do have a moral commitment. He recommended that the Trustees approve packaging at the present levels of $1,319,171 for E.O.G., $1,388,374 for Work-Study, and $2,207,232 for NDSL.

Motion was made by Trustee Huff, seconded by Trustee Carrigan that in the calculations and initial commitments the current year figures be used for freshman students and that the minutes show that it is the intention of the Board to meet those moral commitments if Congress does not provide this level of funding. Unanimously carried.

10. Recent experience with the anti-discrimination procedures adopted by the Board on February 28, 1970 has revealed certain complications regarding the original intent of the Board and the extent to which the Board wishes to delegate its authority. A letter from the University attorney outlining the issues was distributed to the Trustees and is filed in the Secretary's Office.

RESOLVED that the Anti-Discrimination Policy and Procedures be amended as follows:

To strike from Article IV-C-1 the words "as defined in this document"; to strike from Article IV-C-3 the words "by law"; to strike from Article IV-D-1 the sentence reading: "In the course of such investigation, these members shall make every reasonable effort to achieve a settlement of the dispute"; to add to the third sentence of Article IV-D-4 a clause saying "Provided, however, that any recommendations for the payment of money shall be referred to the Board of Trustees of Michigan State University for its consideration as an item of appropriation."
10. Anti-Discrimination Procedures, continued

Trustee Carrigan suggested that the deletion from Article IV-C-3 should be "by law or" and Attorney Carr agreed. There was general agreement on the proposed amendments and action was taken later in the public Board meeting.

The question of retroactivity was raised, and President Wharton remarked that two very central issues needed to be discussed by the Board: the extent to which the Board has delegated certain authority to the Anti-Discrimination Judicial Board and the extent to which the Board wishes to impose time constraints to the questions of retroactivity.

11. President Wharton announced that at least three Trustees had brought up the matter of the expected appearance of a group of students at the regular Board meeting in connection with the renewed bombing of North Viet Nam. He distributed, for action at the open meeting, the draft of a resolution calling for a speedy end to American involvement in this conflict. Trustee Huff suggested that the word "military" be inserted before "involvement." Trustee Merriman indicated he did not approve of the proposed resolution.

A related matter, discussed briefly, was the question of whether individuals or groups should be allowed to come before the Trustees without having made prior arrangements with the President or the Secretary. There seemed to be agreement that the administration should offer guidelines on how this should be handled in the future.

12. President Wharton asked if, in the action approving the publishing of faculty salary lists, the Trustees had intended to include A-P salaries. He also asked if the word "current" implied that 1971-72 salary lists were to be made public or if this policy was to become effective July 1, 1972.

It was agreed that A-P salaries were included in the action and that the effective date for this action would be July 1, 1972. It was also agreed that requests for information from IBM cards would not be granted.

13. Progress Reports

A. Budget Hearings

President Wharton reported that budget hearings held on Monday, April 17, were friendly and receptive and that the administration was optimistic regarding planning money for the College of Law.

B. Selection of Vice President for Student Affairs and Director of Athletics

The President reported that he regretted it became necessary for him to accede to the request for dismissal from the evaluation committee for the selection of a Vice President for Student Affairs because of the publication by the State News of an inaccurate list of candidates. Nominations for both the Vice President for Student Affairs and a Director of Athletics will probably be submitted to the Trustees at the May Board meeting.

C. College of Urban Development

President Wharton reported that a subcommittee of the Educational Policies Committee is preparing alternative proposals.

D. Trustee Distinguished Citizen Awards

These awards will be made during Michigan Week, either May 22 or May 24, possibly in Flint.

E. Residency Status for Children of Migrant Workers

Guidelines for determination of residency status of sons and daughters of migrant workers are near completion. Trustee Stevens asked that the Trustees be informed if these guidelines are approved by administrative action.

Adjourned.
MINUTES OF THE MEETING
of the
BOARD OF TRUSTEES
April 21, 1972

Present: Trustees Carrigan, Hartman, Huff, Martin, Merriman, Stevens, and White; President Wharton, Executive Vice President and Secretary Breslin, Vice President Wilkinson, Provost Cantlon, Vice Presidents Muelder, Perrin, and Scott, Assistant to the President Ballard.

Absent: Trustee Thompson.

The Board convened in the Board Room at 10:44 a.m. - President Wharton presiding.

On motion by Trustee Stevens, seconded by Trustee Carrigan, it was unanimously voted to approve the minutes of the March 17, 1972 meeting of the Board.

SPECIAL MISCELLANEOUS

1. President Wharton asked that two items be added to the agenda:
   a. A proposed resolution dealing with the war in Indo China
   b. A proposed resolution on the taping of Board meetings by the news media.

Trustee Huff indicated he wished to add items concerning the relationships of the Board to students.

Motion was made by Trustee Martin, seconded by Trustee Huff, to adopt the agenda with the additions. Unanimously carried.

2. On motion by Trustee Huff, seconded by Trustee Stevens, it was unanimously voted to approve the finance actions on the preceding pages.

3. President Wharton officially welcomed Vice President for University Development, Leslie W. Scott, to the meeting.

56. Grant of $29,164 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of H. A. Tucker, Dairy Science, to characterize further the mechanism(s) whereby bovine mammary cells cultured in vitro bind the hormone, cortisol.

57. Grant of $2,000 from Novo Enzyme Corporation, Mamroneck, New York, to be used under the direction of J. T. Huber, Dairy Science, to determine whether the addition of a cellulase-active material to silage at ensiling time will increase plant cellulose breakdown during fermentation and subsequent nutrient utilization of the silage.

58. Grant of $1,000 from The Brecheen Co., Mount Clemens, Michigan, to be used under the direction of J. P. Price, Food Science and Human Nutrition, to study parameters affecting quality and stuffing characteristics of fresh pork sausage and reconstituted collagen casings.

59. Grant of $42,060 from Dairy Research Incorporated, Arlington Heights, Illinois, to be used under the direction of C. M. Stine and T. J. Hedrick, Food Science and Human Nutrition, for the improvement of functional and nutritional qualities of dairy products.

60. Grant of $1,000 from Cities Service Foundation, New York, New York, to be used under the direction of J. Carew, Horticulture, to support fertilizer research programs now in progress.

61. Grant of $500 from The Dow Chemical Company, Midland, Michigan, to be used under the direction of K. A. Mecklenburg, Horticulture, to support research on marketing and handling of live plant material.

62. Grant of $1,292.55 from Paul Ecke, Inc., Encinitas, California, to be used under the direction of K. C. Sink, Horticulture, to support on-going research on direct rooting propagation of poinsettia.

63. Grant of $7,500 from General Electric Foundation, Bridgeport, Connecticut, to be used under the direction of W. J. Carpenter, Horticulture, to support on-going graduate study and research in plant growth under controlled light and nutrient conditions.

64. Grant of $4,800 from Gerber Baby Foods Fund, Fremont, Michigan, to be used under the direction of J. Carew, Horticulture, to support graduate training programs in horticulture for students from Latin America.

65. Grant of $400 from Eli Lilly and Company, Indianapolis, Indiana, to be used under the direction of K. C. Sink, Horticulture, to support on-going research on direct rooting propagation of poinsettia.

B. GIFTS AND GRANTS, continued

85. Grant of $60 from Catholic Social Services, Inc. of Lansing, Lansing, Michigan, to be used under the direction of R. Schlater, Television-Radio, to cover the cost of equipment and supplies to produce public services for Catholic Social Services of Lansing.

86. Grant of $349,997 from the U. S. Office of Education, Washington, D.C., to be used under the direction of W. B. Hawley, College of Education, for a cooperative School-University clinically oriented program for training "TTT."

87. Grant of $4,500 from the American Association for Health, Physical Education and Recreation, Washington, D.C., to be used under the direction of V. C. Johnson, Administration and Higher Education, as partial salary for Julian W. Smith.

88. Grant of $9,284 from the Department of Health, Education and Welfare, Region V, Chicago, Illinois, to be used under the direction of P. A. Cusick, Administration and Higher Education, to describe and explain the social interactions between black and white students in a large, urban high school.

89. Grant of $37,50 from various donors to be used under the direction of N. Kagan, Counseling, Personnel Services, and Educational Psychology, for interpersonal process recall research.

90. Grant of $18,196 from Rehabilitation Services Administration, Department of Health, Education and Welfare (Region V), Chicago, Illinois, to be used under the direction of G. A. Miller, Counseling, Personnel Services and Educational Psychology, as a supplement to a training grant to enable the project to support more students in the rehabilitation counselor training program for the mentally retarded, and to supplement travel and salary support for teaching personnel.

91. Grant of $15,405 from Rehabilitation Services Administration, Department of Health, Education and Welfare (Region V), Chicago, Illinois, to be used under the direction of G. A. Miller, Counseling, Personnel Services and Educational Psychology, as a supplement to a training grant to enable the project to support more students in the rehabilitation counselor training program for the mentally retarded, and to supplement travel and salary support for teaching personnel.

92. Grant of $16,000 from the National Science Foundation, Washington, D.C., to be used under the direction of F. J. Hatfield, Engineering Research, to develop a traffic assignment algorithm that can accurately simulate the attempts of drivers to select routes that minimize their travel times.

93. Grant of $500 from The Sampson Corporation, Pittsburgh, Pennsylvania, to be used under the direction of R. W. Little, Engineering Research, to support a graduate student in biomechanics.

94. Grant of $2,500 from Monsanto Company, St. Louis, Missouri, to be used under the direction of M. H. Chetrick, Chemical Engineering, as an unrestricted grant.

95. Grant of $47,358 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of S. N. Swisher, Medicine, for research in mechanisms of and prevention of blood group isoimmunization in man and animals.
103. Grant of $1,000 from the Michigan Department of Public Health, Lansing, Michigan, to be used under the direction of J. R. Cipparone and C. H. Sander, Pathology, to support the Placental Tissue Registry for the State of Michigan in cooperation with the Michigan State Medical Society (Committee on Maternal and Perinatal Health).

104. Grant of $8,000 from the Michigan Heart Association, Southfield, Michigan, to be used under the direction of J. C. Mattson, Pathology, to study (1) the ultrastructure of blood platelets, (2) any morphological alterations which may occur during aggregation mediated by dissimilar substances and (3) the effects of disruption of microfilaments upon platelet shape and aggregability.

105. Grant of $9,000 from the Michigan Heart Association, Southfield, Michigan, to be used under the direction of A. K. M. S. model, Pharmacology, for research in cardiac function and the Na^+-K^-ATPase.

106. Grant of $30,000 from the Office of Naval Research, Arlington, Virginia, to be used under the direction of T. M. Brody, Pharmacology, for research in biochemical aspects of morphine tolerance and physical dependence.

107. Grant of $10,447 from the Kidney Foundation of Michigan to be used under the direction of Ching-chung Chou, Physiology, for research in the effects of diagnostic and diuretic agents of different osmolarities on renal blood flow and function.

108. Grant of $3,000 from the Michigan Heart Association to be used under the direction of C. H. Sander, Pathology, for research in cardiac function and the Na^+-K^-ATPase.

109. Grant of $9,000 from the Michigan Heart Association to be used under the direction of J. M. Dabney, Physiology, for research in coronary resistance, ventricular force and renal resistance as affected by selective stimulation of carotid chemoreceptors.

110. Grant of $10,000 from the Michigan Heart Association to be used under the direction of A. K. M. S. model, Pharmacology, for research in the effects of diagnostic and diuretic agents of different osmolarities on renal blood flow and function.

111. Grant of $9,000 from the Michigan Heart Association to be used under the direction of C. H. Sander, Pathology, for research in the mechanism of coronary vasodilation caused by adrenergic stimulation.

112. Grant of $8,000 from the Michigan Heart Association to be used under the direction of H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

113. Grant of $1,969 from the National Institute of Mental Health, Rockville, Maryland, to be used under the direction of H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

114. Grant of $8,000 from the Michigan Heart Association to be used under the direction of H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

115. Grant of $4,850 from the National Institute of Mental Health, Rockville, Maryland, to be used under the direction of H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

116. Grant of $12,000 from the Michigan Heart Association, Southfield, Michigan, to be used under the direction of E. D. Coppola, Surgery, for research in using the direct Jerne plaque technique and sheep red blood cells in the humoral antibody response in mice will be investigated by a series of cell transfer experiments.

117. Grant of $35,000 from Engelhard Industries, Newark, New Jersey, to be used under the direction of B. Rosenberg, Biophysics, for investigation of anti-tumor activity of platinum compounds.

118. Grant of $6,824 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of E. H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

119. Grant of $250 from the Michigan Gladiolus Society, Coloma, Michigan, to be used under the direction of E. H. Fabrega, Jr., Psychiatry, to collect information on the behavioral, biologic, and phenomenologic features of illness episodes.

120. Grant of $2,000 from A. M. Todd Co., Kalamazoo, Michigan, to be used under the direction of M. Lacy, Botany and Plant Pathology, for investigations on control of diseases and weeds of mint crops.

121. Grant of $35,000 from the Atomic Energy Commission, Washington, D.C., to be used under the direction of J. L. Dye, Chemistry, for research in properties of solvated electrons and associated species in metal solutions and kinetics of electron- and proton-transfer reactions.

122. Grant of $17,500 from the National Science Foundation, Washington, D.C., to be used under the direction of A. Tulinsky, Chemistry, for x-ray structure determination of enzymes and other biological molecules.
123. Grant of $500 from Abbott Laboratories, North Chicago, Illinois, to be used under the direction of G. Guyer, Entomology, for the evaluation of insecticide on vegetable crops.

124. Grant of $106,215 from Environmental Protection Agency, Washington, D.C., to be used under the direction of G. Guyer, Entomology, for the evaluation of pesticides in our environment.

125. Grant of $1,000 from the Mobil Chemical Company, Richmond, Virginia, to be used under the direction of R. F. Ruppel and C. W. Laughlin, Entomology, for the evaluation of insecticide.

126. Grant of $127,440 from the National Science Foundation, Washington, D.C., to be used under the direction of L. G. Woody, Mathematics, and Science and Mathematics Teaching Center, for three consecutive terms of off-campus course work for 35 in-service teachers in the Grand Rapids area; Continuing Education policies will govern compensation.

127. Grant of $22,964 from the U. S. Air Force, Arlington, Virginia, to be used under the direction of G. D. Taylor, Mathematics, for approximation theory: rational approximation and rates of approximation.

128. Grant of $21,900 from the National Science Foundation, Washington, D.C., to be used under the direction of R. N. Costilow, Microbiology and Public Health, for research in the control of sporulation in bacilli pathogenic for insects.

129. Grant of $90,000 from the National Science Foundation, Washington, D.C., to be used under the direction of P. J. Blatt and P. A. Schroeder, Physics, for research in electronic properties of metals and alloys.

130. Grant of $31,100 from the National Science Foundation, Washington, D.C., to be used under the direction of M. A. Abolins and K. W. Chen, Physics, for research in inelastic muon scattering and neutron-proton scattering.

131. Grant of $5,400 from the National Science Foundation, Washington, D.C., to be used under the direction of P. S. Signell, Physics, for research in the nucleon-nucleon interaction.

132. Grant of $37,165 from the U. S. Atomic Energy Commission, Washington, D.C., to be used under the direction of G. L. Pollack, Physics, to study thermodynamic properties of rare-gas solids and to study the properties of liquid helium.

133. Grant of $22,362 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of S. K. Aggarwal, Zoology, for research in sarcoma tumors before and after CIS-Pt II NH2 C12.

134. Grant of $28,037 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of J. T. Gullahorn, Sociology, and the Computer Institute for Social Science Research, for testing organization theories by computer simulation.

135. Grant of $28,447 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of J. L. Zacks, Psychology, to train workers whose careers will be in investigating sensory mechanisms.

136. Grant of $5,000 from the Michigan College of Osteopathic Medicine, Pontiac, Michigan, to be used under the direction of M. S. Magen, College of Osteopathic Medicine, as an unrestricted grant.

137. Grant of $8,797 from the Michigan Heart Association, Southfield, Michigan, to be used under the direction of S. Stolman, Pharmacology, for research in the relation of polysomal integrity to cardiac failure.

138. Grant of $50,975 from the National Institutes of Health to be used under the direction of J. T. Gullahorn, Sociology, and the Computer Institute for Social Science Research, for testing organization theories by computer simulation.

139. Grant of $28,447 from the National Institutes of Health, Bethesda, Maryland, to be used under the direction of J. L. Zacks, Psychology, to train workers whose careers will be in investigating sensory mechanisms.

140. Grant of $10,869 from the U. S. Department of Labor, Washington, D.C., to be used under the direction of D. H. Kruger, School of Labor and Industrial Relations, for the training of Mayors and Governors' Manpower Planning staff.

141. Grant of $245 from Midwest Universities Consortium for International Activities, Inc., Champaign, Illinois, to be used under the direction of W. T. Bross, Asian Studies Center, for a study of political development in Nationalist China during the 1930's.

143. Grant of $12,105 from the U. S. Office of Education, Washington, D.C., to be used under the direction of W. T. Ross, Asian Studies Center, for research on contemporary Punjab literature in India by Surjit S. Dule, Department of Humanities.

144. Grant of $11,850 from the National Science Foundation, to be used under the direction of D. Melz, the Computer Institute for Social Science Research, to train talented high school students in modern methods of social science research including computer programming.

145. Grant of $25 from Caroline Bruce, East Lansing, Michigan, to be used under the direction of F. N. Oberst, Large Animal Surgery and Medicine, for study and research of the equine.

146. Grant of $1,000 from the U. S. Public Health Service, Bethesda, Maryland, to be used under the direction of L. F. Velicer and P. A. Long, Microbiology and Public Health, for research fellowship supply allowance award.

147. Grant of $2,000 from the Kidney Foundation of Michigan, Ann Arbor, Michigan, to be used under the direction of J. T. Johnson, Pharmacology, as an unrestricted grant.

148. Grant of $9,500 from the Michigan Heart Association, Southfield, Michigan, to be used under the direction of T. Tobin, Pharmacology, for research in mercurial diuretics, ethacrynic acid, and the (Na\(^+\)K\(^-\)) ATPase.

149. Grant of $1,000 from the U. S. Public Health Service to be used under the direction of J. Meites, Physiology, for research fellowship supply allowance award.

150. Grant of $100 from Marvin Boutell, Flint, Michigan, to be used under the direction of W. F. Keller, Small Animal Surgery and Medicine, as an unrestricted grant.

151. Grant of $25 from Lee Copeland, Dearfield, Illinois, to be used under the direction of W. O. Brinker, Small Animal Surgery and Medicine, for orthopedics.

152. Grant of $1,000 from Farm Foundation, Chicago, Illinois, to be used under the direction of A. L. Hunter, Continuing Education Service, for the Great Lakes Town & Country Leadership School to be held July 1972.

153. Grant of $429 from Lear Siegler, Inc., Grand Rapids, Michigan, to be used under the direction of J. U. Jeffries, Continuing Education Service, and the College of Engineering, to support the Extension Program in the College of Engineering and the Continuing Education Service.

154. Grant of $1,820 from the National Geographic Society, Washington, D.C., to be used under the direction of J. A. Bolman, Museum, for the study of amphibians and reptiles of a lower Pliocene site in Kansas.

155. Grant of $1,000 from Ransom Fidelity Co., Lansing, Michigan, to be used under the direction of C. E. Cleland, Museum, to support field research by the Museum.

156. Grant of $772.50 from various donors to be used under the direction of C. E. Cleland, Museum, to do salvage archaeology at the Pine River site at Charlevoix, Michigan.

157. Grant of $1,000 from Estelle R. Warren, Lakeside, Michigan, to be used under the direction of R. H. Baker, Museum, to support field research by the Museum.

158. Grant of $1,000 from the Garden Club of Michigan, Grosse Pointe Farms, Michigan, to be used under the direction of M. R. Dew, Campus Park and Planning, for construction and acquisition of anodized aluminum map and aluminum map case for shrub collection.

159. Grant of $141,000 from the National Science Foundation, Washington, D.C., to be used under the direction of C. W. Minkel, Graduate School and Research Development, to provide stipends and cost-of-education allowances for 24 NSF graduate trainees.

On motion by Trustee Stevens, seconded by Trustee Herriman, it was unanimously voted to accept the Gifts and Grants.

C. BIDS AND CONTRACT AWARDS

1. On March 10, 1972, bids were received for the turbine generator for Power Plant 65.

The Commonwealth Associates, Inc. who were engaged by the Board of Trustees as consulting engineers, have evaluated these bids and made the following recommendation:

It is our recommendation that Michigan State University consider the purchase of the 15 Mw noncondensing turbine generator operating at 850 psig, 825°F and exhausting at 90 psig as offered by General Electric Company under their base bid at a cost of $841,070.

In their recommendation they have taken into consideration both capital costs and operating costs for each unit offered. They have determined the differential capital cost as well as the differential annual cost based on a 25-year life. Representatives from the State Building Division concur in this form of analysis for the awarding of Power Plant bids.
C. BIDS AND CONTRACT AWARDS, continued

April 21, 1972

1. Power Plant Bids, continued

The Commonwealth Associates evaluation is shown below.

RESOLVED that the recommendation of Commonwealth Associates, Inc. to award a contract to General Electric Company for the purchase of a turbine generator be approved.

Resolution approved unanimously. Motion by Trustee Huff, seconded by Trustee Martin. Trustee Huff asked that the minutes show that although General Electric’s bid was not the lowest for equipment, their combined equipment and annual operating cost bid was the lowest.

| 3. The differential cost extended for 25 years takes into consideration both capital and operating costs for the life expectancy of the generator. Based on this analysis, it is the recommendation of Commonwealth Associates, Inc., the consulting engineers, that the University purchase the General Electric Company turbine generator under their base bid at a cost of $841,870.

2. Erection Bids for Turbine Generator

In connection with the turbine generator bid for Power Plant 65, the University also received erection bids on March 15, 1972.

The Commonwealth Associates, Inc. have recommended that these bids be rejected at this time and rebid by the University.

The Commonwealth Associates prepared the following evaluation of the bids.

4. Radioactive Waste Facility, continued

The Trustees approved this project and authorized a budget of $50,000 for the project at their September 1971 meeting. It was recommended that an additional allocation of $4,000 be approved.

RESOLVED that the recommendation for the awarding of the contract, the additional allocation of $4,000, and the proposed budget for the Radioactive Waste Facility be approved.

Unanimously approved. Motion by Trustee Huff, supported by Trustee Hartman.

D. OTHER ITEMS FOR ACTION

1. Resolutions on War in Indochina

Trustee Stevens presented the following resolution:

The Michigan State University Board of Trustees is a constitutional body elected to represent all the people of Michigan in the governance of the University. As such, our official duties and responsibilities are confined to the welfare and furtherance of this institution of higher education.

We are, however, citizens of this state and nation, and we cherish our individual rights to speak out on major issues which confront us. Such an issue is the war in Indochina, and particularly the continued American military involvement.

In our collective years as Trustees, working closely with the youth who attend this University, we have seen with growing alarm the divisiveness, the cynicism and the widening gap of credibility which this war has instilled in so many young people. We deplore this serious breakdown in our society and loss of confidence in our democratic system -- all caused by a war which has long since lost all context or meaning for the majority of the American people. The latest expansion of this conflict only furthers the sense of frustration.

The campus is the catalyst by which the youth of today become the nation's leaders of tomorrow. It must remain a forum -- and not itself become a battlefield.

Therefore, as individual citizens speaking together, we urge our national government to bring American military involvement in this conflict to a speedy end, without further expansion. We urge our students to use, to the fullest, the new right of the ballot which is the most effective weapon we have. By such use, they can begin to constructively shape their nation as they would have it be.

Motion was made by Trustee Stevens, seconded by Trustee Hartman, to approve the above resolution. Carried by a vote of 6 to 1, Trustee Merriman voting "No."

Mr. Robert Bowling, representing the Vietnam Veterans Against the War, the Veterans for Peace, and other concerned citizens of the University community, requested permission to address the Trustees and urged that the Trustees adopt the following resolution.

RESOLUTION ON THE RESUMPTION OF BOMBING IN NORTH VIETNAM

We, the publicly elected Trustees of Michigan State University, while we cannot speak for all our students, faculty and staff, personally deplore and oppose the escalation of the bombing and naval war in Indochina.

We believe that the President's action in stepping up the war will not protect our troops being withdrawn, nor will it bring home the American prisoners in North Vietnam. It will only serve to prolong a futile war and to increase the number of U. S. Prisoners held by Hanoi.

We urge President Nixon to declare an immediate cease fire, to set a specific date for withdrawal of all air, naval and ground forces from Indochina, and to enter into meaningful negotiations for the release of our prisoners when all U. S. forces are out of Indochina.

Trustee White, supported by Trustee Carrigan, moved the adoption of the above resolution. Unanimously carried. Trustee White requested that the two resolutions be transmitted to President Nixon by President Wharton.

2. Vice President Perrin reported that the administration has received a request for permission for a radio station to record the proceedings of the formal open session of the Board of Trustees. This has not been permitted in the past, based on an action taken by the Board of Trustees at a meeting on November 21, 1968 specifically prohibiting the use of such devices. In view of this request, it was felt it might be appropriate to determine whether the Board wished to continue its 1968 policy or to revise it and permit recording by legitimate news media. At a cost of $15 or $20 per meeting for rental of equipment from Instructional Media Center, additional recordings could be made through the equipment we now use to make the official recordings of the Board meetings.
2. Recording of Board Meetings by News Media, continued

Trustee Carrigan, supported by Trustee White, moved the adoption of the following resolution:

RESOLVED, that the Board of Trustees will henceforth permit electronic recording of proceedings at its formal open meetings by legitimate news media requesting the opportunity. Requests are to be directed to the Department of Information Services for consideration and approval under guidelines which the Department will establish. It is understood that the Board reserves the right to limit such activities if necessary to protect the decorum and effectiveness of its meetings.

Unanimously carried. Trustee Carrigan noted that anyone who wished to tape the meetings informally from his/her seat was not precluded from doing so.

3. At the last meeting of the Finance Committee, the Board approved the establishment of an Investment Committee and adopted some new procedures to handle our investment portfolio. At that time Trustee Huff suggested the need to amend the bylaws of the Board to conform with the new procedures. Attorney Carr drafted the following proposed amendment to Article XI.

RESOLVED, that the proposed amendment to Article XI of the Bylaws, as submitted, be approved.

Approved unanimously. Motion by Trustee Huff, seconded by Trustee Stevens.

4. In conformity with existing procedures, the College of Human Medicine has negotiated a proposed affiliation agreement with the Saginaw Cooperative Hospitals, Inc., of Saginaw, Michigan. This agreement, if approved by the Board, will permit clinical training of MSU students in the College of Human Medicine in these hospitals. Copy of the agreement is filed in the Secretary's Office. This request for Board approval has the endorsement of the administration.

RESOLVED, that Michigan State University College of Human Medicine enter into an affiliation agreement with the Saginaw Cooperative Hospitals, Inc., of Saginaw, Michigan.

Approved unanimously. Motion by Trustee Stevens, seconded by Trustee Huff.

5. Over several months of careful and dedicated work, an ad hoc committee, chaired by Professor E. Fred Carlisle, formulated a set of procedures for insuring that faculty grievances can receive a fair and expeditious hearing and an opportunity to appeal adverse decisions of such hearings. The subcommittee's report was amended and approved by the Elected Faculty Council.

These amended procedures were reviewed by the deans, directors, and executive officers of the University and recommendations made for improvements to them. Based upon these recommendations, the procedures were amended and approved by the Academic Council on April 11, 1972.

These Interim Grievance Procedures will eventually be incorporated with emerging documents on faculty rights and responsibilities and on administrative responsibility and authority. Until all these documents are woven into a compatible whole, the present procedures retain their interim status.

The procedures were presented to the Board of Trustees with the administration's recommendation that they be approved. Copy of the procedures is filed in the Secretary's Office.

RESOLVED, that the Interim Faculty Grievance Procedures, as submitted, be approved.

Motion was made by Trustee Carrigan, seconded by Trustee Huff, to approve the above resolution.

General discussion of the procedures ensued. The most fundamental reservation concerning the procedures appeared to be section 1.2. Specifically, the question was raised whether there should be a single faculty grievance procedure or one each for anti-discrimination issues, tenure issues, and all other faculty grievances.

Trustee White, supported by Trustee Huff, offered a substitute motion to delete item 1.2. Trustee Huff asked Mr. White to modify his motion to allow present anti-discrimination procedures to remain intact and to refer the document back to Dr. Carlisle's committee to see if they can develop a single grievance procedure for faculty. Trustee White agreed.
5. Interim Faculty Grievance Procedures, continued

Trustee Hartman called for a clarification of Trustee White's motion.

President Wharton suggested that Trustee White introduce a motion expressing disagreement with the exclusion of the issues related to the extension of appointment, dismissal, termination or non-reappointment of faculty in the tenure stream from this document and that specific item be reconsidered by the Academic Council and brought back to the Board. At the same time, the administration would be directed to inform the Academic Council that the preference of the Board would be that such issues should be a part of this existing interim faculty grievance document. Trustee White accepted the suggested wording of the motion. President Wharton indicated that the administration would work out the details as to whether the document is returned to the Academic Council or the Elected Faculty Council. The motion as reworded by President Wharton carried unanimously.

6. The existing policy governing the use of Michigan State University facilities for political activities was last approved by the State Board of Agriculture in 1957. This policy was adopted at a time when the student body was half the present size, where there was considerably less political awareness and involvement on the part of the students, and, of course, prior to the reduction of the voting age of 18. The administration recommended the adoption of a new policy which seeks to realistically meet the changed conditions by placing the University in a positive role while at the same time protecting it against improper political use.

RESOLVED, that the proposed policy governing the use of Michigan State University facilities for partisan political activities, as submitted, be approved.

Approved unanimously. Motion by Trustee Stevens, seconded by Trustee Hartman. The revised policy appears below.

USE OF M.S.U. FACILITIES FOR PARTISAN POLITICAL ACTIVITIES

The following policy governing the use of facilities for partisan political activities on the campus of Michigan State University is issued under the authority of Article XI of the Bylaws of the Board of Trustees and Section 13, M.S.U. Ordinances.

Michigan State University recognizes the basic role of political parties and the partisan election process in the American system of governance. As an institutional mechanism for the generation and dissemination of knowledge, a university has a responsibility to facilitate the free exchange of ideas in a political as well as an academic sense. The lowering of the voting age to 18, thus making the great majority of its students eligible as voters, further obligates the university to perform a civic responsibility role so that students, as well as faculty and staff, may exercise their elective franchise in as enlightened a manner as possible.

At the same time, however, as a public institution serving, and supported by, all the people of Michigan, regardless of political persuasion, the university must take every care to avoid charges of political favoritism or improper partisan activity. Therefore, in order to meet these dual public responsibilities, the following policy for the use of facilities is hereby adopted:

1. Subject to other provisions of this policy, such university facilities as may be desired and available may be used for the following purposes:
   a. Educational-type conferences sponsored by a political party.
   b. County, state or national committee meetings of a political party.
   c. Meetings or rallies with or in behalf of candidates for political office.
   d. Voter registration and/or polling places.

2. Activities referred to in Sec. 1 must be sponsored in accordance with the following criteria:
   a. Political and public organizations may have access to facilities usually available to the public (e.g., Kellogg Center, the Union, etc.) for purposes specified under Sec. 1 (a) or (b) above, subject to the usual rules governing the use of such facilities.
   b. Registered campus organizations only may request use of university facilities for purposes specified under Sec. 1 (c) above. The "All-University Policy for Use of University Facilities and Services by Students and for Revenue Producing Projects for Students" shall apply to such requests.
   c. Contingent on agreements between the university, the City of East Lansing and the East Lansing Public Schools, facilities may be utilized for voter registration or as legal polling places. In the latter instance, state or local election laws restricting campaign activity in these locations shall apply.

6. Political Activities and Use of Facilities, continued

Policy governing use of facilities, continued

3. Established rates, fees, maintenance costs, etc., provided for under university policy, shall be charged for the use of all facilities.

4. Residence halls are specifically excluded from this policy but remain subject to all established rules governing their use.

5. Established university rules and regulations to which this policy is subject include, but are not necessarily limited to:

   a. All-University Policy for Use of University Facilities and for Revenue Producing Projects for Students.
   b. Ordinance 13 (Buildings).
   c. Ordinance 16 (Disorderly Conduct).
   d. Outside Speakers Policy
   e. Student Organization Registration Policy

6. All requests for the use of university facilities under this policy shall be submitted to the office of the Executive Vice President and Secretary to the Board of Trustees for approval.

Amendments to Anti-Discrimination Policy and Procedures

7. Recent experience with the anti-discrimination procedures adopted by the Board on February 28, 1970 has revealed certain complications regarding the original intent of the Board and the extent to which the Board wishes to delegate its authority. The University attorney outlined the issues and recommended the adoption of the following resolution.

RESOLVED, that the Anti-Discrimination Policy and Procedures be amended as follows:

To strike from Article IV-C-1 the words "as defined in this document"; to strike from Article IV-C-3 the words "by law or"; to strike from Article IV-D-1 the sentence reading: "in the course of such investigation, these members shall make every reasonable effort to achieve a settlement of the dispute"; to add to the third sentence of Article IV-D-4 a clause saying "Provided, however, that any recommendation for the payment of money shall be referred to the Board of Trustees of Michigan State University for its consideration as an item of appropriation."

Unanimously approved. Motion by Trustee Huff, seconded by Trustee Hartman.

8. Trustee Huff reminded the Trustees that at the April 1971 Board meeting a system of selecting student advisers to the Board had been approved, but had never been implemented. He asked that the administration provide a review of this matter to determine whether that procedure should not be implemented or if a new procedure should be adopted.

He also called attention to a proposed research project by undergraduate students on the campus highway access route. He suggested that the Board support this project if the students are unable to raise the needed funds from private sources.

President Wharton explained that it was not a lack of interest on the part of the administration but the choice of the student leaders not to participate in the Board approved student participation plan because the students felt this would be a meaningless exercise. He assured Trustee Huff the administration would be glad to explore the possibility of a proposal that might be acceptable to the Trustees and the student leaders.

President Wharton also reported that discussions have occurred with personnel from the cities of East Lansing and Lansing regarding the access route, and that the All-University Traffic Committee intends to undertake a traffic survey on campus. A review of the developments on the cross-campus road will be reported for a future Board meeting.

E. PROGRESS REPORTS

1. Improvement of Status of Women

Dr. Joseph McMillan, Director of the Office of Equal Opportunity, introduced a progress report on the steps that are being taken to improve the status of women. The most notable action has been the formation of a Women's Steering Committee, 17 women appointed by the President, which will work on an ad hoc basis with EOP for three months to devise an organizational structure through which discrimination against women and other vital educational and service programs for women might be more appropriately addressed.
E. PROGRESS REPORTS, continued

1. Improvement of Status of Women, continued

Mrs. Mary Sharp advised the Trustees that a comparative salary study using the rank, degree and date of first appointment of men and women in the tenured faculty system had been submitted to the various deans for study. Recommendations were to be submitted to the Provost for adjustments which the deans felt were necessary to insure equitable treatment with respect to the salaries of women on the faculty. These changes will form the basis for recommendations to the Board in connection with July 1 salaries but will have no effect on merit increases or promotions.

Vice President Perrin reported that since last October, due to current hiring practices, there has been a decrease of 13 male faculty and an increase of 3 female faculty members.

Executive Vice President Breslin reported that in the past very little emphasis has been placed on women's athletics but during the past year progress has been made in eliminating some of the deficiencies. Basketball uniforms and a scoreboard have been purchased, the basketball court has been repainted, and travel expenses have been provided from outside sources for the volleyball team to compete in a tournament in Miami. In 1972-73, volleyball uniforms will be purchased and greater financial support will be given to the women's intercollegiate athletic program.

Assistant Vice President Keith Groty reported that a new policy structure regarding the fringe benefits for all persons who work less than full time is being drafted. He also stated that steps had been taken to tighten the policies and procedures for the hiring of non-academic employees so that the Personnel Office can be more directly accountable for the processing of individuals. A policy is also being prepared which would give guidelines for equal opportunity for faculty, including a posting procedure for vacancies in the academic area.

An investigation conducted by Mrs. Sharp on the status of housekeepers and custodians has resulted in the upgrading of several women in custodial positions.

Reporting on the work of the Anti-Discrimination Judicial Board, Mrs. Sharp stated that of the 15 cases alleging discrimination on the basis of sex, 3 were withdrawn, 4 were adjusted for the claimant, and 8 are pending.

Meeting adjourned at 1:19 p.m.

President
